PURPOSE

Saskatchewan Polytechnic values collaborative partnerships with educational providers at both the post-secondary and secondary levels and supports the needs of students and industry to have training delivered in a timely manner.

POLICY

Saskatchewan Polytechnic may enter into agreements to allow for dual credit with another educational partner. Upon approval of an agreement between Saskatchewan Polytechnic and the Ministry of Education for the province, Saskatchewan Polytechnic courses may be offered for Saskatchewan Polytechnic credit to qualified students enrolled in Saskatchewan secondary schools with the potential for earned credits at both the secondary and post-secondary level.

Granting of Saskatchewan Polytechnic credit through a dual credit agreement relies on the judgment of Saskatchewan Polytechnic faculty as subject matter experts. Authority to enter into dual credit agreements with the Ministry of Education lies with the respective dean.

Credits awarded under dual credit agreements will neither ensure admission to a Saskatchewan Polytechnic program nor result in preferential consideration for admission in programs.

DEFINITIONS

Dual credit is the granting of credit at both the secondary and post-secondary level for the same course work.

Secondary Institutions or Schools are institutions under the authority of the Ministry of Education of the province, offering courses terminating in Grade 12 standing.
