For the purposes of this policy and procedures, associate vice president means either the associate vice president, human resources or the associate vice president, student services or their respective designate.

Complainant

Any person(s) who pursuant to this policy alleges they have been subjected to harassment or who alleges another member of the Saskatchewan Polytechnic (Sask Polytech) community is being subjected to harassment.

Harassment

The definition of harassment pursuant to The Saskatchewan Employment Act Section 3 -1(1)(l) states: “harassment” means:

- (i) any inappropriate conduct, comment, display, action or gesture by a person towards a worker:
 - (A) that either:
 - (I) is based on any prohibited ground as defined in *The Saskatchewan Human Rights Code, 2018* or on physical size or weight; or
 - (II) subject to subsections (4) and (5), adversely affects the worker’s psychological or physical well-being and that the person knows or ought reasonably to know would cause the worker to be humiliated or intimidated; and
 - (B) that constitutes a threat to the health or safety of the worker; or
- (ii) any conduct, comment, display, action or gesture by a person towards a worker that:
 - (A) is of a sexual nature; and
 - (B) the person knows or ought reasonably to know is unwelcome.

The definition of harassment at Sask Polytech is further expanded to include the prohibited ground of gender identity, in alignment with *The Saskatchewan Human Rights Code*.

Harassment involves repeated conduct, comments, displays, actions or gestures, or a single, serious occurrence of conduct, or a single, serious comment, display, action or gesture, that has a lasting, harmful effect on the individual.

Harassment may include:

- verbal or written abuse or threats.
- insulting, derogatory or degrading comments, jokes or gestures.
- personal ridicule or malicious gossip.
- malicious or unjustifiable interference with another's work.
- work sabotage.
- refusing to work or co-operate with others.
- interference with, or vandalism of personal property.

Sexual harassment may be verbal, physical or visual. It may be one incident or a series of incidents. It is always unsolicited and unwelcome behaviour, and can take many forms, including but not limited to:

- sexual remarks.
- "jokes" with sexual overtones.
- a sexual advance or invitation.
- displaying offensive pictures or photographs.
- threats.
- leering.
- physical contact like touching, patting, pinching or brushing against.
- sexual and physical assault.

Harassment **does not** include any reasonable action that is taken by an instructor, manager or supervisor, relating to the management and direction of students or employees or affecting campus safety and security.

Procedural Fairness

Procedural fairness includes the right to a fair process (i.e., being made aware of the complaint and having the opportunity to be heard), the right to an unbiased decision, and the right to reasons for the decision. The right to an appeal is outlined in Section 9.0 of the Procedures. The student or employee also has the right to have a support person present at any stage of the process.

Respondent

Any person(s) or group(s), including Sask Polytech, against whom an allegation of harassment has been made pursuant to this policy.

To protect confidentiality of witnesses, the investigator's report may be redacted. The report or summary will also be provided to HR Advisory Services and relevant out-of-scope leaders where an employee is involved.
- 5.2 Should there be findings of harassment or behavioural issues in the investigator's report, further follow-up will be conducted by the appropriate supervisory body. Further actions may include:

7.2 Nothing in these procedures prevents Sask Polytech from commencing legal proceedings in other forums.

8.0 Withdrawal of Complaint

8.1 The complainant may request the withdrawal of the complaint at any time prior to the receipt of the investigation report through the submission of a written request to the AVP.

8.2 The AVP will determine whether the complaint should continue and inform the complainant and respondent of his or her decision in writing.

9.0 Investigation Appeal Process

9.1 Either party may send a written appeal request to the president or designate within 10 working days of receipt of an investigation decision.

9.2 The criteria for submission of an appeal are based upon:

- 9.2.1 A substantial procedural error has affected the outcome or bias influenced the outcome; or

- 9.2.2 New information has arisen that was previously unavailable and that is likely to change the outcome.
- 9.3 Within 15 working days of receiving the appeal request, the president or designate will select an appeal committee consisting of three individuals and appoint one of the members to act as chair. No individual will be appointed to the committee who has had direct involvement in the case or is from the school or division of either the complainant or respondent.
- 9.4 The appeal committee will then have 20 working days to determine the outcome of the appeal and prepare a written decision, which the chair will forward to the president or designate.
- 9.5 The president or designate will have 15 working days to consider the committee's decision and make a final written determination. The president will forward a copy of this determination to the parties and the appropriate AVP(s).
- 9.6 No further appeal may be made under this policy.

10.0 General Procedures & Timelines

- 10.1 Sask Polytech, through the AVP, shall act expediently with respect to any proceedings pursuant to this policy, while respecting the principles of procedural fairness. Sask Polytech shall establish its own procedures and is not bound by the strict rules of evidence.
- 10.2 The AVP, or in the case of an appeal the president, where appropriate, may vary the timelines established under this policy to ensure a fair and just process that addresses the underlying concerns.
- 10.3 Whenever possible, anyone observing or experiencing conduct which appears to violate this policy should do one or more of the following:
 - 10.3.1 Bring the conduct to the attention of the violating party and indicate it is unwelcome.
 - 10.3.2 Seek the assistance of the person responsible for supervising or overseeing the violating party to advise the violating party the conduct is unwelcome.
- 10.4 Any member of the Sask Polytech community may seek advice and assistance respecting the submission of complaints of harassment from student relations officers or the Respectful Workplace Consultant.
- 10.5 Harassment complaints must be received within one year of the date the alleged harassment became known or ought reasonably to have become known to the complainant. Where appropriate, the respective AVP may extend this deadline.

11.0 Confidentiality

Sask Polytech will make every effort to ensure that a complaint made pursuant to this policy is kept in confidence and will not disclose the names of parties, or circumstances giving rise to the complaint, to any person except as necessary to investigate, to respond to any legal and/or administrative proceedings arising under this policy, to take corrective action with respect to the complaint, or where such disclosure is required by law.

12.0 Communication

All communications with complainants, respondents or other persons involved in a complaint may be sent via email, delivered in person by a Sask Polytech human resource employee or, if necessary, sent to the last residential address registered with Sask Polytech.

13.0 Formal Resolution Procedures

Parties to a complaint may agree and consent to formal resolution procedures when appropriate, prior to any formal processes under the policy. Such procedures are intended to bring about timely resolution and relief, ensure the complainant and respondent remain in control of the resolution, and arrive at a resolution that is acceptable to involved parties.

- 13.1 At any time during formal resolution processes, mediation is an option. If the AVP recommends mediation and both the parties desire that resolution be sought through mediation, they shall, within 15 business days, appoint a person to facilitate such a resolution.
- 13.2 If a proposed resolution of the complaint is achieved, the complainant and respondent shall notify the AVP in writing. All resolutions must be approved by the AVP before implemented. If no resolution is achieved, the AVP shall be advised by the mediator. In such cases, the AVP will authorize the investigation to proceed/continue or dismiss the complaint.
- 13.3 Discussions between the complainant, the respondent, and the mediator are confidential and cannot be used in any other proceedings. Regardless, the employee Code of Conduct #703 and Student Conduct (Non-Academic) #1211b still apply and should be adhered to.

14.0 Responsibilities

- Initiating an investigation without a written complaint to ensure the creation and maintenance of work and study environments free of harassment.

In the event the AVP is not able to perform the responsibilities of this policy because of a conflict of interest or other reason, the responsibilities will be performed by the provost and vice president, academic, or the CFO and vice president, administrative services.

APPENDIX A

PROTOCOL FOR HARASSMENT INVESTIGATIONS

A copy of this protocol shall be provided to an investigator appointed by the AVP.

1.0 Timelines

Investigations of complaints must be completed in a timely manner. Under most circumstances, investigations must be completed within 20 business days. The AVP may extend this time period where circumstances warrant.

2.0 Investigator Neutrality

- 2.1 Investigators will act in a neutral and objective manner throughout the course of an investigation.
- 2.2 An investigator shall excuse themselves from an investigation if it becomes apparent that a conflict of interest may impair their ability to be neutral or to appear to be neutral.
- 2.3 Any concern voiced by the complainant or respondent respecting a possible conflict of interest must be brought to the attention of the AVP who shall decide whether the investigator should continue.
- 2.4 The following are some guidelines as to when an investigator should remove themselves from an investigation or discuss the potential conflict of interest with the AVP:
 - 2.4.1 Where the investigator has a personal or professional relationship with the complainant or respondent.
 - 2.4.2 Where the investigator has dealt with either the complainant or respondent as principal parties in another complaint investigated by the investigator.
 - 2.4.3 Where the investigator has personal knowledge of the complaint.
 - 2.4.4 Where the investigator is aware of a personal bias or view which differs from the objectives of the Sask Polytech Harassment Policy.

3.0 Procedural Fairness

It is the responsibility of investigators to ensure procedural fairness governs the conduct of their investigations.

Specifically, the investigator shall:

- 3.1 Ensure the complainant and respondent know the substance of each other's cases.
- 3.2 Ensure the complainant and respondent are given full opportunity to respond to each other's cases.

- 3.3 Ensure the respondent is made aware of, and allowed to respond fully to, any new, relevant allegations or information which arise in the course of the investigation.
- 3.4 Treat all information received in an appropriately confidential manner.
- 3.5 Ensure the complainant and respondent are aware of their right to accompaniment and arrange interviews to facilitate that right.
- 3.6 Ensure the complainant, respondent and any witnesses are provided with the opportunity to verify the accuracy of notes taken during an interview.
- 3.7 Display neutrality verbally and non-verbally.
- 3.8 Delay findings until all the evidence has been received and assessed.
- 3.9 Deal with the complaint in a serious manner.
- 3.10 Refer to the allegations as allegations throughout the investigation.

4.0 Evidence of Retaliation

- 4.1 Any form of retaliation or reprisal against a complainant or a witness to a complaint is strictly prohibited by the Sask Polytech Harassment Policy.
- 4.2 Investigators who determine that retaliation has occurred or may be about to occur should immediately inform the AVP.

5.0 Investigation Procedures

The investigator shall determine the procedures to follow based on the circumstances of the case and procedural fairness. The investigator's process will generally involve:

- 5.1 Witness statements or investigator notes of witness interviews should be validated by the witness.
- 5.2 Investigator notes of complainant and respondent interviews should be validated by the complainant or respondent.
- 5.3 All crucial witnesses should be interviewed in person. The investigator may determine less crucial witnesses can be interviewed by phone.
- 5.4 If there is any uncertainty about the relevance of a witness to the investigation, the investigator should clarify their pertinence with the parties. Witnesses must have some direct correlation to the allegations. To determine the relevance of their testimony, the investigator could ask the parties to describe how a certain witness will contribute to the investigation.
- 5.5 The investigator has the discretion to determine which witnesses to interview and may decide not to interview certain individuals if it is unlikely they will add any value to the investigation. For example, in assessing whether the testimony of a witness is relevant, the investigator may decide a great number of witnesses are not needed to substantiate the same allegation and that anything admitted by both parties will not need to be confirmed by a witness.

- 5.6 Critical inquiries about the relationship of the complainant and respondent and the relationship of witnesses to the complainant and respondent should be undertaken to assist in the assessment of credibility.
- 5.7 All important documents suggested by the complainant and the respondent or discovered during the investigation should be reviewed.
- 5.8 Proper records of the investigation should be maintained including a log of all interviews, notes of all interviews, copies of all written statements, and copies of all documents, including electronic records, reviewed during the investigation. Other pieces of physical evidence should be secured and logged.
- 5.9 Evidence that thoughtful consideration was given to both the complainant's and the respondent's version of events.
- 5.10 Evidence the investigation was focused (i.e., that it sought answers to the questions critical to substantiating or disproving the allegations).

6.0 Documents and Other Physical Evidence

- 6.1 Physical evidence including documents relevant to the allegations should be secured in a timely way. If necessary, photographs of physical evidence should be taken and notarized as to their source.
- 6.2 A log of all documents and physical evidence should be maintained, including the source of the evidence and the date and time it was received.
- 6.3 Efforts should be made to authenticate all physical evidence and to ensure it has not been altered or tampered with in any way.
- 6.4 The investigator shall have in his or her records of the investigation copies of all documents reviewed and photographs or other reproductions of any other physical evidence considered, or when possible, the physical evidence itself.

7.0 Witnesses

Witnesses should be advised of the following before the interview:

- 7.1 The purpose of the interview.
- 7.2 The authority for the investigation (i.e., the Sask Polytech Harassment Policy).
- 7.3 Of the witnesses' right to verify the investigator's authority through the office of the AVP.
- 7.4 Of the witnesses' protection from retribution.
- 7.5 Of the requirement to keep details of the interview confidential.
- 7.6 Of the investigator's responsibility to inform the AVP of the findings of the investigation.
- 7.7 Of the witnesses' right to ask for clarification of any questions the investigator may ask.

- 7.8 That there is no expectation that witnesses will have answers to all questions put to them, and that when this is the case, an answer such as “I don’t know” or “I don’t recall” is preferable to a speculative answer.

8.0 Investigation Report

- 8.1 Upon completion of the investigation, the investigator shall submit a written report to the AVP.
- 8.2 The investigation report provides the basis for the resolution of the complaint. It should be a document which could stand alone as a permanent record of the investigation.
- 8.3 The report should anticipate and answer the questions of the AVP, who must determine whether a violation of the Harassment Policy has occurred and, if so, what actions, including possible disciplinary action, must be taken.
- 8.4 It is worth remembering that should the complainant or the respondent challenge the outcomes of the investigation, the report could be subject to scrutiny by an occupational health and safety officer, special adjudicator, the Saskatchewan Human Rights Commission or a court.
- 8.5 The investigation report shall include:
- 8.5.1 A description of the harassment issue.
 - 8.5.2 An outline of the process used to collect evidence.
 - 8.5.3 A description of the evidence relevant to making a determination.
 - 8.5.4 A listing of the facts relevant to a determination and a statement as to whether these facts are undisputed or determined on the balance of probabilities.
 - 8.5.5 Any relevant assessments of the credibility of the complainant, the respondent or any witnesses.
 - 8.5.6 An identification of any contentious issues and the investigator’s determination on the balance of probabilities of those issues.
 - 8.5.7 An account of how witnesses were chosen for interviews and the basis for excluding any witnesses proposed by the complainant and respondent.
 - 8.5.8 A listing of the relevant documents reviewed during the investigation.
 - 8.5.9 A copy of the log of interviews, a copy of the log of documents and other physical evidence attached to the report.
 - 8.5.10 The investigator’s opinion as to whether the facts as determined constitute a violation of the Sask Polytech Harassment policy.
