EXECUTIVE SUMMARY

The major findings of the 2009 SIAST Graduate Employment Survey (GES) are listed below. Where possible, for comparison, the 2008 figures are included in brackets.

The results below identify SIAST-wide figures. Divisional, as well as base and continuing education (shortened to CE in the report: *prior to July 2007, CE programs were referred to as **extension** programs*) program breakdowns are identified in the *Overview of Results* section. Program-specific breakdowns of the results are located in the program pages at the end of the report.

Graduate/Respondent Profile:

- 3,519 (3,621) graduates that received credentials from 131 distinct programs in the time period July 2008 – June 2009 were surveyed.
- Of the 3,519 surveyed graduates, 2,079 (1,640) responded for an overall response rate of 59% (45%).
- Sixty percent of the graduates were from base programs (2,123 in 2009) and 40% from continuing education programs (1,396 in 2009). The proportion of respondents in base programs was slightly higher than the actual graduate ratio (64% or 1,323 respondents in 2009) and conversely, the proportion of continuing education respondents (36% or 756 respondents) compared to actual graduates was slightly lower.
- 58% (57%) of respondents were female and 42% (43%) were male, which closely reflects the actual gender ratio of graduates.
- 15% (14%) of respondents identified themselves as being of Aboriginal origin. The Aboriginal respondents identified themselves as 41% (40%) Status/Treaty Indian, 57% (55%) as Métis, 2% (5%) as Non-Status Indian and none (0%) as Inuit.
- 5% (4%) of respondents indicated that they were persons with disabilities and 9% (9%) identified themselves as members of a visible minority.
- The average age of all respondents was 28 (29) years of age. At 25 (26) years of age the average age was lower in the base programs and much higher in the continuing education programs at 33 (33) years of age.
- 57% (59%) of respondents reported seeking employment in this field as the primary reason for completing their programs.
- 21% (37%) of all respondents indicated they were enrolled in further education at the time of the survey. Of this figure, 51% (59%) were enrolled in a SIAST program – either the same SIAST program (different credential) or a different program altogether.

Quality of Training:

- 99% (98%) of all respondents rated the overall program quality at SIAST as good to excellent.
- 97% (95%) of all employed respondents rated the ability of the program to prepare them for employment in their field of study as good to excellent.

Key Findings based on the 'Available Workforce' (those employed and those not employed but looking for work):

- The impact of the economic recession is evident in reported employment rates of the 2008-09 graduates.
- 94% of the 2,079 respondents were either employed (1,759 in 2009) or not employed but looking for work (195 in 2009) at the time of the survey (available workforce).
- 90% (92%) of respondents who were available to work were employed (employment rate).
- 67% (71%) of respondents available to work were employed in full-time occupations.
- 73% (79%) of respondents available to work were in training-related occupations.
- 55% (62%) of the respondents available for work were employed in full-time training-related occupations.
- The Aboriginal graduate employment rate reached a six year low of 79% (87%).
- Training-related employment of Aboriginal graduates decreased to 61% (70%).
- Full-time employment for Aboriginal graduates also declined to 54% (67%).

Other Key Findings:

- The average salary for respondents in full-time training-related employment was \$3,063 (\$2,893) per month, a 6% increase over 2008.
- 6% (6%) of employed respondents indicated they were self-employed.
- Of those respondents who were employed, 25% (23%) were working part-time or casually and of these, 63% (50%) reported that the part-time work was by choice.
- 95% (96%) of respondents employed in training-related positions were working in Saskatchewan. Of this figure, 47% (47%) were working either in Regina or Saskatoon. The number of respondents working in 'Other Saskatchewan Locations', outside the four campus cities, increased approximately 5% to 39% in training-related positions.
- When looking at all employed respondents, 4% (4%) of the respondents indicated their primary employment was obtained outside Saskatchewan and of that figure, 71% (89%) reported that this was by choice. Of those who reported working outside Saskatchewan, 40% (39%) indicated personal reasons as the primary reason for leaving the province.
- Of the 320 respondents who reported they were not working at the time of the survey, 73% (71%) indicated they had worked at some time since graduation and 54% (65%) of these respondents had been employed in work directly related to their training.
- 52% (65%) of graduates not employed at the time of the survey reported they were scheduled to return to work in the future.
- 66% (54%) of respondents, who were not employed, indicated they were not looking for work, primarily because they were enrolled in further education.

INTRODUCTION

1.0 INTRODUCTION

The SIAST Graduate Employment Report is produced from data collected from the SIAST Graduate Employment Survey (GES). The survey collects data from a variety of questions relating to the employment status, evaluation of training and general demographic characteristics of SIAST's graduates.

One of SIAST's strategic goals is to maximize student success. Graduate feedback from the survey provides valuable information about the quality of training and the success of SIAST graduates in the labour market. A wide range of stakeholders, from SIAST management, government, high school students and career counsellors, labour analysts and policy administrators, use the Graduate Employment Report as a reference document for program and labour market review and planning. The Institutional Research and Analysis (IR&A) unit at SIAST undertook the survey on behalf of the institution.

1.1 Scope

The 2009 SIAST GES contacted 3,519 graduates who completed a SIAST program of study and graduated between July 2008 and June 2009.

In the 2008-2009 academic year, SIAST had graduates from a total of 131 distinct credentialed programs. Many SIAST programs are also offered off-campus throughout the province and these are considered continuing education programs. SIAST continuing education programs are generally cost-recovery and are offered throughout the province in a variety of delivery formats: with partners, via distance education learning and in industry-based training formats.

All programs at SIAST are clustered and reported within one of the following six program divisions:

- Business and Entrepreneurial Studies
- Industrial Training
- Science and Health
- Community Services
- Nursing
- Technology

One of the following four credentials is awarded for each SIAST program: Applied Certificate, Certificate, Advanced Certificate and Diploma. In some instances a program may have both a certificate and diploma level exit credential.

In order to have programs that are current, SIAST continually reviews the program mix. Some programs may have recently been deleted but graduates were permitted to complete their programs and graduate. Some programs have been re-titled or re-credentialed. Appendix A lists changes to the programs offered.

1.2 Methodology

Data Collection and Analysis

A census of SIAST graduates within an academic year was undertaken to obtain a sufficient number of graduates for the GES. The graduate contact list, including telephone numbers and mailing addresses, was provided by Enrolment Services at SIAST.

A tri-modal data collection process was used to contact SIAST graduates. It consisted of three phases which occurred between December 2009 and April 2010. The first was a

mail out of a self-administered paper survey to all 3,519 graduates. In December 2009, each graduate received the questionnaire to complete, along with a letter explaining the purpose of the study. A link to an online version of the survey was also provided in the invitation letter for those respondents who would prefer to complete the survey using the Internet. The invitation letter was followed up with an e-mail invitation that contained an electronic link to the online survey.

In March/April 2010, Inshtrix Research Inc. of Saskatoon was contracted to conduct one-on-one telephone interviews with those graduates who did not respond to the mail-out questionnaires or email invitation by February, 2010. Every effort was made to contact the graduates in order to provide the highest possible response rate. The participants were entered to win a 17" wireless Duo Base processor 2GB laptop as well as three early bird draws of either an iPod or digital camera to encourage them to participate in the survey.

The online responses were collected using the Perseus Enterprise web-based survey tool, a method that IR&A introduced in 2007. The purpose of this method was for respondents to directly enter their own responses to the questions in the survey and therefore avoid any misinterpretation of responses when entered manually. The responses from the mail-in portion of the survey (paper version) were manually entered by IR&A staff. IR&A continues to develop new measures to have all future graduate employment surveys completed online. The responses from graduates by the different methods of surveying were merged, checked for accuracy and consistency and then analyzed using the Statistical Package for Social Science (SPSS) software.

1.3 Response Rate and Validity of Results

A total of 2,079 graduates participated in the 2009 GES, with an overall response rate of 59%, an increase of 14% over 2008. Table 1 provides the response rates for SIAST overall, by division and by base/continuing education.

Table 1: Survey Response Rate, by Division, by Base/Continuing Education, 2009

2009	GRADUATES	RESPONDENTS	RESPONSE RATE
SIAST Overall Programs by Division			
Business and Entrepreneurial Studies	560	353	63%
Community Services	689	395	57%
Industrial Training	791	411	52%
Nursing	281	183	65%
Science and Health	653	407	62%
Technology	545	330	61%
Total SIAST Programs	3,519	2,079	59%
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	361	229	63%
Community Services	444	264	59%
Industrial Training	335	200	60%
Nursing	171	121	71%
Science and Health	397	244	61%
Technology	415	265	64%
Total SIAST Base Programs	2,123	1,323	62%
SIAST CE Programs by Division			
Business and Entrepreneurial Studies	199	124	62%
Community Services	245	131	53%
Industrial Training	456	211	46%
Nursing	110	62	56%
Science and Health	256	163	64%
Technology	130	65	50%
Total SIAST CE Programs	1,396	756	54%

SIAST's GES is unique because, rather than survey a sample of the 2009 SIAST graduates, a full census of every graduate is undertaken. SIAST is a post-secondary institution offering more than 131 distinct programs at four urban campuses as well as numerous rural locations. Some of these programs have less than thirty graduates which makes it impossible to survey a sample of the graduates and obtain meaningful results at the individual program level.

Response Rates for Small Populations

For populations with less than 30 participants, as is the case with several SIAST programs, it is recommended that all participants be surveyed in order to obtain reliable information. At the program level, the results will provide a good indication of graduate success and training quality, but may not be representative of all graduates from that program if the population is less than 30 graduates and only a small portion of graduates respond. SIAST makes every effort to contact all the graduates and encourage them to participate. Note: When viewing individual program pages, with low/small number of graduates and a low response rate (i.e., less than 30%), generalizations of the results in the survey should be made with caution.

1.4 Reporting of Results

The 2009 SIAST GES report was compiled from an analysis of the results of the survey. The findings of the analysis are presented in the Overview of Results that summarizes the survey results regarding employment status, program assessment and general graduate demographics by SIAST overall, by base (primarily on-campus activity) and continuing education (primarily brokered off-campus activity throughout the province), as well as the six SIAST program divisions.

Two types of ratios have been included in the Graduate Employment Report for questions pertaining to employment status and training-related employment. In Sections 2.1.1 to 2.1.6, employment information is presented as a percentage of those graduates available to work. According to Statistics Canada, the available to work is defined as the labour force and includes those that are currently employed, as well as those not currently employed but who are seeking employment.

For example, 1,759 graduates responded to the question regarding employment status (full-time versus part-time). Of these, 1,310 respondents indicated that they are employed full-time. In calculating the full-time employment rate listed in the sections mentioned above, the 1,310 responses are divided by the available workforce total – 1,954 (comprised of 1,759 respondents employed and 195 respondents actively seeking employment), for a full-time employment rate of 67%, a 4% decline from 2008.

In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of graduates who responded to the respective employment questions in the survey rather than the available workforce. For example, in reporting employment status (Section 2.3.1), the frequency for those respondents with a full-time status (75%), was calculated by dividing the 1,310 respondents who indicated they are employed full-time by the 1,759 graduates who responded they are employed.

For Sections 2.3.1 and 2.3.2, similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators and the program pages at the back of the report.

Where applicable the report has been rounded to the nearest whole percentage and, therefore, in some cases the total percentages may vary slightly from 100% or in some cases where responses do not equal 100%, the difference is for graduates who indicated "Don't Know/Refused".

In presenting the results, the total number of graduates responding to each question will vary because: a) respondents did not always provide an answer to each question; and/or b) some questions were not relevant to some respondents. For example, some questions were asked only of those who were currently employed at the time of the survey and conversely, other questions were asked only of those who were not currently employed at the time of the survey.

The Appendices section at the back of the report contains a listing of programs that have recently been revised, either re-titled, identified with different credentials or deleted (appendix A); a copy of the survey questionnaire (appendix B); a question-by-question response count (appendix C); general SIAST information (appendix D); a list of tables (appendix E); and a list of figures (appendix F).

OVERVIEW OF RESULTS

2.0 EMPLOYMENT

Respondents were asked to respond to a number of questions regarding their ability to secure employment after graduation, as well as the details of that employment, such as employment status (full or part-time), location, number of jobs held and the relationship of employment to training.

2.1 Employment Rates

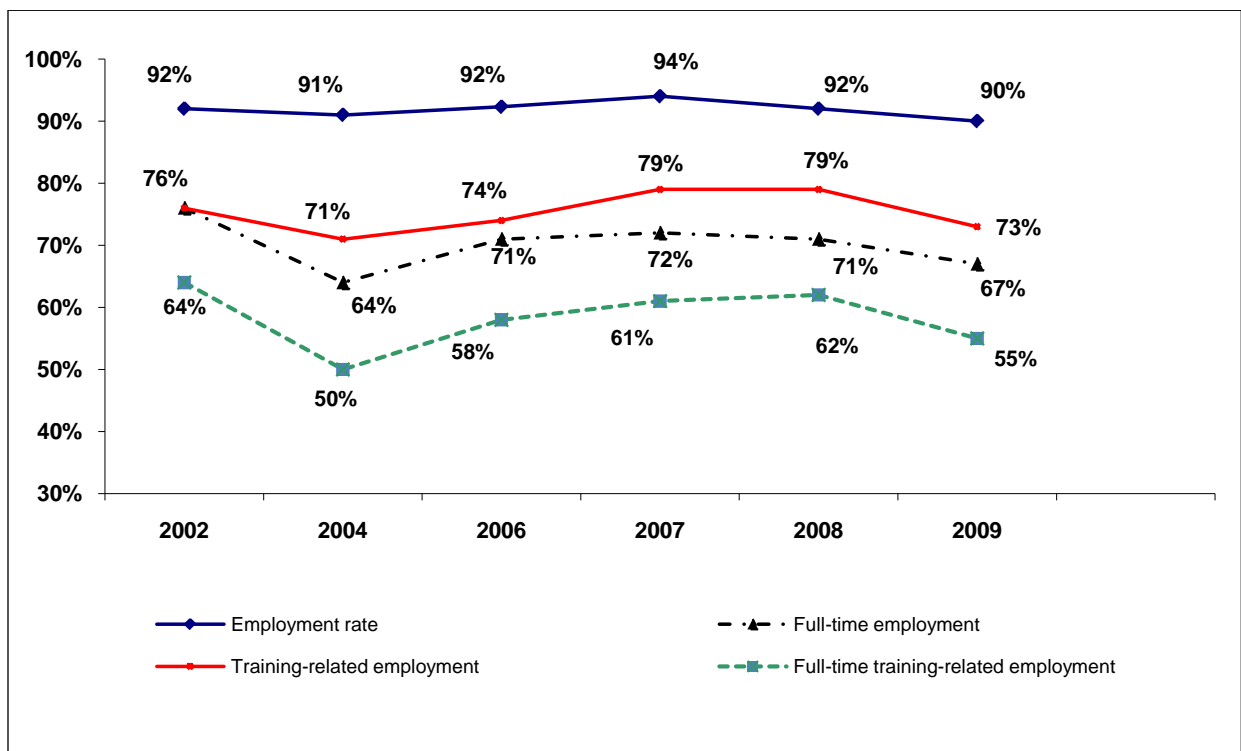

2.1.1 Employment Rates for SIAST Overall

The following employment rates are calculated based on those respondents who are *available to work*. The respondents who are included in the available to work category are those who were employed at the time of the survey and those who were not employed but were looking for work (Statistics Canada's definition of the Labour Force).

The employment rates of 2008/09 graduates declined over the previous year, reflecting the economic downturn in North America. The overall employment rate was 90%. This is a 2% decline over 2008 and while this is a modest drop, it is the lowest percentage over the past six years.

The training-related employment rate decreased 6% from 2007 and 2008 levels to 73% of graduates in the available workforce at the time of the survey. The full-time employment (67%) and full-time training-related employment (55%) rates also declined by 4% and 7%, respectively, over 2008.

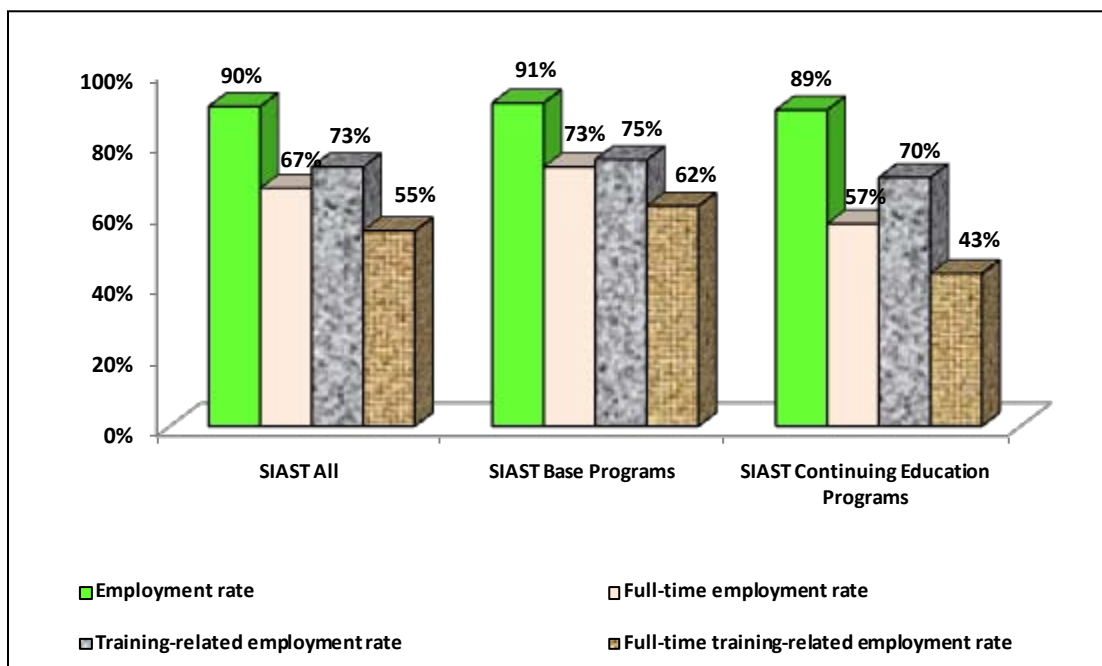

Figure 1: Employment Trends for SIAST Graduates, Based on Available Workforce, 2002-2009

2.1.2 Employment Rates for SIAST All, Base and Continuing Education Programs

Figure 2 compares the employment rates for base and continuing education programs in 2009, with that of SIAST overall. The employment rate for base programs (91%) and continuing education programs (89%) are closely comparable to the SIAST overall employment rate of 90%. As shown in Figure 2, the full-time employment and full-time training-related employment rates for base programs were higher than that for continuing education programs.

Figure 2: Employment Rates, by Base/Continuing Education, Based on Available Workforce, 2009

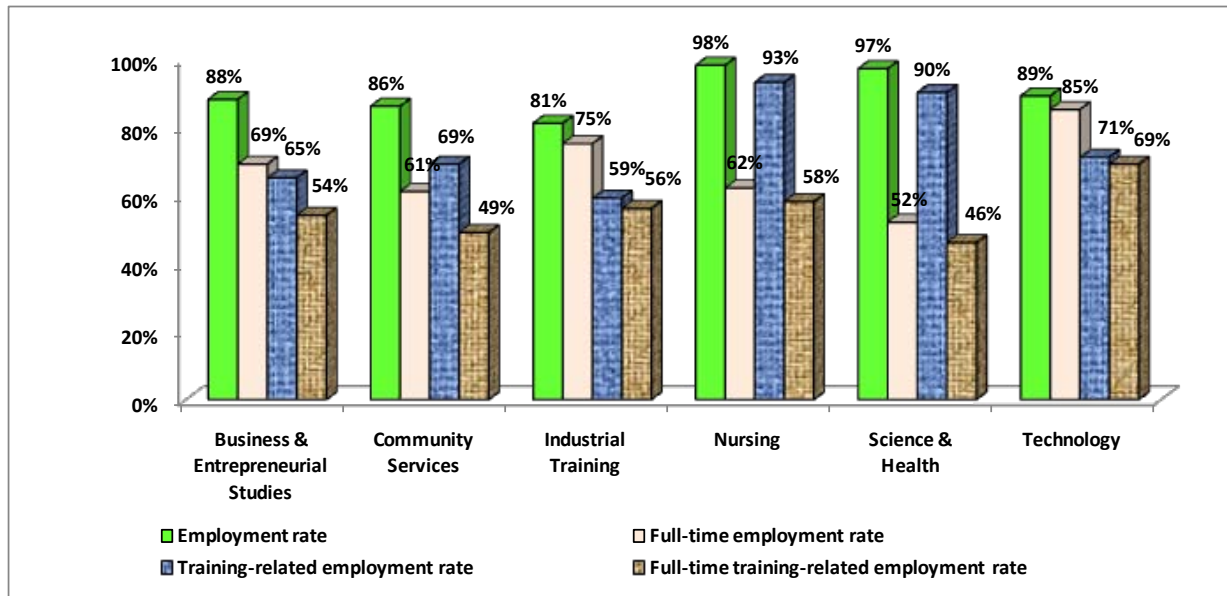

2.1.3 Employment Rates by Division Overall (Base and Continuing Education)

Figure 3 provides a breakdown of employment rates for each of the six program divisions. Higher employment rates of those who graduated from Nursing (98%) and Science and Health (97%) Divisions pulled the overall SIAST graduate employment rate up to 90% (Figure 2). The employment rates of graduates of other divisions were relatively lower ranging from 81 to 91%.

Similarly, the training-related employment rates of those who graduated from Nursing (93%) and Science and Health (90%) increased the overall SIAST training-related employment rate to 73%.

Respondents from the Technology division reported the highest full-time training-related employment rate of 69%.

Figure 3: Employment Rates, by Division, Based on Available Workforce, 2009

2.1.4 Employment Rates by Division (Base and Continuing Education Reported Separately)

Table 2 provides a further breakdown of employment rates by division for base and continuing education programs.

For SIAST base programs, the Nursing (97%) and Science and Health (95%) Divisions reported the highest employment rates. For continuing education programs, Nursing (100%), Science and Health (99%) and Community Services (92%) Divisions had the highest employment rates, while the graduates from Industrial Training Division reported the lowest employment rate of 73%.

Once again graduates from the Technology Division in both base and continuing education programs were more likely to find full-time training-related employment. Respondents from the Science and Health (22%) and Nursing (44%) and Business and Entrepreneurial Studies (45%) Divisions in the continuing education programs and the community services program (49%) in the base program reported the lowest percentage of full-time training-related employment.

Following the results of SIAST overall, the full-time training-related employment rate for graduates from both base (62%) programs and continuing education (43%) programs declined since 2008 by 5% and 9%, respectively.

Table 2: Employment Rates, by Division, by Base/Continuing Education, Based on Available Workforce, 2009

	AVAILABLE FOR WORK	EMPLOYMENT RATE	FULL-TIME EMPLOYMENT RATE	TRAINING-RELATED EMPLOYMENT RATE	FULL-TIME TRAINING-RELATED EMPLOYMENT RATE
SIAST Base Programs by Division					
Business and Entrepreneurial Studies	208	87%	70%	69%	59%
Community Services	226	91%	59%	69%	49%
Industrial Training	194	89%	82%	68%	65%
Nursing	121	97%	70%	90%	65%

2.1.5 Employment Rates for Aboriginal Respondents

Figure 4 indicates the employment rates, training-related employment rates and full-time training-related employment rates by divisions for Aboriginal respondents.

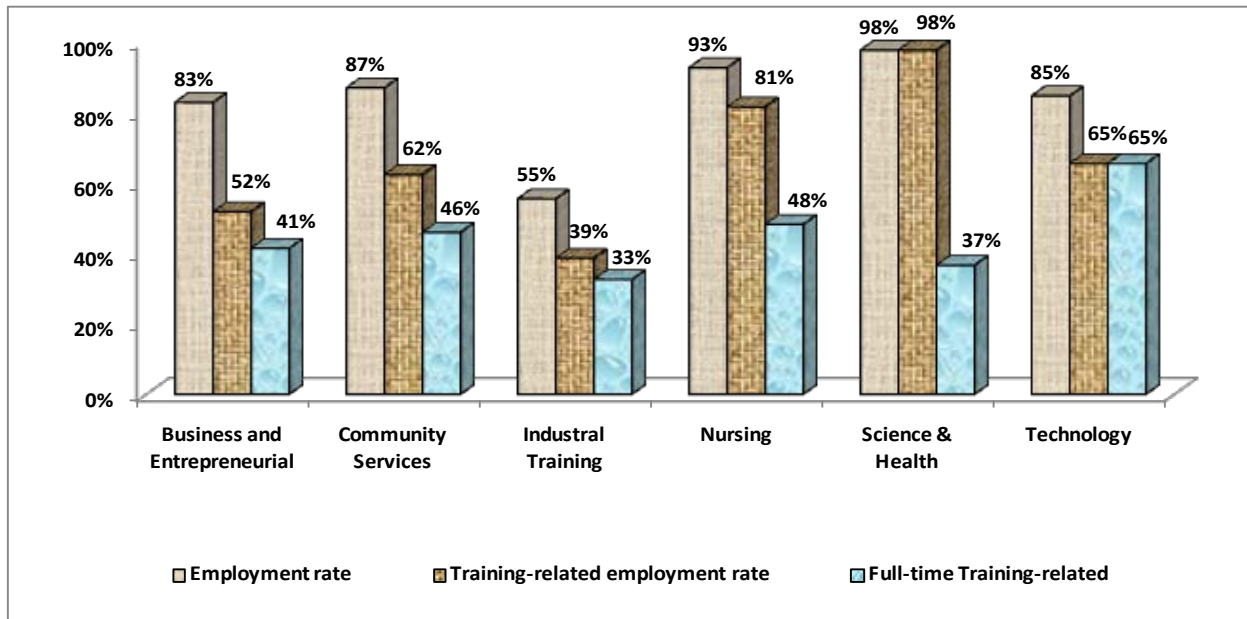

Both the Nursing Division (at 81% for training-related employment) and the Science and Health Division (at 98% for training-related employment) showed encouraging results for Aboriginal graduates in finding employment.

The employment rates for Aboriginal graduates by division based on those available to work were:

- Business and Entrepreneurial Studies – 83%
- Industrial Training – 55%
- Science and Health – 98%
- Community Services – 87%
- Nursing – 93%
- Technology – 95%

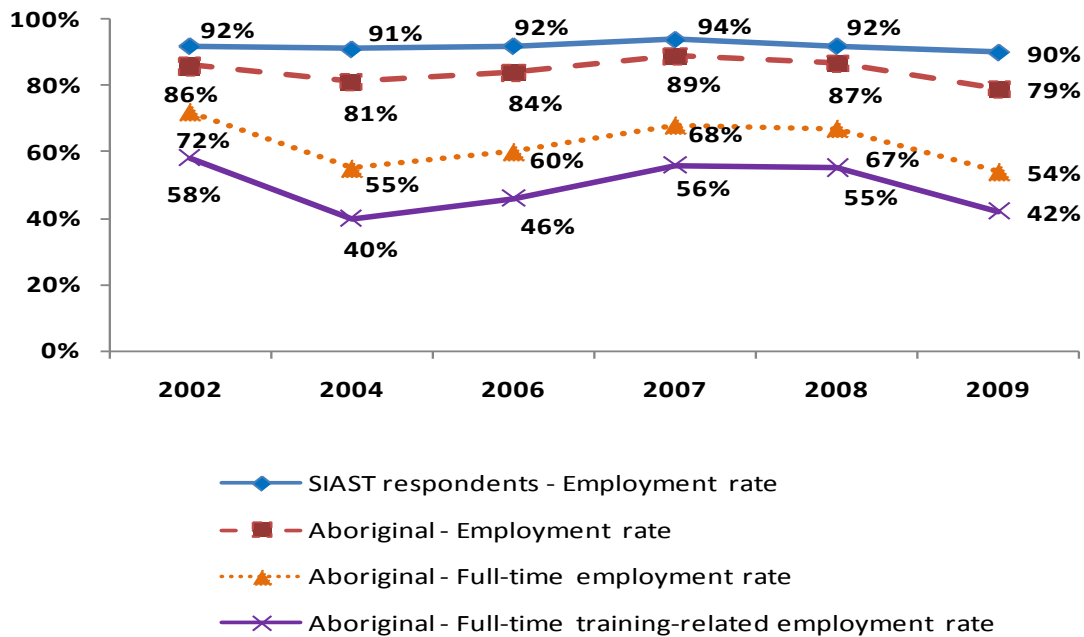

While the employment rates for Aboriginal graduates from programs from the Community Services and Technology Divisions increased from those reported in 2008, the employment rates for Aboriginal graduates in other divisions declined slightly except for programs from the Science and Health Division. The employment rate for graduates from the Science and Health Division was consistent with 2008 but the training-related employment rate increased by approximately 10%.

Figure 4: Employment Rates for Aboriginal Respondents, by Division, Based on Available Aboriginal Workforce, 2009

As depicted in Figure 5, the employment, full-time employment and full-time training-related employment rates for Aboriginal respondents in the 2009 survey declined significantly over 2008. While the Aboriginal employment rate in 2009 has declined by 8% over 2008, the full-time employment and full-time training-related employment rates declined at almost the same rate of 13%.

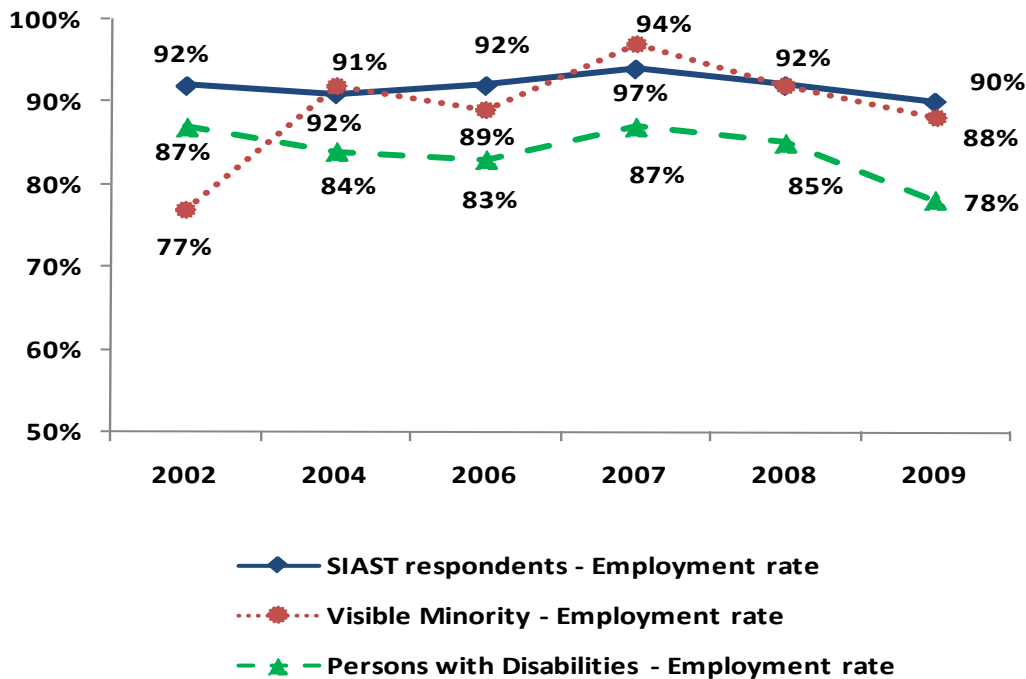

Figure 5: Employment Trends for Aboriginal Respondents, Based on Available Workforce, 2002- 2009

2.1.6 Employment Trends for Persons with Disabilities and Visible Minority Respondents

As shown in Figure 6, the employment rate for persons with disabilities and visible minority respondents declined since the highest employment rate reported in 2007. The employment rate for persons with disabilities was 78% in 2009, a 7% decline over 2008, while the rate for visible minority persons was 88%, a 4% decline over 2008.

Figure 6: Employment Trends for Persons with Disabilities and Visible Minority Respondents, Based on Available Workforce, 2002 – 2009

2.2 Training-Related Employment, Based on Number Employed*

**Note: In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of employed graduates rather than the available workforce. Similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators or the program pages at the end of this report.*

Are you employed in a job directly related to the education and training you received in your program at SIAST? (Question 12)

The majority of respondents in all divisions reported that they found employment which was directly related to their training. About 81% of all employed respondents worked at training-related jobs at the time of the survey (Figure 7). Overall this is 4% lower than that reported in 2008 (85%). Respondents from the Nursing (95%) and Science and Health (93%) Divisions had the most success in obtaining training-related employment while respondents from Business and Entrepreneurial Studies (74%), Community Services (76%) and Industrial Training (73%) had relatively low rates of training-related employment.

Figure 7: Training-Related Employment, by Division, 2009

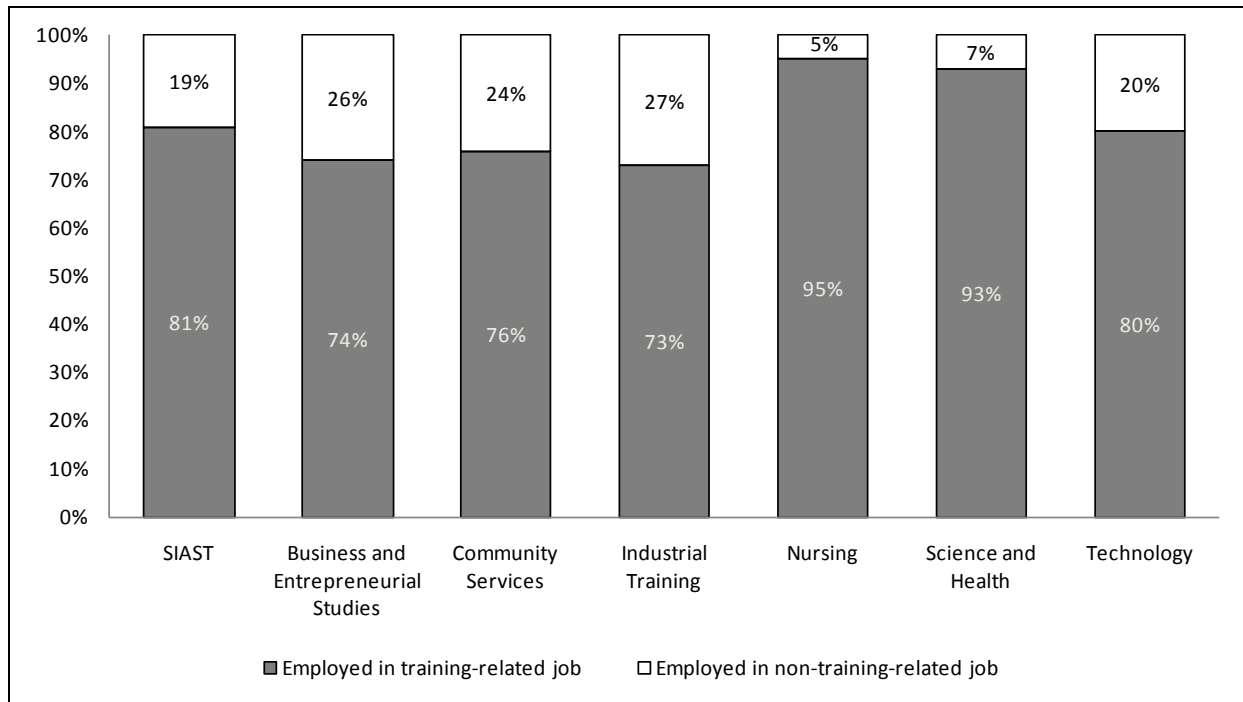

Table 3 provides a breakdown of training-related employment by base and continuing education programs for each division. The graduates from Nursing and Science and Health Divisions had the largest percentage of respondents with training-related employment. The Nursing Division had the highest percent of both base program graduates (93%) and continuing education program graduates (98%) employed in a training-related job. The Science and Health Division had the second highest percentage of training related employment in both base (92%) and continuing education (96%) programs. In many of the Nursing and the Science and Health divisions' programs, respondents are required to have completed their training and be licensed by a national accrediting agency before practicing their skills in the health field. Overall, approximately four-fifths of graduates from base, 83% and continuing education, 79%, programs were able to find training-related employment.

Table 3: Training-Related Employment, by Division, by Base/Continuing Education, 2009

	TOTAL EMPLOYED	NUMBER EMPLOYED IN TRAINING-RELATED JOB	PERCENT EMPLOYED IN TRAINING-RELATED JOB
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	181	144	80%

OVERALL SIAST TOTAL	1,759	1,431	81%

2.3 Employment Status, Based on Number Employed

2.3.1 Full or Part-time/Casual Employment

What is your employment status of your primary job? (Question 16)

- a) *Permanent Full-time (30 hours or more per week)*
- b) *Permanent Part-time (less than 30 hours per week)*
- c) *Non-Permanent Full-time (i.e., term, contract, seasonal)*
- d) *Non-Permanent Part-time (i.e., term, contract, seasonal)*
- e) *Casual (variety of hours per week)*

Full-time employment is defined as working 30 hours or more per week and part-time and casual employment are defined as working less than 30 hours per week. Overall, 75% of respondents surveyed were working full-time in their primary job (a 2% decline over 2008); while the remaining 25% of respondents had a primary job that was part-time or casual (a 2% increase over 2008).

As shown in Figure 8, the Technology Division had the highest percentage of respondents (96%) with full-time employment in their primary job followed by Industrial Training Division (92%). Over three-fourths of respondents from the Business and Entrepreneurial Division (78%) were working full-time in their primary job. The respondents from the Science and Health Division (53%) were the least likely to obtain full-time employment in their primary job.

Figure 8: Full or Part-Time Employment in Primary Job, by Division, 2009

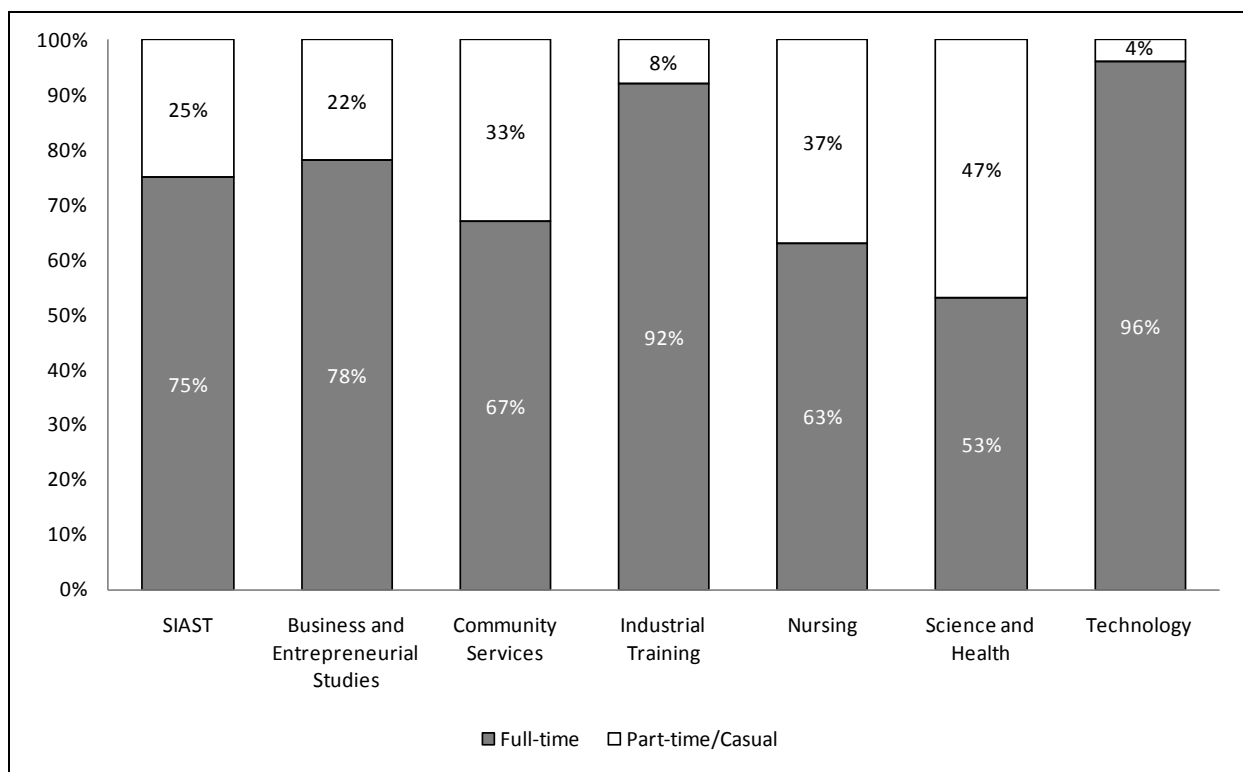

Table 4 provides further breakdown of employment status for base and continuing education programs in each division. On average, 80% of respondents from base programs were employed in full-time positions while only 64% of respondents from continuing education programs were employed in full-time positions. As shown in Table 4, over 70% of graduates in all divisions in the base programs, except Community Services, were able to secure full-time positions. Only 65% of graduates from Community Services in base program were able to secure full-time employment. Similarly, the graduates from continuing education programs were also able to secure full-time employment with the exception of graduates in the Nursing and Science and Health Divisions. In continuing education programs only 26% of graduates from the Science and Health Division and 44% of graduates from the Nursing Division were able to find full-time employment.

Table 4: Full or Part-Time Employment in Primary Job, by Division, by Base/Continuing Education, 2009

	TOTAL EMPLOYED	FULL-TIME	PART-TIME/ CASUAL
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	181	80%	20%
Community Services	205	65%	35%
Industrial Training	172	92%	8%

Science and Health	159	26%	74%
Technology	57	93%	7%
Total SIAST CE Programs	632	64%	36%
OVERALL SIAST TOTAL	1,759	75%	25%

2.3.2 Part-time/Casual Position – by Choice

If your primary job is a part-time or casual position, is this by choice? (Question 17)

It is assumed that those working in part-time or casual jobs do so because they cannot secure full-time employment. This particular question was added to the GES in 2002 to clarify if graduates wanted to work in part-time or casual positions. In 2009 of those who worked part-time/casual, 63% indicated they chose to work part-time/casual by choice, 13% higher than in 2008. Table 5 provides a further breakdown of part-time/casual employments by choice for base and continuing education programs by division. For SIAST base divisions the Nursing Division had the highest proportion of respondents (72%) who were working part-time positions by choice. The percentage of graduates who worked part-time or casual positions by choice in the continuing education program ranged from 33 to 67% with an average of 61%.

Table 5: Part-Time or Casual by Choice, by Division, by Base/Continuing Education, 2009

	TOTAL EMPLOYED PARTIME/CASUAL	PART-TIME/ CASUAL BY CHOICE
SIAST Base Programs by Division		
Business and Entrepreneurial Studies	36	67%

Business and Entrepreneurial Studies	25	56%
Community Services	33	67%
Industrial Training	12	33%
Nursing	34	65%
Science and Health	118	62%
Technology	4	50%
Total SIAST CE Programs	226	61%
OVERALL SIAST TOTAL	449	63%

2.3.3 Self-Employed

Are you self-employed? (Question 12)

The percentage of respondents indicating they were self-employed remains fairly low in all divisions. Overall, 6% of all the respondents in the survey indicated their desire for self-employment, which is similar to that reported in 2007 and 2008. The graduates from continuing education programs are more likely to pursue self-employment (8%) relative to those who graduated from base programs. The greatest interest for self-employment came from the Industrial Training (13%) and Community Services (11%) Divisions in the continuing education programs.

Table 6: Self-Employment, by Division, by Base/Continuing Education, 2009

3.0 SALARIES

Respondents were asked to indicate the salary they earned. Since some employees gave an hourly rate and others a monthly salary, all identified hourly rates were converted to a monthly rate as shown below.

3.1 Salaries for SIAST Graduate Respondents

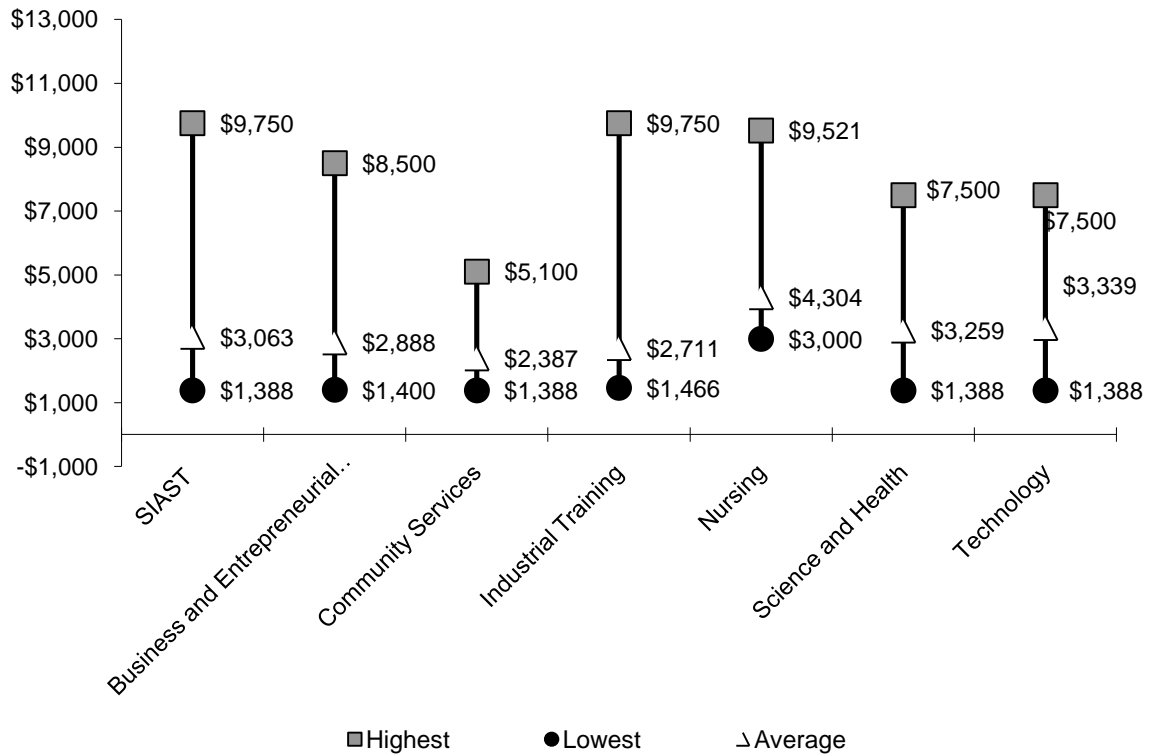

What is the hourly salary of your primary job before deductions? (Question 18)

The lowest wage reported by SIAST graduates was \$9.25 per hour. Based on a 37.5 hour work week, the minimum monthly salary for a full-time employee is \$1,388 [$\$9.25 \times 37.5 \times 4$]. The majority of SIAST employed respondents were paid at a higher level than this rate (Table 8). The average (mean) monthly full-time training-related salary for all respondents was \$3,063, an increase of 5.8% over 2008.

Table 8: Monthly Salary of Full-Time Training-Related Job and by Base/Continuing Education, 2009

	EMPLOYED IN FULL TIME TRAINING-RELATED POSITIONS	RESPONDENTS WITH FULL TIME TRAINING RELATED SALARIES	HIGHEST	AVERAGE	MEDIAN	LOWEST
Total SIAST Base Programs	765	709	\$9,750	\$3,118	\$2,850	\$1,388
Total SIAST CE Programs	308	288	\$8,400	\$2,926	\$2,743	\$1,388
OVERALL SIAST TOTAL	1,073	997	\$9,750	\$3,063	\$2,804	\$1,388

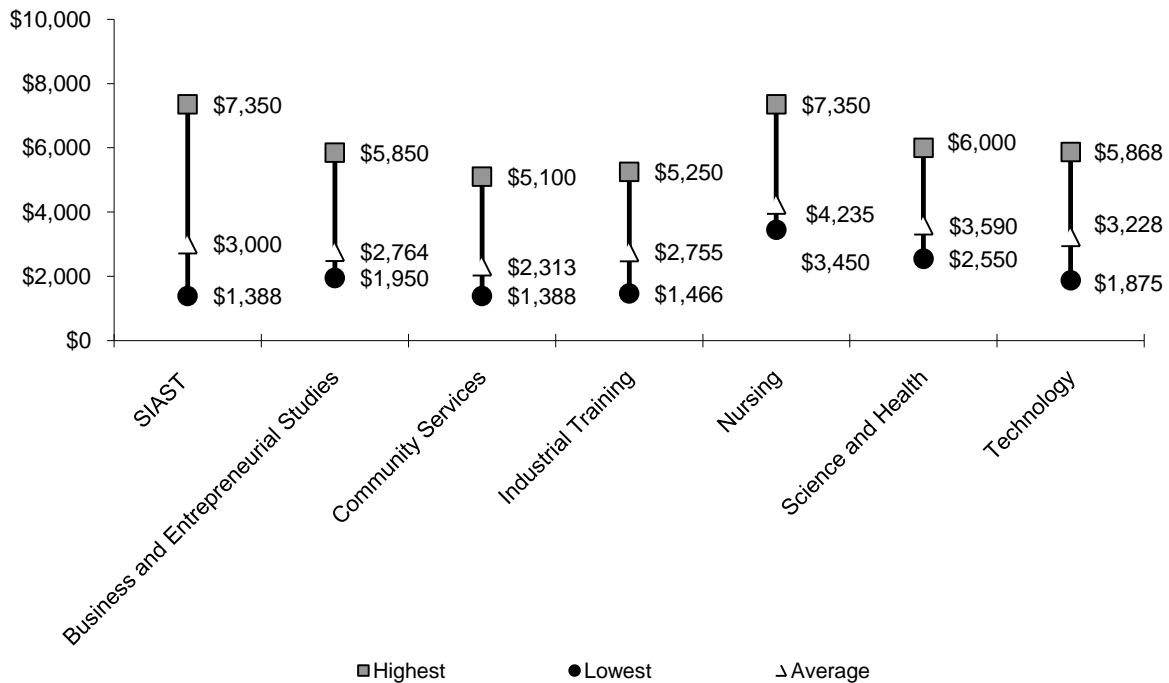

Figure 9: Monthly Salary of Full-Time Training-Related Employment, by Division, 2009

3.2 Salaries for Aboriginal Respondents, Based on Number of Respondents

In all divisions, except for Nursing, Science and Health and Technology, the average salary level for Aboriginal people employed in full-time training-related positions was lower than that reported for all SIAST respondents. The average monthly salary for Aboriginal people is highest in the Nursing Division (\$4,235) which is approximately 4% higher than that in 2008. However, the average salary received by graduates from Nursing (\$4,235), Science and Health (\$3,590) and Technology (\$3,228) were well above the average monthly salary of all SIAST Aboriginal respondents (\$3,000) (Figure 10).

Figure 10: Monthly Salary of Full-Time Training-Related Employment for Aboriginal Graduates by Division, 2009

4.0 INDUSTRY SECTORS OF PRIMARY EMPLOYERS

Saskatchewan Labour has identified the industry sectors listed below as important for the province. Monthly labour force statistics for the province are reported in this manner. The industry sector question was added to the survey in 2004 to determine if SIAST graduates were employed in one or more of these industry sectors. The question included in the survey was:

Please select the option below that best describes which industry sector your primary employer operates in. (Question 22)

The majority of SIAST respondents (31%) reported they work for employers who operate in the health industry while construction (9%) and education services (7.6%) were the second and third highest employers for SIAST graduates. Employment in the health industry was by far a large margin compared to other sectors such as the biotechnology industry (0.7%) and film, video, multi-media, printing and publishing (0.7%).

Table 9 provides a breakdown by division of industry sectors under which SIAST graduates are employed. The graduates from programs in the Nursing and Science and Health Divisions are primarily employed in the health sector (91.6% and 85.2%, respectively), while the respondents from other programs may be employed in a variety of industry sectors. For instance, in Community Services, 33% of the respondents are employed in the educational services sector and 11.1% in human/social services and justice sectors.

The graduates from the Business and Entrepreneurial Division were primarily employed in the business and professional services sector (24%), 12.7% in finance, insurance and real estate and another 12.7% in government services and public administration while the remaining were distributed in other sectors.

Approximately 26% of graduates from industrial training were employed in the construction sector while 24.8% of graduates were employed in transportation, trucking and heavy equipment (includes aviation and automotive/auto body services) sectors. Another 14.3% of graduates

from the Industrial Training Division were employed in the manufacturing (includes metal fabrication, agri-value and food processing) sector.
 In the Technology Division respondents were clustered in the construction (23.6%) natural resources and environment (17.6%), and in the technology, electronics and telecommunications sectors (16.5%).

Table 9: Industry Sector of Primary Employer, by Division, 2009

5.0 LOCATION OF EMPLOYMENT, BASED ON NUMBER EMPLOYED

There is always considerable interest by government officials and the general public to know if post-secondary graduates remain in the province for employment following graduation.

5.1 Location of Primary Employment for SIAST Respondents

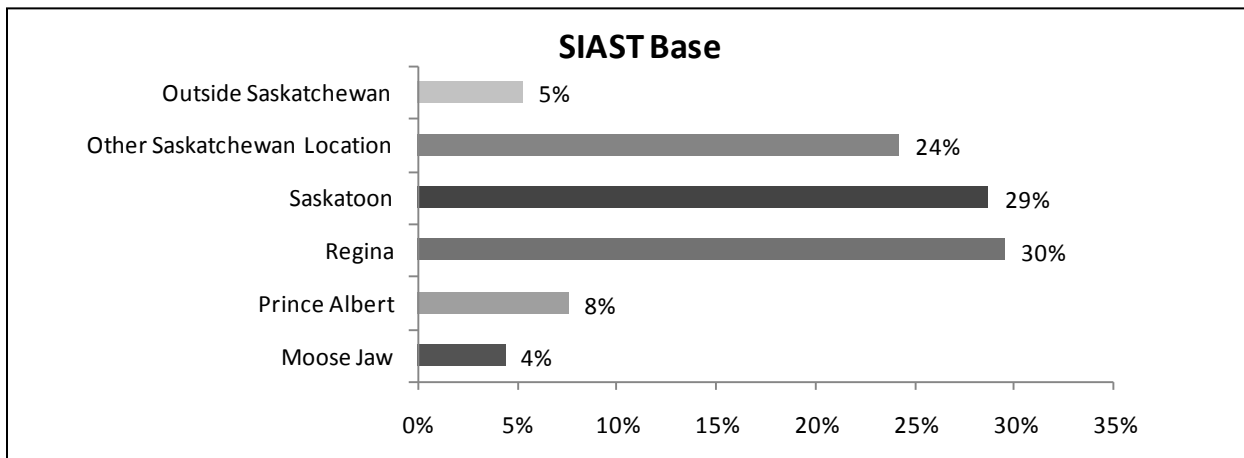

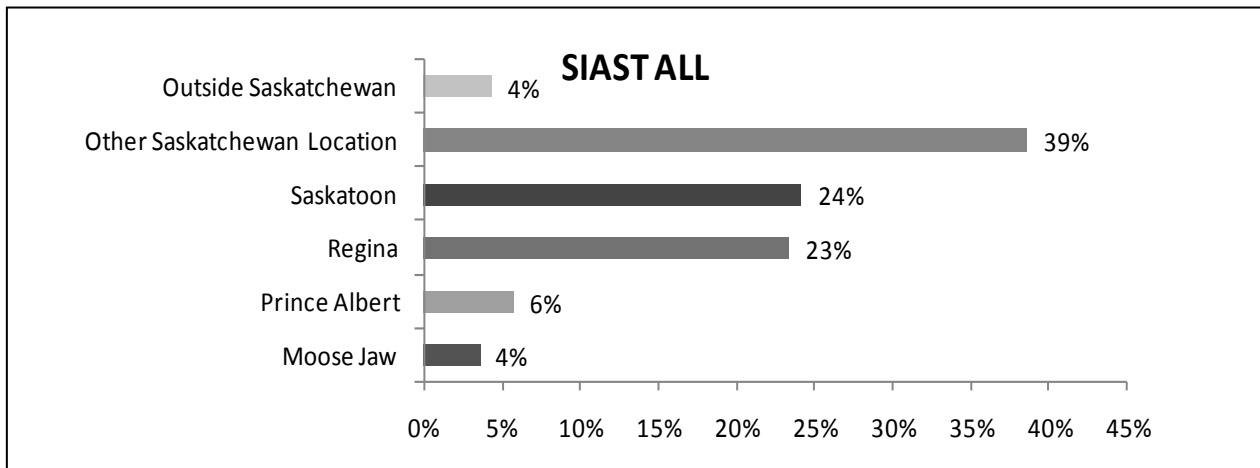

Where is the location of your primary employment? (Question 19)

Note: The results in Section 5.1 provide the location of employment percentages based on the location of the graduates' primary employment not their training-related employment. Location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

As shown in Figure 11, over 95% of SIAST graduates were employed in Saskatchewan at the time of the survey.

The out-migration of graduates in the base program increased to 5% in 2009 from 4% reported in 2008, while the out-migration of graduates from continuing education programs remained the same at 3% for both 2008 and 2009.

Figure 11: Location of Primary Employment, by Base/Continuing Education, 2009

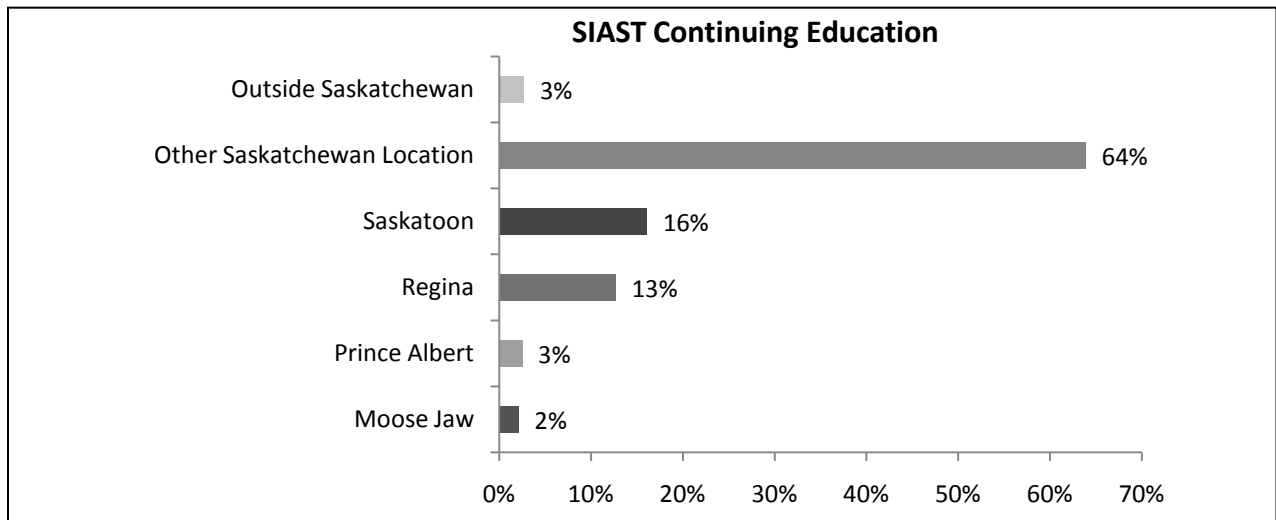

Table 10 provides a breakdown of SIAST graduates' employment location, by division, by base and continuing education. The largest out-migration of graduates from base programs continues to be from the Technology (11.5%), Science and Health (7.6%) and Industrial Training (4.1%) Divisions with an overall out-migration of 5.3%. This is a 1% increase over 2008. In the continuing education programs the graduates from the Community Services Division had the largest proportion (5.5%) leaving Saskatchewan, an increase of 1% from 2008. Similar to base programs overall out-migration of graduates from continuing education programs also increased to 4.4% from its 3.3% in 2008. However, overall out-migration of SIAST graduates in 2009 has increased marginally by 0.4% from 4% in 2008.

Table 10: Location of Primary Employment, by Division, by Base/Continuing Education, 2009

N: Base = 1127 CE = 632	REGINA	SASKATOON	PRINCE ALBERT	MOOSE JAW	OTHER SK LOCATION	OUTSIDE SK

Total SIAST CE Programs	12.7%	16.1%	2.5%	2.1%	63.9%	2.7%
OVERALL SIAST TOTAL	23.4%	24.2%	5.8%	3.6%	38.6%	4.4%

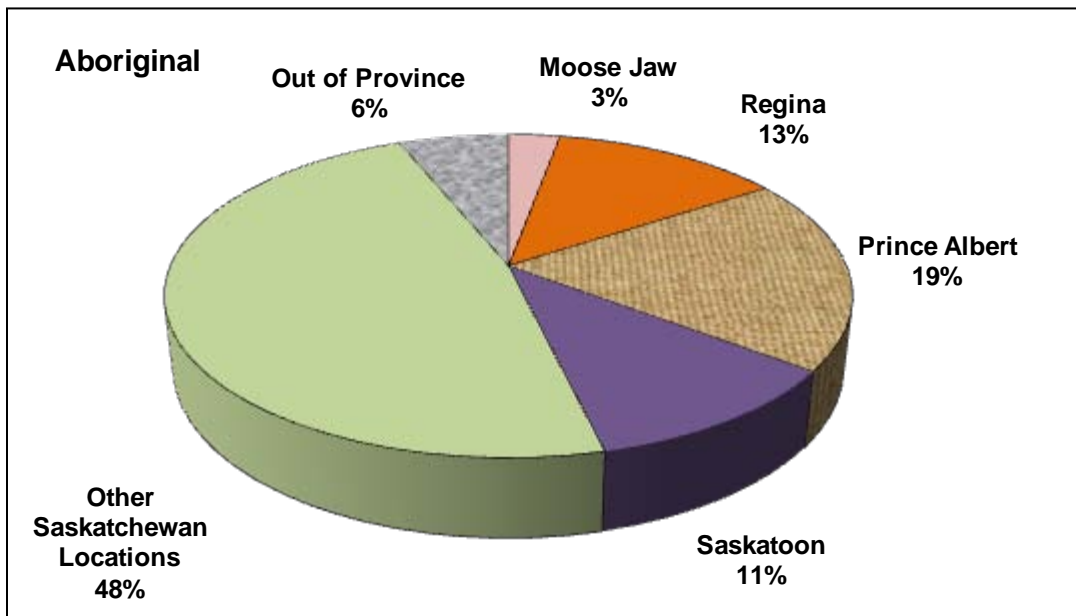

Consistent with the findings of the past surveys, the majority of respondents remain in Saskatchewan for employment. In 2008 the location percentages were:

- Regina – 22.6%
- Prince Albert – 10%
- Other Saskatchewan location – 33.8%
- Saskatoon – 24.8%
- Moose Jaw – 4.9%
- Outside Saskatchewan - 4%

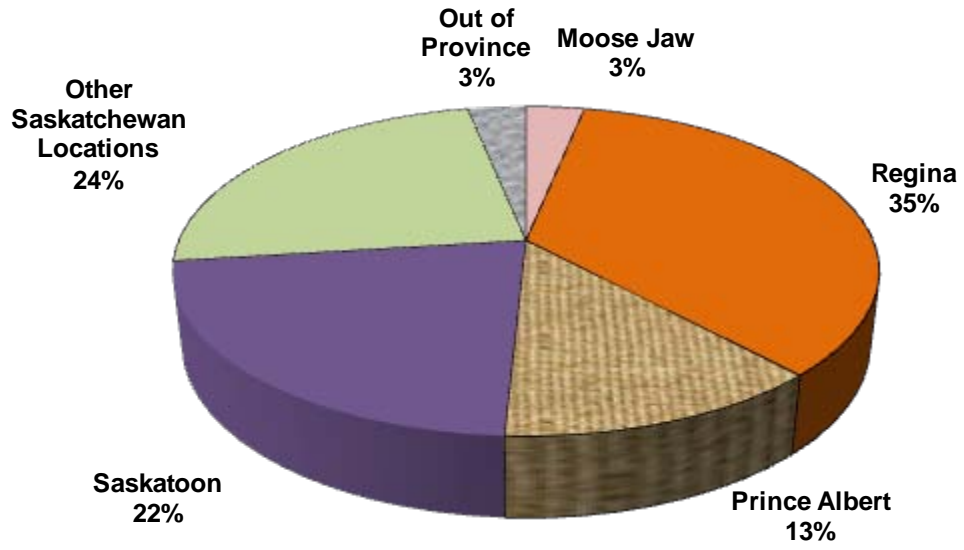

5.2 Location of Primary Employment for Equity Respondents

As shown in Figure 12, 94% of Aboriginal graduate remained in Saskatchewan for employment. Only 6% of Aboriginal graduates have moved out of province for employment, a 2% increase over 2008. Approximately one-half of Aboriginal graduates (48%) worked outside of the major four cities in Saskatchewan. Of the four SIAST campus cities, the largest proportion of Aboriginal graduates were employed in Prince Albert (19%), followed by Regina (13%) and Saskatoon (13%). Only 3% of Aboriginal graduates found employment in Moose Jaw.

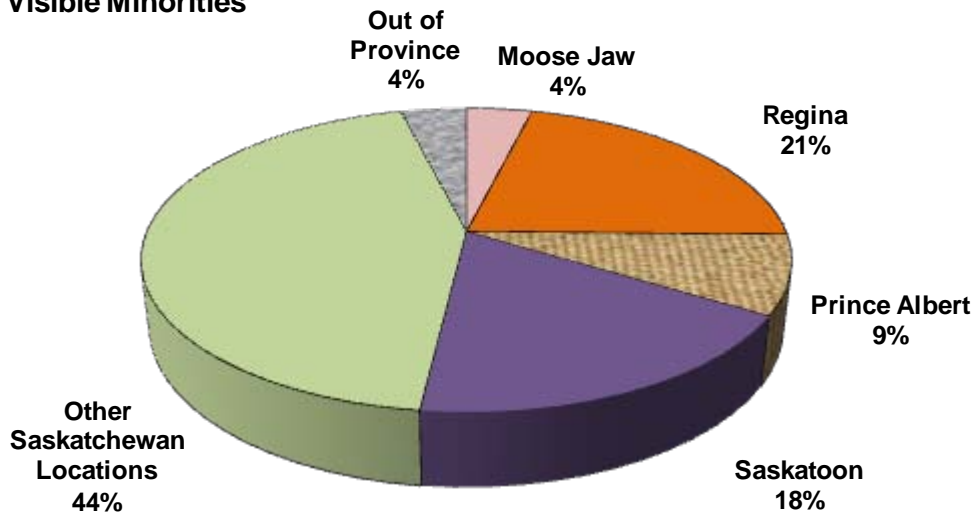

Figure 12: Location of Primary Employment for Aboriginal, Persons with Disabilities and Visible Minority Respondents, 2009

Persons with Disabilities

Visible Minorities

5.3 Out-of-Province Employment for SIAST Graduate Respondents

*If primary employment was found outside of Saskatchewan, was this by choice?
(Question 20)*

As mentioned before, just over 4% (77 of 1759) of respondents indicated their location of employment to be outside Saskatchewan (Table 10). Of them, 71% (55 of 77) of the respondents who found employment opportunities out of Saskatchewan had indicated this was by choice (Table 11). Of those who found employment opportunities outside of Saskatchewan, 100% of graduates from Community Services and Nursing Divisions in the base program indicated that was by their choice while the same is true for graduates from Business and Entrepreneurial Studies, Industrial Training and Nursing Divisions in the continuing education programs.

Table 11: Primary Employment Out-of-Province by Choice, by Division, By Base/Continuing Education, 2009

	TOTAL RESPONDENTS	% OUT OF PROVINCE EMPLOYED BY CHOICE

OVERALL SIAST TOTAL	77	71%

*“Please indicate the primary reason why you moved out-of-province for employment
(Question 21)*

Graduates were requested to identify the main reason they sought employment out-of-province. Overall, two-fifths of respondents indicated personal reasons (40%) for obtaining out-of-province employment (Table 12). Approximately one-fifth of all respondents indicated they moved out-of province to obtain more employment opportunities (22%). These proportions were similar for graduates of both base and continuing education programs.

Graduates from base programs (15%) were more likely to have found employment out of the province in order to obtain better wages, relative to their continuing education counterparts (6%).

Note: The location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

Table 12: Reason Primary Employment Out-of-Province, by Division, By Base/Continuing Education, 2009

6.0 APPLICATIONS AND INTERVIEWS FOR EMPLOYMENT

6.1 Applications

How many employment opportunities have you applied for since completing your training program? (Question 8)

The effort that graduates had invested into obtaining employment, after graduation, was indicated by the number of applications that each had submitted and the number of interviews that each attended. These numbers are expressed as means and medians, because medians, as the middle number, are not influenced by extreme responses.

As shown in Table 13, the average number of applications for employment that respondents in base programs submitted ranged from 1 to 2, depending on the division, with an overall average of 1.8. The same is true for graduates in continuing education programs. The median number of applications ranged from 1 to 2, again depending on the division, with an overall average of 2. Overall, the number of applications submitted for employment opportunities in all divisions, regardless of whether they are base or continuing education, remains in between 1 and 2 with an average number of applications of 1.8, a 3.6 decrease over 2008.

6.2 Interviews

How many employment interviews have you had? (Question 10)

The mean number of interviews for respondents in base programs ranged from 1 to 5 with an average of 2.5 interviews. The median number of interviews for graduates in the base programs ranged from 1 to 3. Almost similar findings were reported by respondents in SIAST continuing education programs.

Table 13: Employment Applications and Interviews: Average, Mode and Median, by Division, by Base/Continuing Education, 2009

7.0 NOT EMPLOYED

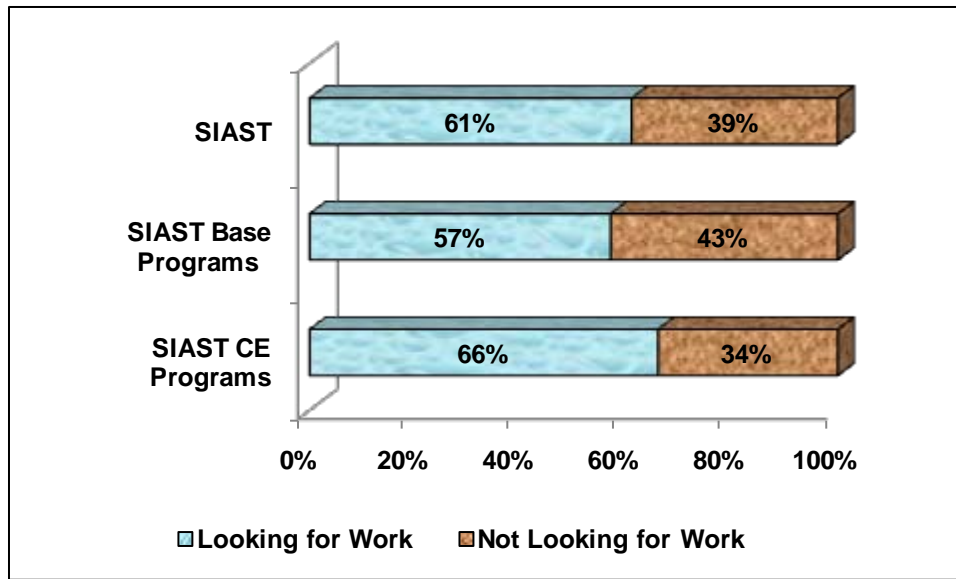

While it is important to determine the percentage of graduates who obtain employment after graduation, it is also equally important to know about those who were not employed at the time the survey was conducted. Respondents who had indicated that they were not presently employed were asked to complete a series of questions regarding their activity since graduation.

7.1 Actively Looking for Work

Are you actively looking for work at present? (Question 27)

Overall 61% of the respondents who were not employed at the time of the survey indicated that they were looking for work (Figure 13). A slightly higher% of respondents (66%) who were not employed from continuing education programs were more likely than their peers in base education programs to be looking for work(57%).

Figure 13: Graduates Not Employed but Looking for Work, by Base/Continuing Education, 2009

7.2 Employed Since Graduating from SIAST

Have you worked at all (full-time, part-time, or casual) since completing your training program? (Question 24)

If yes, was the most recent work directly related to the education and training you received in your program? (Question 25)

Are you scheduled to return to work in the future? (Question 26)

These three questions were directed towards those respondents who indicated they were not employed at the time of the survey.

Of the 320 respondents who were not working at the time they were surveyed, 73% (235 of 320) indicated that they had worked at some point since completing their training program.

Of the respondents not working at the time of the survey, but who had worked at some point since completing their training, 54% (126 of 235) indicated they had worked in training-related jobs. Table 14 provides a breakdown, by division and by base and continuing education programs, of respondents' work experiences since graduation.

Table 14: Graduates not Employed - Work Experience since Graduation, by Division, By Base/Continuing Education, 2009

	HAVE WORKED SINCE COMPLETION OF TRAINING	WORK DIRECTLY RELATED TO TRAINING RECEIVED	SCHEDULED TO RETURN TO WORK

³ Total number of respondents who were not employed in the CE programs = 124

7.3 Not Actively Looking for Work

Are you actively looking for work? (Question 27)

Of the 2,079 survey respondents, 6% (125 of 2,079) reported they were **not employed and were not looking for work**, primarily because they were either returning for further education or for personal reasons. Table 15 illustrates, by division, the percentages of graduates who were looking/not looking for work, out of those who were not employed.

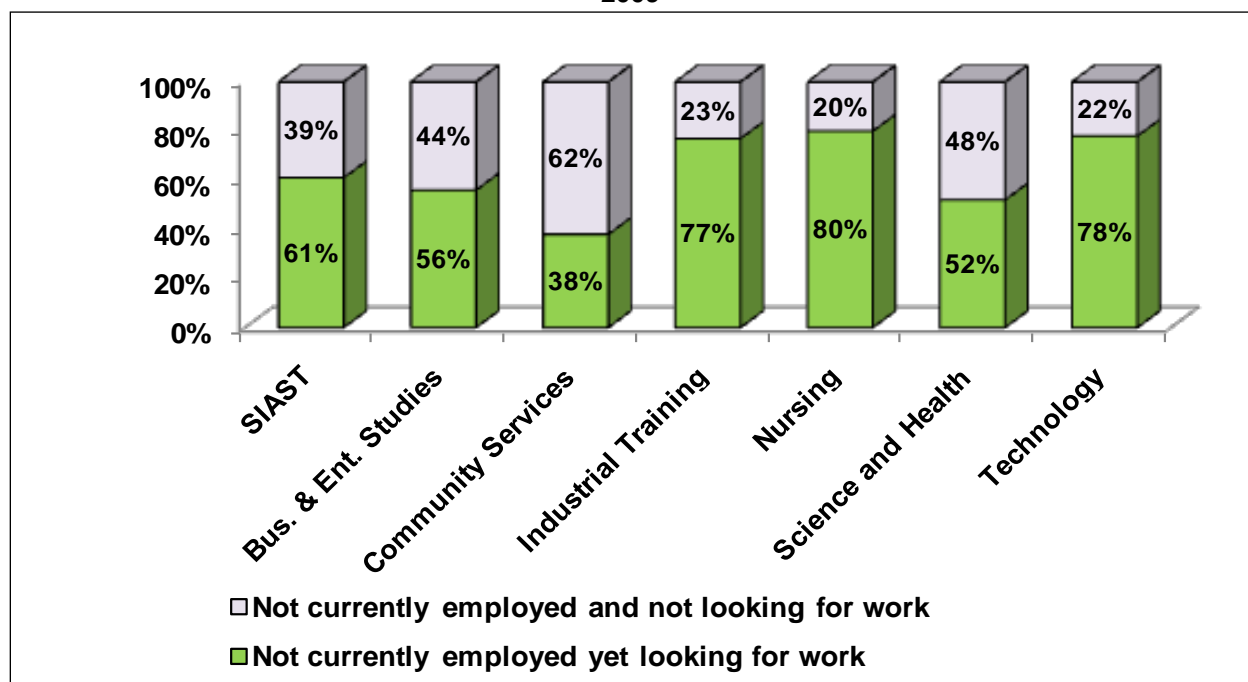

Section 7.4 of the report identified why some of the unemployed respondents were not actively looking for work. The Industrial Training Division had 96 unemployed graduates at the time of the survey, of whom 23% were not looking for work. The graduates from the Nursing Division reported the least number of unemployed graduates (5) but only one of them was not looking for work. Percent of unemployed graduates, by division, who were looking/not looking for work is further illustrated in Figure 14.

The employed (1,759) and the unemployed respondents who stated that they were looking for work (195) represent the SIAST-wide respondent **available workforce (1,954)** (those respondents who are available to work).

Table 15: Number of Unemployed Graduates who were looking for Work by Division, 2009

Figure 14: Graduates Not Actively Looking for Work, by Division, 2009

7.4 Reasons not Currently Employed

Which of the following best describes the reason why you are currently not employed? (Question 28)

The two most common reasons given by unemployed respondents for not being employed at survey time were *returned for further education* (66%) and *personal reasons* (31%). Table 16 provides a breakdown of the reasons respondents were not employed at the time of the survey by division and by base and continuing education programs.

Table 16: Graduates Not Employed - Reason Not Employed, by Division, Base/Continuing Education, 2009

8.0 FURTHER EDUCATION OR TRAINING

The survey formally asked all respondents if, at the time of the survey (whether employed or not), they were enrolled in further education or training.

8.1 Respondents in Further Education or Training

Are you currently enrolled in an education or training program? (Question 29)

Whether employed or not, 21% of all SIAST respondents reported they were continuing their education at the time of the survey. This is an increase of 3% over the 2008 response. The largest percentages of respondents enrolled in further education came from the base and continuing education programs in the Business and Entrepreneurial Division (35% and 33% respectively) and the base programs in the Community Services (36%) Division.

Table 17: Graduates Currently Enrolled in Further Education or Training, by Division, by Base/Continuing Education, 2009

8.2 Type of Further Education or Training

Which type of training is it? (Question 30)

As shown in Figure 15, 51% of respondents (219 of 427) who were taking further education or training at the time of the survey were enrolled in programs at SIAST, either the same SIAST program or a different SIAST program altogether, which is 2% more than that reported in 2008. Thirteen percent of respondents continuing their education were enrolled in apprenticeship training programs while 15% of respondents were enrolled in a university program. Only 5% of respondents were enrolled in post-secondary program at another institute. Table 18 provides a breakdown of the type of training the respondents were enrolled in after graduation from SIAST by division and by base and continuing education programs.

Figure 15: Type of Further Training - SIAST Overall, 2009

9.0 PROGRAM COMPLETION

Which of the following best describes your reason for completing this program? (Question 4)

Overall, the majority of respondents (57%) indicated the reason for completing training was to obtain *employment in a specific field*, while some respondents indicated, *change of career* and *updating job skills* (11% each). Table 19 below indicates the further break down, by division, for reasons for completing SIAST programs.

Table 19: Reason for Completing SIAST Program, by Division, by Base/Continuing Education, 2009

10.0 PROGRAM ASSESSMENT

Respondents were asked to assess the overall quality of the program(s) they studied at SIAST and the ability of the training to prepare them for employment.

10.1 Quality of Program

Please rate the overall quality of the training you received in your program. (Question 5)

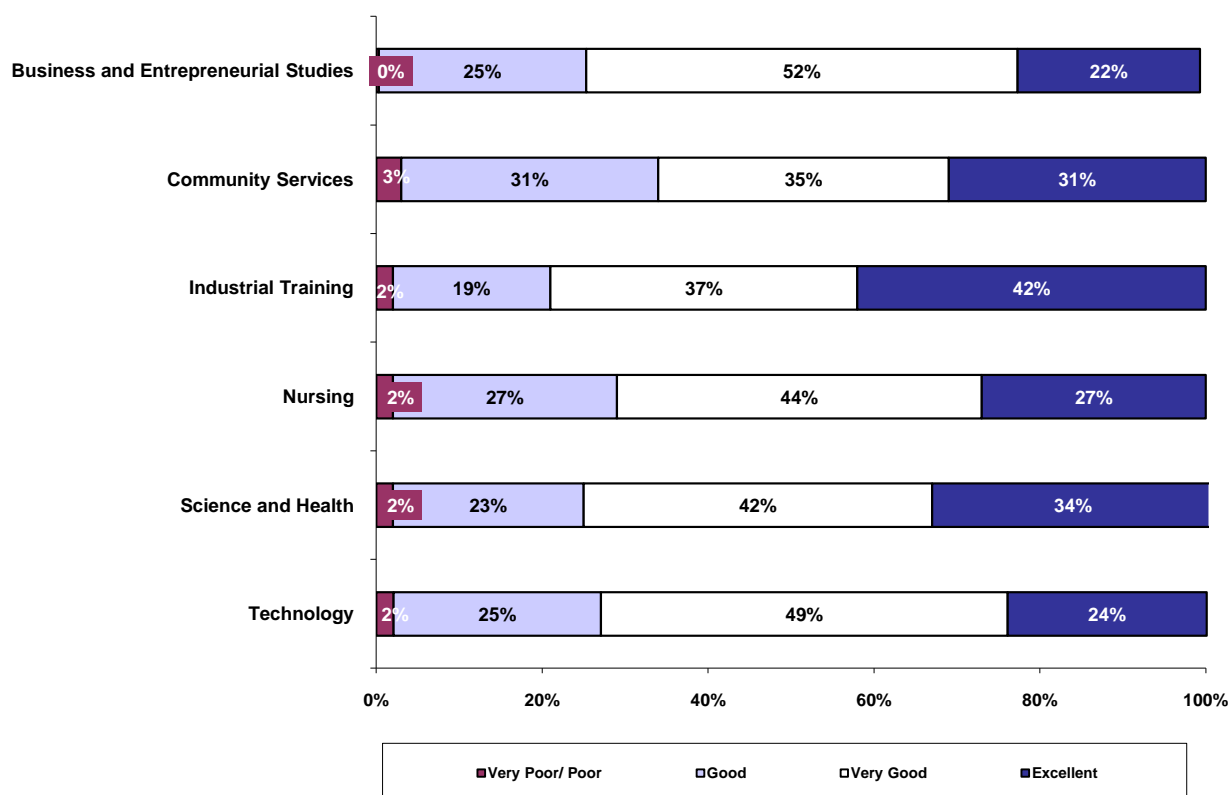

Consistent with the responses in past employment surveys, respondents continue to feel that SIAST provides high-quality training. Ninety-nine percent of all SIAST respondents rated the quality of their training they received as good to excellent (Table 20).

Table 20: Overall Quality of Training, by Base/Continuing Education, 2009

	Total Respondents	Excellent	Very Good	Good	Poor	Very Poor
Total SIAST Base Programs	1,322	28%	44%	26%	2%	0%
Total SIAST CE Programs	756	36%	40%	22%	1%	0%
OVERALL SIAST TOTAL	2,077	31%	43%	25%	1%	0%

Figure 16 provides a further breakdown of quality of training indicated by respondents by division. Programs from the Industrial Training and Community Services Divisions received the most favourable ratings from respondents.

Figure 16: Overall Quality of Training, by Division, 2009

10.2 Training Preparedness for Employment

Please rate how well the training program prepared you for employment in your field of study. (Question 6)

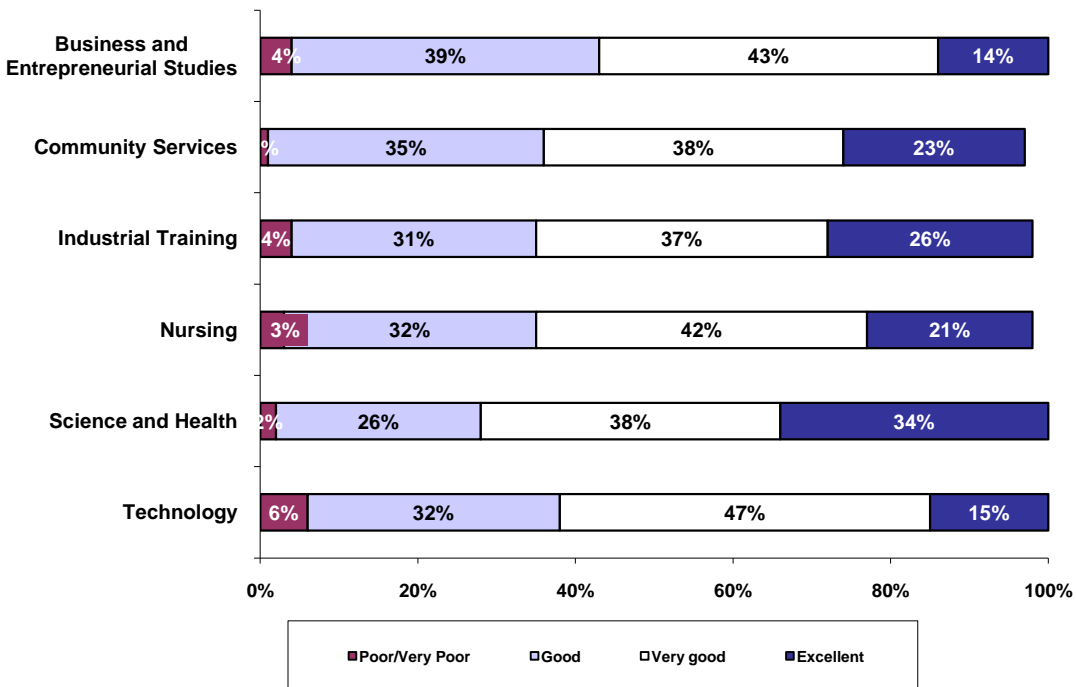

Similar to the responses in 2008, overall, 97% of respondents indicated that the ability of their training to prepare them for employment in their field of study was good to excellent (Table 21), with the majority of the rating (64%) being in the very good to excellent range.

Table 21: Training Prepared for Employment in Field of Study, by Base/Continuing Education, 2009

	Total Respondents	Excellent	Very Good	Good	Poor	Very Poor
Total SIAST Base Programs	1,294	22%	40%	35%	3%	0%

OVERALL SIAST TOTAL	2,040	23%	41%	33%	3%	0%

Figure 17 provides a breakdown of employment preparation by division. The majority of respondents in all divisions rated the training they received to prepare them for employment between excellent and very good.

Figure 17: Training Prepared for Employment in Field of Study, by Division, 2009

11.0 DEMOGRAPHICS

SIAST has a mandate to increase its equity participation both in staffing and students and to participate in the development of a workforce that is representative of the province's demographics.

11.1 Gender of all Respondents

Identify your gender. (Question 30)

SIAST-wide there continues to be more female respondents than male and the composition changes depending on the base and continuing education programs. Among respondents of base programs, the split was 56/44% female/male, while among respondents of continuing education programs the ratio was 62/38%, female/male (Table 22 and Figure 18). Overall, 58% of SIAST respondents were female and 42% male (Figure 9). In the 2008 study the SIAST-wide breakdown was 57% female and 43% male. Gender, as with other equity factors, is a self declaration.

Table 22: Gender, by Division, by Base/Continuing Education, 2009

	TOTAL RESPONDENTS	MALE	FEMALE
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	229	22%	78%
Community Services	264	25%	74%
Industrial Training	200	92%	8%
Nursing	121	12%	88%
Science and Health	244	23%	77%
Technology	264	77%	23%

Nursing	62	7%	93%
Science and Health	163	9%	91%
Technology	65	94%	6%
Total SIAST CE Programs	756	38%	62%
OVERALL SIAST TOTAL	2,078	42%	58%

Figure 18: Gender by Base/Continuing Education, 2009

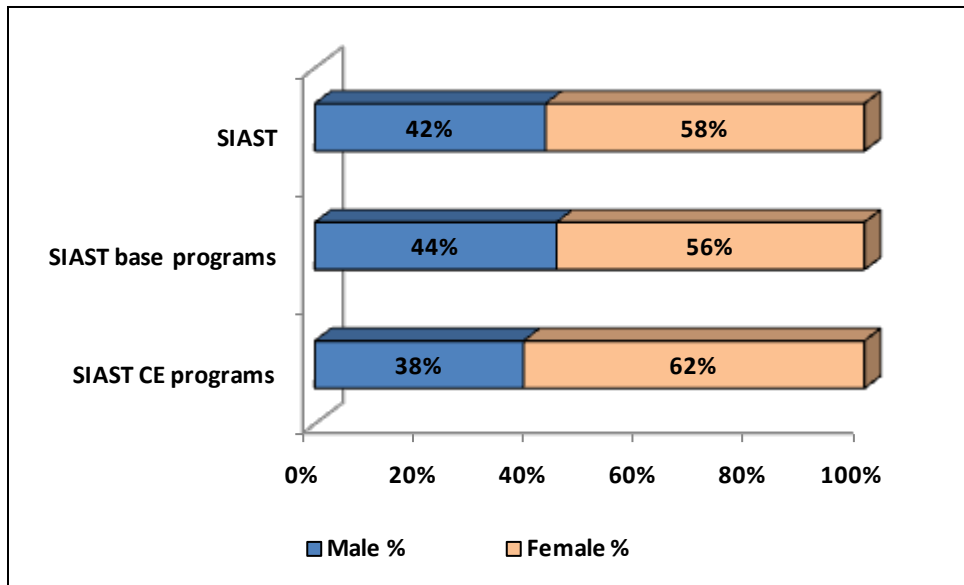

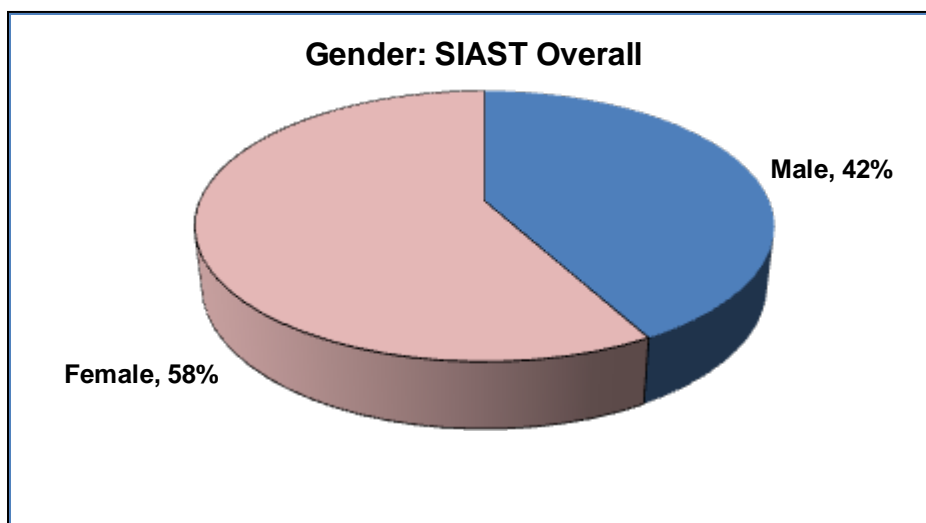

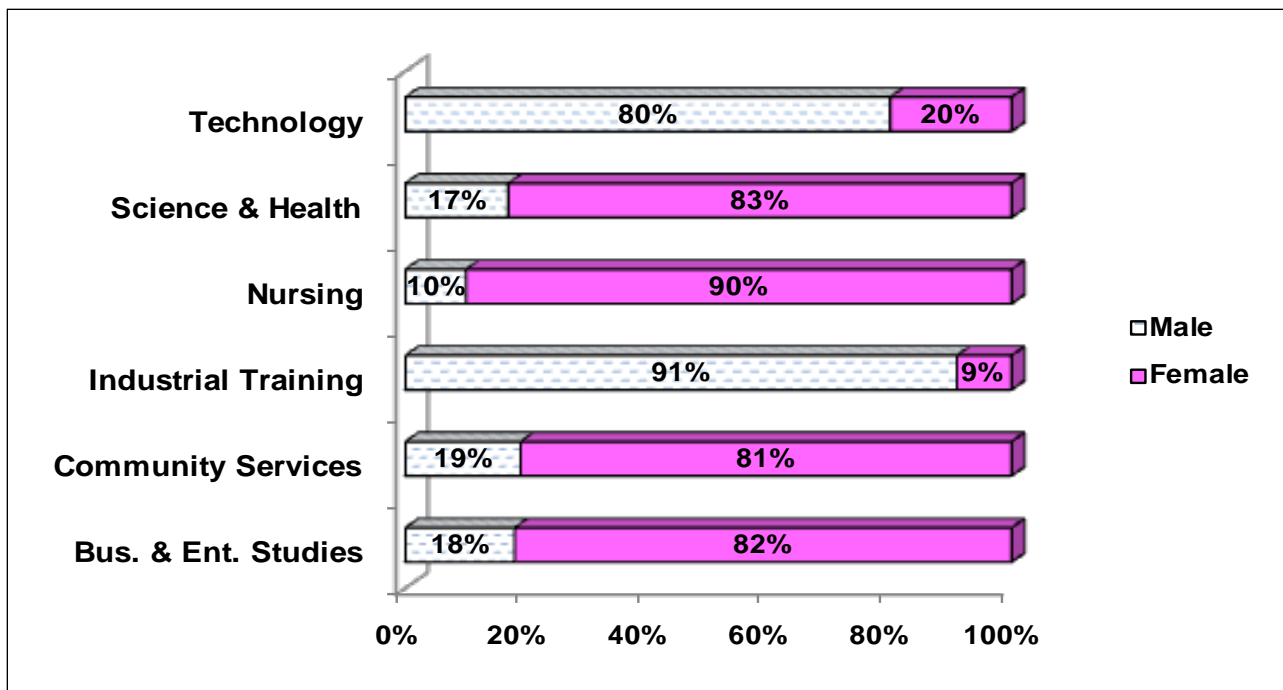

Figure 19: Gender Overall, 2009

Respondents in the Industrial Training and Technology Divisions had the largest percentage of males (91% and 80%, respectively) whereas the Nursing Division had the largest percentage of females (90%). The program mix in these three divisions was most likely a factor in the gender differences. For example, programs in the Industrial Training Division are traditionally male dominated, whereas the Nursing Division is traditionally dominated by females. Over four-fifths of respondents in other divisions (81% to 83%) were also dominated by females.

Figure 20: Gender by Division, 2009

11.2 Ages of all Respondents

How old were you on June 30, 2008? (Question 32)

As shown in Table 23, the average age of SIAST graduates was 28 years while the median age was 24 years. Respondents of continuing education programs were relatively older (with the mean and the median age at 33 and 30 years of age, respectively) than the base program respondents, whose mean and median ages were 25 and 22, respectively.

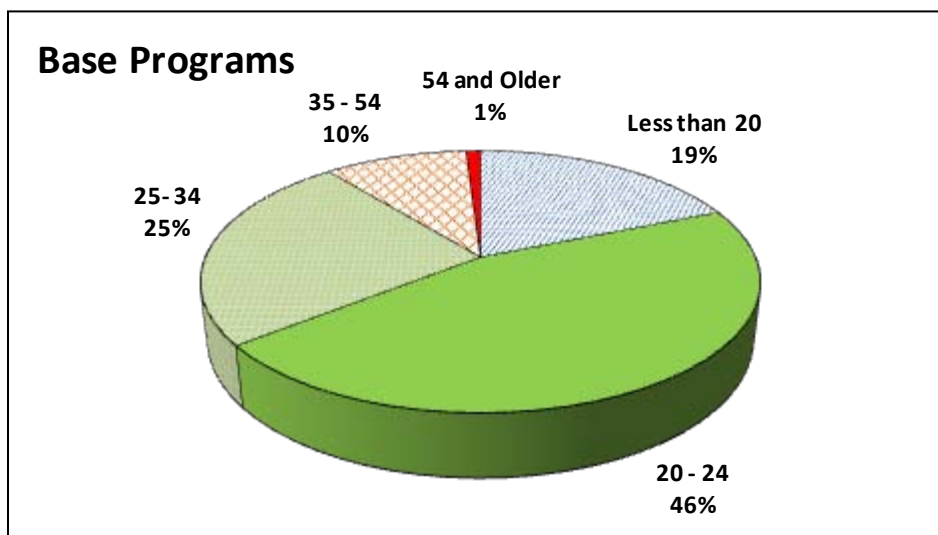

Among divisions there was little diversity in the mean age of respondents in base programs except for respondents in the Nursing Division's programs whose average age was substantially higher at 36 years. This is consistent with the results in 2007 and 2008. Many participants of these programs have been out working in the field prior to returning to SIAST for additional training.

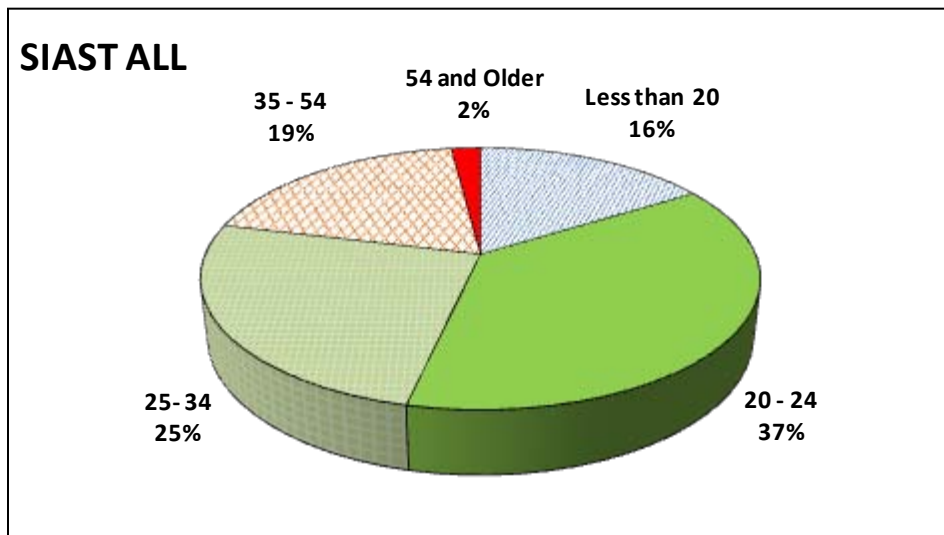

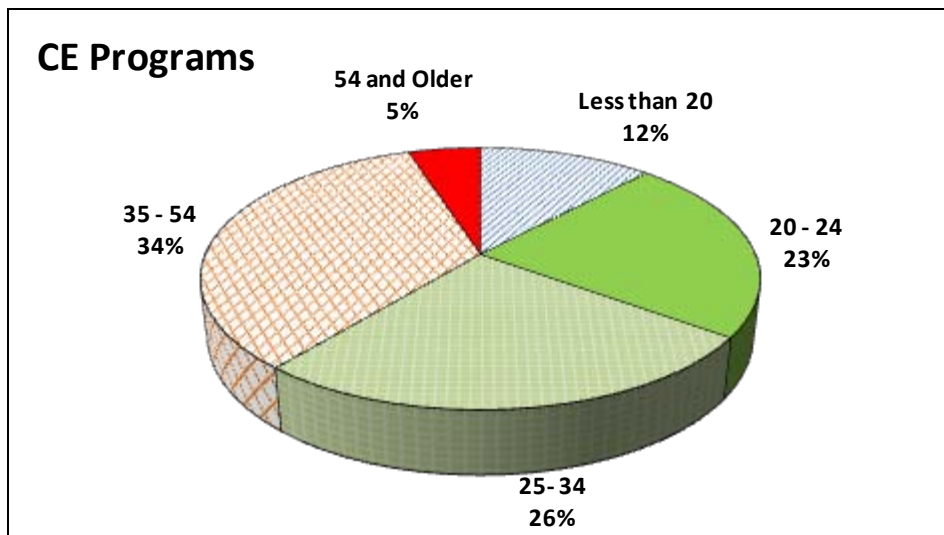

In SIAST continuing education programs, respondents in all divisions, with the exception of Technology (27 years), had a mean age over 30 years. Figure 21 further illustrates the distribution, by division, of respondents by age.

Table 23: Age at June 30, 2009, by Division, by Base/Continuing Education, 2009

11.3 Aboriginal Ancestry

Are you of Aboriginal ancestry? (Question 33)

The definition of Aboriginal refers to those persons who are First Nations (Registered, Treaty or Status Indians), Non-status Indians, Métis and Inuit. Equity status is a self declaration. Of the graduates who responded to the survey, 15% (304 of 2,078) indicated they were of Aboriginal ancestry.

Among the divisions the Industrial Training Division had the highest percentage of respondents (22%) declaring Aboriginal ancestry, followed by the Community Services Division (21%). Figure 22 illustrate the percentage of Aboriginal and non-Aboriginal respondents in each division.

Figure 22: Aboriginal Ancestry Identification, by Division, 2009

Aboriginal Category

*Do you consider yourself Status/Treaty Indian, Métis, Non-Status Indian or Inuit?
(Question 34)*

The majority of Aboriginal respondents indicated that they were Métis (57%) or Status/Treaty Indian (41%), while the Non-Status group made up 2%. Table 24 provides a breakdown of the Aboriginal status of SIAST graduates by division for both base and continuing education programs.

Table 24: Identified Ancestry Type, by Division, by Base/Continuing Education, 2009

11.4 Visible Minority Declaration

Do you consider yourself a member of a visible minority? (Question 35)

Respondents were given the opportunity to identify if they were members of a visible minority. The definition of visible minority includes those who are visibly distinguishable from the majority of Canadians on the basis of race or ethnic origin. It does not include those declaring Aboriginal ancestry. As shown in Table 25 visible minority represents 9% of total respondents which is the same as 2008.

**Table 25: Visible Minority Identification, by Division, by

11.5 Persons with Disabilities Declaration

Do you consider yourself a person with a disability? (Question 35)

Respondents were given the opportunity to indicate if they were a person with a disability. The definition of a person with a disability includes any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

In this survey, 5% of respondents indicated that they had a disability, a 1% increase over 2008. However, the higher percentage of disabled respondents represents in both base and continuing education programs in Community Services Division.

Table 26: Persons with Disabilities Identification, by Division, By Base/Continuing Education, 2009

	TOTAL RESPONDENTS	TOTAL RESPONDENTS WITH DISABILITIES	DISABILITIES IDENTIFICATION
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	229	9	4%
Community Services	264	18	7%
Industrial Training	200	8	4%
Nursing	121	8	7%
Science and Health	244	14	6%
Technology	264	11	4%
Total SIAST Base Programs	1322	68	5%
SIAST CE Programs by Division			
Business and Entrepreneurial Studies	124	3	2%
Community Services	131	8	6%
Industrial Training	211	10	5%
Nursing	62	1	2%
Science and Health	163	3	2%
Technology	65	0	0%
Total SIAST CE Programs	756	25	3%
OVERALL SIAST TOTAL	2078	93	5%

Respondents were asked to provide general comments at the end of the survey regarding SIAST's programs and services. The comments were distributed to all SIAST deans and management for their review and consideration.

APPENDICES

APPENDIX A: PROGRAM CHANGES

Revisions to the following programs were recently approved. Some revisions were effective immediately and other revisions not effective until the 2008-09 academic year.

DIVISION/PROGRAM NAME	CHANGE
Business and Entrepreneurial Studies Division	
Human Resources Advanced Certificate	Program deleted June 2008
Human Resources Management Certificate	Replaced the Human Resources Advanced Certificate
Retail Meat Cutting	Program title changed to Retail Meat Specialist, February 2009
Medical Office Assistant	Program titled change to Medical Office Transcriptionist, April 2008
Community Services Division	
Graphics Arts Production	Major revisions to have Certificate and Diploma Programs, March 2009
Nursing Division	
Nursing Education of Saskatchewan (NEPS)	Program deleted, June 2008
Practical Nursing	AEEL approval of exit credential change from certificate to diploma, June 2008
Psychiatric Nursing Diploma	Program Implemented, March 2008
Industrial Training Division	
Parts Person Applied Certificate	Program Approval, April 2008
Science and Health Division	
Medical Laboratory Assistant Applied Certificate	Program Approval, April 2008
Combined Laboratory and X-ray Technician	Program title change to Combined Laboratory and X-ray Technology, Credential change from Certificate to Diploma, April 2008
Primary Care Paramedic Applied Certificate	Credential changed from Applied Certificate to Certificate, April 2008
Technology Division	
No changes in this Academic Year	

APPENDIX B: 2009 GRADUATE EMPLOYMENT SURVEY

SIAS

SASKATCHEWAN INSTITUTE OF
APPLIED SCIENCE AND TECHNOLOGY

2009 Graduate Employment Survey

General Information

Q1 What is the full name of the program from which you graduated? _____

Q2 What is the name of the credential that you received? **(SELECT ONLY ONE)**

____ Applied Certificate ____ Certificate ____ Advanced Certificate ____ Diploma

Q3 At which SIAS campus or other location did you take your program?

____ Kelsey ____ Palliser
____ Wascana ____ Woodland
____ Regional College or Other Provider (including online), **specify** _____

Q4 Which of the following **best** describes your reason for completing this program? **(SELECT ONLY ONE)**

____ Employment in this field interested me ____ To change careers
____ To upgrade or formalize training in field ____ Employer requirement
____ To gain entry into higher level of post-secondary training ____ Personal reasons
____ Sponsored to take training (i.e., disability/workers compensation, unemployment, etc.)

Q5 Rate the overall quality of training you received in your program.

____ Excellent ____ Very Good ____ Good ____ Poor ____ Very Poor

Q5b. If you feel the overall quality of training you received in your program was not good, provide a brief comment on what SIAS might do to improve the training.

Q6 Rate how well the training you received prepared you for employment in your field of study.

____ Excellent ____ Very Good ____ Good ____ Poor ____ Very Poor

Q6b. If you feel the training you received did not prepare you for employment in your field of study, provide a brief comment on what SIAS might do to improve the training.

Q7 Were you already employed in your field of study prior to enrolling at SIAS?

____ Yes ____ No

Q8 How many employment opportunities have you applied for since completing your training program? _____

Q9 If none, why have you not applied for any employment opportunities?

____ Already employed in field of training while enrolled in program
____ Offered employment during practicum
____ Personal reasons
____ Other, please specify _____

Q10 How many employment interviews have you had? _____

Q11 Are you presently employed?

____ Yes **(CONTINUE TO Q12)** ____ No **(GO TO Q23)**

Employment Information – If you are presently employed, complete Q12-22. If not, go to Q23

- Q12** Are you self-employed? _____ Yes _____ No
- Q13** Are you employed in a job directly related to the education and training you received in your program at SIAST?
_____ Yes _____ No
- Q14** How many jobs do you currently have? (Enter 0 if you are not employed in a particular category)
_____ # of Training Related Jobs _____ # of Non-training Related Jobs

INSTRUCTIONS FOR QUESTIONS 15 to 22: ALL GRADUATES WHO ARE CURRENTLY EMPLOYED RESPOND TO Q15 TO Q22.

- For those respondents who are employed in more than one training related job, provide your answers based on the one you consider to be your 'primary job'.
- For those respondents who are not employed in a training related job, provide your answer based on the non-training related job you consider to be your 'primary' job.

- Q15** What is the title of your primary training related job? (If you do not have a training related job, provide the title of your primary non-training related job)
_____ Title of primary training related job
_____ Title of primary non-training related (Do not have a training related job)
- Q16** What is your employment status in your primary training related job? (If you do not have a training related job, provide the employment status of your primary non-training related job)
_____ Permanent Full-time (30 hours or more per week) _____ Non-permanent full-time
_____ Permanent Part-time (less than 30 hours per week) _____ Non-permanent part-time
_____ Casual
- Q17** If your primary job is a part-time or casual position, is this by choice?
_____ Yes _____ No _____ Not Applicable
- Q18** What is the hourly salary of your primary training related job, before deductions? (If you do not have a training related job, provide your salary for your primary non-training related job)
\$ _____ /hour If your hourly rate is unknown, provide an average monthly salary \$ _____ /month
- Q19** Where is the location of your primary training related employment? (If you do not have a training related job, provide the location of employment for your primary non-training related job)
_____ Moose Jaw _____ Prince Albert _____ Regina _____ Saskatoon
_____ Other Saskatchewan location, please specify nearest community _____
_____ Outside Saskatchewan, please specify province, or country _____
- Q20** If employment was found outside of Saskatchewan, was this by choice?
_____ Yes _____ No _____ Not applicable (**GO TO Q22**)
- Q21** Indicate the **main** reason why you moved out-of-province for employment (**SELECT ONLY ONE**)
_____ More employment opportunities _____ Better wages and benefits
_____ Personal Reasons _____ Other, specify _____
- Q22** Select the option below that **best** describes which industry sector the employer for your primary training related employment operates in. (If you do not have a training related job, provide the industry sector the employer for your primary non-training related position operates in) (**SELECT ONLY ONE**)
- | | |
|---|---|
| _____ Biotechnology, Pharmaceuticals or Nutraceuticals | _____ Health |
| _____ Business and Professional services | _____ Hospitality and Tourism |
| _____ Construction | _____ Human/Social Services and Justice |
| _____ Education Services | _____ Manufacturing (includes agri-value) |
| _____ Film, Video, Multi-media, Printing and Publishing | _____ Natural Resources and Environment |
| _____ Finance, Insurance, Real estate | _____ Retail and Wholesale |
| _____ Government Services/Public Administration | _____ Technology Electronics Communications |
| _____ Transportation, Trucking, and Heavy Equipment (includes aviation and automotive/autobody service) | |
| _____ Other, specify _____ | (CONTINUE TO Q29) |

Graduates Not Employed – If you are NOT currently employed, complete Q23-28.

- Q23** Which of the following **best** describes the reason why you are currently not employed? (**SELECT ONLY ONE**)
 Returned for further education Lack of experience
 Quit employment or lost desire to work in field Laid off by employer (includes term or seasonal work)
 No employment opportunities Personal reasons
- Q24** Have you worked at all since completing your training program (includes part-time or casual positions)?
 Yes No (**GO TO Q26**)
- Q25** If yes, was the most recent work directly related to the education and training you received in your program?
 Yes No
- Q26** Are you scheduled to return to work in the future?
 Yes No
- Q27** Are you actively looking for work at present?
 Yes (**GO TO Q29**) No
- Q28** If no, which of the following best describes your reason for not looking for work?
 Returned for further education Given up looking - no employment opportunities
 Personal reasons (i.e., not available to work due to family, health etc.) (**CONTINUE TO Q29**)

Further Education – ALL graduates to complete Q28 and Q29, whether presently employed or not

- Q29** Are you currently enrolled in an education or training program?
 Yes No (**GO TO Q31**)
- Q30** Which type of training is it? (**SELECT ONLY ONE**)
 The same SIAST program (different credential) A post-secondary program at another institute (not university)
 A different SIAST program An apprenticeship program
 A university program Other program, specify _____
- Q31** Identify your gender
 Male Female
- Q32** How old were you on June 30th, 2009? _____
- Q33** Are you of Aboriginal ancestry?
 Yes No (**GO TO Q35**)
- Q34** If YES, do you consider yourself?
 Status/Treaty Indian Metis Non-Status Indian Inuit
- Q35** Do you consider yourself a member of a visible minority? Yes No
The definition of a visible minority is: A group of persons, with the exception of Aboriginal people, who are visibly distinguishable from the majority of Canadians on the basis of race, religion, and skin colour, national or ethnic origin.
- Q36** Do you consider yourself a person with a disability? Yes No
The definition of a person with a disability is: any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

Please add any additional comments that you wish to make:

APPENDIX C: 2009 SIAST GRADUATE EMPLOYMENT SURVEY – TOTAL RESPONSES PER QUESTION

The total number of graduates responding to each question varied because:

- a) Respondents did not always provide answers to all questions and/or
- b) Some questions were not relevant to all respondents.

Due to their nature, some questions do not report the number of respondents (e.g., Q1.).

	Number of Graduates Surveyed:	3,519
	Number of Respondents:	2,079
Q1.	What is the name of the program from which you graduated?	
		# Of Respondents to Question
Q2.	What is the name of the credential that you received?	
	Applied Certificate	329
	Certificate	1,137
	Advanced Certificate	74
	Diploma	<u>539</u>
		2,079
Q3.	At which SIAST campus or regional college did you take your program?	
	Kelsey	726
	Palliser	419
	Wascana	583
	Woodland	<u>351</u>
		2,079
Q4.	Which of the following best describes your reason for completing this program? (Select only one)	
	Employment in this field interested me	1,188
	To upgrade or formalize training in field	224
	To change careers	219
	To gain entry into higher level of post-secondary training	109
	Employment requirement	78
	Sponsored to take training (i.e., disability/workers compensation, unemployment etc)	37
	Personal reasons	216
	Other Reasons	<u>4</u>
		2,075
Q5.	Please rate the overall quality of training you received in your program	
	Excellent	640
	Very Good	41
	Very Good	887
	Good	515
	Poor	31
	Very Poor	<u>4</u>
		2,077
Q6.	Please rate how well the training prepared you for employment in your field	
	Excellent	475
	Very Good	763
	Very Good	834
	Good	672
	Poor	51
	Very Poor	<u>8</u>
		2,040

Q7.	Were you already employed in your field of study prior to enrolling at SIAST?	
	Yes	466
	No	<u>1611</u>
		2,079
Q8.	How many employment opportunities have you applied for since completing your training program?	
	Have not applied for any jobs since completing training	412
	Have applied for jobs since completing training	<u>1,667</u>
		2,079
Q9.	If none, why have you not applied for any employment opportunities?	
	Already employed in field of study	183
	Offered employment during practicum	71
	Personal reasons	133
	Other, specify	<u>25</u>
		1,667
Q10	How many employment interviews have you had?	1,536
Q11.	Are you presently employed?	
	Yes	1759
	No	<u>320</u>
		2,079

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE PRESENTLY EMPLOYED

Q12.	Are you self-employed?	
	Yes	100
	No	<u>1659</u>
		1,759
Q13.	Are you employed in a job directly related to the education and training you received in your program? At SIAST?	
	Yes	
	No	
Q.14	How many jobs do you currently have?	
	Maximum	3
	Mean	1.26
	Median	1.00
Q15.	What is the title of <u>primary</u> (main) job?	
Q16.	What is your employment status of your <u>primary</u> job? (Select only one)	
	Permanent Fulltime (30 hours or more per week)	1,130
	Permanent Part-time (less than 30 hours per week)	219
	Non-permanent full-time (i.e. term contract, seasonal)	180
	Non-permanent part-time (i.e. term contract, seasonal)	66
	Casual	<u>164</u>
		1,759

Q17.	If your <u>primary</u> job is a part-time or casual position, is this by choice?	
	Yes	281
	No	<u>156</u>
		437
Q18.	What is your average monthly salary of your <u>primary</u> job, before deductions? (Salary analyzed for Full-Time Training-Related Employment only)	
	Maximum	\$11,250
	Mean	\$2,938
	Median	\$2,700
	Minimum	\$1,388
Q19.	Where is the location of your <u>primary</u> employment? (Select only one)	
	Moose Jaw	63
	Prince Albert	102
	Regina	412
	Saskatoon	426
	Other Saskatchewan location	679
	Outside Saskatchewan	<u>77</u>
		1,759
Q20.	If <u>primary</u> employment was found outside of Saskatchewan, was this by choice?	
	Yes	55
	No	<u>22</u>
		57
Q21.	Please indicate the primary reason why you moved out-of-province for employment. (Select only one)	
	More employment opportunities	17
	Better wages and benefits	10
	Personal reasons	31
	Other reasons	<u>19</u>
		77
Q22.	Please select the option that best describes which industry sector your primary employer operates in. (Select only one)	
	Biotechnology, Pharmaceuticals or Nutraceuticals	12
	Business and Professional Services	79
	Construction	158
	Education Services	133
	Film, Video, Multi-media, Printing and Publishing	13
	Finance, Insurance, Real Estate	40
	Government Services/Public Administration	74
	Health	552
	Hospitality and Tourism (includes casinos)	52
	Human/Services and Justice	41
	Manufacturing (includes metal fabrication, agric-value and food processing)	65
	Natural Resources and Environment (includes agriculture, forestry, mining, oil and gas)	107
	Retail and Wholesale	80
	Technology, Electronics and Telecommunications	54
	Transportation, Trucking and Heavy Equipment (includes aviation and automotive/ body services)	101
	Other, Specify	<u>198</u>
		1,759

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE NOT PRESENTLY EMPLOYED

Q23.	Which of the following best describes your reason for not looking for work? (Select only one)	
	Returned for further education	130
	No employment opportunities	5
	No employment opportunities	55
	Lack of experiences	31
	Quit employment or lost desire to work in field	5
	Laid off by employer	42
	Personal reasons	<u>57</u>
		320
Q24.	Have you worked at all since completing your training program (includes part-time or casual positions)?	
	Yes	235
	No	<u>85</u>
		320
Q25.	If yes, was the most recent work directly related to the education and training you received in your program?	
	Yes	126
	No	<u>108</u>
		234
Q26.	Are you scheduled to return to work in the future?	
	Yes	166
	No	<u>153</u>
		320
Q27.	Are you actively looking for work?	
	Yes	194
	No	<u>125</u>
		319
Q28.	If no, which of the following best describe your reason for not looking for work?	
	Returned for further education	88
	Given up looking – no employment opportunities	3
	Personal reasons	<u>39</u>
		125

RESPONSES TO QUESTIONS ON FURTHER EDUCATION FROM ALL RESPONDENTS

Q29.	Are you currently enrolled in an education or training program?	
	Yes	427
	No	<u>1,651</u>
		2,078
Q30.	Which type of training is it? (Select only one)	
	The same SIAST program (different credential)	132
	A different SIAST program	87
	A post-secondary program at another institute (other than university)	23
	An apprenticeship program	56
	A university program	67
	Other program	<u>62</u>
		427

RESPONSES TO DEMOGRAPHIC QUESTIONS FROM ALL RESPONDENTS

Q31.	Identify your gender:	
	Male	864
	Female	<u>1,210</u>
		2,074
Q32.	How old were you on June 30 th , 2008?	
	Maximum age	72
	Mean age	28
	Median age	24
	Minimum age	18
Q33.	Are you of Aboriginal ancestry?	
	Yes	304
	No	<u>1,762</u>
		2,066
Q34.	If yes, do you consider yourself?	
	Status/Treaty Indian	124
	Métis	174
	Non-Status Indian	5
	Inuit	<u>0</u>
		303
Q35.	Do you consider yourself a member of visible minority?	
	Yes	190
	No	<u>1,872</u>
		2,062
Q36.	Do you consider yourself a person with a disability?	
	Yes	93
	No	<u>1,983</u>
		2,076
