EXECUTIVE SUMMARY

SIAST annually surveys graduates from its certificate and diploma programs, six to twelve months following graduation. Graduates are asked questions regarding the quality of training, their employment outcome and further education. The major findings of the SIAST Graduate Employment Survey (GES) of 2009-10 graduates are listed below. Where possible, for comparison, the 2008-09 figures are included in brackets. Program-specific breakdowns of the results are located in the program pages at the end of the report.

Graduate/Respondent Profile:

- 3,476 (3,519) graduates that received credentials from 157 distinct programs in the time period July 2009 - June 2010 were surveyed.
- Of the 3,476 surveyed graduates, 2,052 (2,079) responded for an overall response rate of 59% (59%).
- Sixty two percent (60%) of the graduates were from base programs (2,149 in 2010) and 38% (40%) from continuing education programs (1,327 in 2010). The proportion of respondents in both base and continuing education programs were almost close to the actual graduate ratio (64% or 1,313-base and 37% or 739-CE respondents in 2010).
- 59% (58%) of respondents were female and 41% (42%) were male, which closely reflects the actual gender ratio of graduates.
- 13% (15%) of respondents identified themselves as being of Aboriginal origin. The Aboriginal respondents identified themselves as 43% (41%) Status/Treaty Indian, 50% (57%) as Métis, 6% (2%) as Non-Status Indian and none (0%) as Inuit.
- 5% (5%) of respondents indicated that they were persons with disabilities and 10% (9%) identified themselves as members of a visible minority.
- The average age of all respondents was 28 (28) years of age. At 25 (25) years of age the average age was lower in the base programs and much higher in the continuing education programs at 31 (33) years of age.
- 56% (57%) of respondents reported seeking employment in this field as the primary reason for completing their programs.
- 20% (21%) of all respondents indicated they were enrolled in further education at the time of the survey. Of this figure, 44% (51%) were enrolled in a SIAST program – either the same SIAST program (different credential) or a different program altogether.

Quality of Training:

- 99% (99%) of all respondents rated the overall program quality at SIAST as good to excellent.
- 96% (97%) of all employed respondents rated the ability of the program to prepare them for employment in their field of study as good to excellent.

Key Findings based on the 'Available Workforce' (those employed and those not employed but looking for work):

- The impact of the economic recession continues to be evident in reported employment rates of the 2009-10 graduates.
- 94% (94%) of the 2,052 respondents were either employed (1,768 in 2010) or not employed but looking for work (169 in 2010) at the time of the survey (available workforce).
- 91% (90%) of respondents who were available to work were employed (employment rate).
- 67% (67%) of respondents available to work were employed in full-time occupations.
- 77% (73%) of respondents available to work were in training-related occupations.
- 57% (55%) of the respondents available for work were employed in full-time training-related occupations.
- The Aboriginal graduate employment (82%) rate increase by 3 percentage points from 2009.
- Training-related employment of Aboriginal graduates increased to 66% (61%).
- Full-time employment for Aboriginal graduates also increased to 58% (54%).

Other Key Findings:

- The average salary for respondents in full-time training-related employment was \$3,175 (\$3,063) per month, a 4% increase over 2009.
- 5% (6%) of employed respondents indicated they were self-employed.
- Of those respondents who were employed, 26% (25%) were working part-time or casually and of these, 58% (63%) reported that the part-time work was by choice.
- 96% (95%) of respondents employed in training-related positions were working in Saskatchewan. Of this figure, 53% (47%) were working either in Regina or Saskatoon. The number of respondents working in 'Other Saskatchewan Locations', outside the four campus cities, decreased by approximately 7% to 32% (39%) in training-related positions.
- When looking at all employed respondents, 4% (4%) of the respondents indicated their primary employment was obtained outside Saskatchewan and of that figure, 82% (71%) reported that this was by choice. Of those who reported working outside Saskatchewan, 37% (40%) indicated personal reasons as the primary reason for leaving the province.
- Of the 284 respondents who reported they were not working at the time of the survey, 69% (73%) indicated they had worked at some time since graduation and 58% (54%) of these respondents had been employed in work directly related to their training.
- 51% (52%) of graduates not employed at the time of the survey reported they were scheduled to return to work in the future.
- 63% (66%) of respondents, who were not employed, indicated they were not looking for work, primarily because they were enrolled in further education.

INTRODUCTION

1.0 INTRODUCTION

The SIAST Graduate Employment Report is produced from data collected from the SIAST Graduate Employment Survey (GES). The survey collects data from a variety of questions relating to the employment status, evaluation of training and general demographic characteristics of SIAST's graduates.

One of SIAST's strategic goals is to maximize student success. Graduate feedback from the survey provides valuable information about the quality of training and the success of SIAST graduates in the labour market. A wide range of stakeholders, from SIAST management, government, high school students and career counsellors, labour analysts and policy administrators, use the Graduate Employment Report as a reference document for program and labour market review and planning. The Institutional Research and Analysis (IR&A) unit at SIAST undertook the survey on behalf of the institution.

1.1 Scope

The 2010 SIAST GES contacted 3,476 graduates who completed a SIAST program of study and graduated between July 2009 and June 2010.

In the 2009-2010 academic year, SIAST had graduates from a total of 157 distinct credentialed programs. Many SIAST programs are also offered off-campus throughout the province and these are considered continuing education programs. SIAST continuing education programs are generally cost-recovery and are offered throughout the province in a variety of delivery formats: with partners, via distance education learning and in industry-based training formats.

All programs at SIAST are clustered and reported within one of the following six program divisions:

- Business and Entrepreneurial Studies
- Industrial Training
- Science and Health
- Community Services
- Nursing
- Technology

One of the following four credentials is awarded for each SIAST program: Applied Certificate, Certificate, Advanced Certificate and Diploma. In some instances a program may have both a certificate and diploma level exit credential.

In order to have programs that are current, SIAST continually reviews the program mix. Some programs may have recently been deleted but graduates were permitted to complete their programs and graduate. Some programs have been re-titled or re-credentialed. Appendix A lists changes to the programs offered.

1.2 Methodology

Data Collection and Analysis

A census of SIAST graduates within an academic year was undertaken to obtain a sufficient number of graduates for the GES. The graduate contact list, including telephone numbers and mailing addresses, was provided by Enrolment Services at SIAST.

A tri-modal data collection process was used to contact SIAST graduates. It consisted of three phases which occurred between December 2010 and April 2011. The first was a

mail out of a self-administered paper survey to all 3,476 graduates. In December 2010, each graduate received the questionnaire to complete, along with a letter explaining the purpose of the study. A link to an online version of the survey was also provided in the invitation letter for those respondents who would prefer to complete the survey using the Internet. The invitation letter was followed up with an e-mail invitation that contained an electronic link to the online survey.

In March/April 2011, Inshtrix Research Inc. of Saskatoon was contracted to conduct one-on-one telephone interviews with those graduates who did not respond to the mail-out questionnaires or email invitation by February, 2011. Every effort was made to contact the graduates in order to provide the highest possible response rate. The participants were entered to win a 17" wireless Duo Base processor 2GB laptop as well as three early bird draws of either an iPod or digital camera to encourage them to participate in the survey.

The online responses were collected using the Perseus Enterprise web-based survey tool, a method that IR&A introduced in 2007. The purpose of this method was for respondents to directly enter their own responses to the questions in the survey and therefore avoid any misinterpretation of responses when entered manually. The responses from the mail-in portion of the survey (paper version) were manually entered by IR&A staff. IR&A continues to develop new measures to have all future graduate employment surveys completed online. The responses from graduates by the different methods of surveying were merged, checked for accuracy and consistency and then analyzed using the Statistical Package for Social Science (SPSS) software.

1.3 Response Rate and Validity of Results

A total of 2,052 graduates participated in the 2010 GES, with an overall response rate of 59%. Table 1 provides the response rates for SIAST overall, by division and by base/continuing education.

Table 1: Survey Response Rate, by Division, by Base/Continuing Education, 2010

2010	GRADUATES	RESPONDENTS	RESPONSE RATE
SIAST Overall Programs by Division			
Business and Entrepreneurial Studies	557	341	61%
Community Services	733	400	55%
Industrial Training	660	358	54%
Nursing	233	151	65%
Science and Health	717	458	64%
Technology	576	344	60%
Total SIAST Programs	3,476	2,052	59%
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	331	195	59%
Community Services	440	254	58%
Industrial Training	333	196	59%
Nursing	205	135	66%
Science and Health	420	270	64%
Technology	420	263	63%
Total SIAST Base Programs	2,149	1,313	61%
SIAST CE Programs by Division			
Business and Entrepreneurial Studies	226	146	65%
Community Services	293	146	50%
Industrial Training	327	162	50%
Nursing	28	16	57%
Science and Health	297	188	63%
Technology	156	81	52%
Total SIAST CE Programs	1,327	739	56%

SIAST's GES is unique because, rather than survey a sample of the 2010 SIAST graduates, a full census of every graduate is undertaken. SIAST is a post-secondary institution offering more than 157 distinct programs at four urban campuses as well as numerous rural locations. Some of these programs have less than thirty graduates which makes it impossible to survey a sample of the graduates and obtain meaningful results at the individual program level.

Response Rates for Small Populations

For populations with less than 30 participants, as is the case with several SIAST programs, it is recommended that all participants be surveyed in order to obtain reliable information. At the program level, the results will provide a good indication of graduate success and training quality, but may not be representative of all graduates from that program if the population is less than 30 graduates and only a small portion of graduates respond. SIAST makes every effort to contact all the graduates and encourage them to participate. Note: When viewing individual program pages, with low/small number of graduates and a low response rate (i.e., less than 30%), generalizations of the results in the survey should be made with caution.

1.4 Reporting of Results

The 2010 SIAST GES report was compiled from an analysis of the results of the survey. The findings of the analysis are presented in the Overview of Results that summarizes the survey results regarding employment status, program assessment and general graduate demographics by SIAST overall, by base (primarily on-campus activity) and continuing education (primarily brokered off-campus activity throughout the province), as well as the six SIAST program divisions.

Two types of ratios have been included in the Graduate Employment Report for questions pertaining to employment status and training-related employment. In Sections 2.1.1 to 2.1.6, employment information is presented as a percentage of those graduates available to work. According to Statistics Canada, the available to work is defined as the labour force and includes those that are currently employed, as well as those not currently employed but who are seeking employment.

For example, 1,768 graduates responded to the question regarding employment status (full-time versus part-time). Of these, 1,306 respondents indicated that they are employed full-time. In calculating the full-time employment rate listed in the sections mentioned above, the 1,306 responses are divided by the available workforce total – 1,937 (comprised of 1,768 respondents employed and 169 respondents actively seeking employment), for a full-time employment rate of 67%.

In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of graduates who responded to the respective employment questions in the survey rather than the available workforce. For example, in reporting employment status (Section 2.3.1), the frequency for those respondents with a full-time status (74%), was calculated by dividing the 1,306 respondents who indicated they are employed full-time by the 1,768 graduates who responded they are employed.

For Sections 2.3.1 and 2.3.2, similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators and the program pages at the back of the report.

Where applicable the report has been rounded to the nearest whole percentage and, therefore, in some cases the total percentages may vary slightly from 100% or in some cases where responses do not equal 100%, the difference is for graduates who indicated "Don't Know/Refused".

In presenting the results, the total number of graduates responding to each question will vary because: a) respondents did not always provide an answer to each question; and/or b) some questions were not relevant to some respondents. For example, some questions were asked only of those who were currently employed at the time of the survey and conversely, other questions were asked only of those who were not currently employed at the time of the survey.

The Appendices section at the back of the report contains a listing of programs that have recently been revised, either re-titled, identified with different credentials or deleted (appendix A); a copy of the survey questionnaire (appendix B); a question-by-question response count (appendix C); general SIAST information (appendix D); a list of tables (appendix E); and a list of figures (appendix F).

OVERVIEW OF RESULTS

2.0 EMPLOYMENT

Respondents were asked to respond to a number of questions regarding their ability to secure employment after graduation, as well as the details of that employment, such as employment status (full or part-time), location, and number of jobs held and the relationship of employment to training.

2.1 Employment Rates

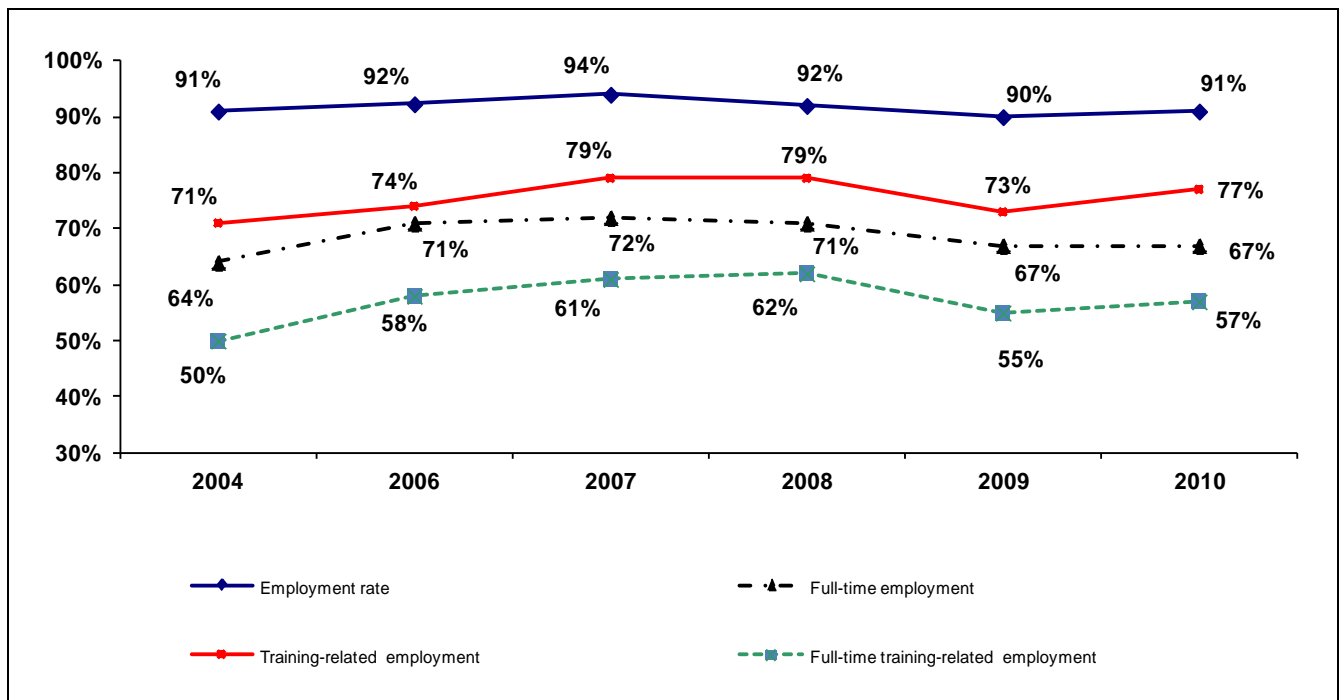

2.1.1 Employment Rates for SIAST Overall

The following employment rates are calculated based on those respondents who are *available to work*. The respondents who are included in the available to work category are those who were employed at the time of the survey and those who were not employed but were looking for work (Statistics Canada's definition of the Labour Force).

The employment rate (91%) of 2009/10 graduates increased by 1% point over the previous year, despite the economic downturn in North America. While this is a modest increase, it has gone back to the employment rate experienced six years ago.

The training-related employment rate increased 4% from 2009 level to 77% of graduates in the available workforce at the time of the survey. While the full-time employment rate is remained at 67%, the full-time training-related employment (57%) rate is increased slightly by 2% over 2009.

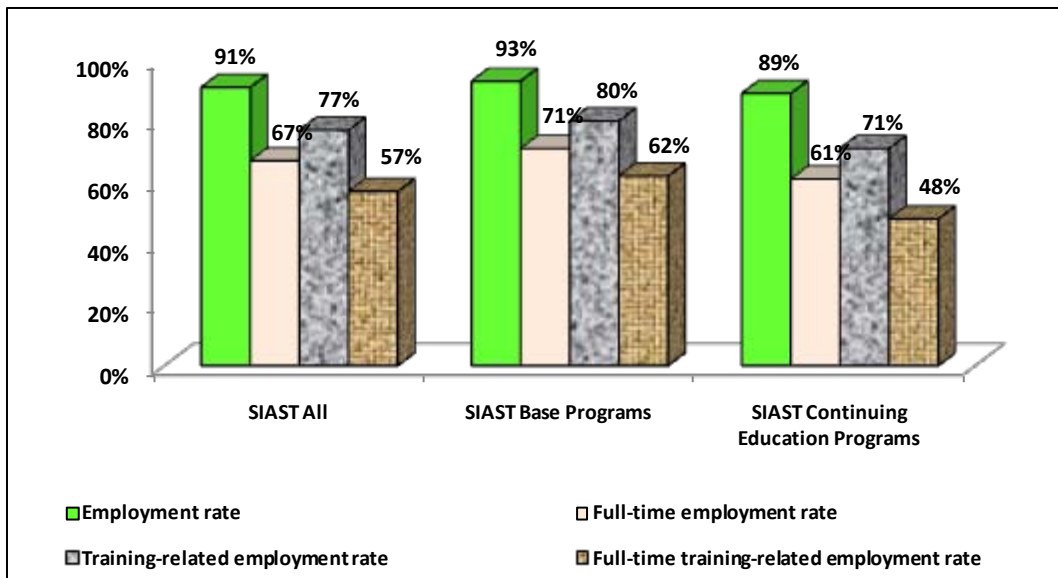

Figure 1: Employment Trends for SIAST Graduates, Based on Available Workforce, 2004 - 2010

2.1.2 Employment Rates for SIAST All, Base and Continuing Education Programs

Figure 2 compares the employment rates for base and continuing education programs in 2010, with that of SIAST overall. The employment rate for base programs (93%) and continuing education programs (89%) are closely comparable to the SIAST overall employment rate of 91%. As shown in Figure 2, the training-related employment rates and full-time training-related employment rates for base programs were higher than continuing education programs.

Figure 2: Employment Rates, by Base/Continuing Education, Based on Available Workforce, 2010

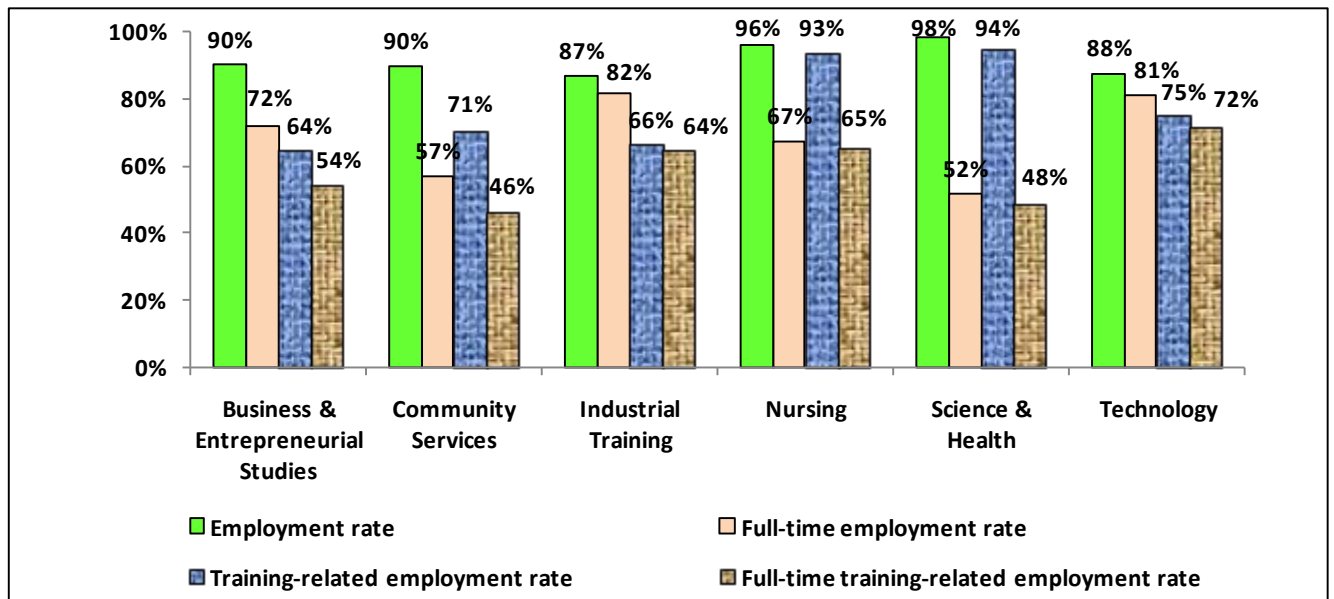

2.1.3 Employment Rates by Division Overall (Base and Continuing Education)

Figure 3 provides a breakdown of employment rates for each of the six program divisions. Higher employment rates of those who graduated from Science and Health (98%) and Nursing (96%) Divisions pulled the overall SIAST graduate employment rate up to 91% (Figure 2). The employment rates of graduates of other divisions were relatively lower ranging from 87% to 90%.

Similarly, the training-related employment rates of those who graduated from Science and Health (94%) and Nursing (93%) increased the overall SIAST training-related employment rate to 77%.

Respondents from the Technology division reported the highest full-time training-related employment rate of 72%.

Figure 3: Employment Rates, by Division, Based on Available Workforce, 2010

2.1.4 Employment Rates by Division (Base and Continuing Education Reported Separately)

Table 2 provides a further breakdown of employment rates by division for base and continuing education programs.

For SIAST base programs, the Science and Health (99%) and Nursing (96%) Divisions reported the highest employment rates. For continuing education programs, Nursing (100%), Science and Health (97%) and Community Services (93%) Divisions had the highest employment rates, while the graduates from Industrial Training Division reported the lowest employment rate of 78%.

Once again graduates from the Industrial Training Division (76%) in base program and graduates from the Nursing Division (73%) in the continuing education program were more likely to find full-time training-related employment. Respondents from the Science and Health (33%) Division in the continuing education program and the community services program (44%) in the base program reported the lowest percentage of full-time training-related employment.

Following the results of SIAST overall, the full-time training-related employment rate for graduates from base (62%) programs remained the same as in 2009 while it the continuing education (48%) programs has increased by 5% since 2009.

Table 2: Employment Rates, by Division, by Base/Continuing Education, Based on Available Workforce, 2010

	AVAILABLE FOR WORK	EMPLOYMENT RATE	FULL-TIME EMPLOYMENT RATE	TRAINING-RELATED EMPLOYMENT RATE	FULL-TIME TRAINING-RELATED EMPLOYMENT RATE

2.1.5 Employment Rates for Aboriginal Respondents

Figure 4 indicates the employment rates, training-related employment rates and full-time training-related employment rates by divisions for Aboriginal respondents.

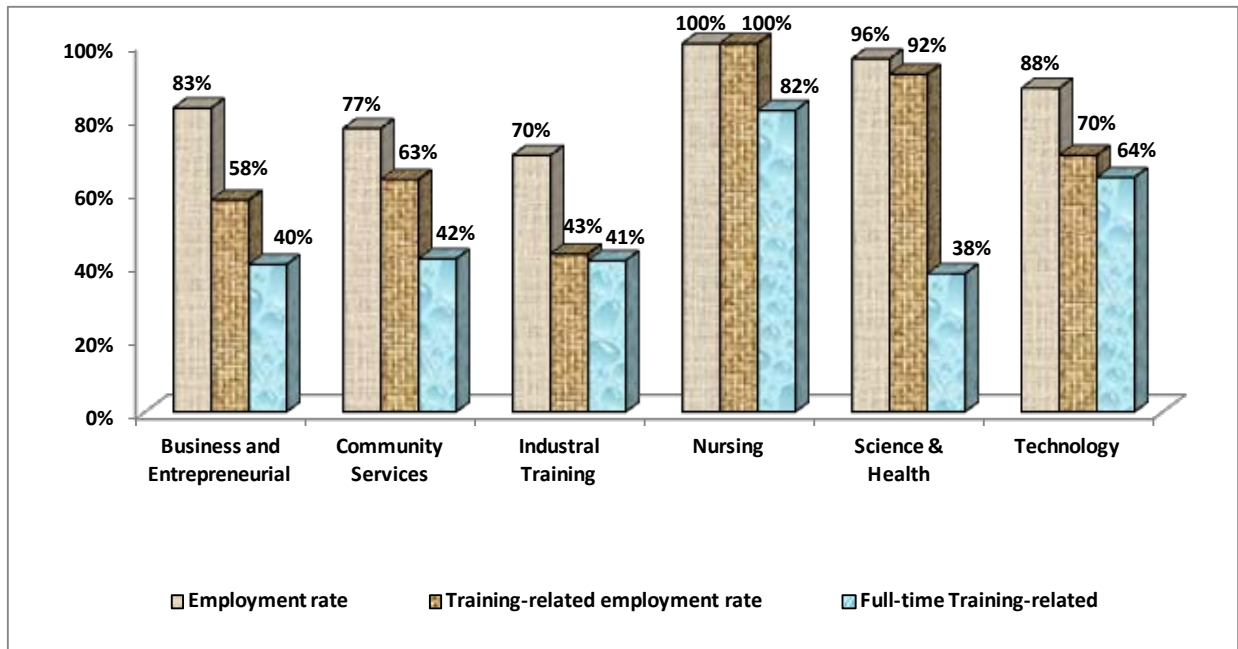

Both the Nursing Division (at 100% for training-related employment) and the Science and Health Division (at 85% for training-related employment) showed encouraging results for Aboriginal graduates in finding employment.

The employment rates for Aboriginal graduates by division based on those available to work were:

- Business and Entrepreneurial Studies – 83%
- Industrial Training – 70%
- Science and Health – 96%
- Community Services – 77%
- Nursing – 100%
- Technology – 88%

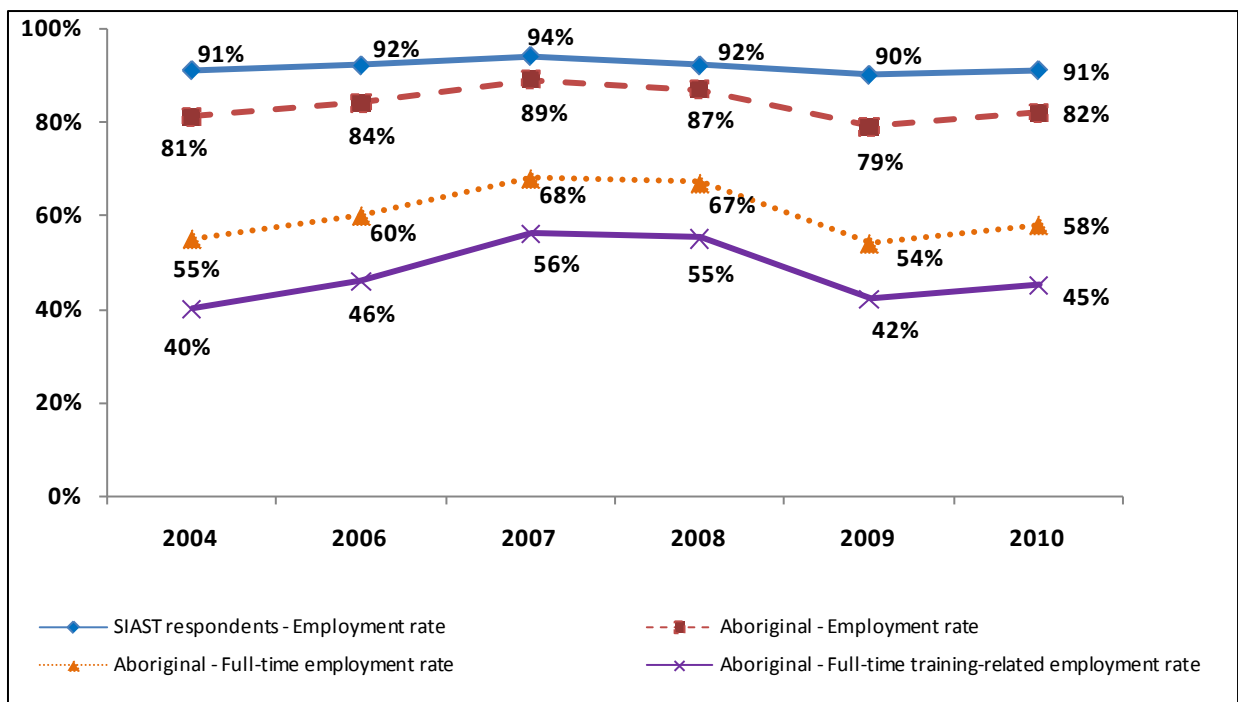

While the employment rates for Aboriginal graduates from programs from the Community Services, Science and Health Divisions and Technology Divisions decreased from those reported in 2009. The employment rates for Aboriginal graduates in other divisions increased slightly except for programs from the Business and Entrepreneurial Division. The employment rate for graduates from the Business and Entrepreneurial Division was consistent with 2009 but the training-related employment rate increased by approximately 6%.

Figure 4: Employment Rates for Aboriginal Respondents, by Division, Based on Available Aboriginal Workforce, 2010

As depicted in Figure 5, the employment, full-time employment and full-time training-related employment rates for Aboriginal respondents in the 2010 survey increased slightly over 2009. While the Aboriginal employment rate in 2010 has increased by 3% over 2009, the full-time employment and full-time training-related employment rates has increased by 4% and 3% respectively.

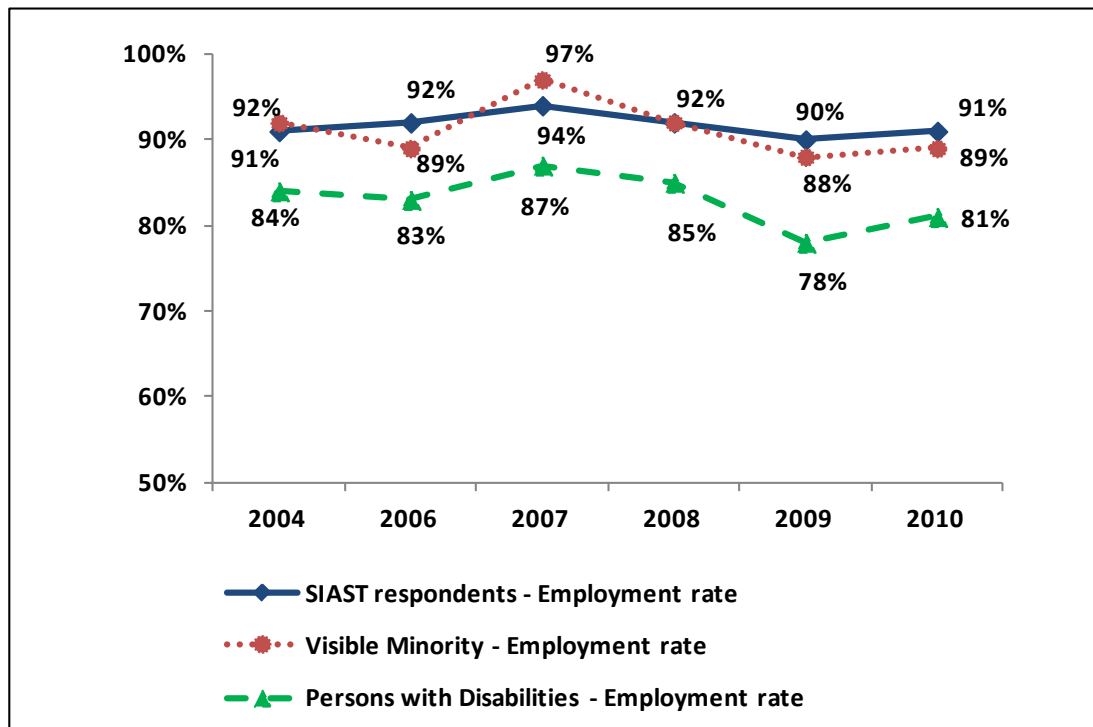

Figure 5: Employment Trends for Aboriginal Respondents, Based on Available Workforce, 2004 - 2010

2.1.6 Employment Trends for Persons with Disabilities and Visible Minority Respondents

As shown in Figure 6, the employment rate for persons with disabilities and visible minority respondents increased slightly over 2009 but remained at low since the highest employment rate reported in 2007. The employment rate for persons with disabilities was 81% in 2010, a 3% increase over 2009, while the rate for visible minority persons was 89%, a 1% increase over 2009.

Figure 6: Employment Trends for Persons with Disabilities and Visible Minority Respondents, Based on Available Workforce, 2004 - 2010

2.2 Training-Related Employment, Based on Number Employed*

**Note: In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of employed graduates rather than the available workforce. Similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators or the program pages at the end of this report.*

Are you employed in a job directly related to the education and training you received in your program at SIAST? (Question 13)

The majority of respondents in all divisions reported that they found employment which was directly related to their training. About 84% of all employed respondents worked at training-related jobs at the time of the survey (Figure 7). Overall this is 3% higher than that reported in 2009 (81%). Respondents from the Nursing (97%) and Science and Health (96%) Divisions had the most success in obtaining training-related employment while respondents from Business and Entrepreneurial Studies (72%), Industrial Training (76%) and Community Services (79%) had relatively low rates of training-related employment.

Figure 7: Training-Related Employment, by Division, 2010

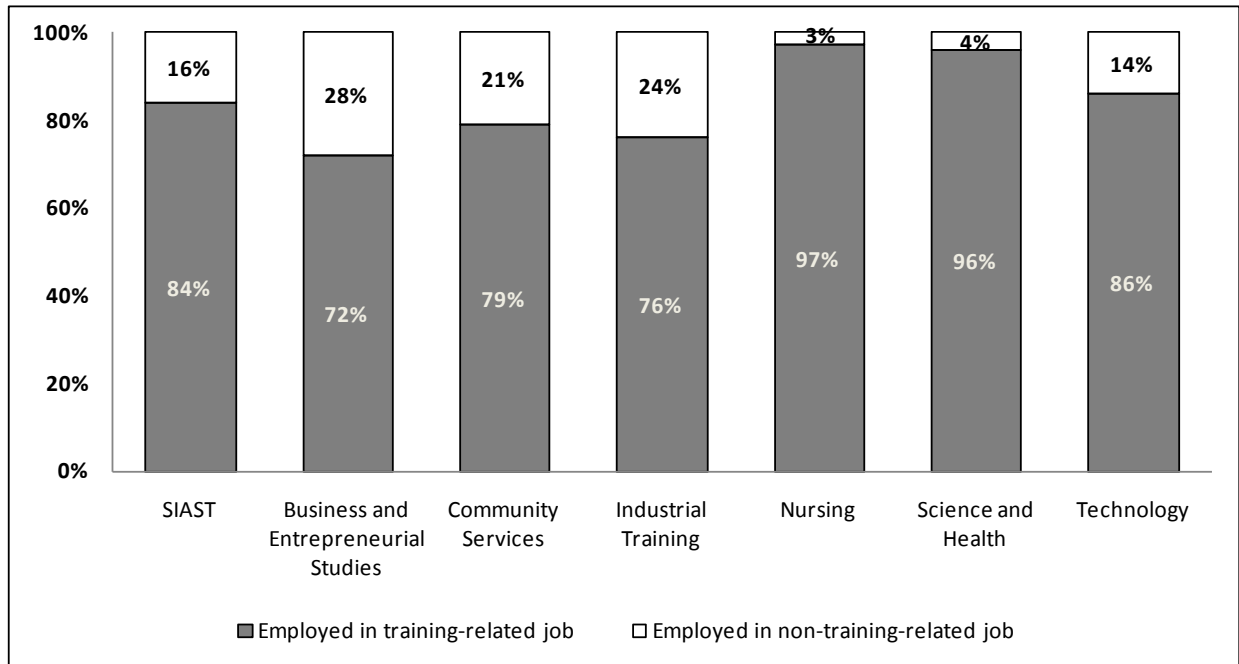

Table 3 provides a breakdown of training-related employment by base and continuing education programs for each division. The graduates from Nursing and Science and Health Divisions had the largest percentage of respondents with training-related employment. The Nursing Division had the highest percent of both base program graduates (97%) and continuing education program graduates (100%) employed in a training-related job. The Science and Health Division had the second highest percentage of training related employment in both base (96%) and continuing education (97%) programs. In many of the Nursing and the Science and Health Division's programs, respondents are required to have completed their training and be licensed by a national accrediting agency before practicing their skills in the health field. Overall, approximately four-fifths of graduates from base, 86% and continuing education, 80%, programs were able to find training-related employment.

Table 3: Training-Related Employment, by Division, by Base/Continuing Education, 2010

	TOTAL EMPLOYED	NUMBER EMPLOYED IN TRAINING-RELATED JOB	PERCENT EMPLOYED IN TRAINING-RELATED JOB
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	157	116	74%

OVERALL SIAST TOTAL	1,768	1,489	84%

2.3 Employment Status, Based on Number Employed

2.3.1 Full or Part-time/Casual Employment

What is your employment status of your primary job? (Question 16)

- a) *Permanent Full-time (30 hours or more per week)*
- b) *Permanent Part-time (less than 30 hours per week)*
- c) *Non-Permanent Full-time (i.e., term, contract, seasonal)*
- d) *Non-Permanent Part-time (i.e., term, contract, seasonal)*
- e) *Casual (variety of hours per week)*

Full-time employment is defined as working 30 hours or more per week and part-time and casual employment are defined as working less than 30 hours per week. Overall, 74% of respondents surveyed were working full-time in their primary job (a 1% decline over 2009); while the remaining 26% of respondents had a primary job that was part-time or casual (a 1% increase over 2009).

As shown in Figure 8, the Industrial Training Division had the highest percentage of respondents (94%) with full-time employment in their primary job followed by Technology Division (92%). Approximately four-fifths of respondents from the Business and Entrepreneurial Division (80%) were working full-time in their primary job. The respondents from the Science and Health Division (53%) were the least likely to obtain full-time employment in their primary job.

Figure 8: Full or Part-Time Employment in Primary Job, by Division, 2010

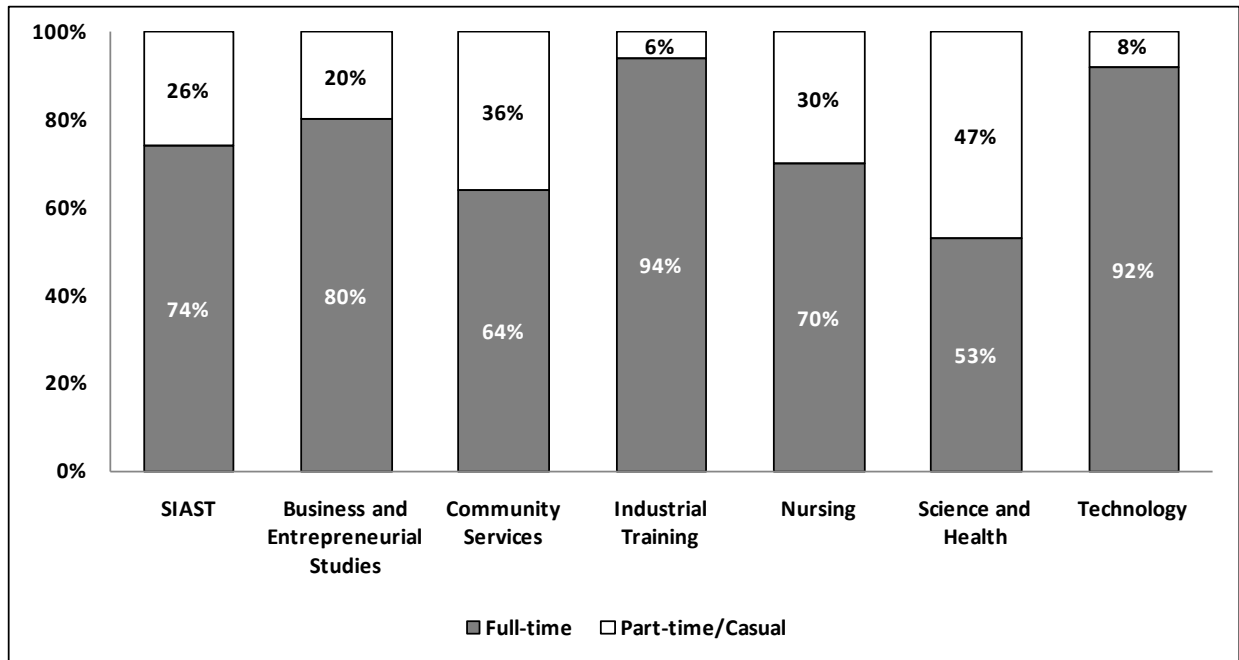

Table 4 provides further breakdown of employment status for base and continuing education programs in each division. On average, 77% of respondents from base programs were employed in full-time positions while only 68% of respondents from continuing education programs were employed in full-time positions. As shown in Table 4, over 70% of graduates in all divisions in the base programs, except Community Services and Science and Health, were able to secure full-time positions. Only 61% of graduates from Community Services and 64% of graduates from Science and Health in base program were able to secure full-time employment. Similarly, over 70% of the graduates from continuing education programs were also able to secure full-time employment with the exception of graduates in the Science and Health Division. In continuing education programs only 36% of graduates from the Science and Health Division were able to find full-time employment.

Table 4: Full or Part-Time Employment in Primary Job, by Division, by Base/Continuing Education, 2010

	TOTAL EMPLOYED	FULL-TIME	PART-TIME/ CASUAL
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	157	79%	21%
Community Services	193	61%	39%
Industrial Training	179	96%	4%
Nursing	129	70%	30%
Science and Health	260	64%	36%
Technology	230	92%	8%

Technology	60	93%	7%
Total SIAST CE Programs	620	68%	32%
OVERALL SIAST TOTAL	1,768	74%	26%

2.3.2 Part-time/Casual Position – by Choice

If your primary job is a part-time or casual position, is this by choice? (Question 17)

It is assumed that those working in part-time or casual jobs do so because they cannot secure full-time employment. This particular question was added to the GES in 2002 to clarify if graduates wanted to work in part-time or casual positions. In 2010 of those who worked part-time/casual, 58% indicated they chose to work part-time/casual by choice, 5% lower than in 2009. Table 5 provides a further breakdown of part-time/casual employments by choice for base and continuing education programs by division. For SIAST base divisions the Nursing Division had the highest proportion of respondents (77%) who were working part-time positions by choice. The percentage of graduates who worked part-time or casual positions by choice in the continuing education program ranged from 25% to 61% with an average of 57%.

**Table 5: Part-Time or Casual by Choice, by Division, by
Base/Continuing Education, 2010**

	TOTAL EMPLOYED PARTIME/CASUAL	PART-TIME/ CASUAL BY CHOICE
SIAST Base Programs by Division		
Business and Entrepreneurial Studies	33	67%

Industrial Training	10	60%
Nursing	4	50%
Science and Health	114	61%
Technology	4	25%
Total SIAST CE Programs	196	57%
OVERALL SIAST TOTAL	462	58%

2.3.3 Self-Employed

Are you self-employed? (Question 12)

The percentage of respondents indicating they were self-employed remains fairly low in all divisions. Overall, 5% of all the respondents in the survey indicated their desire for self-employment, which is close to that reported in 2008 and 2009. The graduates from continuing education programs are more likely to pursue self-employment (6%) relative to those who graduated from base programs (4%). The greatest interest for self-employment came from the base (9%) and continuing education (10%) programs in Community Services Division.

Table 6: Self-Employment, by Division, by Base/Continuing Education, 2010

OVERALL SIAST TOTAL	1,743	1.12	3

3.0 SALARIES

Respondents were asked to indicate the salary they earned. Since some employees gave an hourly rate and others a monthly salary, all identified hourly rates were converted to a monthly rate as shown below.

3.1 Salaries for SIAST Graduate Respondents

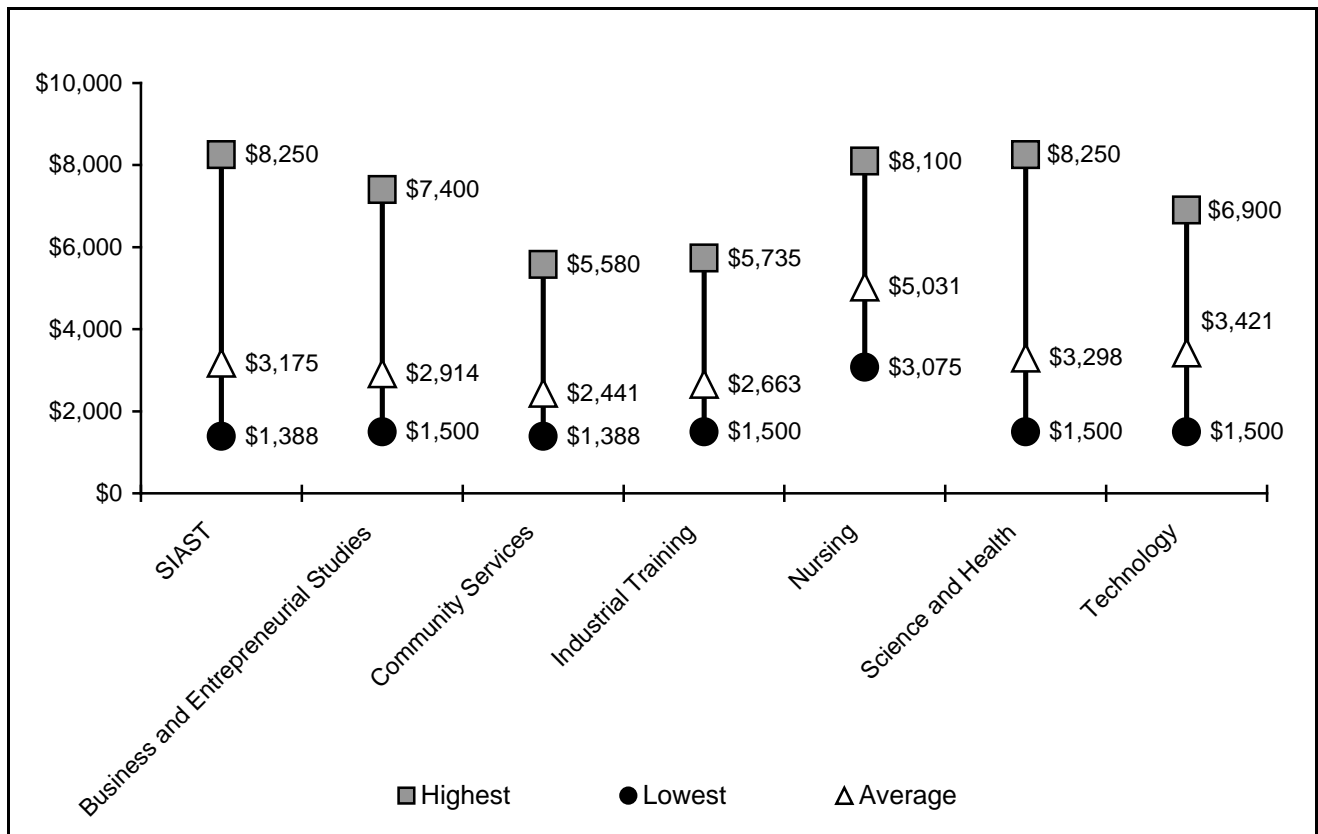

What is the hourly salary of your primary job before deductions? (Question 18)

The lowest wage reported by SIAST graduates was \$9.25 per hour. Based on a 37.5 hour work week, the minimum monthly salary for a full-time employee is \$1,388 [$9.25 \times 37.5 \times 4$]. The majority of SIAST employed respondents were paid at a higher level than this rate (Table 8). The average (mean) monthly full-time training-related salary for all respondents was \$3,175, an increase of 3.6% over 2009.

Table 8: Monthly Salary of Full-Time Training-Related Job and by Base/Continuing Education, 2010

	EMPLOYED IN FULL TIME TRAINING-RELATED POSITIONS	RESPONDENTS WITH FULL TIME TRAINING RELATED SALARIES	HIGHEST	AVERAGE	MEDIAN	LOWEST
Total SIAST Base Programs	773	721	\$8,250	\$3,265	\$2,940	\$1,388
Total SIAST CE Programs	333	296	\$7,400	\$2,957	\$2,850	\$1,388
OVERALL SIAST TOTAL	1,106	1,017	\$8,250	\$3,175	\$2,892	\$1,388

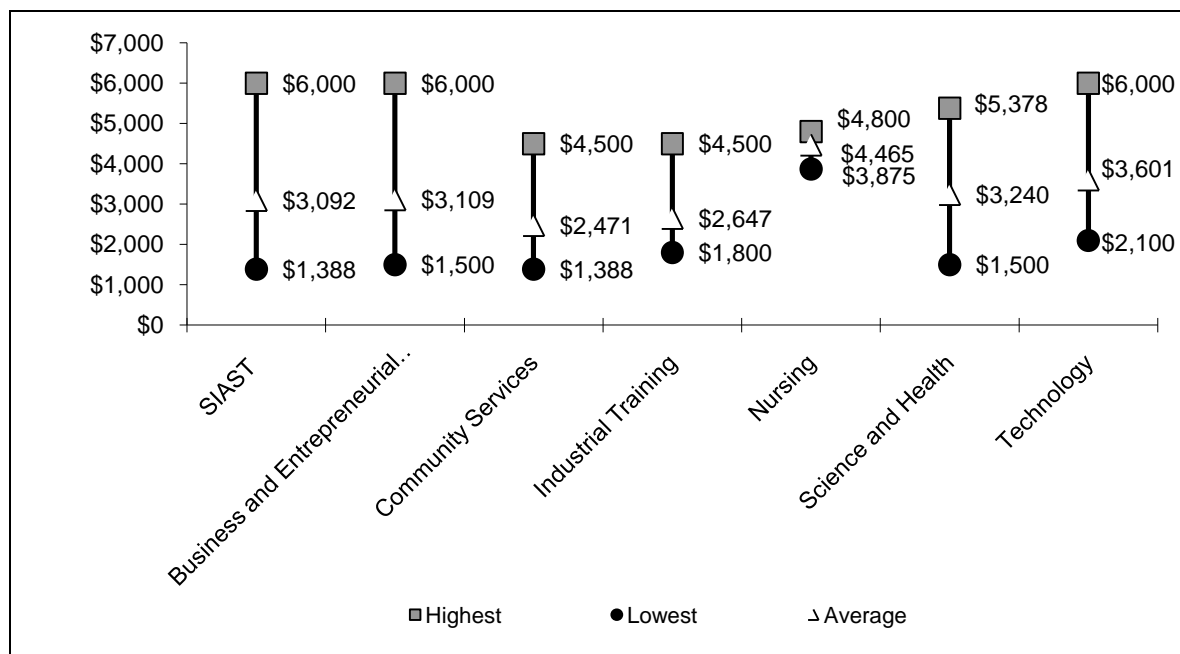

Figure 9: Monthly Salary of Full-Time Training-Related Employment, by Division, 2010

3.2 Monthly Full-Time Training Related Salaries for Aboriginal Respondents, Based on Number of Respondents

In all divisions, except for Nursing, Science and Health and Technology, the average salary level for Aboriginal people employed in full-time training-related positions was lower than that reported for all SIAST respondents. The average monthly salary for Aboriginal people is highest in the Nursing Division (\$4,465) which is approximately 5% higher than that in 2009. However, the average salary received by graduates from Nursing (\$4,465), Technology (\$3,601), Science and Health (\$3,240) and Business and Entrepreneurial studies (\$3,109) were well above the average monthly salary of all SIAST Aboriginal respondents (\$3,092) (Figure 10).

Figure 10: Monthly Salary of Full-Time Training-Related Employment for Aboriginal Graduates by Division, 2010

4.0 INDUSTRY SECTORS OF PRIMARY EMPLOYERS

Saskatchewan Labour has identified the industry sectors listed below as important for the province. Monthly labour force statistics for the province are reported in this manner. The industry sector question was added to the survey in 2004 to determine if SIAST graduates were employed in one or more of these industry sectors. The question included in the survey was:

Please select the option below that best describes which industry sector your primary employer operates in. (Question 22)

The majority of SIAST respondents (32%) reported they work for employers who operate in the health industry while construction (11%) and education services (7.8%) were the second and third highest employers for SIAST graduates. Employment in the health industry was by far a large margin compared to other sectors such as the film, video, multi-media, printing and publishing (1%) and biotechnology industry (0.8%).

Table 9 provides a breakdown by division of industry sectors under which SIAST graduates are employed. The graduates from programs in the Nursing and Science and Health Divisions are primarily employed in the health sector (86.8% and 88.4%, respectively), while the respondents from other programs may be employed in a variety of industry sectors. For instance, in Community Services, 32.7% of the respondents are employed in the educational services sector and 10.1% in hospitality and tourism sectors.

The graduates from the Business and Entrepreneurial Division were primarily employed in the business and professional services sector (19.8%), 11.5% in finance, insurance and real estate and another 10.8% in government services and public administration while the remaining were distributed in other sectors.

Approximately 31% of graduates from industrial training were employed in the construction sector while 20% of graduates were employed in transportation, trucking and heavy equipment (includes aviation and automotive/auto body services) sectors. Another 17.7% of graduates from the Industrial Training Division were employed in the manufacturing (includes metal fabrication, agri-value and food processing) sector.

In the Technology Division respondents were clustered in the construction (29.3%), natural resources and environment (22.4%), and in the technology, electronics and telecommunications sectors (11%).

Table 9: Industry Sector of Primary Employer, by Division, 2010

5.0 LOCATION OF EMPLOYMENT, BASED ON NUMBER EMPLOYED

There is always considerable interest by government officials and the general public to know if post-secondary graduates remain in the province for employment following graduation.

5.1 Location of Primary Employment for SIAST Respondents

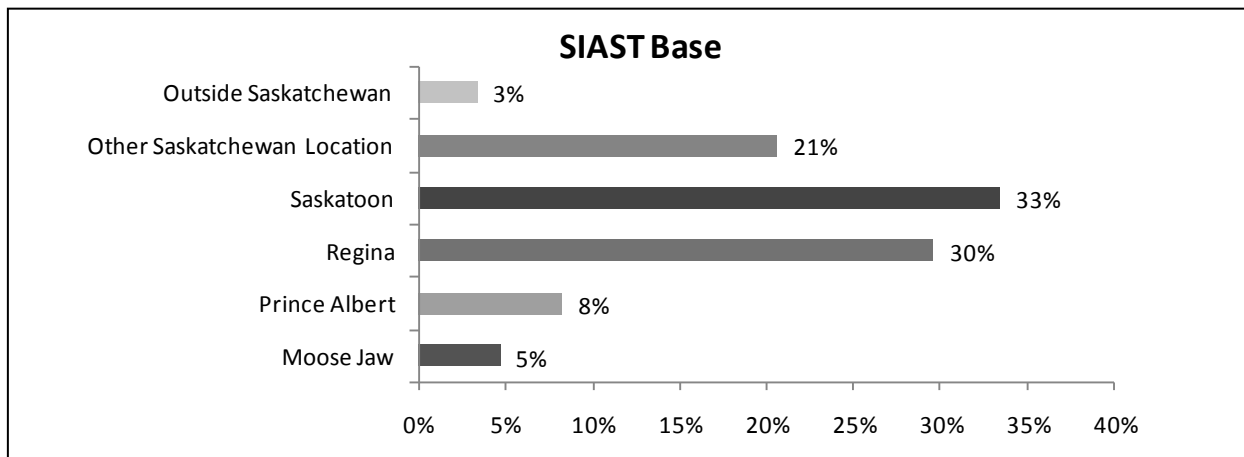

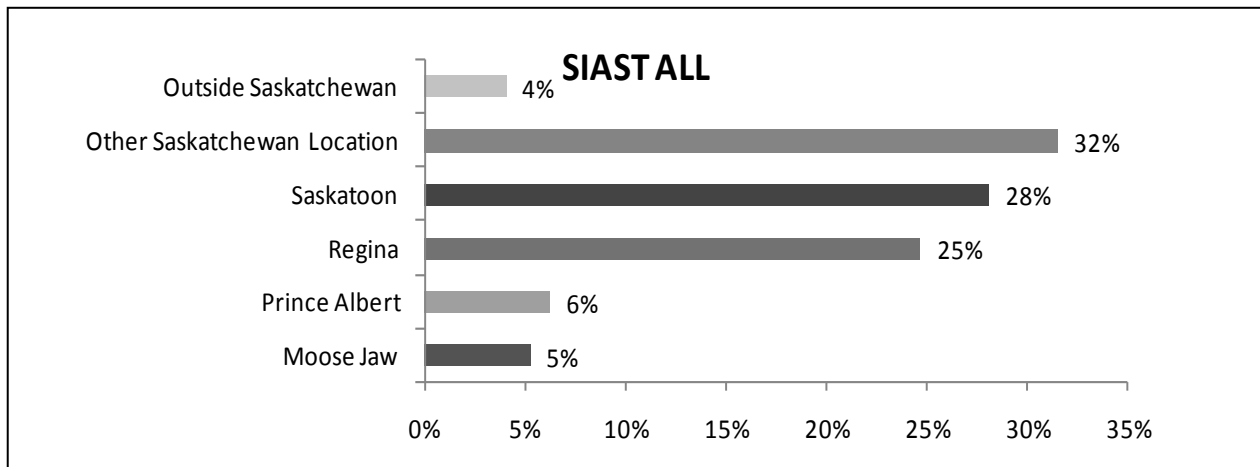

Where is the location of your primary employment? (Question 19)

Note: The results in Section 5.1 provide the location of employment percentages based on the location of the graduates' primary employment not their training-related employment. Location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

As shown in Figure 11, 96% of SIAST graduates were employed in Saskatchewan at the time of the survey.

The out-migration of graduates in the base program decreased to 3% in 2010 from 5% reported in 2009, while the out-migration of graduates from continuing education programs increased to 6% in 2010 from 3% reported in 2009.

Figure 11: Location of Primary Employment, by Base/Continuing Education, 2010

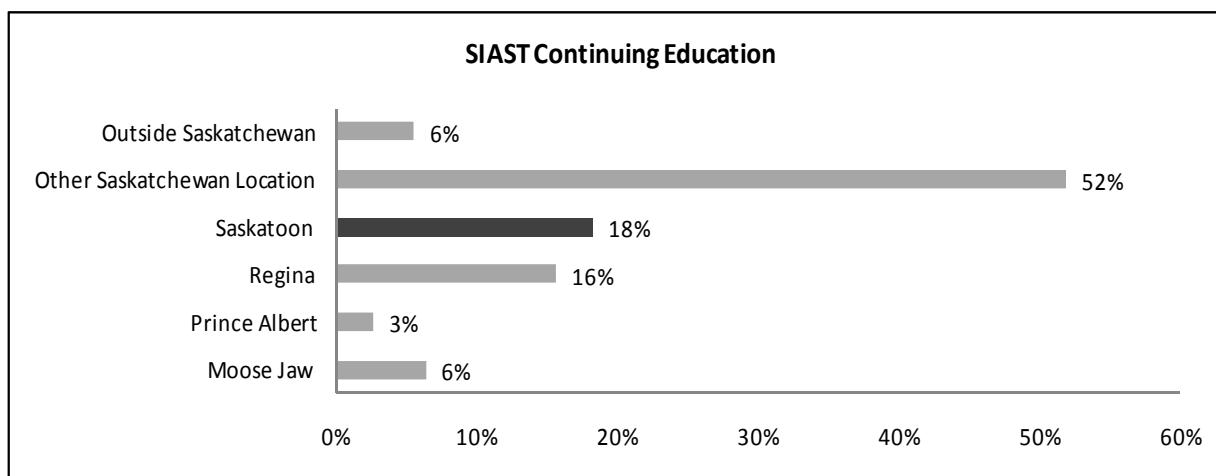

Table 10 provides a breakdown of SIAST graduates' location of primary employment, by division, by base and continuing education. The largest out-migration of graduates from base programs continues to be from the Technology (6.1%), Nursing (3.9%), Industrial Training (2.8%), and Science and Health (2.7%) Divisions with an overall out-migration of 3.4%. This is a 1.9% decrease over 2009. In the continuing education programs the graduates from the Nursing Division had the largest proportion (13.3%) leaving Saskatchewan, an increase of 11.7% from 2009. The overall out-migration of graduates from continuing education programs increased to 5.5% from its 2.7% in 2009. However, overall out-migration of SIAST graduates in 2010 has increased marginally by 0.3% from 4.4% in 2009.

Table 10: Location of Primary Employment, by Division, by Base/Continuing Education, 2010

N: Base = 1313 CE = 739	REGINA	SASKATOON	PRINCE ALBERT	MOOSE JAW	OTHER SK LOCATION	OUTSIDE SK

Technology	21.7%	20.0%	1.7%	10.0%	36.7%	10.0%
Total SIAST CE Programs	15.6%	18.2%	2.6%	6.3%	51.8%	5.5%
OVERALL SIAST TOTAL	24.7%	28.1%	6.3%	5.3%	31.5%	4.1%

Consistent with the findings of the past surveys, the majority of respondents remain in Saskatchewan for employment. In 2009 the location percentages were:

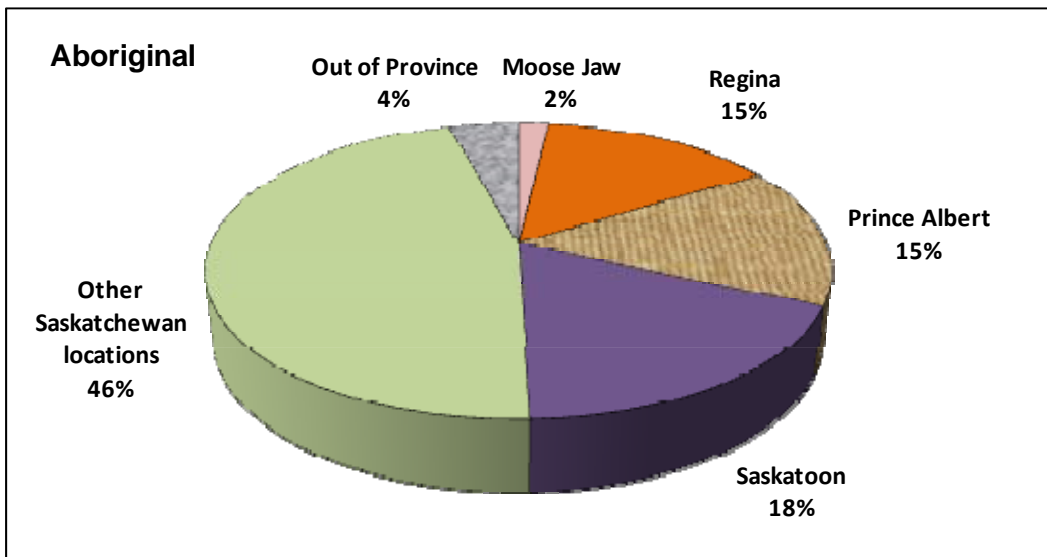

- Regina – 23.4%
- Prince Albert – 5.8%
- Other Saskatchewan location – 38.6%
- Saskatoon – 24.2%
- Moose Jaw – 3.6%
- Outside Saskatchewan - 4.4%

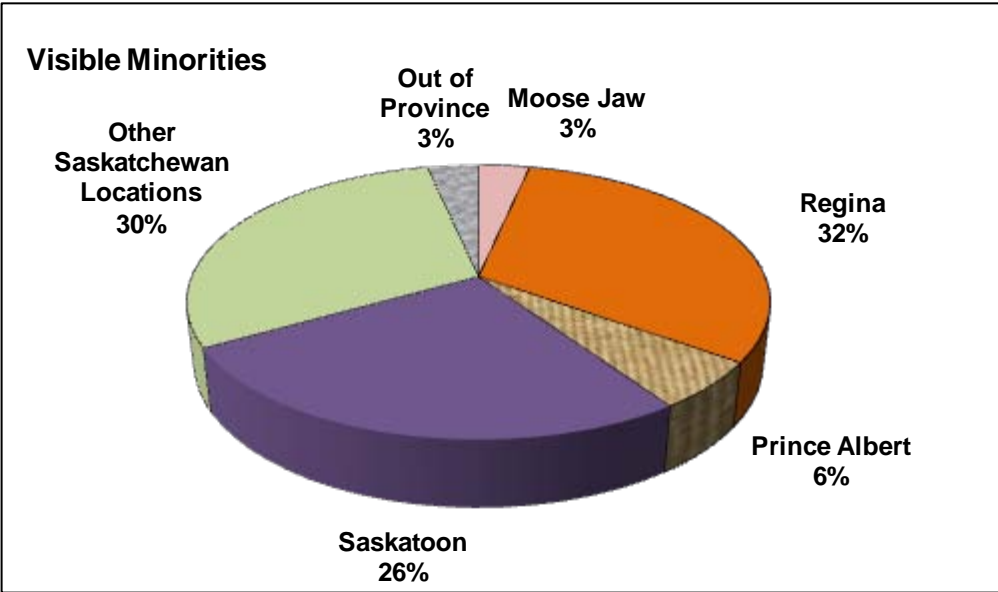

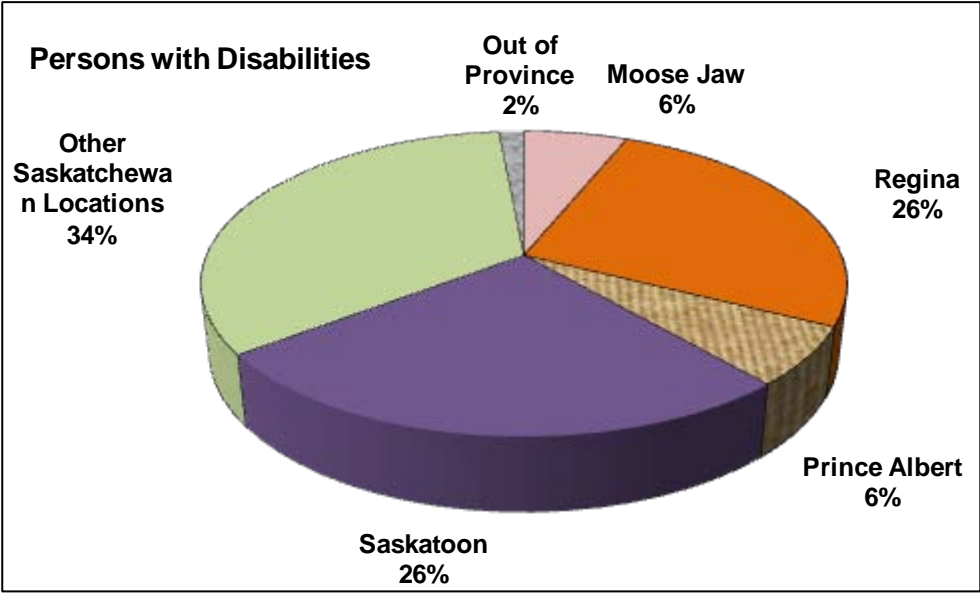

5.2 Location of Primary Employment for Equity Respondents

As shown in Figure 12, 96% of Aboriginal graduate remained in Saskatchewan for employment. Only 4% of Aboriginal graduates have moved out of province for employment, a 2% decrease over 2009. Approximately one-half of Aboriginal graduates (46%) worked outside of the major four cities in Saskatchewan. Of the four SIAST campus cities, the largest proportion of Aboriginal graduates were employed in Saskatoon (18%), followed by Regina (15%) and Prince Albert (15). Only 2% of Aboriginal graduates found employment in Moose Jaw.

Similarly, only 3% and 2% respectively of visible minorities and persons living with disabilities moved out of province for employment.

Figure 12: Location of Primary Employment for Aboriginal, Persons with Disabilities and Visible Minority Respondents, 2010

5.3 Out-of-Province Employment for SIAST Graduate Respondents

*If primary employment was found outside of Saskatchewan, was this by choice?
(Question 20)*

As mentioned before, just over 4% (73 of 1768) of respondents indicated their location of employment to be outside Saskatchewan. Of them, 82% (60 of 73) of the respondents who found employment opportunities out of Saskatchewan had indicated this was by choice (Table 11). Of those who found employment opportunities outside of Saskatchewan, 100% of graduates from Business and Entrepreneurial Studies, Community Services and Nursing Divisions in the base program indicated that was by their choice while the same is true for graduates from Business and Entrepreneurial Studies, Community Services and Science and Health Divisions in the continuing education programs.

Table 11: Primary Employment Out-of-Province by Choice, by Division, By Base/Continuing Education, 2010

	TOTAL RESPONDENTS	% OUT OF PROVINCE EMPLOYED BY CHOICE

Total SIAST CE Programs	34	85%
OVERALL SIAST TOTAL	73	82%

*“Please indicate the primary reason why you moved out-of-province for employment
(Question 21)*

Graduates were requested to identify the main reason they sought employment out-of-province. Overall, just over one-third of respondents indicated personal reasons (37%) for obtaining out-of-province employment (Table 12). Approximately one-fifth of all respondents indicated they moved out-of province to obtain more employment opportunities (18%). In the base programs, approximately half of graduates moved out-of-province for personal reasons and one-fourth of graduates sought employment opportunities out-of-province for better wages. While two-fifths of graduate in continuous education programs moved out-of-province for other reasons.

Graduates from continuing education programs (44%) were more likely to have found employment out of the province for other reasons, relative to their base education counterparts (15%).

Note: The location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

Table 12: Reason Primary Employment Out-of-Province, by Division, By Base/Continuing Education, 2010

6.0 APPLICATIONS AND INTERVIEWS FOR EMPLOYMENT

6.1 Applications

How many employment opportunities have you applied for since completing your training program? (Question 8)

The effort that graduates had invested into obtaining employment, after graduation, was indicated by the number of applications that each had submitted and the number of interviews that each attended. These numbers are expressed as means and medians, because medians, as the middle number, are not influenced by extreme responses.

As shown in Table 13, the average number of applications for employment that respondents in base programs submitted ranged from 1 to 2, depending on the division, with an overall average of 1.8. The same is true for graduates in continuing education programs. The median number of applications ranged from 1 to 2, again depending on the division, with an overall average of 2. Overall, the number of applications submitted for employment opportunities in all divisions, regardless of whether they are base or continuing education, remains between 1 and 2 with an average number of applications of 1.8, a consistent with 2009 applications.

6.2 Interviews

How many employment interviews have you had? (Question 10)

The mean number of interviews for respondents in base programs ranged from 1 to 3 with an average of 1.9 interviews. The median number of interviews for graduates in the

base programs ranged from 1 to 2. Almost similar findings were reported by respondents in SIAST continuing education programs.

7.0 NOT EMPLOYED

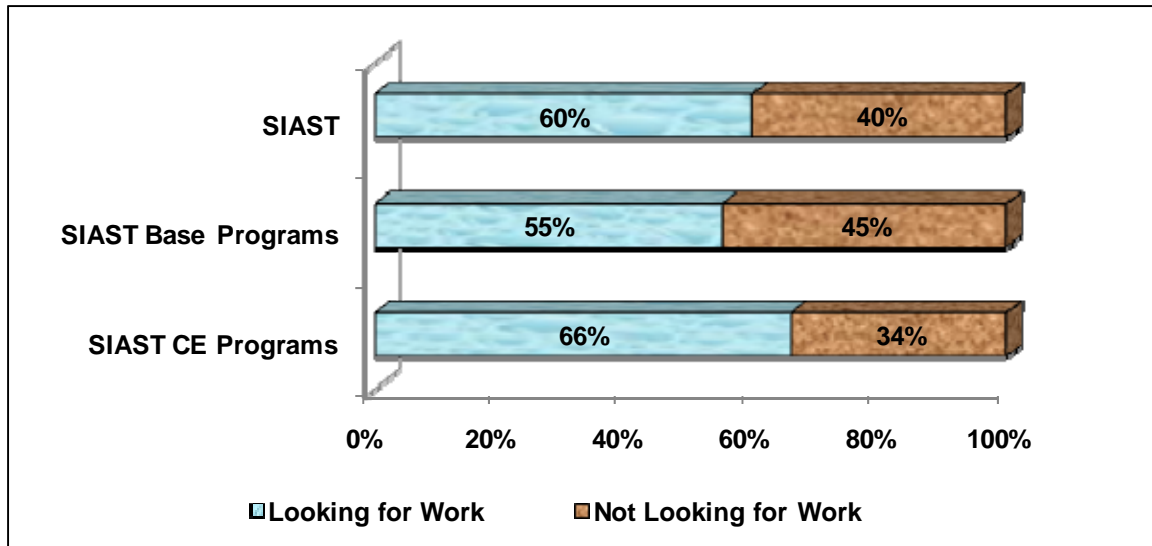

While it is important to determine the percentage of graduates who obtain employment after graduation, it is also equally important to know about those who were not employed at the time the survey was conducted. Respondents who had indicated that they were not presently employed were asked to complete a series of questions regarding their activity since graduation.

7.1 Actively Looking for Work

Are you actively looking for work at present? (Question 27)

Overall 60% of the respondents who were not employed at the time of the survey indicated that they were looking for work (Figure 13). A slightly higher percentage of respondents (66%) who were not employed from continuing education programs were more likely than their peers in base education programs to be looking for work (55%).

Figure 13: Graduates Not Employed but Looking for Work, by Base/Continuing Education, 2010

7.2 Employed Since Graduating from SIAST

Have you worked at all (full-time, part-time, or casual) since completing your training program? (Question 24)

If yes, was the most recent work directly related to the education and training you received in your program? (Question 25)

Are you scheduled to return to work in the future? (Question 26)

These three questions were directed towards those respondents who indicated they were not employed at the time of the survey.

Of the 284 respondents who were not working at the time they were surveyed, 69% (197 of 284) indicated that they had worked at some point since completing their training program.

Of the respondents not working at the time of the survey, but who had worked at some point since completing their training, 58% (115 of 197) indicated they had worked in training-related jobs. Table 14 provides a breakdown, by division and by base and continuing education programs, of respondents' work experiences since graduation.

Table 14: Graduates not Employed - Work Experience since Graduation, by Division, By Base/Continuing Education, 2010

³ Total number of respondents who were not employed in the CE programs = 119

7.3 Not Actively Looking for Work

Are you actively looking for work? (Question 27)

Of the 2,052 survey respondents, 6% (115 of 2,052) reported they were **not employed and were not looking for work**, primarily because they were either returning for further education or for personal reasons. Table 15 illustrates, by division, the percentages of graduates who were looking/not looking for work, out of those who were not employed.

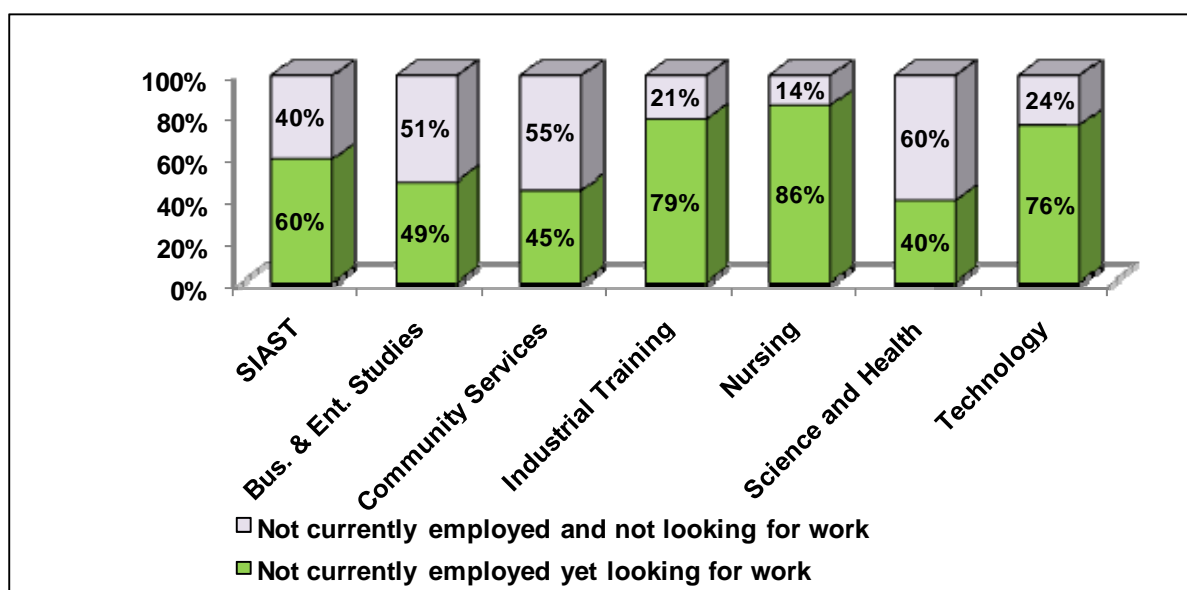

Section 7.4 of the report identified why some of the unemployed respondents were not actively looking for work. The Community Services Division had 82 unemployed graduates at the time of the survey, of them 55% were not looking for work. The graduates from the Nursing Division reported the least number of unemployed graduates (7) but only one of them was not looking for work. Percent of unemployed graduates, by division, who were looking/not looking for work, is further illustrated in Figure 14.

The employed (1,768) and the unemployed respondents who stated that they were looking for work (169) represent the SIAST-wide respondent **available workforce (1,937)** (those respondents who are available to work).

Table 15: Number of Unemployed Graduates who were Looking for Work by Division, 2010

7.4 Reasons not Currently Employed

Which of the following best describes the reason why you are currently not employed? (Question 23)

The two most common reasons given by unemployed respondents for not being employed at survey time were *returned for further education* (36%) and *personal reasons* (21%). Table 16 provides a breakdown of the reasons respondents were not employed at the time of the survey by division and by base and continuing education programs.

Table 16: Graduates Not Employed - Reason Not Employed, by Division, Base/Continuing Education, 2010

8.0 FURTHER EDUCATION OR TRAINING

The survey formally asked all respondents if, at the time of the survey (whether employed or not), they were enrolled in further education or training.

8.1 Respondents in Further Education or Training

Are you currently enrolled in an education or training program? (Question 29)

Whether employed or not, 20% of all SIAST respondents reported they were continuing their education at the time of the survey. This is a decrease of 1% over the 2009 response. The largest percentages of respondents enrolled in further education came from the base and continuing education programs in the Business and Entrepreneurial Division (31% and 27% respectively) and the base programs in the Community Services (32%) Division.

Table 17: Graduates Currently Enrolled in Further Education or Training, by Division, by Base/Continuing Education, 2010

8.2 Type of Further Education or Training

Which type of training is it? (Question 30)

As shown in Figure 15, 44% of respondents (178 of 403) who were taking further education or training at the time of the survey were enrolled in programs at SIAST, either the same SIAST program or a different SIAST program altogether, which is 7% less than that reported in 2009. Fourteen percent of respondents continuing their education were enrolled in apprenticeship training programs while 17% of respondents were enrolled in a university program. Only 6% of respondents were enrolled in post-secondary program at another institute. Table 18 provides a breakdown of the type of training the respondents were enrolled in after graduation from SIAST by division and by base and continuing education programs.

Figure 15: Type of Further Training - SIAST Overall, 2010

9.0 PROGRAM COMPLETION

Which of the following best describes your reason for completing this program? (Question 4)

Overall, the majority of respondents (56%) indicated the reason for completing training was to obtain *employment in a specific field*, while some respondents indicated personal reasons (12%) as to completing this program. Table 19 below indicates the further break down, by division, for reasons for completing SIAST programs.

Table 19: Reason for Completing SIAST Program, by Division, by Base/Continuing Education, 2010

10.0 PROGRAM ASSESSMENT

Respondents were asked to assess the overall quality of the program(s) they studied at SIAST and the ability of the training to prepare them for employment.

10.1 Quality of Program

Please rate the overall quality of the training you received in your program. (Question 5)

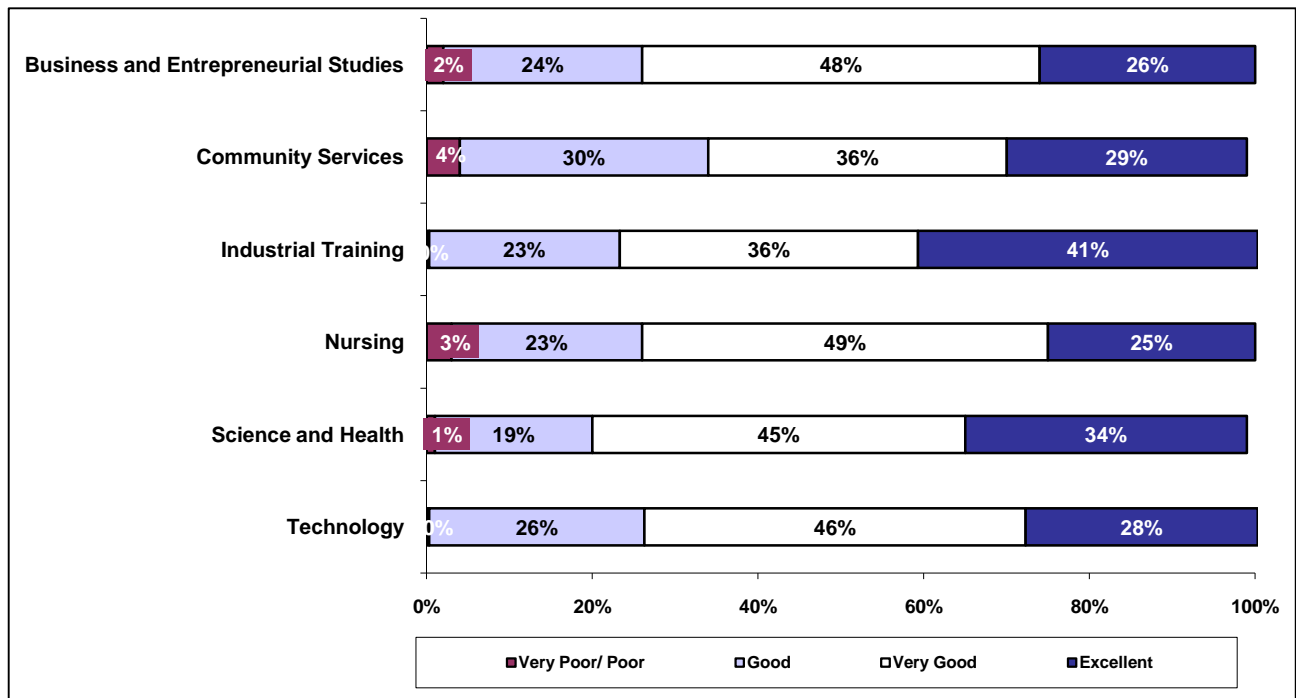

Consistent with the responses in past employment surveys, respondents continue to feel that SIAST provides high-quality training. Ninety-nine percent of all SIAST respondents rated the quality of their training they received as good to excellent (Table 20).

Table 20: Overall Quality of Training, by Base/Continuing Education, 2010

	Total Respondents	Excellent	Very Good	Good	Poor	Very Poor	Don't Know/Refused
Total SIAST Base Programs	1,313	30%	45%	24%	1%	0.2%	0.2%
Total SIAST CE Programs	739	34%	39%	25%	1%	0.1%	0.3%
OVERALL SIAST TOTAL	2,052	31%	43%	24%	1%	0.2%	0.2%

Figure 16 provides a further breakdown of quality of training indicated by respondents by division. Programs from the Science and Health and Industrial Training Divisions received the most favourable ratings from respondents.

Figure 16: Overall Quality of Training, by Division, 2010

10.2 Training Preparedness for Employment

Please rate how well the training program prepared you for employment in your field of study. (Question 6)

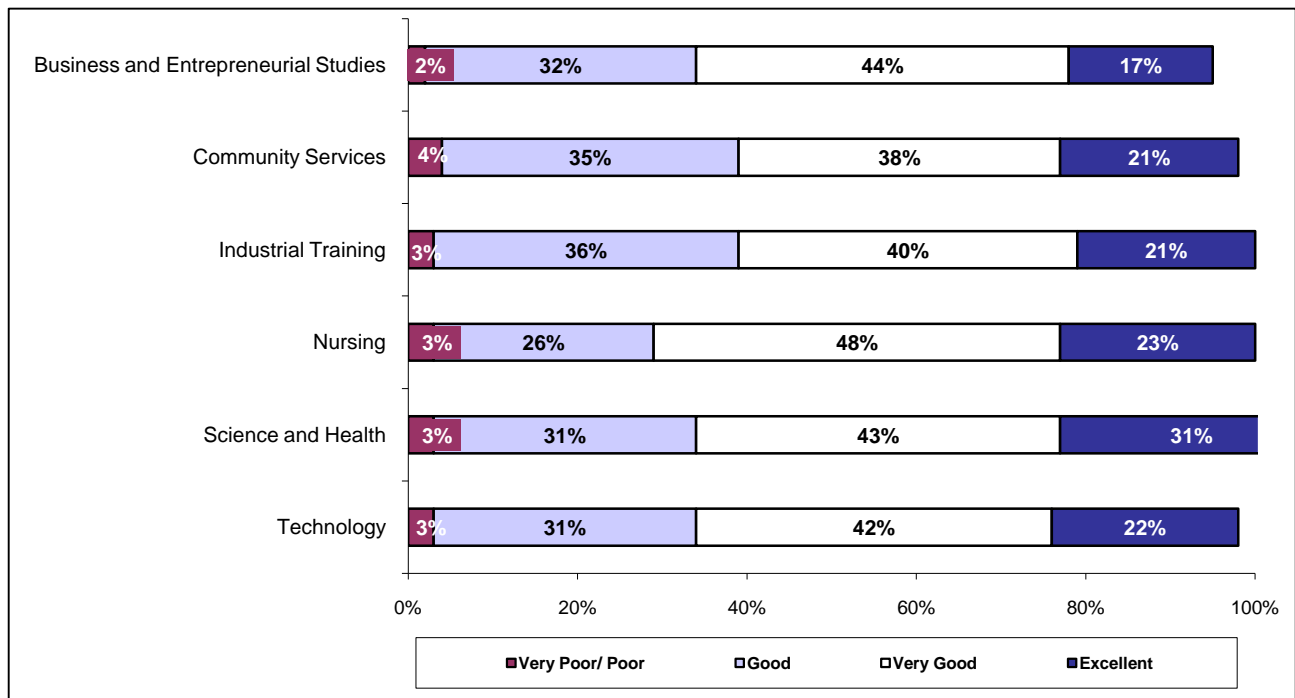

Similar to the responses in 2009, overall, 96% of respondents indicated that the ability of their training to prepare them for employment in their field of study was good to excellent (Table 21), with the majority of the rating (65%) being in the very good to excellent range.

Table 21: Training Prepared for Employment in Field of Study, by Base/Continuing Education, 2010

	Total Respondents	Excellent	Very Good	Good	Poor	Very Poor	DK/Refused
Total SIAST Base Programs	1,313	21%	43%	31%	2%	0.4%	2%

Figure 17 provides a breakdown of employment preparation by division. The majority of respondents in all divisions rated the training they received to prepare them for employment between excellent and very good.

Figure 17: Training Prepared for Employment in Field of Study, by Division, 2010

11.0 DEMOGRAPHICS

SIAST has a mandate to increase its equity participation both in staffing and students and to participate in the development of a workforce that is representative of the province's demographics.

11.1 Gender of all Respondents

Identify your gender. (Question 30)

SIAST-wide there continues to be more female respondents than male and the composition changes depending on the base and continuing education programs. Among respondents of base programs, the split was 56/44% female/male, while among respondents of continuing education programs the ratio was 63/37%, female/male (Table 22 and Figure 18). Overall, 59% of SIAST respondents were female and 41% male (Figure 19). In the 2009 study the SIAST-wide breakdown was 58% female and 42% male. Gender, as with other equity factors, is a self-declaration.

Table 22: Gender, by Division, by Base/Continuing Education, 2010

	TOTAL RESPONDENTS	MALE	FEMALE
SIAST Base Programs by Division			
Business and Entrepreneurial Studies	195	20%	80%
Community Services	254	25%	75%
Industrial Training	196	90%	10%
Nursing	135	20%	80%
Science and Health	270	21%	79%
Technology	263	81%	19%
Total SIAST Base Programs	1,313	44%	56%

Business and Entrepreneurial Studies	146	8%	92%
Community Services	146	14%	86%
Industrial Training	162	91%	9%
Nursing	16	0%	100%
Science and Health	188	12%	88%
Technology	81	85%	15%
Total SIAST CE Programs	739	37%	63%
OVERALL SIAST TOTAL	2,052	41%	59%

Figure 18: Gender by Base/Continuing Education, 2010

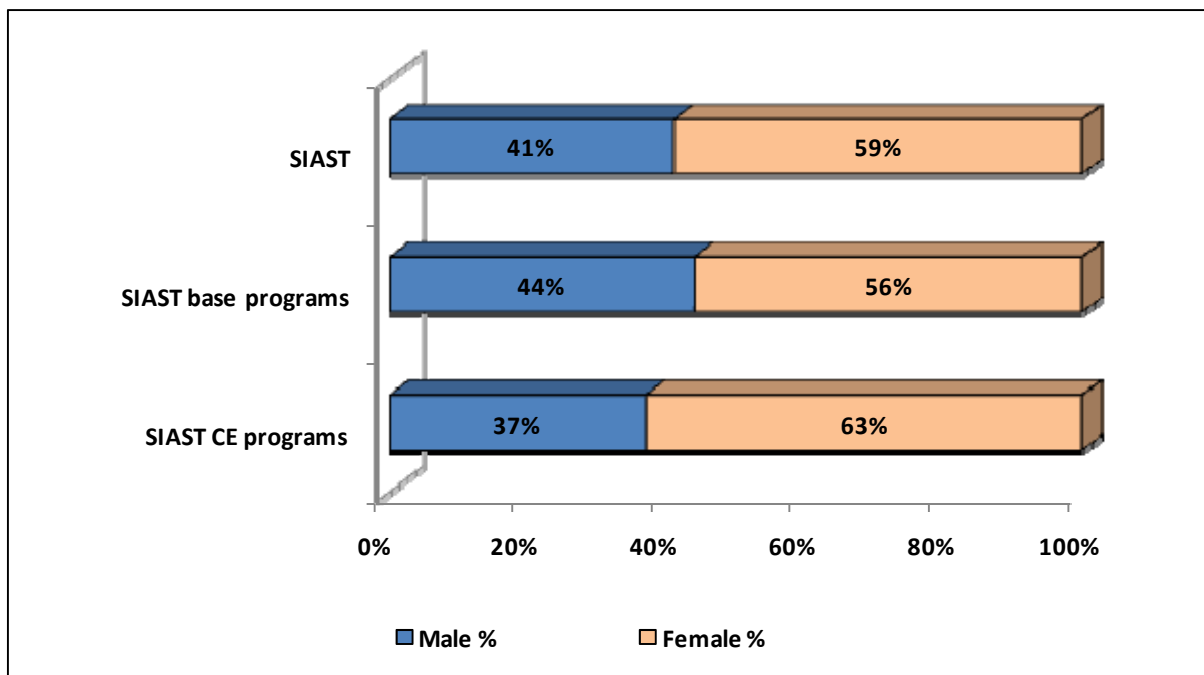

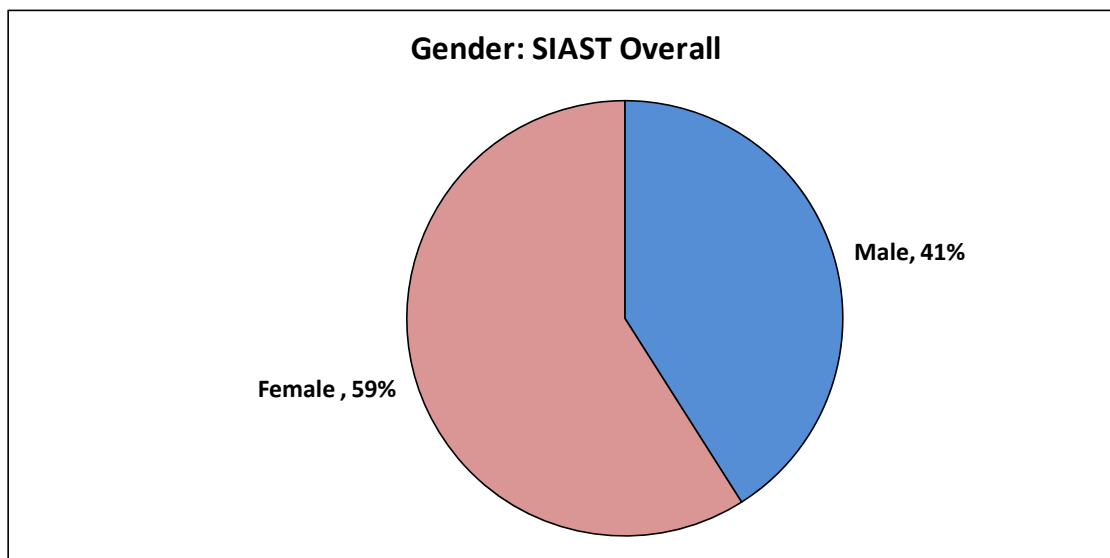

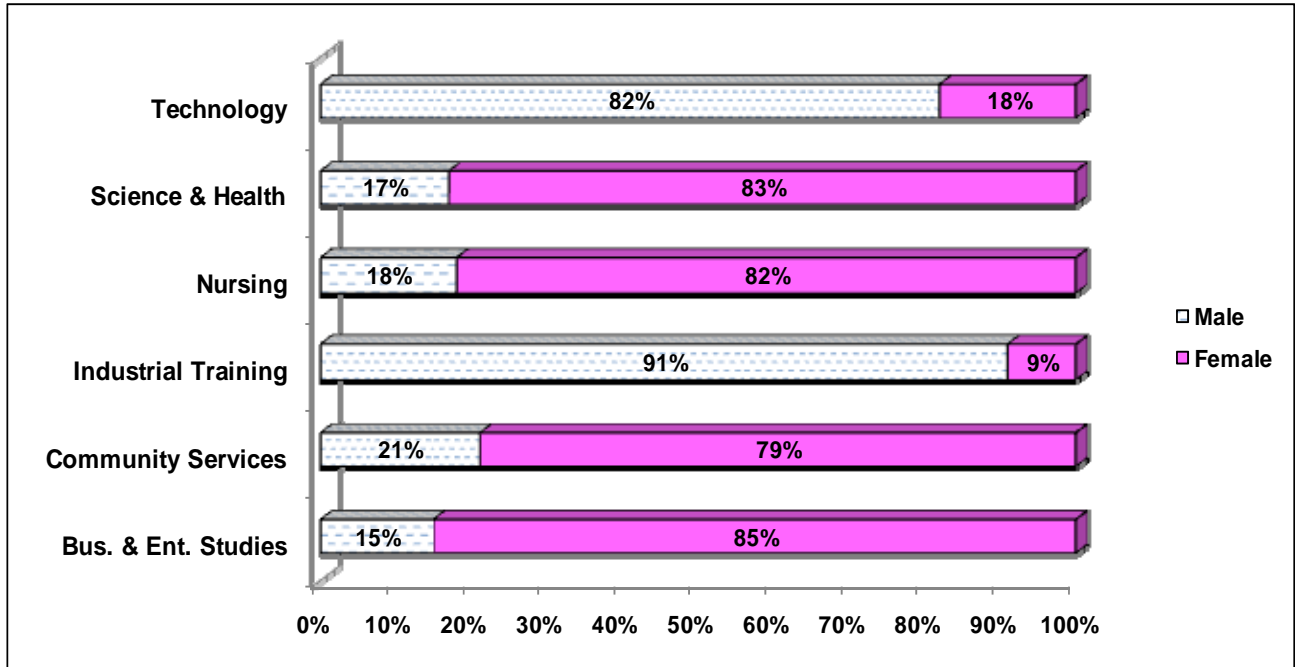

Figure 19: Gender Overall, 2010

Respondents in the Industrial Training and Technology Divisions had the largest percentage of males (91% and 82%, respectively) whereas the Nursing Division had the largest percentage of females (82%). The program mix in these three divisions was most likely a factor in the gender differences. For example, programs in the Industrial Training Division are traditionally male dominated, whereas the Nursing Division is traditionally dominated by females. Close to four-fifths of respondents in other divisions (79% to 85%) were also dominated by females.

Figure 20: Gender by Division 2010

11.2 Ages of all Respondents

How old were you on June 30, 2008? (Question 32)

As shown in Table 23, the average age of SIAST graduates was 28 years while the median age was 23 years. Respondents of continuing education programs were relatively older (with the mean and the median age at 31 and 28 years of age, respectively) than the base program respondents, whose mean and median ages were 25 and 22, respectively.

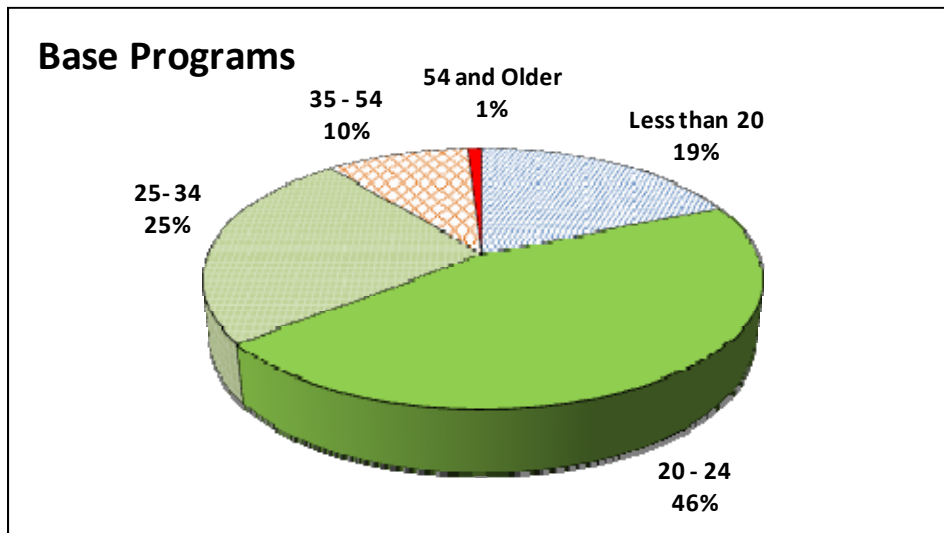

There was little diversity in the mean age of respondents in base programs except for respondents in the Nursing Division's programs whose average age was substantially higher at 35 years. This is consistent with the results in 2008 and 2009. Many participants of these programs have been out working in the field prior to returning to SIAST for additional training.

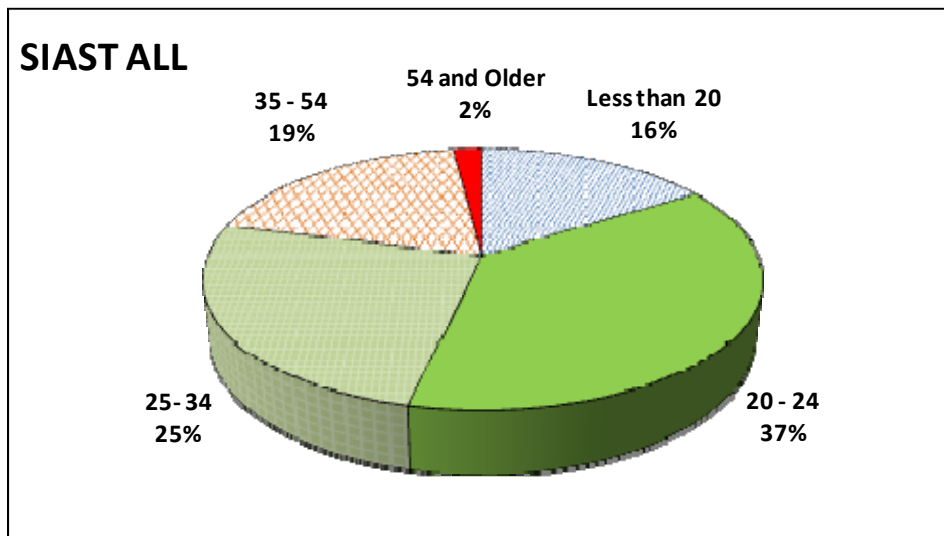

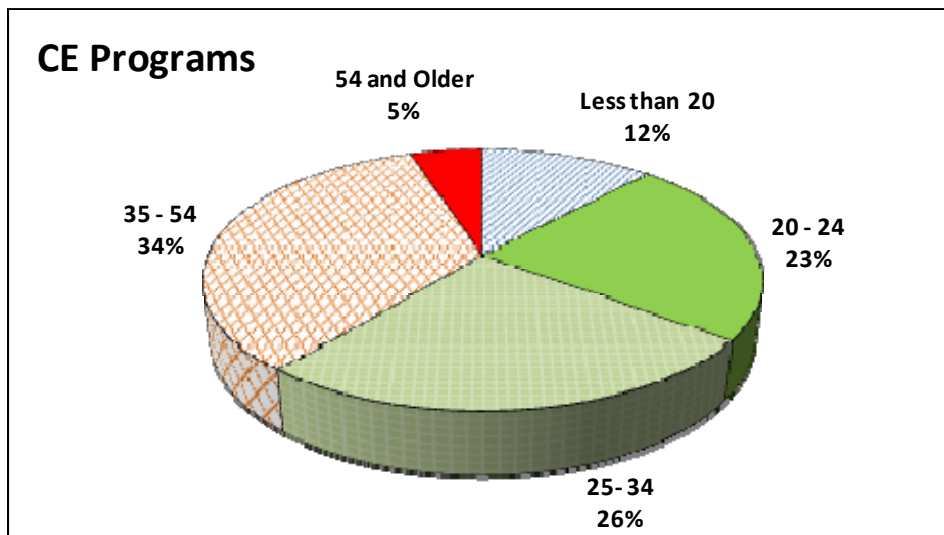

In SIAST continuing education programs, respondents in all divisions, with the exception of Technology (24 years) and Industrial Training (29 years), had a mean age over 30 years. Figure 21 further illustrates the distribution, by division, of respondents by age.

Table 23: Age at June 30, 2009, by Division, by Base/Continuing Education, 2010

11.3 Aboriginal Ancestry

Are you of Aboriginal ancestry? (Question 33)

The definition of Aboriginal refers to those persons who are First Nations (Registered, Treaty or Status Indians), Non-status Indians, Métis and Inuit. Equity status is a self-declaration. Of the graduates who responded to the survey, 13% (274 of 2,052) indicated they were of Aboriginal ancestry.

Among the divisions the Community Services Division had the highest percentage of respondents (20%) declaring Aboriginal ancestry, followed by the Industrial Training Division (17%). Figure 22 illustrate the percentage of Aboriginal and non-Aboriginal respondents in each division.

Figure 22: Aboriginal Ancestry Identification, by Division, 2010

Aboriginal Category

Do you consider yourself Status/Treaty Indian, Métis, Non-Status Indian or Inuit? (Question 34)

Fifty percent of Aboriginal respondents indicated that they were Métis or Status/Treaty Indian (43%), while the Non-Status group made up 6%. Table 24 provides a breakdown of the Aboriginal status of SIAST graduates by division for both base and continuing education programs.

Table 24: Identified Ancestry Type, by Division, by Base/Continuing Education, 2010

11.4 Visible Minority Declaration

Do you consider yourself a member of a visible minority? (Question 35)

Respondents were given the opportunity to identify if they were members of a visible minority. The definition of visible minority includes those who are visibly distinguishable from the majority of Canadians on the basis of race or ethnic origin. It does not include those declaring Aboriginal ancestry. As shown in Table 25 visible minority represents 10% of total respondents, a 1% increase over 2009.

Table 25: Visible Minority Identification, by Division, by Base/Continuing Education, 2010

11.5 Persons with Disabilities Declaration

Do you consider yourself a person with a disability? (Question 35)

Respondents were given the opportunity to indicate if they were a person with a disability. The definition of a person with a disability includes any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

In this survey, 5% of respondents indicated that they had a disability, which is the same as 2009. Higher percentage of disabled respondents represents were found in both base and continuing education programs in Community Services and Science and Health Divisions.

Table 26: Persons with Disabilities Identification, by Division, By Base/Continuing Education, 2010

	TOTAL RESPONDENTS	TOTAL RESPONDENTS WITH DISABILITIES	DISABILITIES IDENTIFICATION
SIAST Base Programs by Division

Employment Information – If you are presently employed, complete Q12-22. If not, go to Q23

Q12 Are you self-employed? Yes No

Q13 Are you employed in a job directly related to the education and training you received in your program at SIAST?
 Yes No

Q14 How many jobs do you currently have? (Enter 0 if you are not employed in a particular category)

_____ # of Training Related Jobs _____ # of Non-training Related Jobs

INSTRUCTIONS FOR QUESTIONS 15 to 22: ALL GRADUATES WHO ARE CURRENTLY EMPLOYED RESPOND TO Q15 TO Q22.

- For those respondents who are employed in more than one training related job, provide your answers based on the one you consider to be your 'primary job'.
- For those respondents who are not employed in a training related job, provide your answer based on the non-training related job you consider to be your 'primary' job.

Q15 What is the title of your primary training related job? (If you do not have a training related job, provide the title of your primary non-training related job)

_____ Title of primary training related job

_____ Title of primary non-training related (Do not have a training related job)

Q16 What is your employment status in your primary training related job? (If you do not have a training related job, provide the employment status of your primary non-training related job)

Permanent Full-time (30 hours or more per week) Non-permanent full-time

Permanent Part-time (less than 30 hours per week) Non-permanent part-time

Casual

Q17 If your primary job is a part-time or casual position, is this by choice?

Yes No Not Applicable

Q18 What is the hourly salary of your primary training related job, before deductions? (If you do not have a training related job, provide your salary for your primary non-training related job)

\$ _____ /hour If your hourly rate is unknown, provide an average monthly salary \$ _____ /month

Q19 Where is the location of your primary training related employment? (If you do not have a training related job, provide the location of employment for your primary non-training related job)

Moose Jaw Prince Albert Regina Saskatoon

Other Saskatchewan location, please specify nearest community _____

Outside Saskatchewan, please specify province, or country _____

Q20 If employment was found outside of Saskatchewan, was this by choice?

Yes No Not applicable (**GO TO Q22**)

Q21 Indicate the **main** reason why you moved out-of-province for employment (**SELECT ONLY ONE**)

More employment opportunities Better wages and benefits

Personal Reasons Other, specify _____

Q22 Select the option below that **best** describes which industry sector the employer for your primary training related employment operates in. (If you do not have a training related job, provide the industry sector the employer for your primary non-training related position operates in) (**SELECT ONLY ONE**)

- | | |
|--|--|
| <input type="checkbox"/> Biotechnology, Pharmaceuticals or Nutraceuticals | <input type="checkbox"/> Health |
| <input type="checkbox"/> Business and Professional services | <input type="checkbox"/> Hospitality and Tourism |
| <input type="checkbox"/> Construction | <input type="checkbox"/> Human/Social Services and Justice |
| <input type="checkbox"/> Education Services | <input type="checkbox"/> Manufacturing (includes agri-value) |
| <input type="checkbox"/> Film, Video, Multi-media, Printing and Publishing | <input type="checkbox"/> Natural Resources and Environment |
| <input type="checkbox"/> Finance, Insurance, Real estate | <input type="checkbox"/> Retail and Wholesale |
| <input type="checkbox"/> Government Services/Public Administration | <input type="checkbox"/> Technology Electronics Communications |
| <input type="checkbox"/> Transportation, Trucking, and Heavy Equipment (includes aviation and automotive/autobody service) | |
| <input type="checkbox"/> Other, specify _____ | (CONTINUE TO Q29) |

Graduates Not Employed – If you are NOT currently employed, complete Q23-28.

- Q23** Which of the following **best** describes the reason why you are currently not employed? **(SELECT ONLY ONE)**
 Returned for further education Lack of experience
 Quit employment or lost desire to work in field Laid off by employer (includes term or seasonal work)
 No employment opportunities Personal reasons
- Q24** Have you worked at all since completing your training program (includes part-time or casual positions)?
 Yes No **(GO TO Q26)**
- Q25** If yes, was the most recent work directly related to the education and training you received in your program?
 Yes No
- Q26** Are you scheduled to return to work in the future?
 Yes No
- Q27** Are you actively looking for work at present?
 Yes **(GO TO Q29)** No
- Q28** If no, which of the following best describes your reason for not looking for work?
 Returned for further education Given up looking - no employment opportunities
 Personal reasons (i.e., not available to work due to family, health etc.) **(CONTINUE TO Q29)**

Further Education – ALL graduates to complete Q29 and Q30, whether presently employed or not

- Q29** Are you currently enrolled in an education or training program?
 Yes No **(GO TO Q31)**
- Q30** Which type of training is it? **(SELECT ONLY ONE)**
 The same SIAST program (different credential) A post-secondary program at another institute (not university)
 A different SIAST program An apprenticeship program
 A university program Other program, specify _____
- Q31** Identify your gender
 Male Female
- Q32** How old were you on June 30th, 2010? _____
- Q33** Are you of Aboriginal ancestry?
 Yes No **(GO TO Q35)**
- Q34** If YES, do you consider yourself?
 Status/Treaty Indian Metis Non-Status Indian Inuit

Please add any additional comments that you wish to make:

APPENDIX C: 2010 SIAST GRADUATE EMPLOYMENT SURVEY – TOTAL RESPONSES PER QUESTION

The total number of graduates responding to each question varied because:

- a) Respondents did not always provide answers to all questions and/or
- b) Some questions were not relevant to all respondents.

Due to their nature, some questions do not report the number of respondents (e.g., Q1.).

	Number of Graduates Surveyed:	3,476
	Number of Respondents:	2,052
Q1.	What is the name of the program from which you graduated?	
		# of Respondents to Question
Q2.	What is the name of the credential that you received?	
	Applied Certificate	369
	Certificate	1,104
	Advanced Certificate	73
	Diploma	<u>506</u>
		2,052
Q3.	At which SIAST campus or regional college did you take your program?	
	Kelsey	740
	Palliser	422
	Wascana	515
	Woodland	375
		2,052
Q4.	Which of the following best describes your reason for completing this program? (Select only one)	
	Employment in this field interested me	1,151
	To upgrade or formalize training in field	181
	To change careers	169
	To gain entry into higher level of post-secondary training	100
	Employment requirement	143
	Sponsored to take training (i.e., disability/workers compensation, unemployment etc.)	59
	Personal reasons	<u>249</u>
		2,052
Q5.	Please rate the overall quality of training you received in your program	
	Excellent	642
	Very Good	876
	Good	498
	Poor	28
	Very Poor	4
	Don't Know/Refused	<u>4</u>
		2,052
Q6.	Please rate how well the training prepared you for employment in your field	
	Excellent	467
	Very Good	857
	Good	636
	Poor	43
	Very Poor	7
	Don't Know/Refused	<u>42</u>
		2,052

Q7.	Were you already employed in your field of study prior to enrolling at SIAST?	
	Yes	498
	No	<u>1,544</u>
		2,052
Q8.	How many employment opportunities have you applied for since completing your training program?	
	Have not applied for any jobs since completing training	408
	Have applied for jobs since completing training	<u>1,644</u>
		2,052
Q9.	If none, why have you not applied for any employment opportunities?	
	Already employed in field of study	200
	Offered employment during practicum	42
	Personal reasons	52
	Other, specify	<u>114</u>
		408
Q10	How many employment interviews have you had?	2,039
Q11.	Are you presently employed?	
	Yes	1,768
	No	<u>284</u>
		2,052

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE PRESENTLY EMPLOYED

Q12.	Are you self-employed?	
	Yes	80
	No	<u>1,688</u>
		1,768
Q13.	Are you employed in a job directly related to the education and training you received in your program?	
	At SIAST?	
	Yes	1,489
	No	<u>279</u>
		1,768
Q.14	How many jobs do you currently have?	
	Maximum	3
	Mean	1.12
	Median	1.00
Q15.	What is the title of <u>primary</u> (main) job?	
Q16.	What is your employment status of your <u>primary</u> job? (Select only one)	
	Permanent Fulltime (30 hours or more per week)	1,140
	Permanent Part-time (less than 30 hours per week)	233
	Non-permanent full-time (i.e. term contract, seasonal)	166
	Non-permanent part-time (i.e. term contract, seasonal)	58
	Casual	<u>171</u>
		1,768

Q17.	If your <u>primary</u> job is a part-time or casual position, is this by choice?	
	Yes	268
	No	<u>187</u>
		462
Q18.	What is your average monthly salary of your <u>primary</u> job, before deductions? (Salary analyzed for Full-Time Training-Related Employment only)	
	Maximum	\$8,250
	Mean	\$3,175
	Median	\$2,892
	Minimum	\$1,388
Q19.	Where is the location of your <u>primary</u> employment? (Select only one)	
	Moose Jaw	93
	Prince Albert	111
	Regina	437
	Saskatoon	497
	Other Saskatchewan location	557
	Outside Saskatchewan	<u>73</u>
		1,768
Q20.	If <u>primary</u> employment was found outside of Saskatchewan, was this by choice?	
	Yes	60
	No	<u>13</u>
		73
Q21.	Please indicate the primary reason why you moved out-of-province for employment. (Select only one)	
	More employment opportunities	12
	Better wages and benefits	13
	Personal reasons	27
	Other reasons	<u>21</u>
		73
Q22.	Please select the option that best describes which industry sector your primary employer operates in. (Select only one)	
	Biotechnology, Pharmaceuticals or Nutraceuticals	14
	Business and Professional Services	103
	Construction	197
	Education Services	138
	Film, Video, Multi-media, Printing and Publishing	17
	Finance, Insurance, Real Estate	33
	Government Services/Public Administration	67
	Health	571
	Hospitality and Tourism (includes casinos)	46
	Human/Services and Justice	36
	Manufacturing (includes metal fabrication, agri-value and food processing)	75
	Natural Resources and Environment (includes agriculture, forestry, mining, oil and gas)	130
	Retail and Wholesale	60
	Technology, Electronics and Telecommunications	50
	Transportation, Trucking and Heavy Equipment (includes aviation and automotive/ body services)	84
	Other, Specify	<u>147</u>
		1,768

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE NOT PRESENTLY EMPLOYED

Q23.	Which of the following best describes your reason for not looking for work? (Select only one)	
	Returned for further education	101
	No employment opportunities	25
	No employment opportunities	35
	Lack of experiences	24
	Laid off by employer	39
	Personal reasons	60
		284
Q24.	Have you worked at all since completing your training program (includes part-time or casual positions)?	
	Yes	197
	No	87
		284
Q25.	If yes, was the most recent work directly related to the education and training you received in your program?	
	Yes	115
	No	82
		197
Q26.	Are you scheduled to return to work in the future?	
	Yes	144
	No	140
		284
Q27.	Are you actively looking for work?	
	Yes	169
	No	115
		284
Q28.	If no, which of the following best describe your reason for not looking for work?	
	Returned for further education	72
	Given up looking – no employment opportunities	2
	Personal reasons	41
		115

RESPONSES TO QUESTIONS ON FURTHER EDUCATION FROM ALL RESPONDENTS

Q29.	Are you currently enrolled in an education or training program?	
	Yes	403
	No	1,649
		2,052
Q30.	Which type of training is it? (Select only one)	
	The same SIAST program (different credential)	107
	A different SIAST program	71
	A post-secondary program at another institute (other than university)	25
	An apprenticeship program	57
	A university program	70
	Other program	73
		403

RESPONSES TO DEMOGRAPHIC QUESTIONS FROM ALL RESPONDENTS

Q31.	Identify your gender:	
	Male	848
	Female	<u>1,204</u>
		2,052
Q32.	How old were you on June 30 th , 2010?	
	Maximum age	64
	Mean age	28
	Median age	23
	Minimum age	18
Q33.	Are you of Aboriginal ancestry?	
	Yes	274
	No	1,774
	Refused	<u>4</u>
		2,052
Q34.	If yes, do you consider yourself?	
	Status/Treaty Indian	119
	Métis	136
	Non-Status Indian	15
	Inuit	1
