
SIAST Graduate Employment Report: 2010-11 Graduates

July 2012

Acknowledgements

The Institutional Research and Analysis unit at SIAST would like to thank those graduates who responded to the SIAST Graduate Employment Survey.

Reproduction of this report or parts thereof is permitted and encouraged, provided appropriate acknowledgments are given.

Availability

The report is available in electronic format and can be found on the SIAST web page at:

http://www.siastr.sk.ca/about/reports_statistics/institutional_reports.shtml

The on-line version of the report is in Adobe Acrobat pdf format and will require the Adobe Acrobat Reader software
(Available free for download from the Adobe web page).

EXECUTIVE SUMMARY

SIAST annually surveys graduates from its certificate and diploma programs, six to twelve months following graduation. Graduates are asked questions regarding the quality of training, their employment outcome and further education. The major findings of the SIAST Graduate Employment Survey (GES) of 2010 -11 graduates are listed below. Where possible, for comparison, the 2009 -10 figures are included in brackets. Program-specific breakdowns of the results are located in the program pages at the end of the report.

Graduate/Respondent Profile:

- 3,619 (3,476) graduates that received credentials from 152 distinct programs in the time period July 2010 - June 2011 were surveyed.
- Of the 3,619 surveyed graduates, 2,106 (2,052) responded for an overall response rate of 58% (59%).
- Fifty-eight percent (62%) of the graduates were from base programs (2,106 of 3,619 in 2010-11) and 42% (38%) from continuing education programs (1,513 of 3,619). The proportion of respondents in both base and continuing education programs was quite close to the actual graduate ratio (61% or 1,292 of 2,106 – base and 54% or 814 of 2,106 respondents in).
- 58% (59%) of respondents were female and 42% (41%) were male, which closely reflects the actual gender ratio of graduates.
- 15% (13%) of respondents identified themselves as being of Aboriginal origin which is similar to the actual proportion of Aboriginal graduates in 2010-11 (17%). The Aboriginal respondents identified themselves as 43% (43%) Status/Treaty Indian, 48% (50%) as Métis, 8% (6%) as Non-Status Indian and none (0%) as Inuit.
- 5% (5%) of respondents indicated that they were persons with disabilities, exactly the proportion of disabled graduates declared in the 2010-11 census.
- 11% (10%) of respondents identified themselves as a visible minority, which is much higher than the proportion of graduates who self-declared their equity status while attending SIAST (3% of the 2010-11 graduates).
- 58% (56%) of respondents reported seeking employment in this field as the primary reason for completing their programs.
- 20% (20%) of all respondents indicated they were enrolled in further education at the time of the survey. Of this figure, 43% (44%) were enrolled in a SIAST program – either the same SIAST program (different credential) or a different program altogether.

Quality of Training:

- 99% (99%) of all respondents rated the overall program quality at SIAST as good to excellent.
- 96% (96%) of all employed respondents rated the ability of the program to prepare them for employment in their field of study as good to excellent.

Key Findings based on the 'Available Workforce' (those employed and those not employed but looking for work):

- 94% or 1,989 of 2010-11 graduate respondents were participating in the labour force at the time of the survey (94% or 1,937); 1,859 were employed (1,768) and 130 were not employed but looking for work (169).
- 93% (91%) of respondents who were available to work were employed (employment rate).
- 71% (67%) of respondents available to work were employed in full-time occupations.
- 79% (77%) of respondents available to work were in training-related occupations.
- 61% (57%) of the respondents available for work were employed in full-time training-related occupations.
- The graduate employment rate for 2010-11 Aboriginal graduates increase by 8% to 90% employed.
- Training-related employment of Aboriginal graduates increased to 73% (66%).
- Full-time employment for Aboriginal graduates also increased to 60% (58%).

Other Key Findings:

- The average salary for respondents in full-time training-related employment was \$3,348 (\$3,175) per month, a 5% increase over 2010.
- 4% (5%) of employed respondents indicated they were self-employed.
- Of those respondents who were employed, 22% (26%) were working part-time or casually and of these, 58% (58%) reported that the part-time work was by choice.
- 95% (96%) of respondents employed in training-related positions were working in Saskatchewan. Of this figure, 50% (53%) were working either in Regina or Saskatoon. The number of respondents working in 'Other Saskatchewan Locations', outside the four campus cities, increased by approximately 1% to 33% (32%) in training-related positions.
- When looking at all employed respondents, 5% (4%) of the respondents indicated their primary employment was obtained outside Saskatchewan and of that figure, 85% (82%) reported that this was by choice. Of those who reported working outside Saskatchewan, 45% (37%) indicated personal reasons as the primary reason for leaving the province.
- Of the 246 respondents who reported they were not working at the time of the survey, 67% (69%) indicated they had worked at some time since graduation and 56% (58%) of these respondents had been employed in work directly related to their training.
- 48% (51%) of graduates not employed at the time of the survey reported they were scheduled to return to work in the future.
- 57% (63%) of respondents, who were not employed, indicated they were not looking for work, primarily because they were enrolled in further education.

INTRODUCTION

1.0 INTRODUCTION

The SIAST Graduate Employment Report is produced from data collected from the SIAST Graduate Employment Survey (GES). The survey collects data from a variety of questions relating to the employment status, evaluation of training and general demographic characteristics of SIAST's graduates.

One of SIAST's strategic goals is to maximize student success. Graduate feedback from the survey provides valuable information about the quality of training and the success of SIAST graduates in the labour market. A wide range of stakeholders, from SIAST management, government, high school students and career counsellors, labour analysts and policy administrators, use the Graduate Employment Report as a reference document for program and labour market review and planning. The Institutional Research and Analysis (IR&A) unit at SIAST undertook the survey on behalf of the institution.

1.1 Scope

The 2011 SIAST GES contacted 3,619 graduates who completed a SIAST program of study and graduated between July 2010 and June 2011.

In the 2010 -11 academic year, SIAST had graduates from a total of 152 distinct credentialed programs. Many SIAST programs are also offered off-campus throughout the province and these are considered continuing education programs. SIAST continuing education programs are generally cost-recovery and are offered throughout the province in a variety of delivery formats: with partners, via distance education learning and in industry-based training formats.

All programs at SIAST are clustered and reported within one of the following six program divisions:

- Business
- Industrial Training
- Science and Health
- Community Services
- Nursing
- Technology

One of the following four credentials is awarded for each SIAST program: Applied Certificate, Certificate, Advanced Certificate and Diploma. In some instances a program may have both a certificate and diploma level exit credential.

In order to have programs that are current, SIAST continually reviews the program mix. Some programs may have recently been deleted but graduates were permitted to complete their programs and graduate. Some programs have been re-titled or re-credentialed. Appendix A lists changes to the programs offered.

1.2 Methodology

Data Collection and Analysis

A census of SIAST graduates within an academic year was undertaken to obtain a sufficient number of graduates for the GES. The graduate contact list, including telephone numbers and mailing addresses, was provided by Enrolment Services at SIAST.

A tri-modal data collection process was used to contact SIAST graduates. It consisted of three phases which occurred between December 2011 and April 2012. The first was a

mail out of a self-administered paper survey to all 3,619 graduates. In December 2011, each graduate received the questionnaire to complete, along with a letter explaining the purpose of the study. A link to an online version of the survey was also provided in the invitation letter for those respondents who would prefer to complete the survey using the Internet. The invitation letter was followed up with an e-mail invitation that contained an electronic link to the online survey.

In March/April 2012, Insightrix Research Inc. of Saskatoon was contracted to conduct one-on-one telephone interviews with those graduates who did not respond to the mail-out questionnaires or email invitation by February, 2012. Every effort was made to contact the graduates in order to provide the highest possible response rate. The participants were entered to win a laptop as well as three early bird draws of either an iPod or digital camera to encourage them to participate in the survey.

The online responses were collected using the Perseus Enterprise web-based survey tool, a method that IR&A introduced in 2007. The purpose of this method was for respondents to directly enter their own responses to the questions in the survey and therefore avoid any misinterpretation of responses when entered manually. The responses from the mail-in portion of the survey (paper version) were manually entered by IR&A staff. IR&A continues to develop new measures to have all future graduate employment surveys completed online. The responses from graduates by the different methods of surveying were merged, checked for accuracy and consistency and then analyzed using the Statistical Package for Social Science (SPSS) software.

1.3 Response Rate and Validity of Results

A total of 2,106 graduates participated in the 2011 GES, with an overall response rate of 58%. Table 1 provides the response rates for SIAST overall, by division and by base/continuing education.

Table 1: Survey Response Rate, by Division, by Base/Continuing Education, 2011

2011	GRADUATES	RESPONDENTS	RESPONSE RATE
SIAST Overall Programs by Division			
Business	570	373	65%
Community Services	777	402	52%
Industrial Training	689	356	52%
Nursing	337	193	57%
Science and Health	665	418	63%
Technology	581	364	63%

Business	325	220	68%
Community Services	462	254	55%
Industrial Training	341	195	57%
Nursing	189	108	57%
Science and Health	363	241	66%
Technology	426	274	64%
Total SIAST Base Programs	2,106	1,292	61%
SIAST CE Programs by Division			
Business	245	153	62%
Community Services	315	148	47%
Industrial Training	348	161	46%
Nursing	148	85	57%
Science and Health	302	177	59%
Technology	155	90	58%
Total SIAST CE Programs	1,513	814	54%

SIAST's GES is unique because, rather than survey a sample of the 2011 SIAST graduates, a full census of every graduate is undertaken. SIAST is a post-secondary institution offering more than 152 distinct programs at four urban campuses as well as numerous rural locations. Some of these programs have less than 30 graduates which makes it impossible to survey a sample of the graduates and obtain meaningful results at the individual program level.

Response Rates for Small Populations

For populations with less than 30 participants, as is the case with several SIAST programs, it is recommended that all participants be surveyed in order to obtain reliable information. At the program level, the results will provide a good indication of graduate success and training quality, but may not be representative of all graduates from that program if the population is less than 30 graduates and only a small portion of graduates respond. SIAST makes every effort to contact all the graduates and encourage them to participate. Note: When viewing individual program pages, with low/small number of graduates and a low response rate (i.e., less than 30%), generalizations of the results in the survey should be made with caution.

1.4 Reporting of Results

The 2011 SIAST GES report was compiled from an analysis of the results of the survey. The findings of the analysis are presented in the Overview of Results that summarizes the survey results regarding employment status, program assessment and general graduate demographics by SIAST overall, by base (primarily on-campus activity) and continuing education (primarily brokered off-campus activity throughout the province), as well as the six SIAST program divisions.

Two types of ratios have been included in the Graduate Employment Report for questions pertaining to employment status and training-related employment. In Sections 2.1.1 to 2.1.6, employment information is presented as a percentage of those graduates available to work. According to Statistics Canada, the available to work is defined as the labour force and includes those that are currently employed, as well as those not currently employed but who are seeking employment.

For example, 1,853 graduates responded to the question regarding employment status (full-time versus part-time). Of these, 1,413 respondents indicated that they are employed full-time. In calculating the full-time employment rate listed in the sections mentioned above, the 1,413 responses are divided by the available workforce total – 1,989 (comprised of 1,859 respondents employed and 130 respondents actively seeking employment), for a full-time employment rate of 71%.

In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of graduates who responded to the respective employment questions in the survey rather than the available workforce. For example, in reporting employment status (Section 2.3.1), the frequency for those respondents with a full-time status (76%), was calculated by dividing the 1,413 respondents who indicated they are employed full-time by the 1,859 graduates who responded they are employed.

For Sections 2.3.1 and 2.3.2, similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators and the program pages at the back of the report.

Where applicable the report has been rounded to the nearest whole percentage and, therefore, in some cases the total percentages may vary slightly from 100% or in some cases where responses do not equal 100%, the difference is for graduates who indicated "Don't Know/Refused".

In presenting the results, the total number of graduates responding to each question will vary because: a) respondents did not always provide an answer to each question; and/or b) some questions were not relevant to some respondents. For example, some questions were asked only of those who were currently employed at the time of the survey and conversely, other questions were asked only of those who were not currently employed at the time of the survey.

The Appendices section at the back of the report contains a listing of programs that have recently been revised, either re-titled, identified with different credentials or deleted (appendix A); a copy of the survey questionnaire (appendix B); a question-by-question response count (appendix C); general SIAST information (appendix D); a list of tables (appendix E); and a list of figures (appendix F).

OVERVIEW OF RESULTS

2.0 EMPLOYMENT

Respondents were asked to respond to a number of questions regarding their ability to secure employment after graduation, as well as the details of that employment, such as employment status (full or part-time), location, and number of jobs held and the relationship of employment to training.

2.1 Employment Rates

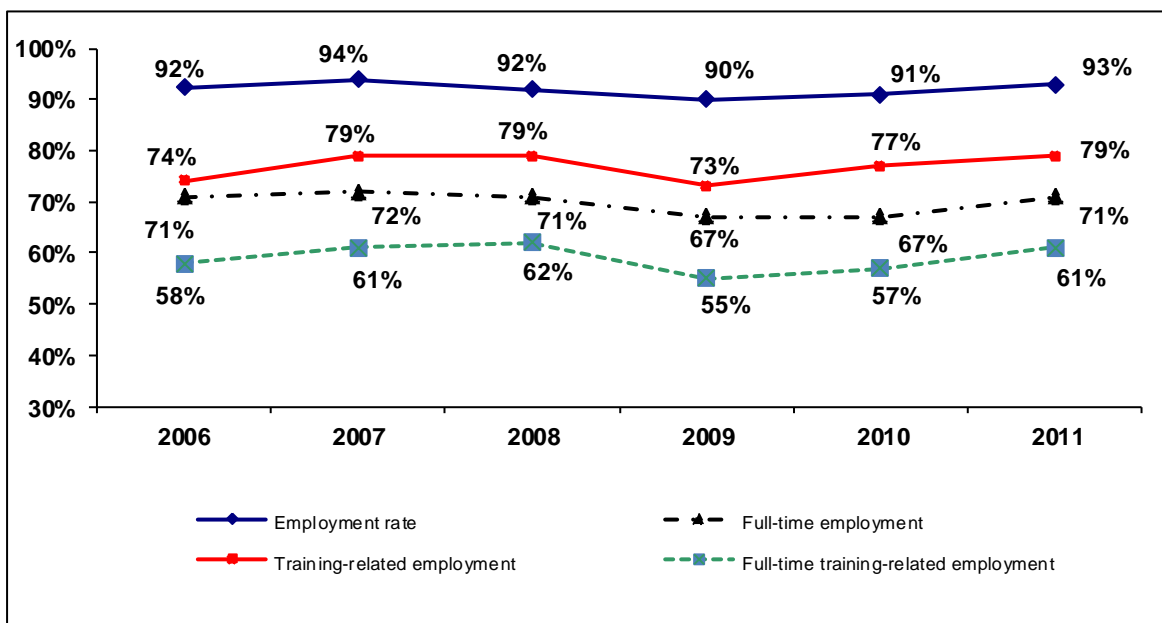

2.1.1 Employment Rates for SIAST Overall

The following employment rates are calculated based on those respondents who are *available to work*. The respondents who are included in the available to work category are those who were employed at the time of the survey and those who were not employed but were looking for work (Statistics Canada's definition of the Labour Force).

The employment rate (93%) of 2010-11 graduates increased by 2% over the previous year, despite the economic downturn in North America. While this is a modest increase, it is the second highest employment rate after the 2007 rate (94%).

The training-related employment rate increased 2% from 2010 level to 79% of graduates in the available workforce at the time of the survey. The full-time employment rate increased 4% points to 71%, as well the full-time training-related employment (61%) rate increased by 4% over 2010.

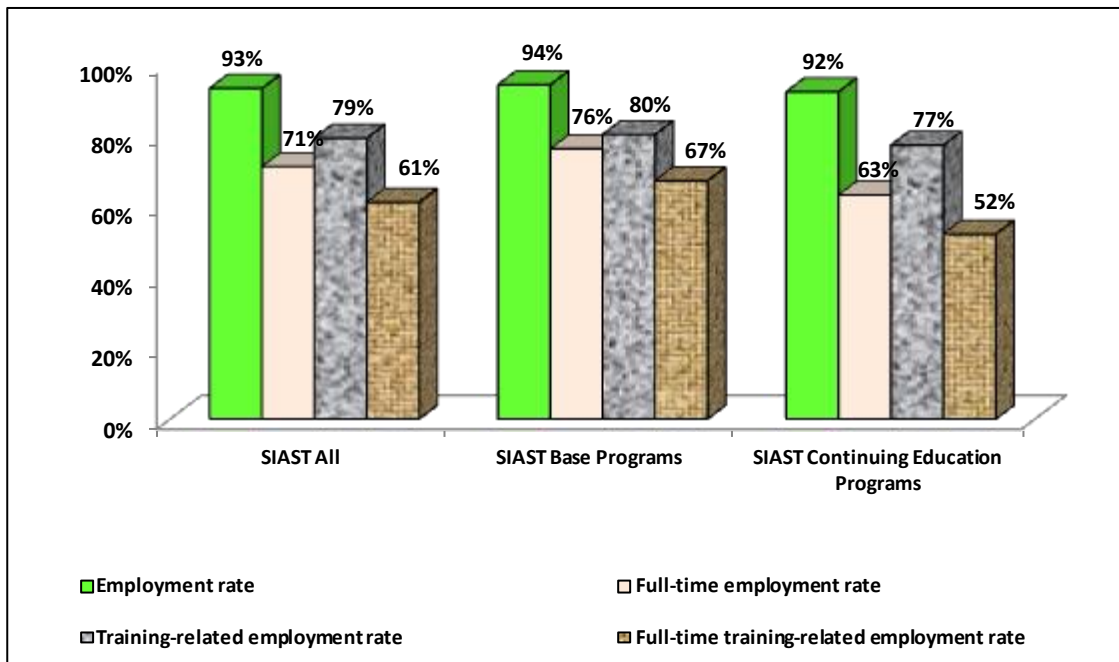

Figure 1: Employment Trends for SIAST Graduates, Based on Available Workforce, 2006 - 2011

2.1.2 Employment Rates for All SIAST, Base and Continuing Education Programs

Figure 2 compares the employment rates for base and continuing education programs in 2011, with that of SIAST overall. The employment rate for base programs (94%) and continuing education programs (92%) are closely comparable to the SIAST overall employment rate of 93%. As shown in Figure 2, the training-related employment rates and full-time training-related employment rates for base programs were higher than continuing education programs.

Figure 2: Employment Rates, by Base/Continuing Education, Based on Available Workforce, 2011

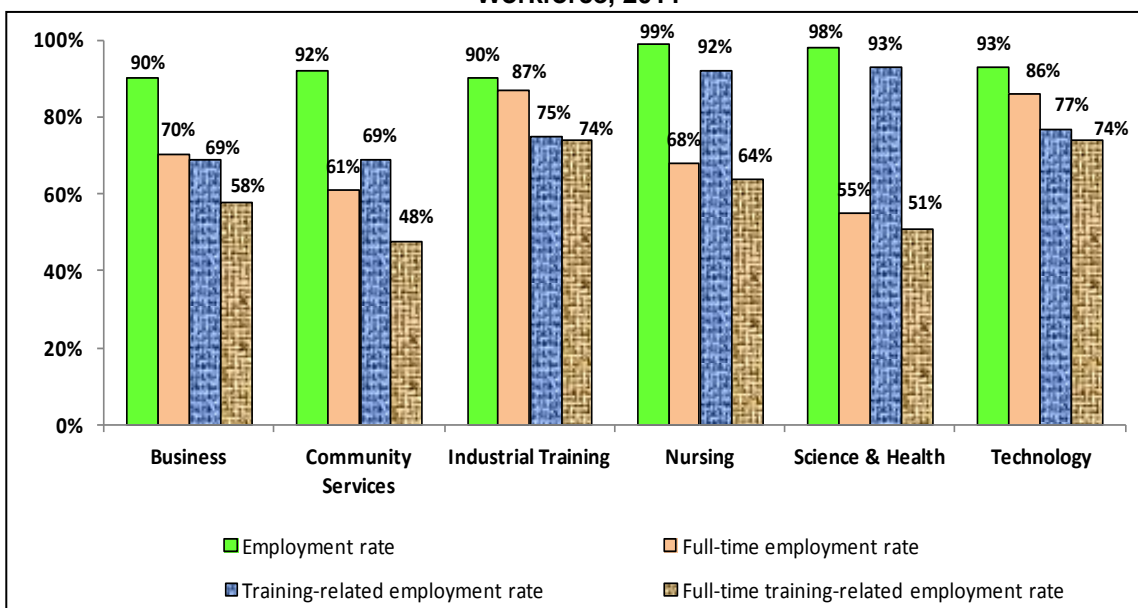

2.1.3 Employment Rates by Division Overall (Base and Continuing Education)

Figure 3 provides a breakdown of employment rates for each of the six program divisions. Higher employment rates of those who graduated from Nursing (99%) and Science and Health (98%) Divisions pulled the overall SIAST graduate employment rate up to 93% (Figure 2). The employment rates of graduates of other divisions were all above 90%.

The training-related employment rates of those who graduated from Science and Health (93%) and Nursing (92%) Divisions increased the overall SIAST training-related employment rate to 79%.

Similar to 2009-10, respondents from the Technology Division reported the highest full-time training-related employment rate of 86%.

Figure 3: Employment Rates, by Division, Based on Available Workforce, 2011

2.1.4 Employment Rates by Division (Base and Continuing Education Reported Separately)

Table 2 provides a further breakdown of employment rates by division for base and continuing education programs.

For SIAST base programs, the Nursing (99%) and Science and Health (98%) Divisions reported the highest employment rates. For continuing education programs, Nursing (99%), Science and Health (98%) and Community Services (93%) Divisions had the highest employment rates, while the graduates from Industrial Training Division reported the lowest employment rate of 85%.

In both base and continuing education programs, graduates from the Industrial Training Division (93%) and Technology Division (86%) and in continuing education (Technology - 86% and Industrial Training – 81%) programs were more likely to find full-time employment.

Respondents from the Community Services Division (67%) in the base programs and the Technology Division (63%) in the continuing education programs reported the lowest percentage of finding training-related employment.

Following the results of SIAST overall (61%), the full-time training-related employment rate for graduates from base programs (67%) and continuing education programs (52%) increased by 4%, 5% and 4% respectively since 2009-10.

Table 2: Employment Rates, by Division, by Base/Continuing Education, Based on Available Workforce, 2011

2.1.5 Employment Rates for Aboriginal Respondents

Figure 4 indicates the employment rates, training-related employment rates and full-time training-related employment rates by divisions for Aboriginal respondents.

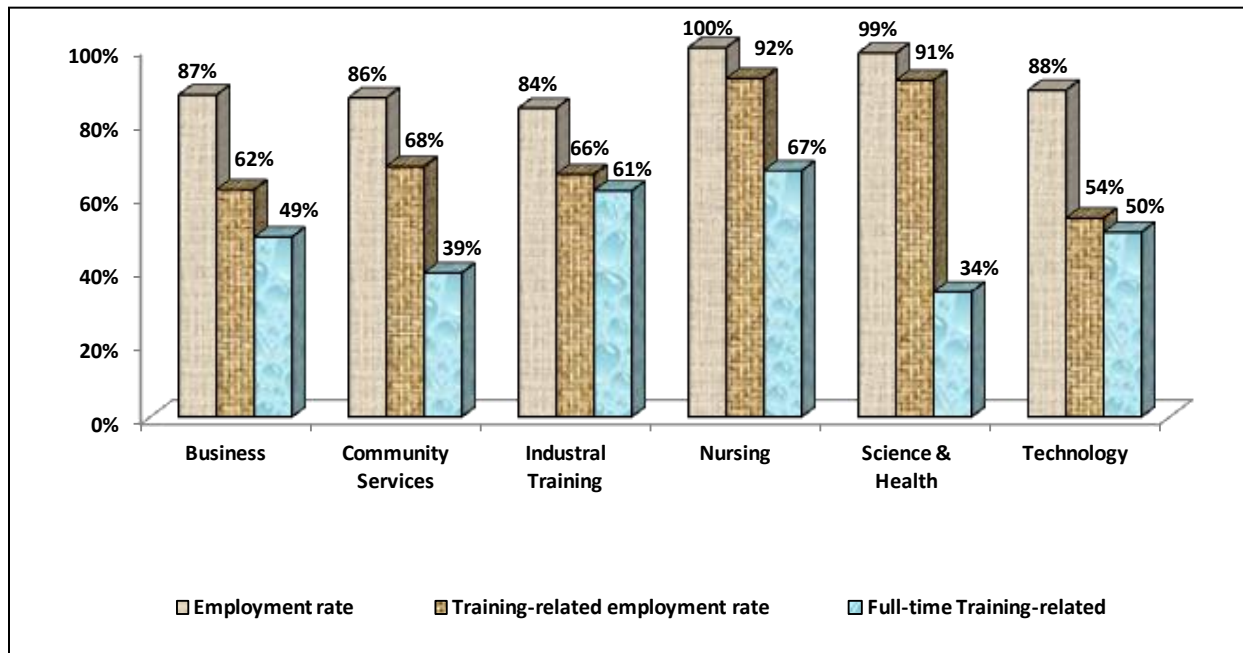

Both the Nursing Division (at 92% for training-related employment) and the Science and Health Division (at 91% for training-related employment) showed encouraging results for Aboriginal graduates in finding employment.

The employment rates for Aboriginal graduates by division based on those available to work were:

- Business – 87%
- Industrial Training – 84%
- Science and Health – 99%
- Community Services – 86%
- Nursing – 100%
- Technology – 88%

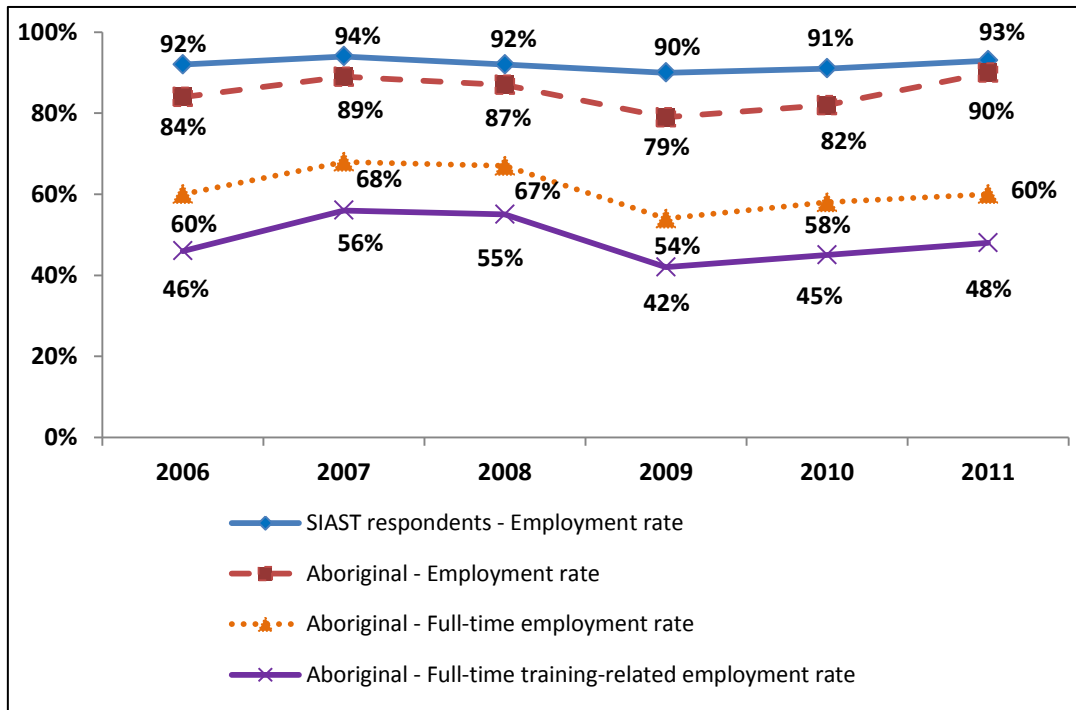

With the exception of the Nursing (100%) and Technology Divisions (88%) whose employment rates remained the same compared to 2009-10, there was a general increase in the employment rates for Aboriginal graduates from all programs across all divisions. The training-related employment rate for graduates from all divisions, except the Nursing and Technology Divisions which were 8% and 16% down from 2009-10 respectively, increased in all divisions.

Figure 4: Employment Rates for Aboriginal Respondents, by Division, Based on Available Aboriginal Workforce, 2011

As depicted in Figure 5, the employment, full-time employment and full-time training-related employment rates for Aboriginal respondents in the 2011 survey increased slightly over 2010. Notably so are the Aboriginal employment rate – increase of 8% since 2010 and the Aboriginal full-time employment rate an increase of 2% since 2010.

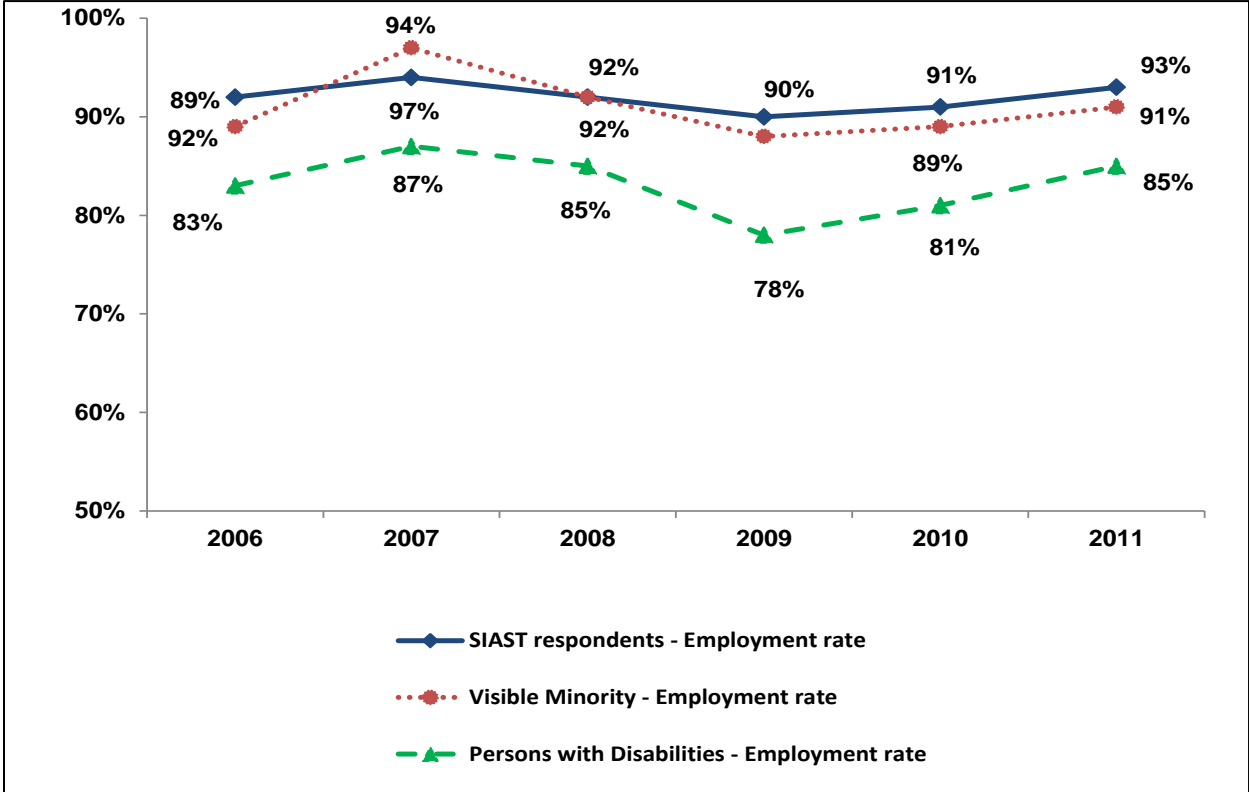

Figure 5: Employment Trends for Aboriginal Respondents, Based on Available Workforce, 2006 - 2011

2.1.6 Employment Trends for Persons with Disabilities and Visible Minority Respondents

As shown in Figure 6, the employment rate for persons with disabilities and visible minority respondents increased slightly over 2010 but remained low since the highest employment rate reported in 2007. The employment rate for persons with disabilities was 85% in 2011, a 4% increase over 2010, while the rate for visible minority persons was 91%, a 2% increase over 2010.

Figure 6: Employment Trends for Persons with Disabilities and Visible Minority Respondents, Based on Available Workforce, 2006 - 2011

2.2 Training-Related Employment, Based on Number Employed*

**Note: In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of employed graduates rather than the available workforce. Similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators or the program pages at the end of this report.*

Are you employed in a job directly related to the education and training you received in your program at SIAST? (Question 13)

The majority of respondents in all divisions reported that they found employment which was directly related to their training. Overall, consistent with 2010, 84% of all employed respondents worked at training-related jobs at the time of the survey (Figure 7). Respondents from the Nursing (93%) and Science and Health (94%) Divisions had the most success in obtaining training-related employment while respondents from Business (77%) and Community Services (75%) had relatively low rates of training-related employment.

Figure 7: Training-Related Employment, by Division, 2011

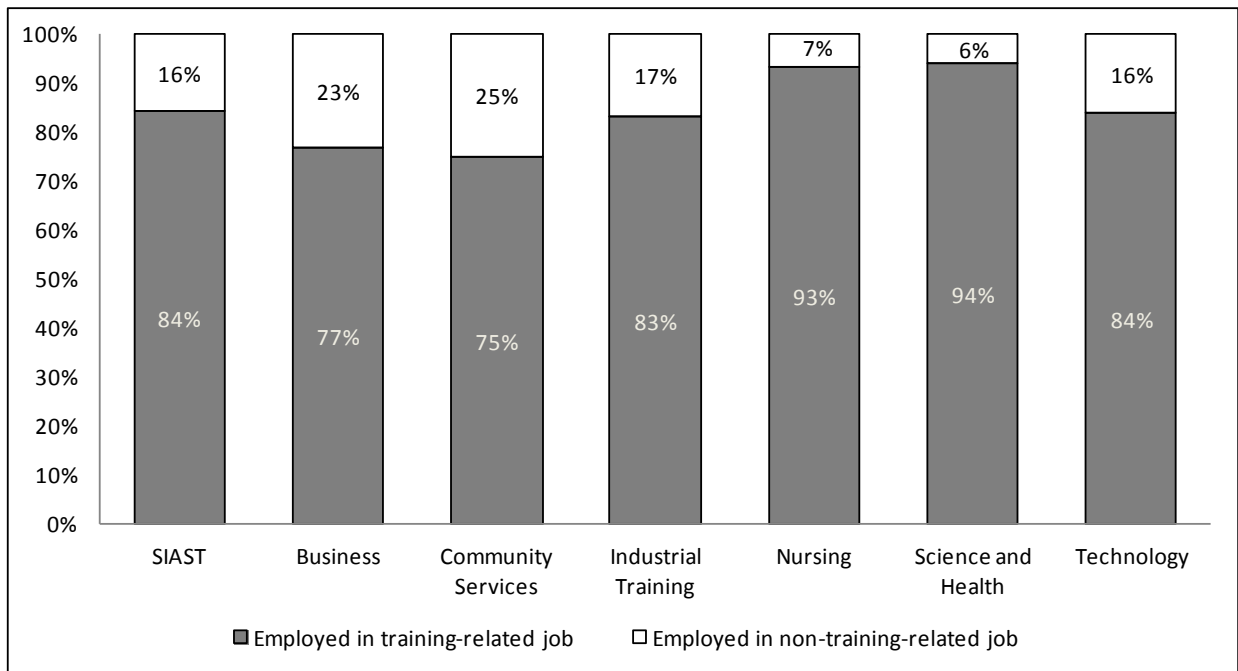

Table 3 provides a breakdown of training-related employment by base and continuing education programs for each division. The graduates from Nursing and Science and Health Divisions had the largest percentage of respondents with training-related employment. The Science and Health (95%) and Nursing (96%) Divisions had the highest percent of graduates employed in a training-related job in base and continuing education programs respectively. In many of the Nursing and the Science and Health Division's programs, respondents are required to have completed their training and be licensed by a national accrediting agency before practicing their skills in the health field. Overall, approximately four-fifths of graduates from base, 85% and continuing education, 84%, programs were able to find training-related employment increases of 1% and 4% respectively from 2010.

Table 3: Training-Related Employment, by Division, by Base/Continuing Education, 2011

	TOTAL EMPLOYED	NUMBER EMPLOYED IN TRAINING- RELATED JOB	PERCENT EMPLOYED IN TRAINING- RELATED JOB
SIAST Base Programs by Division			
Business	184	138	75.0%
Community Services	203	149	73.4%
Industrial Training	179	150	83.8%
Nursing	107	97	90.7%

Total SIAST CE Programs	712	596	83.7%
OVERALL SIAST TOTAL	1,858	1,564	84.2%

2.3 Employment Status, Based on Number Employed

2.3.1 Full or Part-time/Casual Employment

What is your employment status of your primary job? (Question 16)

- a) Permanent Full-time (30 hours or more per week)
- b) Permanent Part-time (less than 30 hours per week)
- c) Non-Permanent Full-time (i.e., term, contract, seasonal)
- d) Non-Permanent Part-time (i.e., term, contract, seasonal)
- e) Casual (variety of hours per week)

Full-time employment is defined as working 30 hours or more per week and part-time and casual employment are defined as working less than 30 hours per week. Overall, 76% of respondents surveyed were working full-time in their primary job (a 2% increase over 2010); while the remaining 24% of respondents had a primary job that was part-time or casual (a 2% decrease over 2010).

As shown in Figure 8, the Industrial Training Division had the highest percentage of respondents (97%) with full-time employment in their primary job followed by Technology Division (94%). Approximately four-fifths of respondents from the Business (78%) were working full-time in their primary job – a 2% decrease from 2010. Similar to 2010, respondents from the Science and Health Division (56%) were the least likely to obtain full-time employment in their primary job.

Figure 8: Full or Part-Time Employment in Primary Job, by Division, 2011

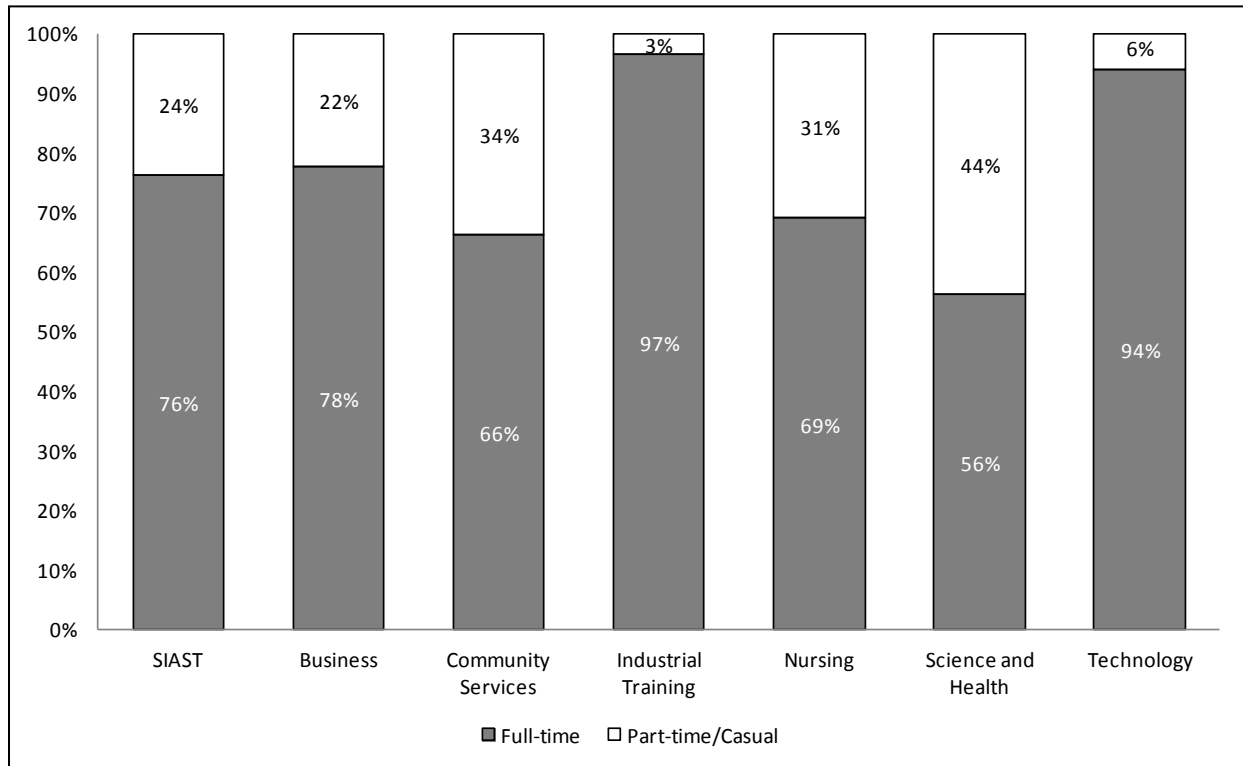

Table 4 provides further breakdown of employment status for base and continuing education programs in each division. On average, 81% of respondents from base programs were employed in full-time positions while only 68% of respondents from continuing education programs were employed in full-time positions. As shown in Table 4, over 70% of graduates in all divisions in the base programs, except community services were able to secure full-time positions. Only 68% of graduates from Community Services in base programs were able to secure full-time employment. Similarly, over 70% of the graduates from continuing education programs were also able to secure full-time employment with the exception of graduates in the Community Services and Science and Health Divisions. In continuing education programs only 38% of graduates from the Science and Health Division and 64% of graduates in Community Services Division were able to find full-time employment.

Table 4: Full or Part-Time Employment in Primary Job, by Division, by Base/Continuing Education, 2011

	TOTAL EMPLOYED	% FULL-TIME	% PART-TIME/ CASUAL
SIAST Base Programs by Division			
Business	184	81.3%	18.7%
Community Services	203	67.5%	32.5%
Industrial Training	179	97.8%	2.2%
Nursing	107	72.9%	27.1%
Science and Health	228	70.2%	29.8%

Nursing	84	64.3%	35.7%
Science and Health	169	37.9%	62.1%
Technology	80	93.8%	6.3%
Total SIAST CE Programs	712	68.4%	31.6%
OVERALL SIAST TOTAL	1,858	76.3%	23.7%

2.3.2 Part-time/Casual Position – by Choice

If your primary job is a part-time or casual position, is this by choice? (Question 17)

It is assumed that those working in part-time or casual jobs do so because they cannot secure full-time employment. This particular question was added to the GES in 2002 to clarify if graduates wanted to work in part-time or casual positions. In 2011 of those who worked part-time/casual, 58% indicated they chose to work part-time/casual by choice, similar to 2010. Table 5 provides a further breakdown of part-time/casual employments by choice for base and continuing education programs by division. For SIAST base divisions the Business and Science and Health Divisions had the highest proportion of respondents (68% and 65% respectively) who were working part-time positions by choice. The percentage of graduates who worked part-time or casual positions by choice in the continuing education programs ranged from 30% to 71%.

Table 5: Part-Time or Casual by Choice, by Division, by Base/Continuing Education, 2011

	TOTAL EMPLOYED PARTIME/CASUAL	PART-TIME/ CASUAL BY CHOICE
SIAST Base Programs by Division		
Business	34	67.6%
Community Services	66	54.5%
Industrial Training	4	25.0%
Nursing	29	55.2%
Science and Health	68	64.7%
Technology	14	35.7%
Total SIAST Base Programs	215	58.1%
SIAST Continuing Education Programs by Division		
Business	34	55.9%
Community Services	45	71.1%
Industrial Training	6	33.3%
Nursing	30	30.0%
Science and Health	105	61.0%
Technology	5	60.0%
Total SIAST CE Programs	225	57.3%
OVERALL SIAST TOTAL	440	57.7%

2.3.3 Self-Employed

Are you self-employed? (Question 12)

The percentage of respondents indicating they were self-employed remains fairly low in all divisions. Overall, 4% of all the respondents in the survey indicated their desire for self-employment, which is close to that reported in 2009 and 2010. The graduates from continuing education programs are more likely to pursue self-employment (6%) relative to those who graduated from base programs (3%). The greatest interest for self-employment came from the base (8%) and continuing education (8%) programs in Community Services Division. As well 8% from Business programs in continuing education programs indicated a greater percentage of self-employed graduates than any other divisions.

Table 6: Self-Employment, by Division, by Base/Continuing Education, 2011

OVERALL SIAST TOTAL	2,106	1.15	6

3.0 Salaries

Respondents were asked to indicate the salary they earned. Since some employees gave an hourly rate and others a monthly salary, all identified hourly rates were converted to a monthly rate as shown below.

3.1 Salaries for SIAST Graduate Respondents

What is the hourly salary of your primary job before deductions? (Question 18)

For the 2010-11 academic year the minimum wage set by the government of Saskatchewan was \$9.50/hr. Based on a 37.5 hour work week; the minimum monthly salary for a full-time employee is \$1,425 [$\$9.50 \times 37.5 \times 4$]. The majority of SIAST employed respondents were paid at a higher level than this rate (Table 8). The average (mean) monthly full-time training-related salary for all respondents was \$3,348, an increase of 5% over 2010.

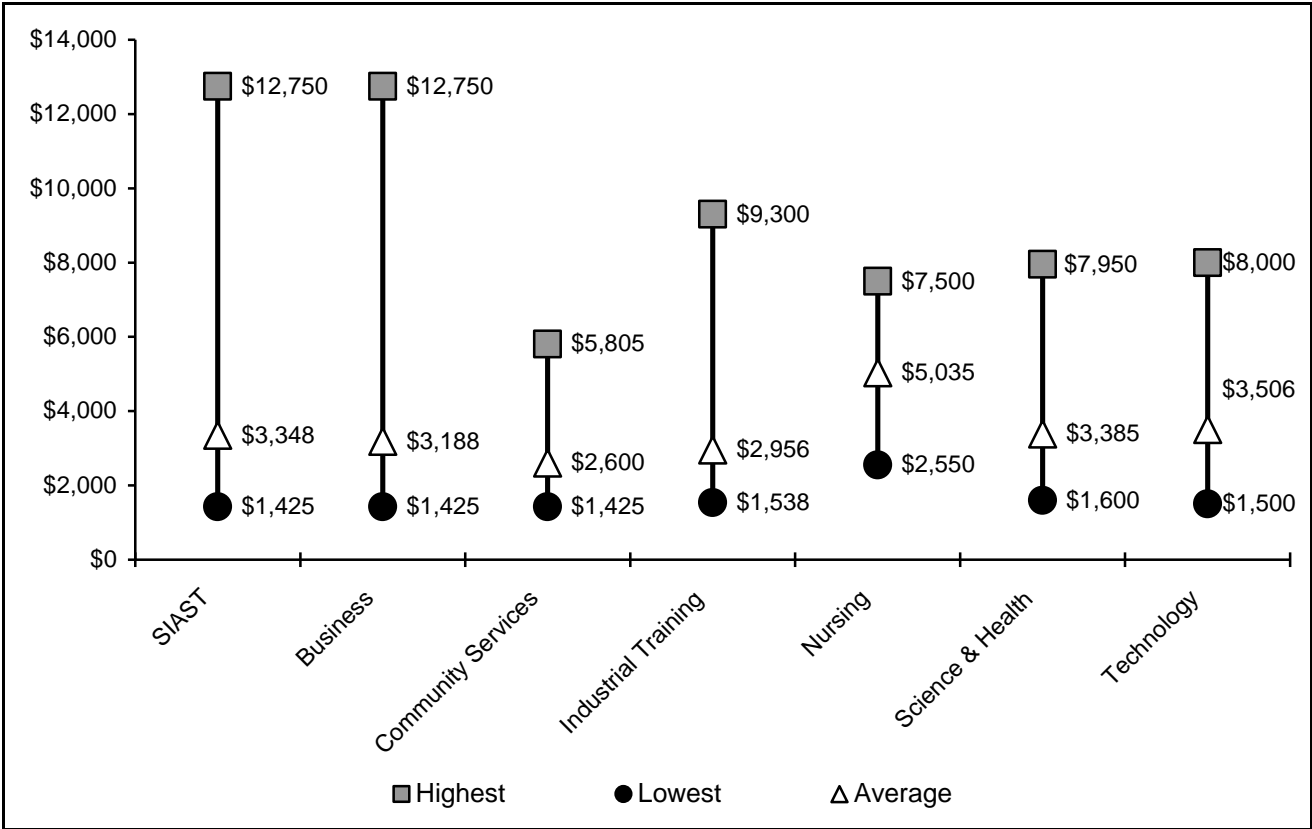

Note: Please note, 2010-11 maximum salary was notably higher than the previous year due to two graduates in self-employed occupations with very high monthly salaries.

Table 8: Monthly Salary of Full-Time Training-Related Job and by Base/Continuing Education, 2011

	EMPLOYED IN FULL TIME TRAINING-RELATED POSITIONS	RESPONDENTS WITH FULL TIME TRAINING RELATED SALARIES	HIGHEST	AVERAGE	MEDIAN	LOWEST
Total SIAST Base Programs	809	760	\$11,250	\$3,369	\$3,000	\$1,425
Total SIAST CE Programs	400	373	\$12,750	\$3,307	\$3,000	\$1,425
OVERALL SIAST TOTAL	1,209	1,133	\$12,750	\$3,348	\$3,000	\$1,425

As illustrated in Figure 9, graduates in the Business Division (\$12,750) had the highest full-time training related monthly salary, followed by graduates from the Industrial Training Division (\$ 9,300). Salaries in the Community Services Division were the lowest, with an average of \$ 2,600 compared to a high of \$5,035 in the Nursing Division.

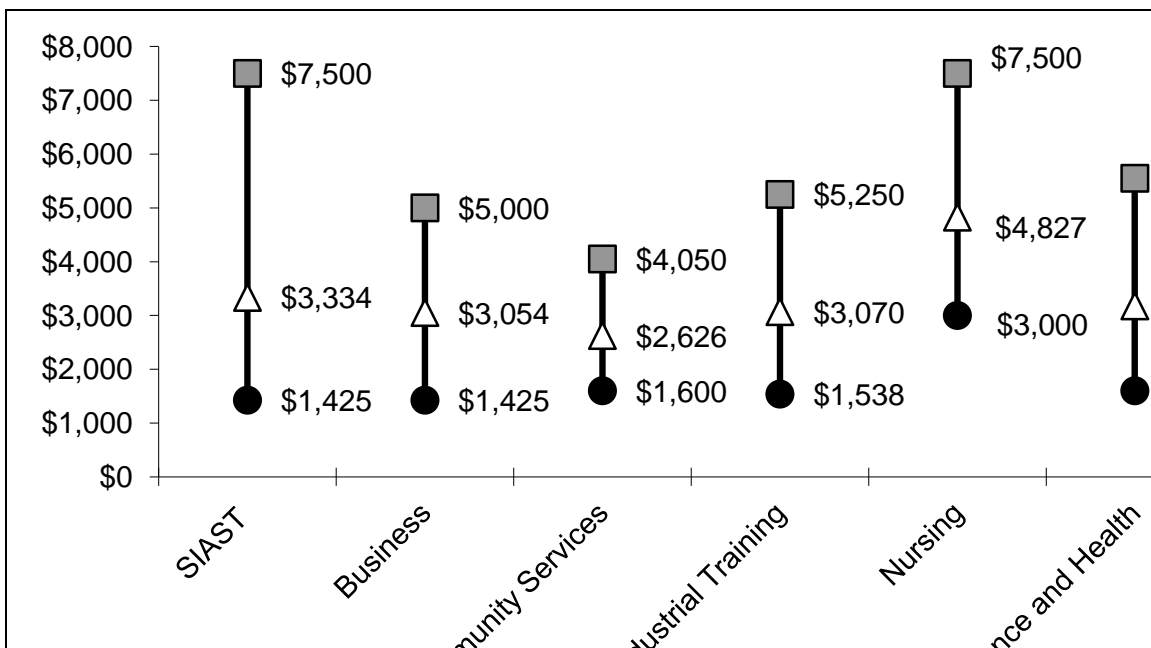

Figure 9: Monthly Salary of Full-Time Training-Related Employment, by Division, 2011

3.2 Monthly Full-Time Training Related Salaries for Aboriginal Respondents, Based on Number of Respondents

In all divisions, except for Nursing and Technology, the average salary level for Aboriginal people employed in full-time training-related positions was lower than that reported for all SIAST respondents. The average monthly salary for Aboriginal people is highest in the Nursing Division (\$4,827) which is approximately 8% higher than that in 2010.

Figure 10: Monthly Salary of Full-Time Training-Related Employment for Aboriginal Graduates by Division, 2011

4.0 INDUSTRY SECTORS OF PRIMARY EMPLOYERS

Saskatchewan Labour has identified the industry sectors listed below as important for the province. Monthly labour force statistics for the province are reported in this manner. The industry sector question was added to the survey in 2004 to determine if SIAST graduates were employed in one or more of these industry sectors. The question included in the survey was:

Please select the option below that best describes which industry sector your primary employer operates in. (Question 22)

The majority of SIAST respondents (32%) reported they work for employers who operate in the health industry while construction (12%) and Natural Resources and Environment (7.8%) were the second and third highest employers for SIAST graduates. Employment in the health industry was by far a large margin compared to other sectors such as the film, video, multi-media, printing and publishing (1%) and biotechnology industry (1%).

Table 9 provides a breakdown by division of industry sectors under which SIAST graduates are employed. The graduates from programs in the Nursing and Science and Health Divisions are primarily employed in the health sector (92.1% and 86.1%, respectively), while the respondents from other programs may be employed in a variety of industry sectors. For instance, in Community Services, 34.3% of the respondents are employed in the educational services sector and 10.9% in Human/Social Services and Justice Sectors.

The graduates from the Business Division were primarily employed in the business and professional services sector (22.4%), 13.3% in health and 12% in government services and public administration and 11% in finance, insurance and real estate while the remaining were distributed in other sectors.

Approximately 30% of graduates from industrial training were employed in the construction sector while 23% of graduates were employed in transportation, trucking and heavy equipment (includes aviation and automotive/auto body services) sectors. Another 22% of graduates from the Industrial Training Division were employed in the manufacturing (includes metal fabrication, agri-value and food processing) sector.

In the Technology Division respondents were clustered in the construction (33%), natural resources and environment (21%), and in the technology, electronics and telecommunications sectors (10%).

Table 9: Industry Sector of Primary Employer, by Division, 2011

5.0 LOCATION OF EMPLOYMENT, BASED ON NUMBER EMPLOYED

There is always considerable interest by government officials and the general public to know if post-secondary graduates remain in the province for employment following graduation.

5.1 Location of Primary Employment for SIAST Respondents

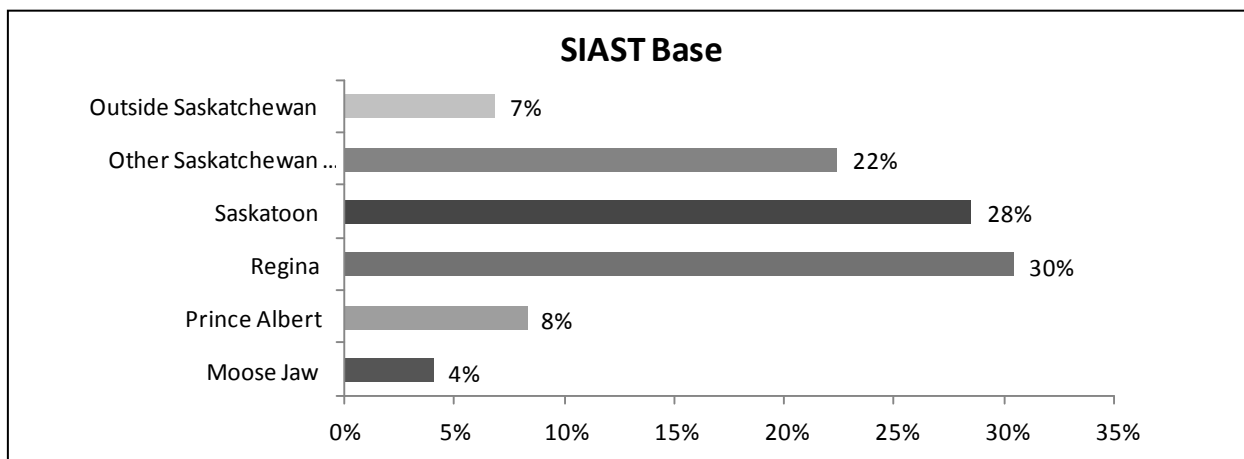

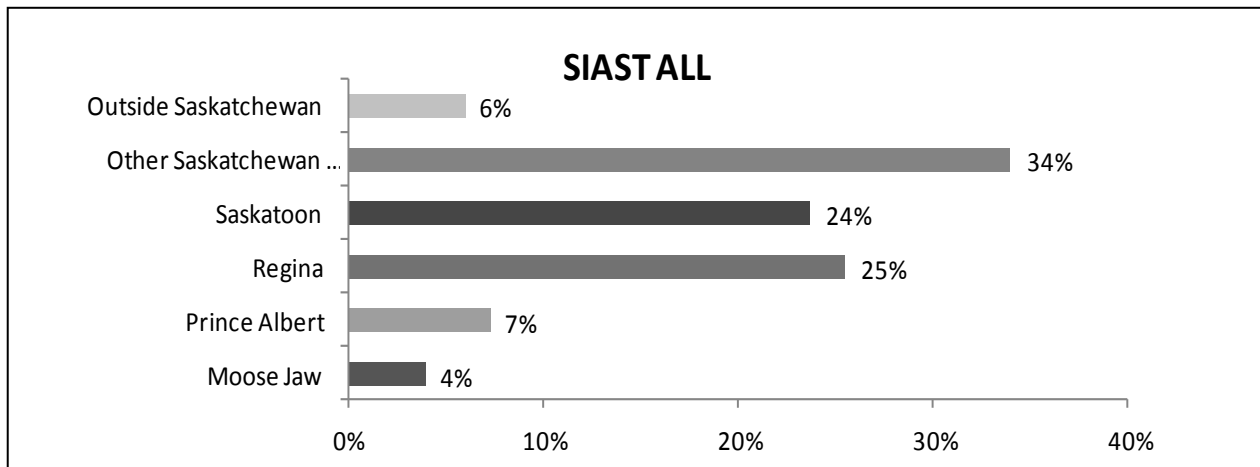

Where is the location of your primary employment? (Question 19)

Note: The results in Section 5.1 provide the location of employment percentages based on the location of the graduates' primary employment not their training-related employment. Location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

As shown in Figure 11, 94% of SIAST graduates were employed in Saskatchewan at the time of the survey.

The out-migration of graduates in the base program decreased to 7% in 2011 from 3% reported in 2010, while the out-migration of graduates from continuing education programs increased to 4% in 2011 from 6% reported in 2010.

Figure 11: Location of Primary Employment, by Base/Continuing Education, 2011

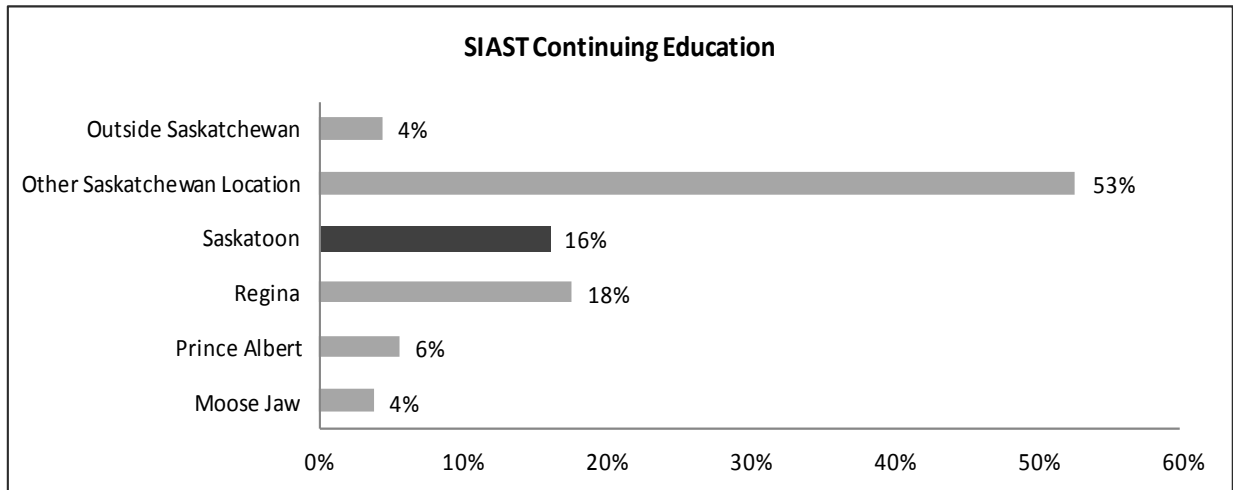

Table 10 provides a breakdown of SIAST graduates' location of primary employment, by division, by base and continuing education. The largest out-migration of graduates from base programs unlike previous years was from the Science and Health (10.1%). Similar to previous years the Nursing (9.3%), Industrial Training (6.1%) continues to report relatively high levels of out-migration, with an overall out-migration of 6.8%. This is a 3.4% increase over 2010. In the continuing education programs the graduates from the Nursing Division had the largest proportion (13.1%) leaving Saskatchewan, similar to 2010. The overall out-migration of graduates from continuing education programs decreased to 4.4% from 5.5% in 2010. However, overall out-migration of SIAST graduates in 2011 has increased by 1.8% from 4.1% in 2010.

Table 10: Location of Primary Employment, by Division, by Base/Continuing Education, 2011

N: Base = 1313 CE = 739	REGINA	SASKATOON	PRINCE ALBERT	MOOSE JAW	OTHER SK LOCATION	OUTSIDE SK

Business	22.2%	23.8%	2.4%	0.8%	50.0%	0.8%
Community Services	19.8%	18.3%	11.9%	5.6%	39.7%	4.8%
Industrial Training	22.0%	21.3%	3.9%	2.4%	44.9%	5.5%
Nursing	4.8%	14.3%	9.5%	3.6%	54.8%	13.1%
Science and Health	8.9%	7.1%	3.6%	5.3%	73.4%	1.8%
Technology	31.3%	12.5%	3.8%	5.0%	43.8%	3.8%
Total SIAST CE Programs	17.6%	16.0%	5.6%	3.8%	52.7%	4.4%
OVERALL SIAST TOTAL	25.4%	23.6%	7.2%	3.9%	33.9%	5.9%

Consistent with the findings of the past surveys, the majority of respondents remain in Saskatchewan for employment. In 2010 the location percentages were:

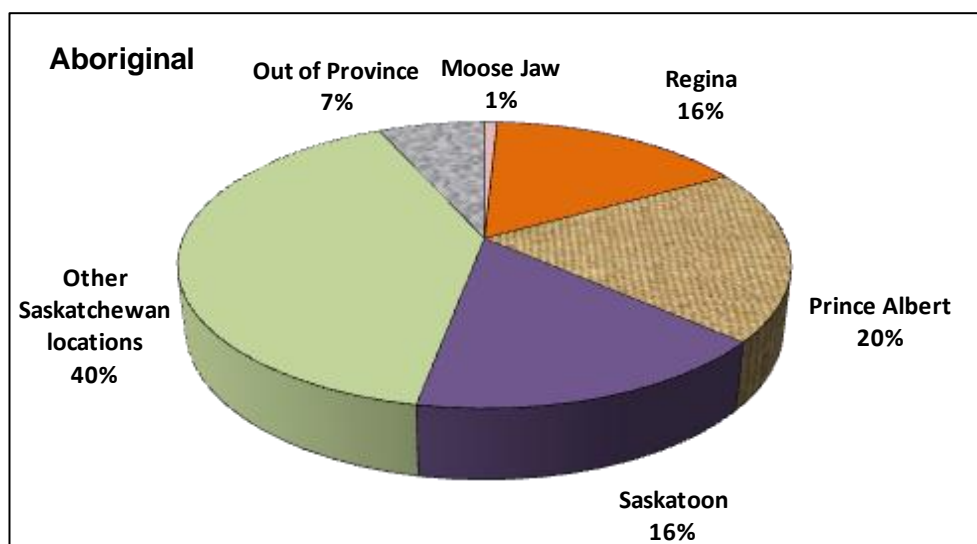

- Regina – 24.7%
- Prince Albert – 6.3%
- Other Saskatchewan location – 31.5%
- Saskatoon – 28.1%
- Moose Jaw – 5.3%
- Outside Saskatchewan - 4.1%

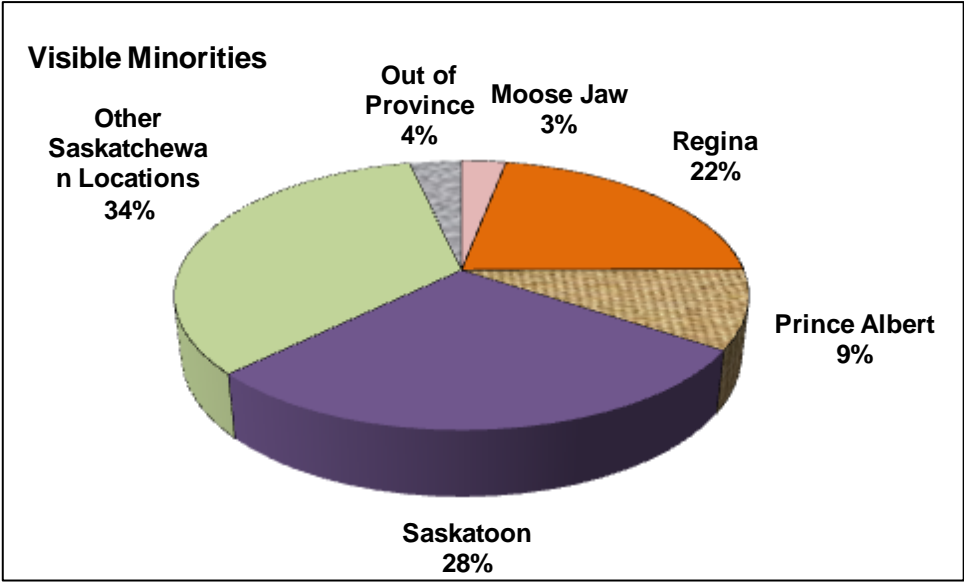

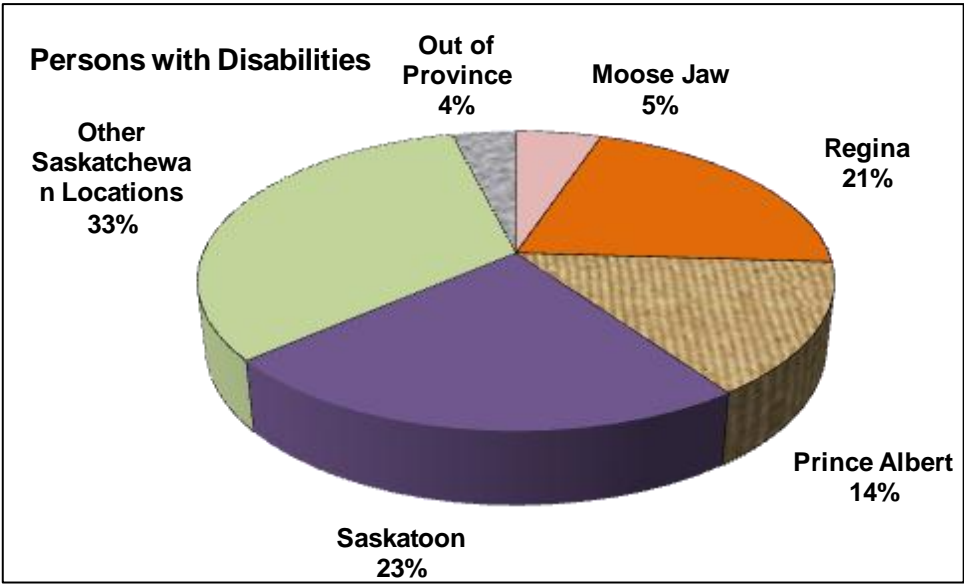

5.2 Location of Primary Employment for Equity Respondents

As shown in Figure 12, 93% of Aboriginal graduates remained in Saskatchewan for employment. Only 7% of Aboriginal graduates have moved out of province for employment, a 3% increase over 2010. Only two fifths of Aboriginal graduates (40%) worked outside of the major four cities in Saskatchewan. Of the four SIAST campus cities, the largest proportion of Aboriginal graduates were employed in Prince Albert (20%), followed by Saskatoon (16%) and Regina (16%). Only 1% of Aboriginal graduates found employment in Moose Jaw.

Similar to 2010, only 4% and 4% respectively of visible minorities and persons living with disabilities moved out of province for employment. Of the four SIAST campus cities, the highest proportion of persons with disabilities found employment in Saskatoon (23%), closely followed by Regina (21%). Similarly 28 % of visible minorities found employment in Saskatoon, followed by Regina (22%).

Figure 12: Location of Primary Employment for Aboriginal, Persons with Disabilities and Visible Minority Respondents, 2011

5.3 Out-of-Province Employment for SIAST Graduate Respondents

If primary employment was found outside of Saskatchewan, was this by choice? (Question 20)

As mentioned before, 6% (109 of 1,853) of respondents indicated their location of employment to be outside Saskatchewan. Of them, 85% (93 of 109) of the respondents who found employment opportunities out of Saskatchewan had indicated this was by choice (Table 11). Of those who found employment opportunities outside of Saskatchewan, 100% of graduates from the Business Division in the base program indicated that was by their choice while the same is true for graduates from Business and Community Services in the continuing education programs.

Table 11: Primary Employment Out-of-Province by Choice, by Division, By Base/Continuing Education, 2011

	TOTAL RESPONDENTS	% OUT OF PROVINCE EMPLOYED BY CHOICE

OVERALL SIAST TOTAL	109	85.3%

“Please indicate the primary reason why you moved out-of-province for employment (Question 21)

Graduates were requested to identify the main reason they sought employment out-of-province. Overall, just over two-fifths of respondents indicated personal reasons (45%) for obtaining out-of-province employment (Table 12). Approximately one-fifth of all respondents indicated they moved out-of province to obtain more employment opportunities (22%). While one-fifth of graduate moved out-of-province for other reasons (21%), only 12% of graduates indicated moving out of province for better wages.

In the base programs, just over two-fifths of graduates moved out-of-province for personal reasons (46%) and just over one-tenth of graduates sought employment opportunities out-of-province for better wages (12%). Graduates from continuing education programs were more likely to have found employment out of the province for other reasons (39%) relative to their base education counterparts (14%).

Note: The location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

Table 12: Reason Primary Employment Out-of-Province, by Division, By Base/Continuing Education, 2011

6.0 APPLICATIONS AND INTERVIEWS FOR EMPLOYMENT

6.1 Applications

How many employment opportunities have you applied for since completing your training program? (Question 8)

The effort that graduates had invested into obtaining employment, after graduation, was indicated by the number of applications that each had submitted and the number of interviews that each attended. These numbers are expressed as means and medians, because medians, as the middle number, are not influenced by extreme responses.

As shown in Table 13, the average number of applications for employment that respondents in base programs submitted ranged from 1.8 to 1.9, depending on the division, with an overall average of 1.9. The same is true for graduates in continuing education programs. The median number of applications was 2, again depending on the division, with an overall average of 2. Overall, the number of applications submitted for employment opportunities in all divisions, regardless of whether they are base or continuing education, remains between 1 and 2 with an average number of applications of 1.8, a consistent with 2010 applications.

6.2 Interviews

How many employment interviews have you had? (Question 10)

The mean number of interviews for respondents in base programs ranged from 1 to 4 with an average of 2.5 interviews. The median number of interviews for graduates in the base programs ranged from 1 to 3. Almost similar findings were reported by respondents in SIAST continuing education programs.

Table 13: Employment Applications and Interviews: Average, Mode and Median, by Division, by Base/Continuing Education, 2011

	APPLICATIONS			INTERVIEWS

7.0 NOT EMPLOYED

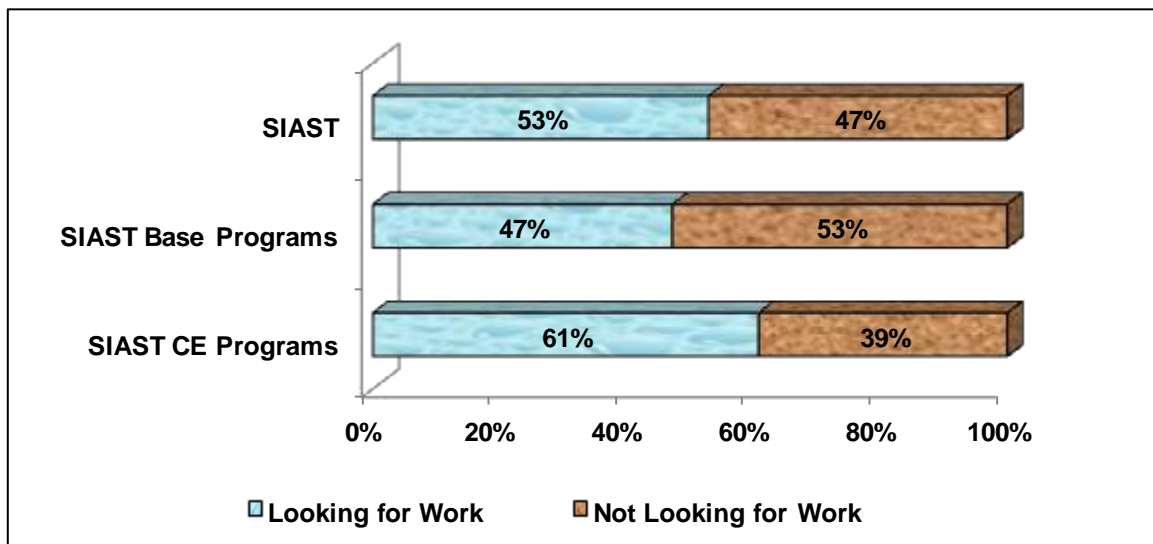

While it is important to determine the percentage of graduates who obtain employment after graduation, it is also equally important to know about those who were not employed at the time the survey was conducted. Respondents who had indicated that they were not presently employed were asked to complete a series of questions regarding their activity since graduation.

7.1 Actively Looking for Work

Are you actively looking for work at present? (Question 27)

Overall 53% of the respondents who were not employed at the time of the survey indicated that they were looking for work (Figure 13). A slightly higher percentage of respondents (61%) who were not employed from continuing education programs were more likely than their peers in base education programs to be looking for work (47%).

Figure 13: Graduates Not Employed but Looking for Work, by Base/Continuing Education, 2011

7.2 Employed Since Graduating from SIAST

Have you worked at all (full-time, part-time, or casual) since completing your training program? (Question 24)

If yes, was the most recent work directly related to the education and training you received in your program? (Question 25)

Are you scheduled to return to work in the future? (Question 26)

These three questions were directed towards those respondents who indicated they were not employed at the time of the survey.

Of the 246 respondents who were not working at the time they were surveyed, 67% (165 of 246) indicated that they had worked at some point since completing their training program.

Of the respondents not working at the time of the survey, but who had worked at some point since completing their training, 56% (93 of 165) indicated they had worked in training-related jobs. Table 14 provides a breakdown, by division and by base and continuing education programs, of respondents' work experiences since graduation.

Table 14: Graduates not Employed - Work Experience since Graduation, by Division, By Base/Continuing Education, 2011

	HAVE WORKED SINCE COMPLETION OF TRAINING	WORK DIRECTLY RELATED TO TRAINING RECEIVED	SCHEDULED TO RETURN TO WORK

³ Total number of respondents who were not employed in the CE programs = 102

7.3 Not Actively Looking for Work

Are you actively looking for work? (Question 27)

Of the 2,106 survey respondents, 6% (116 of 2,106) reported they were **not employed and were not looking for work**, primarily because they were either returning for further education or for personal reasons. Table 15 illustrates, by division, the percentages of graduates who were looking/not looking for work, out of those who were not employed.

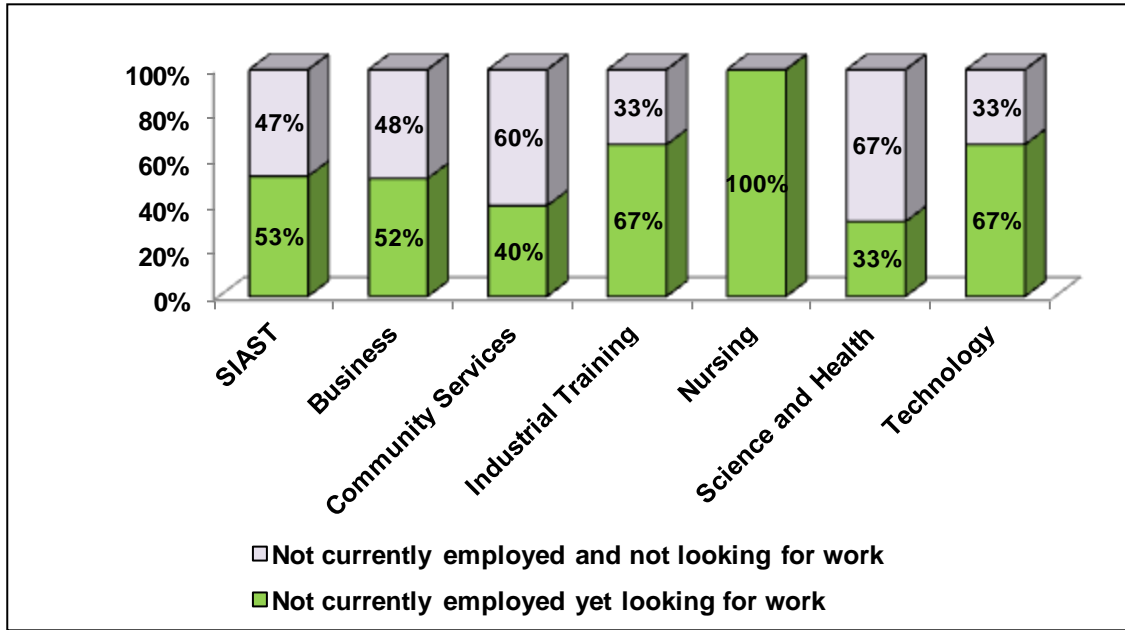

Section 7.4 of the report identified why some of the unemployed respondents were not actively looking for work. The Community Services Division had 72 unemployed graduates at the time of the survey, of them 60% were not looking for work. The graduates from the Nursing Division reported the least number of unemployed graduates (2) and all were looking for work. Percent of unemployed graduates, by division, who were looking/not looking for work, is further illustrated in Figure 14.

The employed (1,858) and the unemployed respondents who stated that they were looking for work (130) represent the SIAST-wide respondent **available workforce (1,988)** (those respondents who are available to work).

Table 15: Number of Unemployed Graduates who were looking for Work by Division, 2011

Figure 14: Graduates Not Actively Looking for Work, by Division, 2011

7.4 Reasons not currently employed

Which of the following best describes the reason why you are currently not employed?
(Question 23)

The two most common reasons given by unemployed respondents for not being employed at survey time were *returned for further education* (40%) and *personal reasons* (26%). Table 16 provides a breakdown of the reasons respondents were not employed at the time of the survey by division and by base and continuing education programs.

Table 16: Graduates Not Employed - Reason Not Employed, by Division, Base/Continuing Education, 2011

8.0 FURTHER EDUCATION OR TRAINING

The survey formally asked all respondents if, at the time of the survey (whether employed or not), they were enrolled in further education or training.

8.1 Respondents in Further Education or Training

Are you currently enrolled in an education or training program? (Question 29)

Whether employed or not, 20% of all SIAST respondents reported they were continuing their education at the time of the survey, consistent with 2010 response. The largest percentages of respondents enrolled in further education came from the base and continuing education programs in the Business Division (32% and 31% respectively) followed by base programs in the Community Services division (31%).

Table 17: Graduates Currently Enrolled in Further Education or Training, by Division, by Base/Continuing Education, 2011

8.2 Type of Further Education or Training

Which type of training is it? (Question 30)

As shown in Figure 15, 43% of respondents (179 of 413) who were taking further education or training at the time of the survey were enrolled in programs at SIAST, either the same SIAST program or a different SIAST program altogether, which is 1% less than that reported in 2010. Twenty-one percent of respondents continuing their education were enrolled in a university program while 16% of respondents were enrolled in an apprenticeship program. Only 8% of respondents were enrolled in a post-secondary program at another institute. Table 18 provides a breakdown of the type of training the respondents were enrolled in after graduation from SIAST by division and by base and continuing education programs.

Figure 15: Type of Further Training - SIAST Overall, 2011

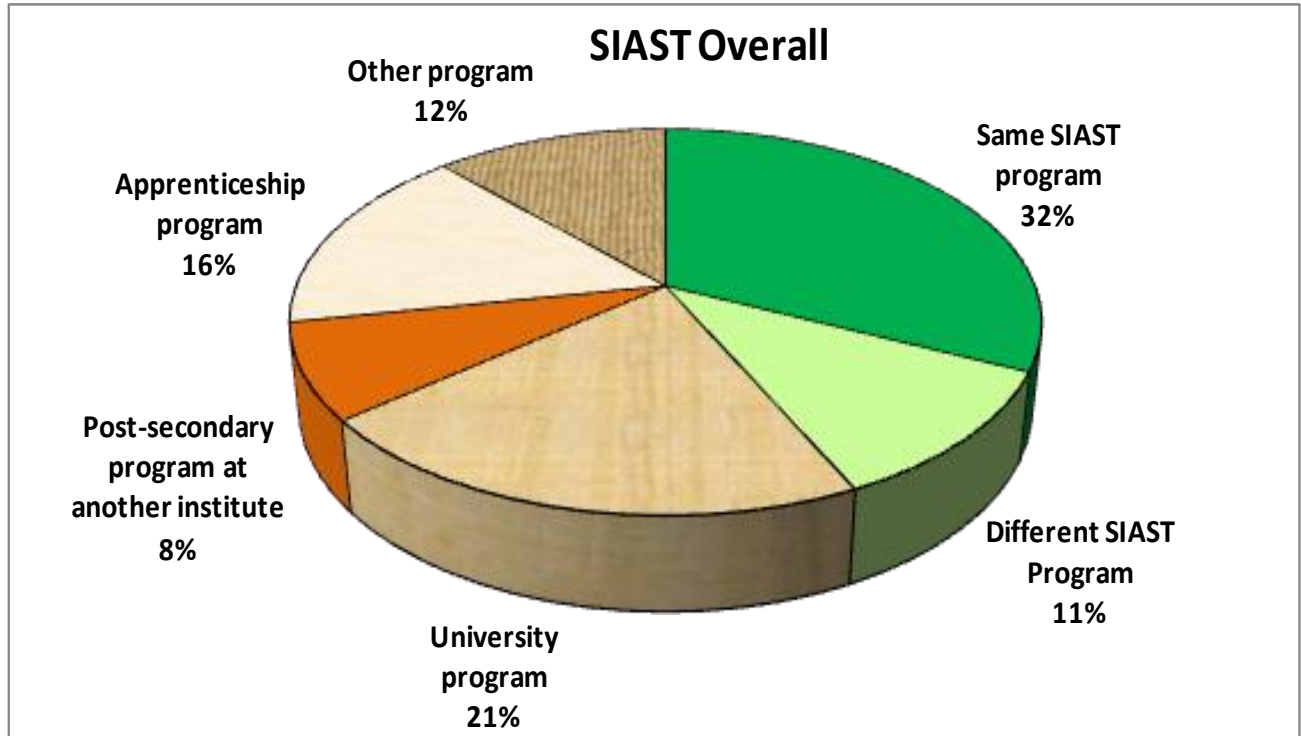

Table 18: Type of Further Training, by Division, by Base/Continuing Education, 2011

9.0 PROGRAM COMPLETION

Which of the following best describes your reason for completing this program? (Question 4)

Overall, the majority of respondents (58%) indicated the reason for completing training was to obtain *employment in a specific field*, while some respondents indicated *need to change careers* (12%) as to completing this program. Table 19 below indicates the further break down, by division, for reasons for completing SIAST programs.

Table 19: Reason for Completing SIAST Program, by Division, by Base/Continuing Education, 2011

10.0 PROGRAM ASSESSMENT

Respondents were asked to assess the overall quality of the program(s) they studied at SIAST and the ability of the training to prepare them for employment.

10.1 Quality of Program

Please rate the overall quality of the training you received in your program. (Question 5)

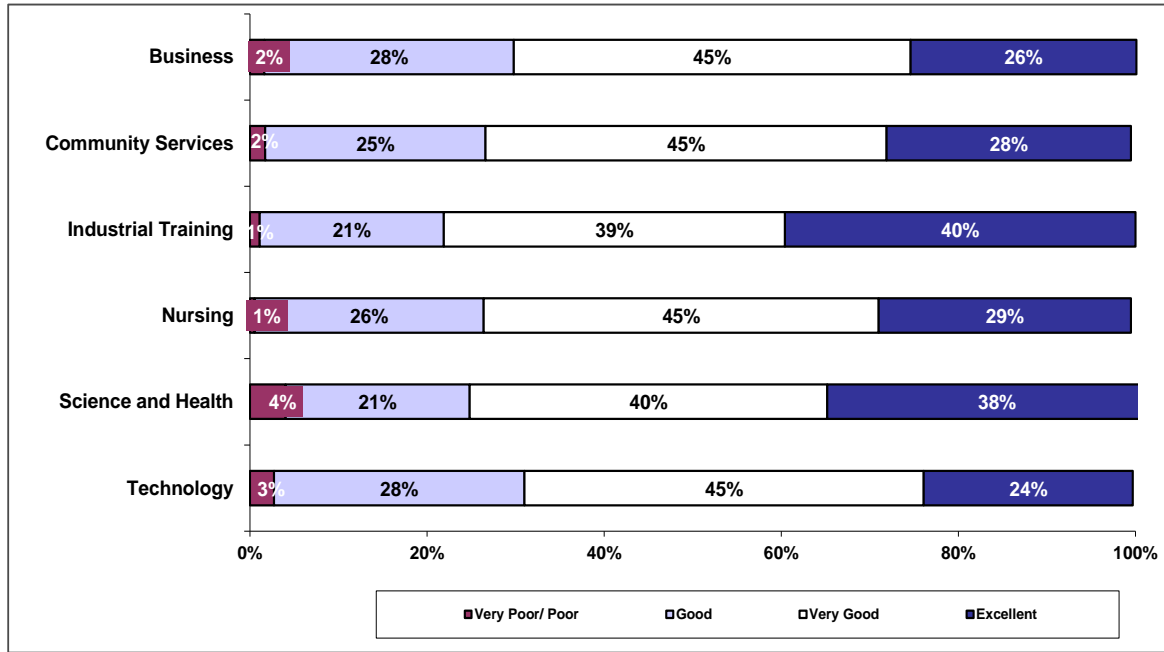

Consistent with the responses in past employment surveys, respondents continue to feel that SIAST provides high-quality training. Ninety-nine percent of all SIAST respondents rated the quality of their training they received as good to excellent (Table 20).

Table 20: Overall Quality of Training, by Base/Continuing Education, 2011

	Total Respondents	Excellent	Very Good	Good	Poor	Very Poor	Don't Know/Refused
Total SIAST Base Programs	1,292	28%	46%	25%	1.2%	0.2%	0.2%
Total SIAST CE Programs	814	35%	39%	25%	1%	0.4%	0.1%
OVERALL SIAST TOTAL	2,106	31%	43%	25%	1.1%	0.3%	0.2%

Figure 16 provides a further breakdown of quality of training indicated by respondents by division. Programs from the Science and Health and Industrial Training Divisions received the most favourable ratings from respondents.

Figure 16: Overall Quality of Training, by Division, 2011

10.2 Training Preparedness for Employment

Please rate how well the training program prepared you for employment in your field of study. (Question 6)

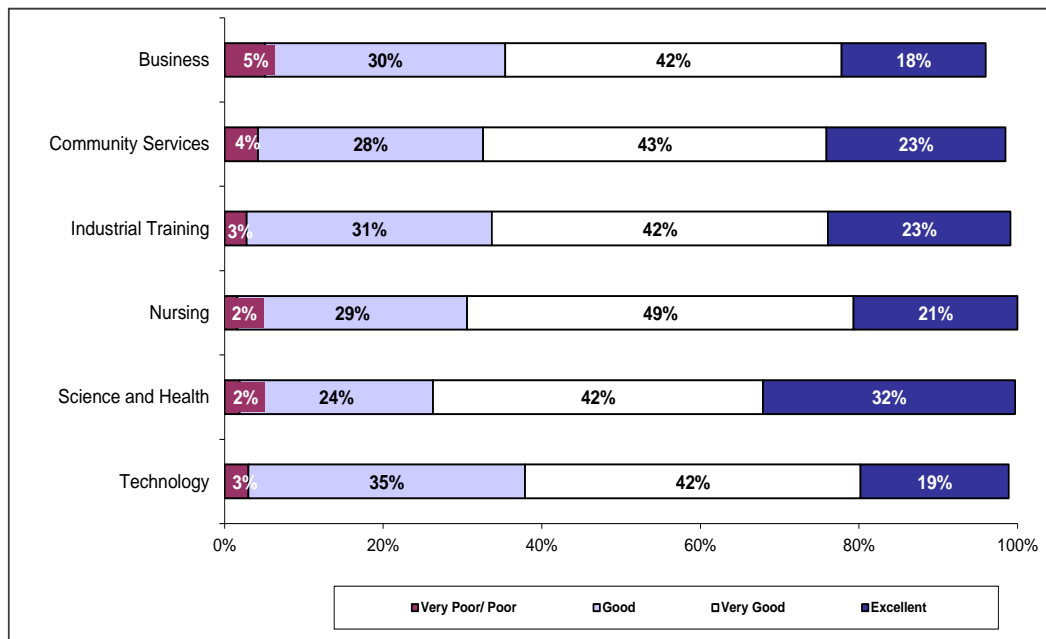

Similar to the responses in 2010, overall, 96% of respondents indicated that the ability of their training to prepare them for employment in their field of study was good to excellent (Table 21), with the majority of the rating (66%) being in the very good to excellent range.

Table 21: Training Prepared for Employment in Field of Study, by Base/Continuing Education, 2011

	Total Respondents	Excellent	Very Good	Good	Poor	Very Poor	DK/Refused
Total SIAST Base Programs	1,292	22%	44%	29%	3%	0.2%	1.5%

OVERALL SIAST TOTAL	2,106	23%	43%	30%	3%	0.3%	1.3%

Figure 17 provides a breakdown of employment preparation by division. The majority of respondents in all divisions rated the training they received to prepare them for employment between excellent and very good.

Figure 17: Training Prepared for Employment in Field of Study, by Division, 2011

11.0 DEMOGRAPHICS

SIAST has a mandate to increase its equity participation both in staffing and students and to participate in the development of a workforce that is representative of the province's demographics.

11.1 Gender of all Respondents

Identify your gender. (Question 30)

SIAST-wide there continues to be more female respondents than male and the composition changes depending on the base and continuing education programs. Among respondents of base programs, the split was 53/47% female/male, while among respondents of continuing education programs the ratio was 66/34%, female/male (Table 22 and Figure 18). Overall, 58% of SIAST respondents were female and 42% male (Figure 19). In the 2010 study the SIAST-wide breakdown was 59% female and 41% male. Gender, as with other equity factors, is a self-declaration.

Table 22: Gender, by Division, by Base/Continuing Education, 2011

	TOTAL RESPONDENTS	MALE	FEMALE
SIAST Base Programs by Division			
Business	218	28%	72%
Community Services	253	28%	72%
Industrial Training	194	94%	6%
Nursing	108	16%	83%
Science and Health	241	19%	81%
Technology	271	83%	16%
Total SIAST Base Programs	1,285	47%	53%

Business	153	12%	88%
Community Services	148	10%	90%
Industrial Training	161	89%	11%
Nursing	85	7%	93%
Science and Health	177	12%	88%
Technology	90	83%	17%
Total SIAST CE Programs	814	34%	66%
OVERALL SIAST TOTAL	2,099	42%	58%

Figure 18: Gender by Base/Continuing Education, 2011

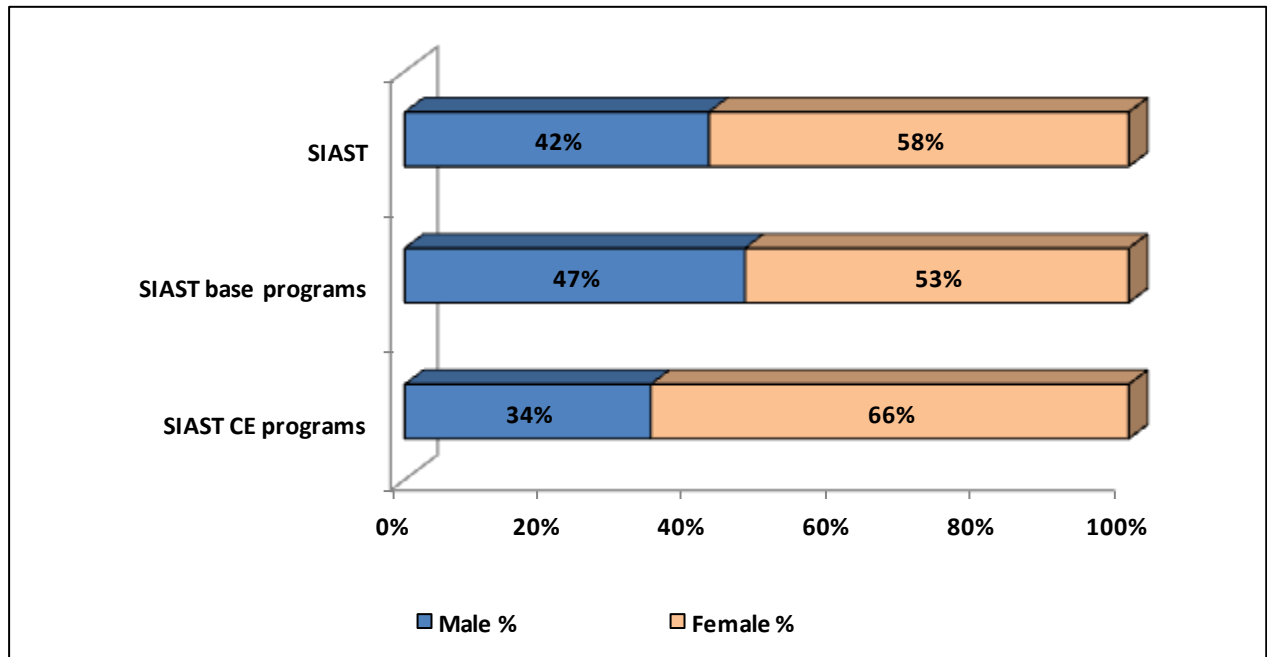

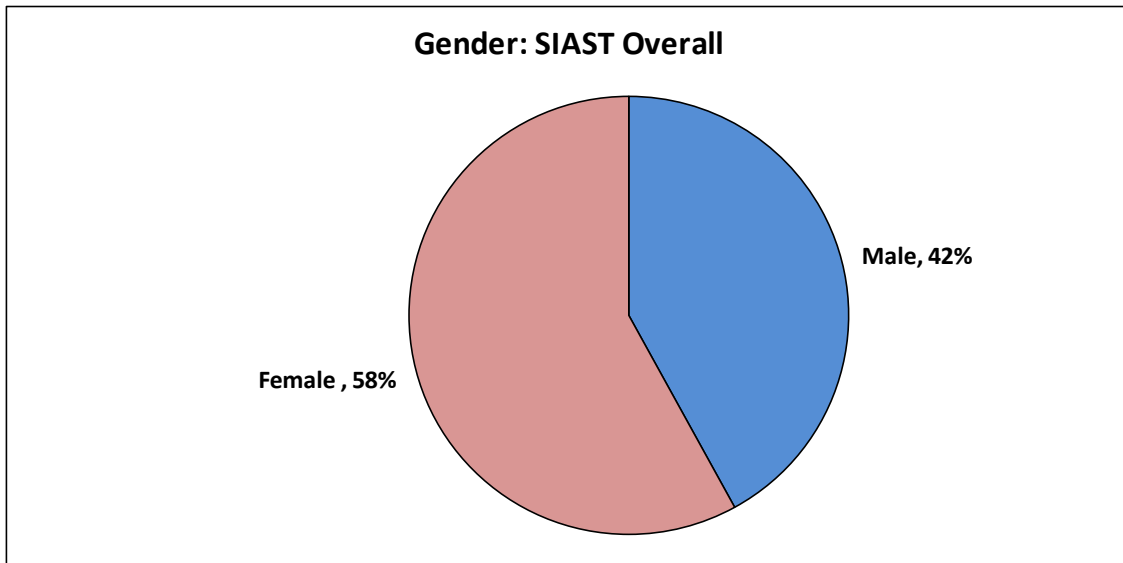

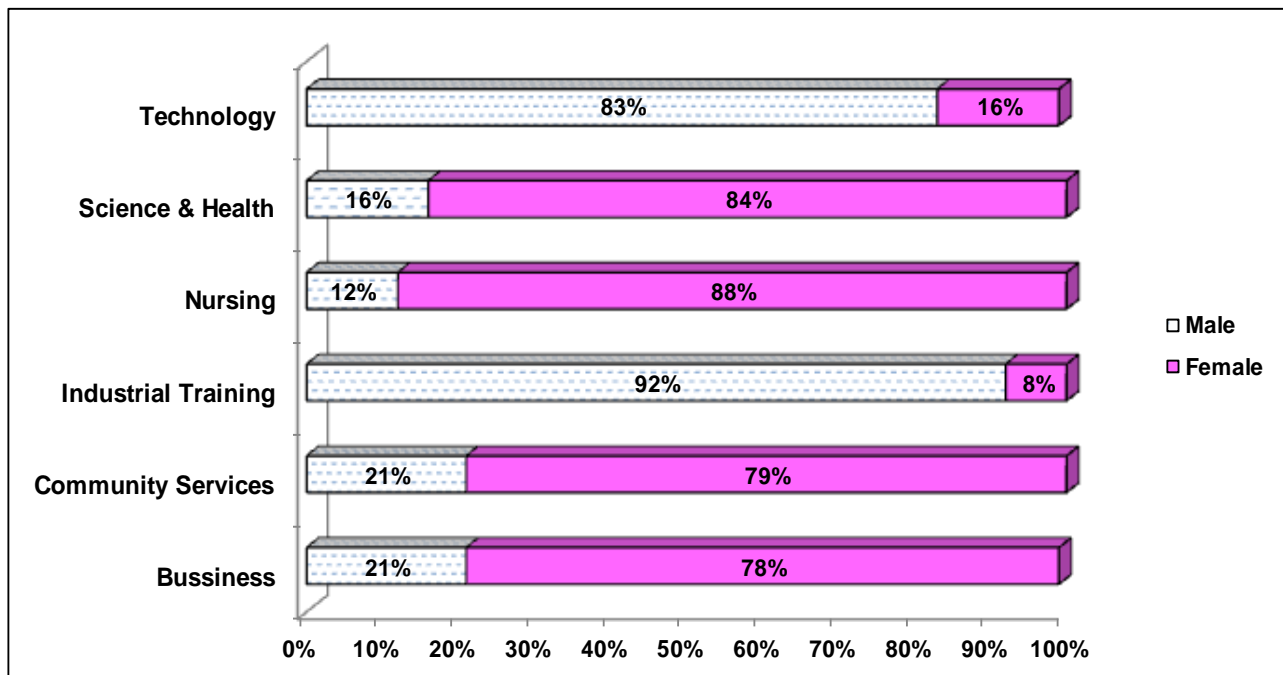

Figure 19: Gender Overall, 2011

Respondents in the Industrial Training and Technology Divisions had the largest percentage of males (92% and 83%, respectively) whereas the Nursing Division had the largest percentage of females (88%). The program mix in these three divisions was most likely a factor in the gender differences. For example, programs in the Industrial Training Division are traditionally male dominated, whereas the Nursing Division is traditionally dominated by females. Close to four-fifths of respondents in other divisions (78% to 84%) were also dominated by females.

Figure 20: Gender by Division 2011

11.2 Ages of all Respondents

How old were you on June 30, 2008? (Question 32)

As shown in Table 23, the average age of SIAST graduates was 27 years while the median age was 23 years. Respondents of continuing education programs were relatively older (with the mean and the median age at 31 and 27 years of age, respectively) than the base program respondents, whose mean and median ages were 25 and 22, respectively.

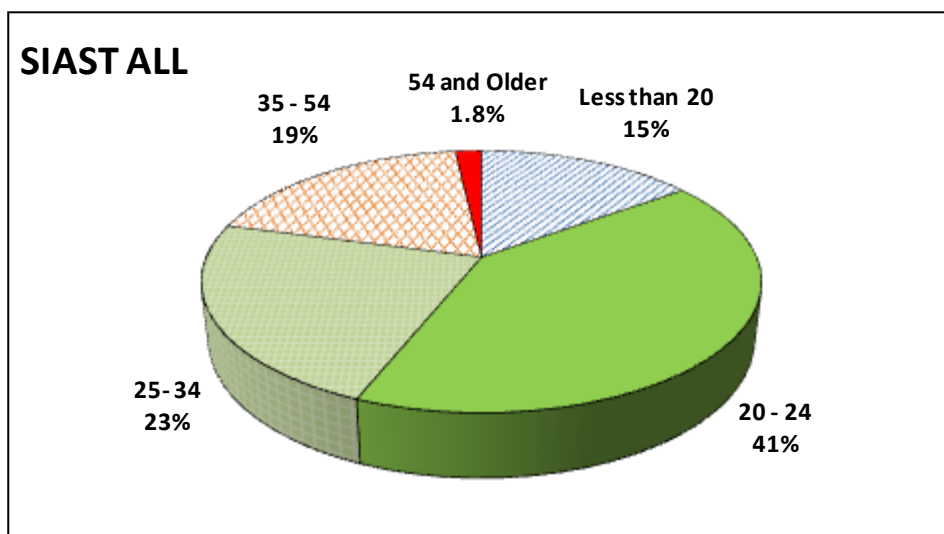

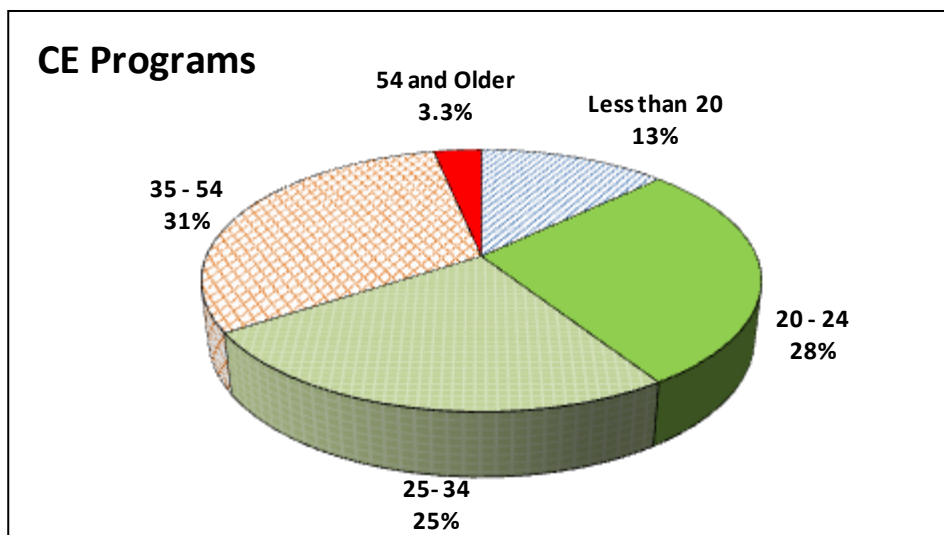

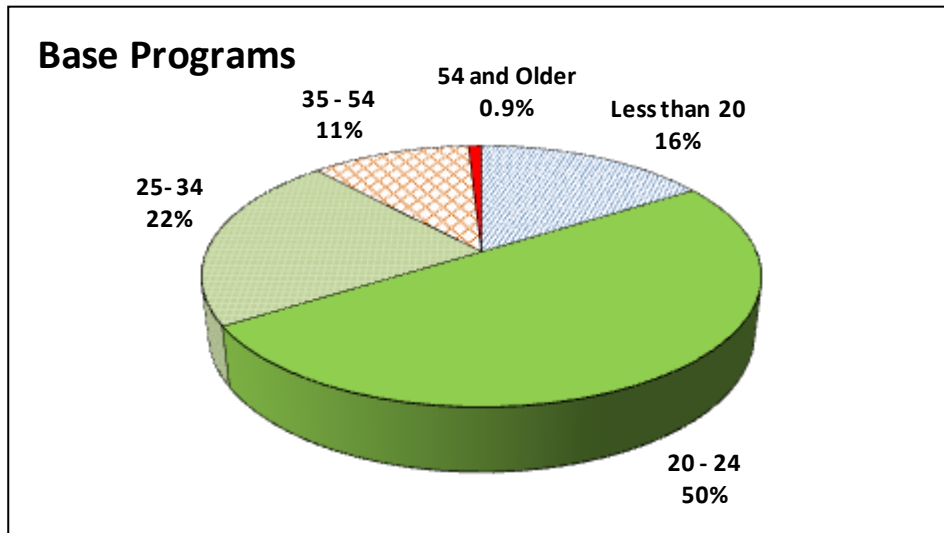

There was little diversity in the mean age of respondents in base programs except for respondents in the Nursing Division's programs whose average age was substantially higher at 32 years. This is consistent with the results in 2009 and 2010. Many participants of these programs have been out working in the field prior to returning to SIAST for additional training.

In SIAST continuing education programs, respondents in all divisions, with the exception of Technology (25 years) and Industrial Training (27 years), had a mean age over 30 years. Figure 21 further illustrates the distribution, by division, of respondents by age.

Table 23: Age at June 30, 2011, by Division, by Base/Continuing Education, 2011

11.3 Aboriginal Ancestry

Are you of Aboriginal ancestry? (Question 33)

The definition of Aboriginal refers to those persons who are First Nations (Registered, Treaty or Status Indians), Non-status Indians, Métis and Inuit. Equity status is a self-declaration. Of the graduates who responded to the survey, 15% (311 of 2,106) indicated they were of Aboriginal ancestry, a 2% increase from 2010.

Among the divisions the Industrial Training Division had the highest percentage of respondents (21%) declaring Aboriginal ancestry, followed by the Community Services and Science and Health Divisions (18% each). Figure 22 illustrate the percentage of Aboriginal and non-Aboriginal respondents in each division.

Figure 22: Aboriginal Ancestry Identification, by Division, 2011

Aboriginal Category

*Do you consider yourself Status/Treaty Indian, Métis, Non-Status Indian or Inuit?
(Question 34)*

Fifty-one percent of Aboriginal respondents indicated that they were Métis or Status/Treaty Indian (43%), while the Non-Status group made up 8%. Table 24 provides a breakdown of the Aboriginal status of SIAST graduates by division for both base and continuing education programs.

Table 24: Identified Ancestry Type, by Division, by Base/Continuing Education, 2011

11.4 Visible Minority Declaration

Do you consider yourself a member of a visible minority? (Question 35)

Respondents were given the opportunity to identify if they were members of a visible minority. The definition of visible minority includes those who are visibly distinguishable from the majority of Canadians on the basis of race or ethnic origin. It does not include those declaring Aboriginal ancestry. As shown in Table 25 visible minority represents 11% of total respondents, a 1% increase over 2010.

Table 25: Visible Minority Identification, by Division, by Base/Continuing Education, 2011

11.5 Persons with Disabilities Declaration

Do you consider yourself a person with a disability? (Question 35)

Respondents were given the opportunity to indicate if they were a person with a disability. The definition of a person with a disability includes any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

In this survey, 5% of respondents indicated that they had a disability, which is the same as 2009 and 2010. Higher percentage of disabled respondents was found in base programs in Community Services and continuing education programs in the Business Division.

Table 26: Persons with Disabilities Identification, by Division, By Base/Continuing Education, 2011

	TOTAL RESPONDENTS	TOTAL RESPONDENTS WITH DISABILITIES	DISABILITIES IDENTIFICATION
SIAST Base Programs by Division			
Business	218	14	6%
Community Services	252	21	8%
Industrial Training	194	12	6%
Nursing	108	8	7%
Science and Health	241	6	3%
Technology	271	9	3%
Total SIAST Base Programs	1,284	70	6%
SIAST CE Programs by Division			
Business	152	13	9%
Community Services	147	3	2%
Industrial Training	160	4	3%
Nursing	85	0	0%
Science and Health	177	10	6%
Technology	90	3	3%
Total SIAST CE Programs	811	33	4%
OVERALL SIAST TOTAL	2,095	103	5%

Respondents were asked to provide general comments at the end of the survey regarding SIAST's programs and services. The comments were distributed to all SIAST deans and management for their review and consideration.

APPENDICES

APPENDIX A: PROGRAM CHANGES

Revisions to the following programs were recently approved. Some revisions were effective immediately and other revisions not effective until the 2010-11 academic year.

DIVISION/PROGRAM NAME	CHANGE
Business Division	
Business Insurance Diploma	Implementation effective July 1, 2011
Custom Harvester Certificate	Program deletion effective January 1, 2011
Medical Transcriptionist	Base program suspended effective July 1 st , 2010
Pork Production Certificate	Program deletion effective January 1, 2011
Community Services Division	
Retail Meat Specialist Applied Certificate	Program suspended effective July 2011
Nursing Division	
Nursing Education Program of Saskatchewan Degree	Suspension of program, effective June 1, 2011
Nursing Education Program of Saskatchewan (NEPS) Second Degree Option	Program deleted effective June 1, 2011
Science and Health Division	
Occupational Therapist Assistant/Physical Therapists Assistant	Program suspended
Technology Division	
Geomatics Technology	Program Suspended

APPENDIX B: 2011 GRADUATE EMPLOYMENT SURVEY

SIAS

SASKATCHEWAN INSTITUTE OF
APPLIED SCIENCE AND TECHNOLOGY

2011 Graduate Employment Survey

General Information

- Q1** What is the full name of the program from which you graduated? _____
- Q2** What is the name of the credential that you received? (**SELECT ONLY ONE**)
_____ Applied Certificate _____ Certificate _____ Advanced Certificate _____ Diploma
- Q3** At which SIAS campus or other location did you take your program?
_____ Kelsey _____ Palliser
_____ Wascana _____ Woodland
_____ Regional College or Other Provider (including online), **specify** _____
- Q4** Which of the following **best** describes your reason for completing this program? (**SELECT ONLY ONE**)
_____ Employment in this field interested me _____ To change careers
_____ To upgrade or formalize training in field _____ Employer requirement
_____ To gain entry into higher level of post-secondary training _____ Personal reasons
_____ Sponsored to take training (i.e., disability/workers compensation, unemployment, etc.)
- Q5** Rate the overall quality of training you received in your program.
_____ Excellent _____ Very Good _____ Good _____ Poor _____ Very Poor
- Q5b.** If you feel the overall quality of training you received in your program was not good, provide a brief comment on what SIAS might do to improve the training.

- Q6** Rate how well the training you received prepared you for employment in your field of study.
_____ Excellent _____ Very Good _____ Good _____ Poor _____ Very Poor
- Q6b.** If you feel the training you received did not prepare you for employment in your field of study, provide a brief comment on what SIAS might do to improve the training.

- Q7** Were you already employed in your field of study prior to enrolling at SIAS?
_____ Yes _____ No
- Q8** How many employment opportunities have you applied for since completing your training program? _____
- Q9** If none, why have you not applied for any employment opportunities?
_____ Already employed in field of training while enrolled in program
_____ Offered employment during practicum
_____ Personal reasons
_____ Other, please specify _____
- Q10** How many employment interviews have you had? _____
- Q11** Are you presently employed?
_____ Yes (**CONTINUE TO Q12**) _____ No (**GO TO Q23**)

Employment Information – If you are presently employed, complete Q12-22. If not, go to Q23

- Q12** Are you self-employed? Yes No
- Q13** Are you employed in a job directly related to the education and training you received in your program at SIAST?
 Yes No
- Q14** How many jobs do you currently have? (Enter 0 if you are not employed in a particular category)
 # of Training Related Jobs # of Non-training Related Jobs

INSTRUCTIONS FOR QUESTIONS 15 to 22: ALL GRADUATES WHO ARE CURRENTLY EMPLOYED RESPOND TO Q15 TO Q22.

- For those respondents who are employed in more than one training related job, provide your answers based on the one you consider to be your 'primary job'.
- For those respondents who are not employed in a training related job, provide your answer based on the non-training related job you consider to be your 'primary' job.

- Q15** What is the title of your primary training related job? (If you do not have a training related job, provide the title of your primary non-training related job)
 Title of primary training related job
 Title of primary non-training related (Do not have a training related job)
- Q16** What is your employment status in your primary training related job? (If you do not have a training related job, provide the employment status of your primary non-training related job)
 Permanent Full-time (30 hours or more per week) Non-permanent full-time
 Permanent Part-time (less than 30 hours per week) Non-permanent part-time
 Casual
- Q17** If your primary job is a part-time or casual position, is this by choice?
 Yes No Not Applicable
- Q18** What is the hourly salary of your primary training related job, before deductions? (If you do not have a training related job, provide your salary for your primary non-training related job)
\$ /hour If your hourly rate is unknown, provide an average monthly salary \$ /month
- Q19** Where is the location of your primary training related employment? (If you do not have a training related job, provide the location of employment for your primary non-training related job)
 Moose Jaw Prince Albert Regina Saskatoon
 Other Saskatchewan location, please specify nearest community
 Outside Saskatchewan, please specify province, or country
- Q20** If employment was found outside of Saskatchewan, was this by choice?
 Yes No Not applicable (**GO TO Q22**)
- Q21** Indicate the **main** reason why you moved out-of-province for employment (**SELECT ONLY ONE**)
 More employment opportunities Better wages and benefits
 Personal Reasons Other, specify
- Q22** Select the option below that **best** describes which industry sector the employer for your primary training related employment operates in. (If you do not have a training related job, provide the industry sector the employer for your primary non-training related position operates in) (**SELECT ONLY ONE**)

Please add any additional comments that you wish to make:

APPENDIX C: 2011 SIAST GRADUATE EMPLOYMENT SURVEY – TOTAL RESPONSES PER QUESTION

The total number of graduates responding to each question varied because:

- a) Respondents did not always provide answers to all questions and/or
- b) Some questions were not relevant to all respondents.

Due to their nature, some questions do not report the number of respondents (e.g., Q1.).

	Number of Graduates Surveyed:	3,619
	Number of Respondents:	2,106
Q1.	What is the name of the program from which you graduated?	
		# of Respondents to Question
Q2.	What is the name of the credential that you received?	
	Applied Certificate	302
	Certificate	1,147
	Advanced Certificate	69
	Diploma	<u>588</u>
		2,106
Q3.	At which SIAST campus or regional college did you take your program?	
	Kelsey	733
	Palliser	430
	Wascana	549
	Woodland	394
		2,106
Q4.	Which of the following best describes your reason for completing this program? (Select only one)	
	Employment in this field interested me	1,221
	To upgrade or formalize training in field	191
	To change careers	257
	To gain entry into higher level of post-secondary training	109
	Employment requirement	63
	Sponsored to take training (i.e., disability/workers compensation, unemployment etc.)	47
	Personal reasons	<u>218</u>
		2,106
Q5.	Please rate the overall quality of training you received in your program	
	Excellent	648
	Very Good	905
	Good	519
	Poor	24
	Very Poor	6
	Don't Know/Refused	<u>4</u>
		2,106
Q6.	Please rate how well the training prepared you for employment in your field	
	Excellent	483
	Very Good	905
	Good	622
	Poor	62
	Very Poor	6
	Don't Know/Refused	<u>28</u>
		2,106

Q7.	Were you already employed in your field of study prior to enrolling at SIAST?	
	Yes	466
	No	<u>1,639</u>
		2,105
Q8.	How many employment opportunities have you applied for since completing your training program?	
	Have not applied for any jobs since completing training	351
	Have applied for jobs since completing training	<u>1,754</u>
		2,105
Q9.	If none, why have you not applied for any employment opportunities?	
	Already employed in field of study	146
	Offered employment during practicum	38
	Personal reasons	50
	Other, specify	<u>118</u>
		352
Q10	How many employment interviews have you had?	1,721
Q11.	Are you presently employed?	
	Yes	1,858
	No	<u>247</u>
		2,105

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE PRESENTLY EMPLOYED

Q12.	Are you self-employed?	
	Yes	76
	No	<u>1,782</u>
		1,858
Q13.	Are you employed in a job directly related to the education and training you received in your program?	
	At SIAST?	
	Yes	1,564
	No	<u>293</u>
		1,857
Q.14	How many jobs do you currently have?	
	Maximum	3
	Mean	1.16
	Median	1.00
Q15.	What is the title of <u>primary</u> (main) job?	
Q16.	What is your employment status of your <u>primary</u> job? (Select only one)	
	Permanent Fulltime (30 hours or more per week)	1,229
	Permanent Part-time (less than 30 hours per week)	210
	Non-permanent full-time (i.e. term contract, seasonal)	184
	Non-permanent part-time (i.e. term contract, seasonal)	63
	Casual	<u>167</u>
		1,853

Q17.	If your <u>primary</u> job is a part-time or casual position, is this by choice?	
	Yes	254
	No	<u>176</u>
		430
Q18.	What is your average monthly salary of your <u>primary</u> job, before deductions? (Salary analyzed for Full-Time Training-Related Employment only)	
	Maximum	\$12,750
	Mean	\$3,348
	Median	\$3,000
	Minimum	\$1,425
Q19.	Where is the location of your <u>primary</u> employment? (Select only one)	
	Moose Jaw	73
	Prince Albert	133
	Regina	471
	Saskatoon	438
	Other Saskatchewan location	629
	Outside Saskatchewan	<u>109</u>
		1,853
Q20.	If <u>primary</u> employment was found outside of Saskatchewan, was this by choice?	
	Yes	93
	No	<u>16</u>
		109
Q21.	Please indicate the primary reason why you moved out-of-province for employment. (Select only one)	
	More employment opportunities	24
	Better wages and benefits	13
	Personal reasons	49
	Other reasons	<u>23</u>
		109
Q22.	Please select the option that best describes which industry sector your primary employer operates in. (Select only one)	
	Biotechnology, Pharmaceuticals or Nutraceuticals	18
	Business and Professional Services	109
	Construction	218
	Education Services	137
	Film, Video, Multi-media, Printing and Publishing	20
	Finance, Insurance, Real Estate	39
	Government Services/Public Administration	78
	Health	595
	Hospitality and Tourism (includes casinos)	34
	Human/Services and Justice	46
	Manufacturing (includes metal fabrication, agri-value and food processing)	94

	Retail and Wholesale	48
	Technology, Electronics and Telecommunications	50
	Transportation, Trucking and Heavy Equipment (includes aviation and automotive/ body services)	104
	Other, Specify	<u>118</u>
		1,853

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE NOT PRESENTLY EMPLOYED

Q23.	Which of the following best describes your reason for not looking for work? (Select only one)	
	Returned for further education	98
	Quit employment or lost desire to work in field	8
	No employment opportunities	28
	Lack of experiences	30
	Laid off by employer	19
	Personal reasons	<u>63</u>
		246
Q24.	Have you worked at all since completing your training program (includes part-time or casual positions)?	
	Yes	165
	No	<u>81</u>
		246
Q25.	If yes, was the most recent work directly related to the education and training you received in your program?	
	Yes	93
	No	<u>72</u>
		165
Q26.	Are you scheduled to return to work in the future?	
	Yes	118
	No	<u>128</u>
		246
Q27.	Are you actively looking for work?	
	Yes	130
	No	<u>116</u>
		246
Q28.	If no, which of the following best describe your reason for not looking for work?	
	Returned for further education	66
	Given up looking – no employment opportunities	8
	Personal reasons	<u>42</u>
		116

RESPONSES TO QUESTIONS ON FURTHER EDUCATION FROM ALL RESPONDENTS

Q29.	Are you currently enrolled in an education or training program?	
	Yes	413
	No	<u>1,686</u>
		2,099
Q30.	Which type of training is it? (Select only one)	
	The same SIAST program (different credential)	132
	A different SIAST program	47
	A post-secondary program at another institute (other than university)	31
	An apprenticeship program	66
	A university program	86
	Other program	<u>51</u>
		413

RESPONSES TO DEMOGRAPHIC QUESTIONS FROM ALL RESPONDENTS

Q31.	Identify your gender:	
	Male	879
	Female	<u>1,215</u>
		2,094
Q32.	How old were you on June 30 th , 2011?	
	Maximum age	63
	Mean age	27
	Median age	23
	Minimum age	18
Q33.	Are you of Aboriginal ancestry?	
	Yes	311
	No	1,773
	Refused	<u>14</u>
		2,098
Q34.	If yes, do you consider yourself?	
	Status/Treaty Indian	135
	Métis	149
	Non-Status Indian	25
	Inuit	0
	Refused	<u>3</u>
		312
Q35.	Do you consider yourself a member of visible minority?	
	Yes	231
	No	<u>1,826</u>
		2,057
Q36.	Do you consider yourself a person with a disability?	
	Yes	103
	No	<u>1,970</u>
		2,073
