
SIAST Graduate Employment Report: 2011-12 Graduates

August 2013

Acknowledgements

The Institutional Research and Analysis unit at SIAST would like to thank those graduates who responded to the SIAST Graduate Employment Survey.

Reproduction of this report or parts thereof is permitted and encouraged, provided appropriate acknowledgments are given.

Availability

The report is available in electronic format and can be found on the SIAST web page at:

http://www.siastr.sk.ca/about/reports_statistics/institutional_reports.shtml

The on-line version of the report is in Adobe Acrobat pdf format and will require the Adobe Acrobat Reader software
(Available free for download from the Adobe web page).

EXECUTIVE SUMMARY

SIAST annually surveys graduates from its certificate and diploma programs, six to twelve months following graduation. Graduates are asked questions regarding the quality of training, their employment outcome and further education. The major findings of the SIAST Graduate Employment Survey (GES) of 2011-12 graduates are listed below. Where possible, for comparison, the 2010-11 figures are included in brackets. Program-specific breakdowns of the results are located in the program pages at the end of the report.

Graduate/Respondent Profile:

- 3,339 (3,619) graduates that received credentials from 152 distinct programs in the time period July 2011 - June 2012 were surveyed.
- Of the 3,339 surveyed graduates, 2,076 (2,106) responded for an overall response rate of 62% (58%).
- Sixty-three percent (58%) of the graduates were from base programs (2,106 of 3,339 in 2011-12) and 37% (42%) from continuing education programs (1,233 of 3,339). The proportion of respondents in both base and continuing education programs (68% or 1,402 of 2,076 – base and 32% or 674 of 2,076 respondents) is similar to the actual graduate ratio.
- 58% (58%) of respondents were female and 42% (42%) were male, which matches the actual gender ratio of graduates.
- 16% (15%) of respondents identified themselves as being of Aboriginal origin which is similar to the actual proportion of Aboriginal graduates in 2011-12 (16%). The Aboriginal respondents identified themselves as 48% (43%) Status/Treaty Indian, 45% (48%) as Métis, 6% (8%) as Non-Status Indian and none (0%) as Inuit.
- 6% (5%) of respondents indicated that they were persons with disabilities, two-percent higher than the proportion of disabled graduates declared in the 2011-12 censuses.
- 9% (11%) of respondents identified themselves as a visible minority, which is much higher than the proportion of graduates who self-declared their equity status while attending SIAST (3% of the 2011-12 graduates).
- 58% (58%) of respondents reported seeking employment in this field as the primary reason for completing their programs.
- 20% (20%) of all respondents indicated they were enrolled in further education at the time of the survey. Of this figure, 48% (43%) were enrolled in a SIAST program – either the same SIAST program (different credential) or a different program altogether.

Quality of Training:

- 97% (99% good to excellent) of all respondents rated the overall program quality at SIAST as satisfied to very satisfied.
- 94% (96% good to excellent) of all employed respondents rated the ability of the program to prepare them for employment in their field of study as satisfied to very satisfied.

Note: For the 2011-12 GES, the rating scales for questions regarding quality of training and employment preparation were refined from a positively weighted five point scale (good, very good, excellent) to a four point balanced satisfaction scaled (satisfied, very satisfied).

Key Findings based on the 'Available Workforce' (those employed and those not employed but looking for work):

- 95% or 1,966 of 2011-12 graduate respondents were participating in the labour force at the time of the survey (94% or 1,989); 1,818 were employed (1,859) and 148 were not employed but looking for work (130).
- 92% (93%) of respondents who were available to work were employed (employment rate). The current employment rate reflects the average employment rate over the past six survey administrations, where the rate ranged from 90% to 94%.
- 71% (71%) of respondents available to work were employed in full-time occupations.
- 78% (79%) of respondents available to work were in training-related occupations.
- 61% (61%) of the respondents available for work were employed in full-time training-related occupations.
- The overall employment rate for 2011-12 Aboriginal graduates decreased by 8%; reverting back to the rate reported in 2010-11 of 82%. The lowest Aboriginal employment rate in the past six years, of 79% was reported by 2008-09 graduates.
- Training-related employment of Aboriginal graduates decreased to 66% (73%).
- Full-time employment for Aboriginal graduates also increased to 62% (60%).

Other Key Findings:

- The average salary for respondents in full-time training-related employment was \$3,490 (\$3,348) per month, a 4% increase over 2011.
- 3% (4%) of employed respondents indicated they were self-employed.
- Of those respondents who were employed, 23% (22%) were working part-time or casually and of these, 65% (58%) reported that the part-time work was by choice.
- 95% (95%) of respondents employed in training-related positions were working in Saskatchewan. Of this figure, 54% (50%) were working either in Regina or Saskatoon. The number of respondents working in 'Other Saskatchewan Locations', outside the four campus cities, decreased by 2% to 31% (33%) in training-related positions.
- When looking at all employed respondents, 5% (5%) of the respondents indicated their primary employment was obtained outside Saskatchewan and of that figure, 77% (85%) reported that this was by choice. Of those who reported working outside Saskatchewan, 37% (45%) indicated personal reasons as the primary reason for leaving the province.
- Of the 258 respondents who reported they were not working at the time of the survey, 71% (67%) indicated they had worked at some time since graduation and 58% (56%) of these respondents had been employed in work directly related to their training.
- 57% (48%) of graduates not employed at the time of the survey reported they were scheduled to return to work in the future.
- 42% (57%) of respondents, who were not employed, indicated they were not looking for work, primarily because they were enrolled in further education.

INTRODUCTION

1.0 INTRODUCTION

The SIAST Graduate Employment Report is produced from data collected from the SIAST Graduate Employment Survey (GES). The survey collects data from a variety of questions relating to the employment status, evaluation of training and general demographic characteristics of SIAST's graduates.

One of SIAST's strategic goals is to maximize student success. Graduate feedback from the survey provides valuable information about the quality of training and the success of SIAST graduates in the labour market. A wide range of stakeholders, from SIAST management, government, high school students and career counsellors, labour analysts and policy administrators, use the Graduate Employment Report as a reference document for program and labour market review and planning. The Institutional Research and Analysis (IR&A) unit at SIAST undertook the survey on behalf of the institution.

1.1 Scope

The 2012 SIAST GES contacted 3,339 graduates who completed a SIAST program of study and graduated between July 2011 and June 2012.

In the 2011 -12 academic year, SIAST had graduates from a total of 152 distinct credentialed programs. Many SIAST programs are also offered off-campus throughout the province and these are considered continuing education programs. SIAST continuing education programs are generally cost-recovery and are offered throughout the province in a variety of delivery formats: with partners, via distance education learning and in industry-based training formats.

All programs at SIAST are clustered and reported within one of the following six program divisions:

- Business
- Industrial Training
- Science and Health
- Community Services
- Nursing
- Technology

One of the following four credentials is awarded for each SIAST program: Applied Certificate, Certificate, Advanced Certificate and Diploma. In some instances a program may have both a certificate and diploma level exit credential.

In order to have programs that are current, SIAST continually reviews the program mix. Some programs may have recently been deleted but graduates were permitted to complete their programs and graduate. Some programs have been re-titled or re-credentialed. Appendix A lists changes to the programs offered.

1.2 Methodology

Data Collection and Analysis

A census of SIAST graduates within an academic year was undertaken to obtain a sufficient number of graduates for the GES. The graduate contact list, including telephone numbers and mailing addresses, was provided by Enrolment Services at SIAST.

A tri-modal data collection process was used to contact SIAST graduates. It consisted of three phases which occurred between December 2012 and April 2013. The first was a

mail out of a self-administered paper survey to all 3,339 graduates. In December 2012, each graduate received the questionnaire to complete, along with a letter explaining the purpose of the study. A link to an online version of the survey was also provided in the invitation letter for those respondents who would prefer to complete the survey using the Internet. The invitation letter was followed up with an e-mail invitation that contained an electronic link to the online survey.

In March/April 2013, Insigtrix Research Inc. of Saskatoon was contracted to conduct one-on-one telephone interviews with those graduates who did not respond to the mail-out questionnaires or email invitation by February, 2013. Every effort was made to contact the graduates in order to provide the highest possible response rate. The participants were entered to win a laptop as well as three early bird draws of either an iPod or digital camera to encourage them to participate in the survey.

The online responses were collected using the Perseus Enterprise web-based survey tool, a method that IR&A introduced in 2007. The purpose of this method was for respondents to directly enter their own responses to the questions in the survey and therefore avoid any misinterpretation of responses when entered manually. The responses from the mail-in portion of the survey (paper version) were manually entered by IR&A staff. IR&A continues to develop new measures to have all future graduate employment surveys completed online. The responses from graduates by the different methods of surveying were merged, checked for accuracy and consistency and then analyzed using the Statistical Package for Social Science (SPSS) software.

1.3 Response Rate and Validity of Results

A total of 2,076 graduates participated in the 2012 GES, with an overall response rate of 62%. Table 1 provides the response rates for SIAST overall, by division and by base/continuing education.

Table 1: Survey Response Rate, by Division, by Base/Continuing Education, 2012

2012	GRADUATES	RESPONDENTS	RESPONSE RATE
SIAST Overall Programs by Division			
Business	544	365	67%
Community Services	712	406	57%
Industrial Training	619	329	53%
Nursing	253	176	70%
Science and Health	650	436	67%
Technology	561	364	65%
Total SIAST Programs	3,339	2,076	62%

Community Services	412	254	62%
Industrial Training	328	207	63%
Nursing	192	133	69%
Science and Health	411	279	68%
Technology	445	304	68%
Total SIAST Base Programs	2,106	1,402	67%
SIAST CE Programs by Division			
Business	226	140	62%
Community Services	300	152	51%
Industrial Training	291	122	42%
Nursing	61	43	70%
Science and Health	239	157	66%
Technology	116	60	52%
Total SIAST CE Programs	1,233	674	55%

SIAST's GES is unique because, rather than survey a sample of the 2012 SIAST graduates, a full census of every graduate is undertaken. SIAST is a post-secondary institution offering more than 152 distinct programs at four urban campuses as well as numerous rural locations. Some of these programs have less than 30 graduates which makes it impossible to survey a sample of the graduates and obtain meaningful results at the individual program level.

Response Rates for Small Populations

For populations with less than 30 participants, as is the case with several SIAST programs, it is recommended that all participants be surveyed in order to obtain reliable information. At the program level, the results will provide a good indication of graduate success and training quality, but may not be representative of all graduates from that program if the population is less than 30 graduates and only a small portion of graduates respond. SIAST makes every effort to contact all the graduates and encourage them to participate. Note: When viewing individual program pages, with low/small number of graduates and a low response rate (i.e., less than 30%), generalizations of the results in the survey should be made with caution.

1.4 Reporting of Results

The 2012 SIAST GES report was compiled from an analysis of the results of the survey. The findings of the analysis are presented in the Overview of Results that summarizes the survey results regarding employment status, program assessment and general graduate demographics by SIAST overall, by base (primarily on-campus activity) and continuing education (primarily brokered off-campus activity throughout the province), as well as the six SIAST program divisions.

Two types of ratios have been included in the Graduate Employment Report for questions pertaining to employment status and training-related employment. In Sections 2.1.1 to 2.1.6, employment information is presented as a percentage of those graduates available to work. According to Statistics Canada, the available to work is defined as the labour force and includes those that are currently employed, as well as those not currently employed but who are seeking employment.

For example, 1,818 graduates responded to the question regarding employment status (full-time versus part-time). Of these, 1,394 respondents indicated that they are employed full-time. In calculating the full-time employment rate listed in the sections mentioned above, the 1,394 responses are divided by the available workforce total – 1,966 (comprised of 1,818 respondents employed and 148 respondents actively seeking employment), for a full-time employment rate of 71%.

In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of graduates who responded to the respective employment questions in the survey rather than the available workforce. For example, in reporting employment status (Section 2.3.1), the frequency for those respondents with a full-time status (77%), was calculated by dividing the 1,394 respondents who indicated they are employed full-time by the 1,818 graduates who responded they are employed.

For Sections 2.3.1 and 2.3.2, similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators and the program pages at the back of the report.

Where applicable the numbers and percentages in this report has been rounded to the nearest whole percentage and, therefore, in some cases the total percentages may vary slightly from 100% or in some cases where responses do not equal 100%, the difference is for graduates who indicated "Don't Know/Refused".

In presenting the results, the total number of graduates responding to each question will vary because: a) respondents did not always provide an answer to each question; and/or b) some questions were not relevant to some respondents. For example, some questions were asked only of those who were currently employed at the time of the survey and conversely, other questions were asked only of those who were not currently employed at the time of the survey.

The Appendices section at the back of the report contains a listing of programs that have recently been revised, either re-titled, identified with different credentials or deleted (appendix A); a copy of the survey questionnaire (appendix B); a question-by-question response count (appendix C); general SIAST information (appendix D); a list of tables (appendix E); and a list of figures (appendix F).

OVERVIEW OF RESULTS

2.0 EMPLOYMENT

Respondents were asked to respond to a number of questions regarding their ability to secure employment after graduation, as well as the details of that employment, such as employment status (full or part-time), location, and number of jobs held and the relationship of employment to training.

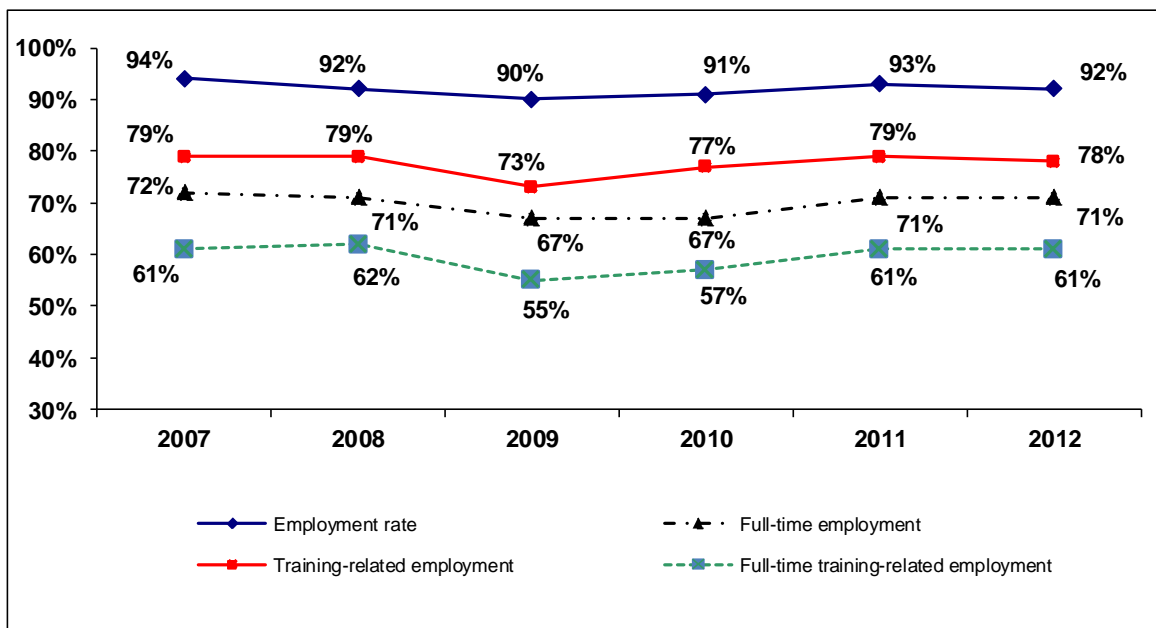

2.1 Employment Rates

2.1.1 Employment Rates for SIAST Overall

The following employment rates are calculated based on those respondents who are *available to work*. The respondents who are included in the available to work category are those who were employed at the time of the survey and those who were not employed but were looking for work (Statistics Canada's definition of the Labour Force).

The employment rate (92%) of 2011-12 graduates slightly decreased by 1% from the previous year (Figure 1). The training-related employment rate also decreased slightly by 1% from 2011 levels to 78% of graduates in the available workforce at the time of the survey. The full-time employment rate (71%) as well as the full-time training-related employment (61%) remained constant with 2011 results.

Figure 1: Employment Trends for SIAST Graduates, Based on Available Workforce, 2007 - 2012

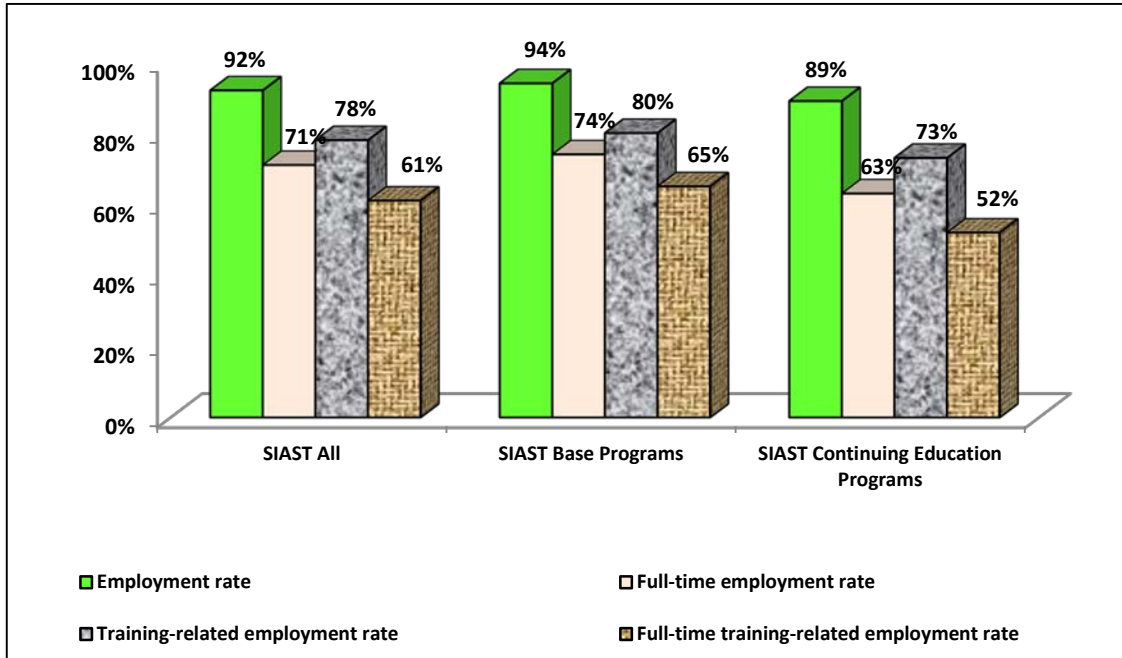

2.1.2 Employment Rates for All SIAST, Base and Continuing Education Programs

Figure 2 compares the employment rates for base and continuing education programs in 2012, with that of SIAST overall. The employment rate for base programs (94%) and continuing education programs (89%) are closely

comparable to the SIAST overall employment rate of 92%. As shown in Figure 2, the training-related employment rates and full-time training-related employment rates for base programs were higher than continuing education programs.

Figure 2: Employment Rates, by Base/Continuing Education, Based on Available Workforce, 2012

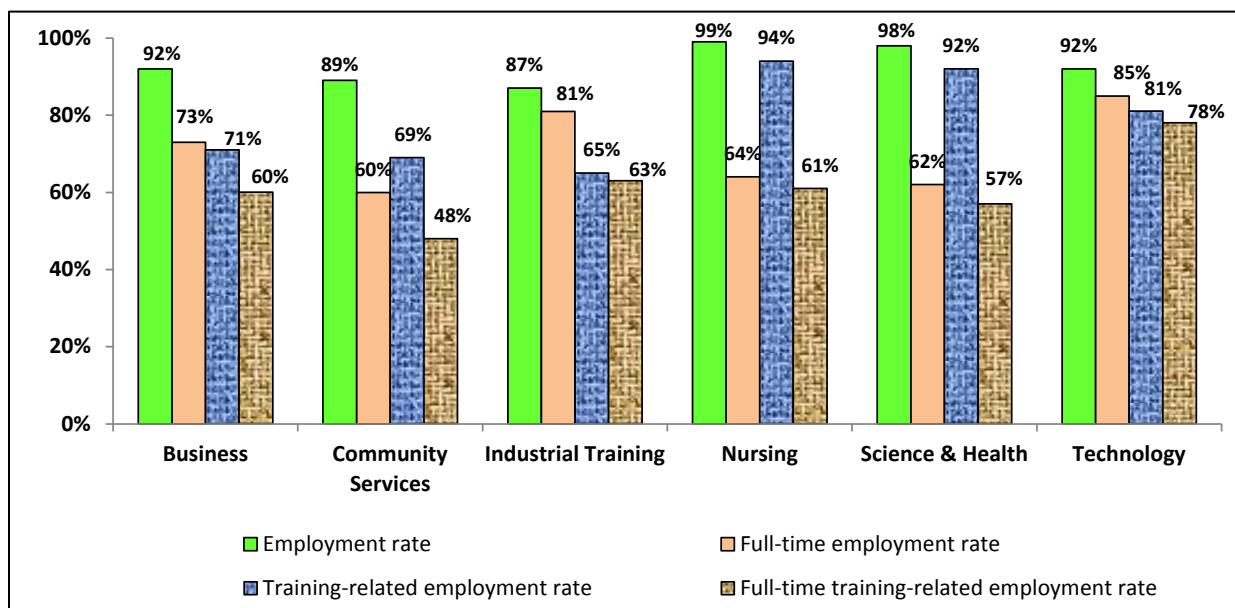

2.1.3 Employment Rates by Division Overall (Base and Continuing Education)

Figure 3 provides a breakdown of employment rates for each of the six program divisions. Higher employment rates of those who graduated from Nursing (99%) and Science and Health (98%) Divisions anchored the overall SIAST graduate employment rate at 92%; this is a one percent decline from the previous year. The employment rates of graduates of other divisions were ranging from 87% to 92%.

The training-related employment rates of those who graduated from Nursing (94%) and Science and Health (92%) Divisions strengthened the overall SIAST training-related employment rate to 78%, yet another one percent decline from previous year.

Similar to the past two survey results, Technology Division reported the highest full-time training-related employment rate of 78%. Remarkably up 6% from 2010-11 results.

Figure 3: Employment Rates, by Division, Based on Available Workforce, 2012

2.1.4 Employment Rates by Division (Base and Continuing Education Reported Separately)

Table 2 provides a further breakdown of employment rates by division for base and continuing education programs.

For SIAST base programs, the Nursing (99%) and Science and Health (98%) Divisions reported the highest employment rates. For continuing education programs, Nursing (100%), Science and Health (99%) and Business (94%) Divisions had the highest employment rates, while the graduates from the continuing education Industrial Training Division reported the lowest employment rate of 73%.

In base education programs, graduates from the Industrial Training Division (90%) and Technology Division (87%) were more likely to find full-time employment. In the continuing education (Technology - 76%, Nursing - 73% and Business - 73%) programs were more likely to find full-time employment.

Respondents from the Community Services Division (69%) in the base programs and the Technology Division (61%) in the continuing education programs reported the lowest percentage of finding training-related employment.

Following the results of SIAST overall (61%), the full-time training-related employment rate for graduates from base programs (65%) and continuing education programs (52%), consistent with 2010-11 results.

Table 2: Employment Rates, by Division, by Base/Continuing Education, Based on Available Workforce, 2012

	AVAILABLE FOR WORK	EMPLOYMENT RATE	FULL-TIME EMPLOYMENT RATE	TRAINING-RELATED EMPLOYMENT RATE	FULL-TIME TRAINING-RELATED EMPLOYMENT RATE

2.1.5 Employment Rates for Aboriginal Respondents

Figure 4 indicates the employment rates, training-related employment rates and full-time training-related employment rates by divisions for Aboriginal respondents.

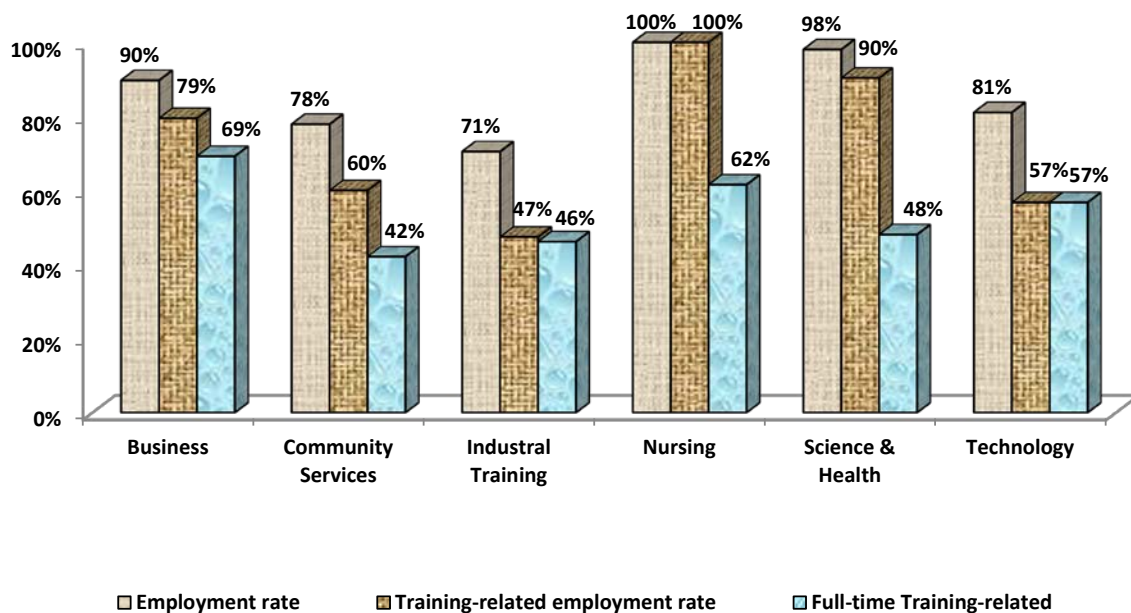

Both the Nursing Division (at 100% for training-related employment) and the Science and Health Division (at 90% for training-related employment) showed encouraging results for Aboriginal graduates in finding employment.

The employment rates for Aboriginal graduates by division based on those available to work were:

- Business – 90%
- Industrial Training – 71%
- Science and Health – 98%
- Community Services – 78%
- Nursing – 100%
- Technology – 81%

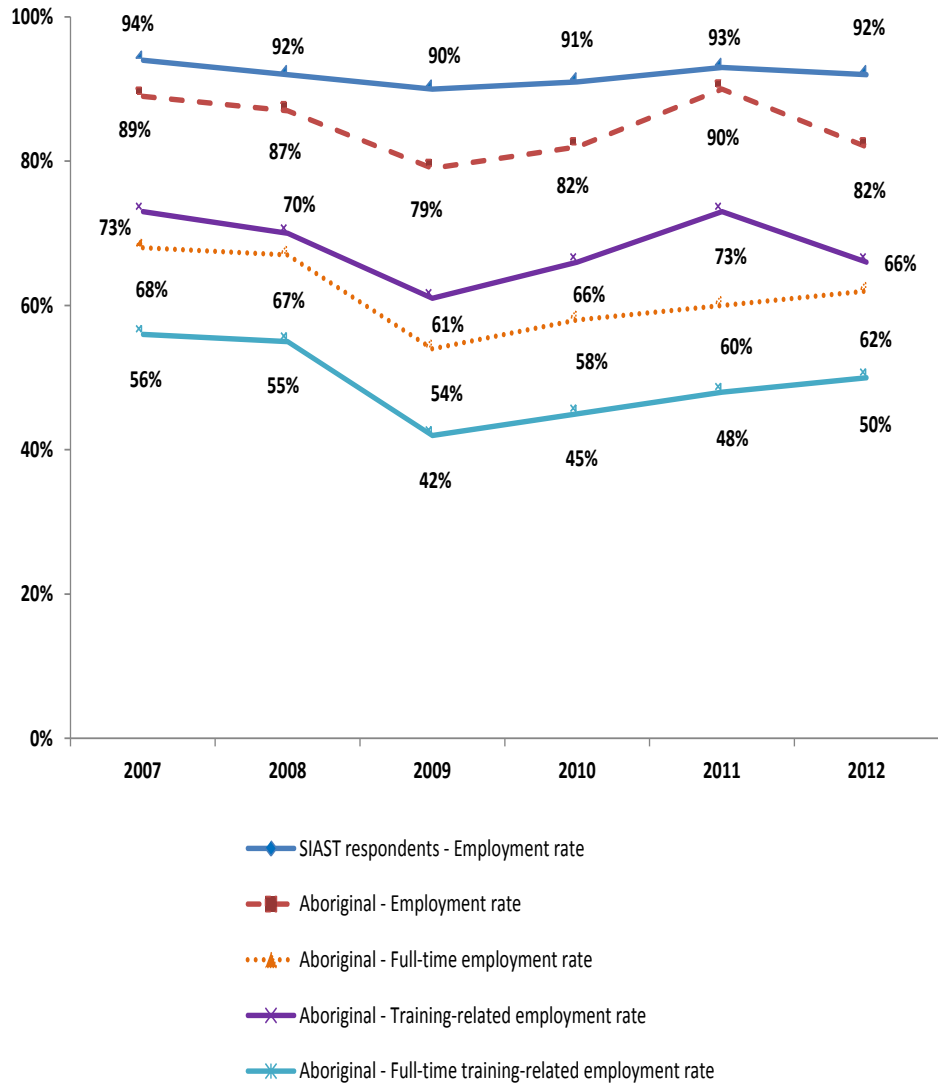

With the exception of the Nursing Division (100%) whose employment rate remained the same compared to 2010-11, there was a general fluctuation in the employment rates for Aboriginal graduates from all programs across all divisions. The training-related employment rate for graduates from all divisions, except the Community Services, Industrial Training Divisions and Science and Health which were 8%, 19% and 1% down from 2010-11 respectively, increased in all divisions.

Figure 4: Employment Rates for Aboriginal Respondents, by Division, Based on Available Aboriginal Workforce, 2012

As depicted in Figure 5, the employment, full-time employment, training related and full-time training-related employment rates for Aboriginal respondents in the 2012 survey changed slightly over 2011. The Aboriginal full-time employment rate and the Aboriginal full-time training related employment rate show an increase of 2% since 2011. However, the Aboriginal employment rate saw a decrease of 8% since 2011 and the Aboriginal training-related employment rate saw a decrease of 7% since 2011.

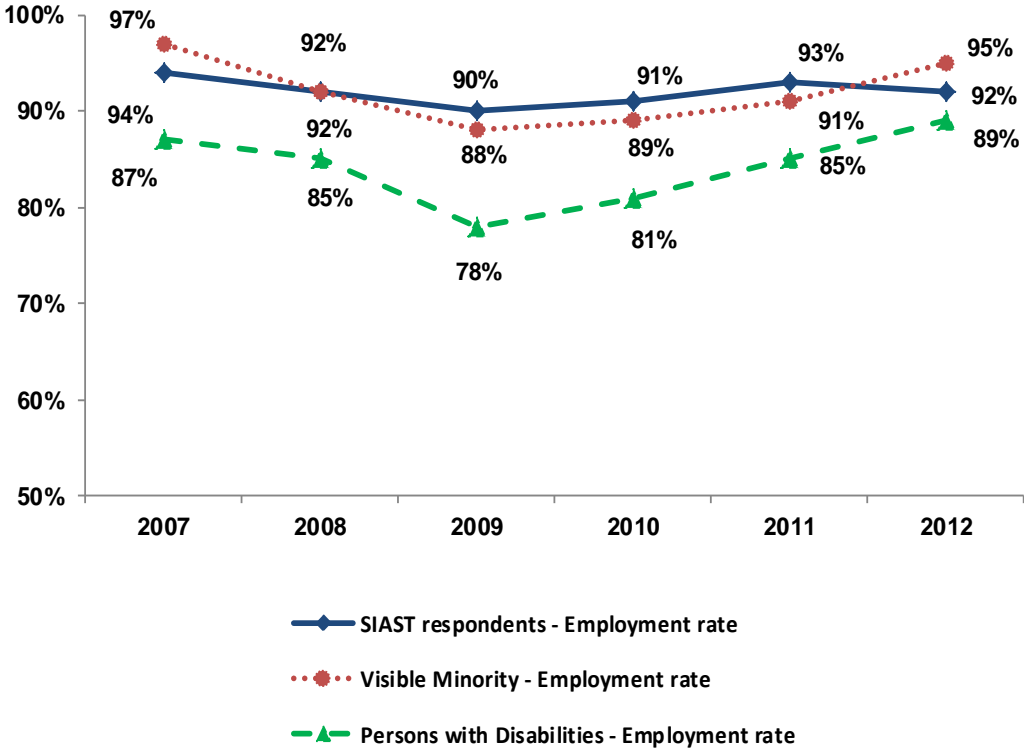

Figure 5: Employment Trends for Aboriginal Respondents, Based on Available Workforce, 2007 - 2012

2.1.6 Employment Trends for Persons with Disabilities and Visible Minority Respondents

As shown in Figure 6, the employment rate for persons with disabilities and visible minority respondents increased remarkably over 2011. The employment rate for persons with disabilities was 89% in 2012, a 4% increase over 2011, while the rate for visible minority persons was 95%, a 4% increase over 2011.

Figure 6: Employment Trends for Persons with Disabilities and Visible Minority Respondents, Based on Available Workforce, 2008 - 2012

2.2 Training-Related Employment, Based on Number Employed*

**Note: In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of employed graduates rather than the available workforce. Similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators or the program pages at the end of this report.*

Are you employed in a job directly related to the education and training you received in your program at SIAST? (Question 13)

The majority of respondents in all divisions reported that they found employment which was directly related to their training. Overall, consistent with 2011, 84% of all employed respondents worked at training-related jobs at the time of the survey (Figure 7). Respondents from the Nursing (95%) and Science and Health (93%) Divisions had the most success in obtaining training-related employment while respondents from Industrial Training (75%) and Business (77%) had relatively low rates of training-related employment.

Figure 7: Training-Related Employment, by Division, 2012

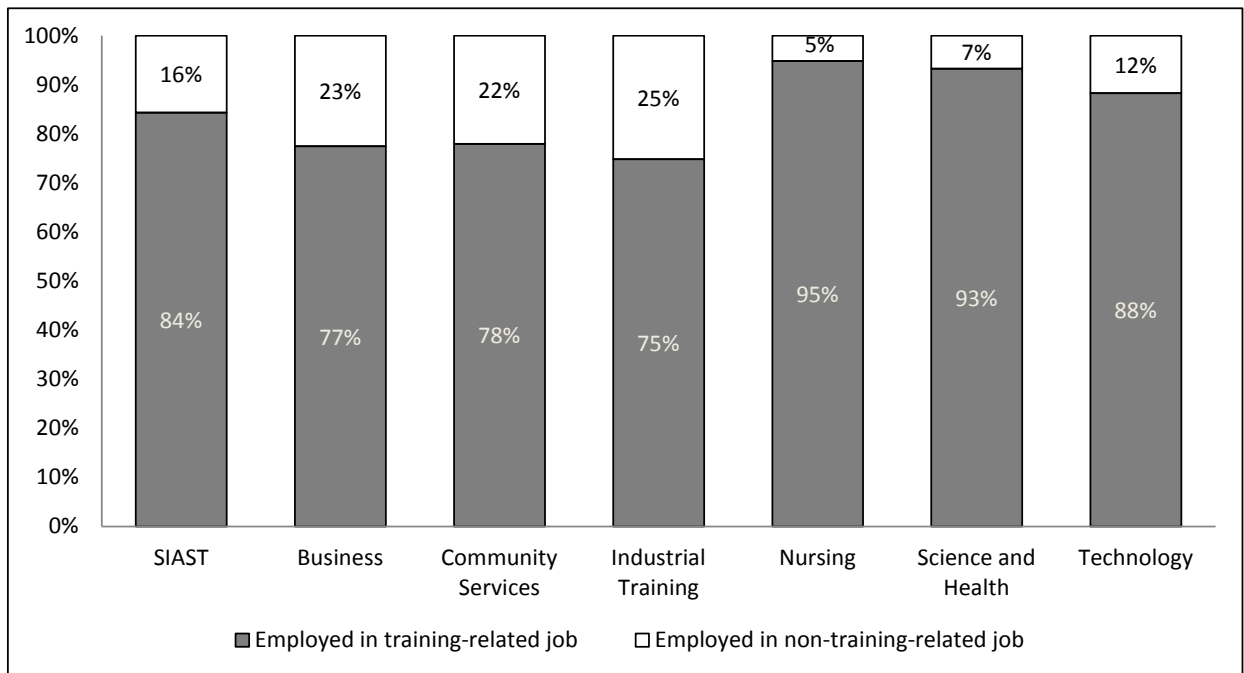

Table 3 provides a breakdown of training-related employment by base and continuing education programs for each division. The graduates from Nursing and Science and Health Divisions had the largest percentage of respondents with training-related employment. The Nursing Division had the highest percent of graduates employed in a training-related job in base (93%) and continuing education programs (100%). In many of the Nursing and the Science and Health Division's programs, respondents are required to have completed their training and be licensed by a national accrediting agency before practicing their skills in the health field. Overall, approximately four-fifths of graduates from base, 85% and continuing education, 82%, programs were able to find training-related employment, consistent with 2011 survey results.

Table 3: Training-Related Employment, by Division, by Base/Continuing Education, 2012

	TOTAL EMPLOYED	NUMBER EMPLOYED IN TRAINING- RELATED JOB	PERCENT EMPLOYED IN TRAINING- RELATED JOB
SIAST Base Programs by Division			
Business	184	144	78.3%
Community Services	210	165	78.6%
Industrial Training	192	155	80.7%
Nursing	132	123	93.2%

Total SIAST CE Programs	563	461	81.9%
OVERALL SIAST TOTAL	1,818	1,532	84.3%

2.3 Employment Status, Based on Number Employed

2.3.1 Full or Part-time/Casual Employment

What is your employment status of your primary job? (Question 16)

- a) Permanent Full-time (30 hours or more per week)
- b) Permanent Part-time (less than 30 hours per week)
- c) Non-Permanent Full-time (i.e., term, contract, seasonal)
- d) Non-Permanent Part-time (i.e., term, contract, seasonal)
- e) Casual (variety of hours per week)

Full-time employment is defined as working 30 hours or more per week and part-time and casual employment are defined as working less than 30 hours per week. Overall, 77% of respondents surveyed were working full-time in their primary job (a 1% increase over 2011); while the remaining 23% of respondents had a primary job that was part-time or casual (a 1% decrease over 2011).

As shown in Figure 8, the Industrial Training Division had the highest percentage of respondents (93%) with full-time employment in their primary job followed by Technology Division (93%). Four-fifths of respondents from the Business (80%) were working full-time in their primary job – 2% increase from 2011. Similar to 2011, respondents from the Science and Health Division (63%) were the least likely to obtain full-time employment in their primary job, however this was a marked improvement from last survey results (56%) – up 7%.

Figure 8: Full or Part-Time Employment in Primary Job, by Division, 2012

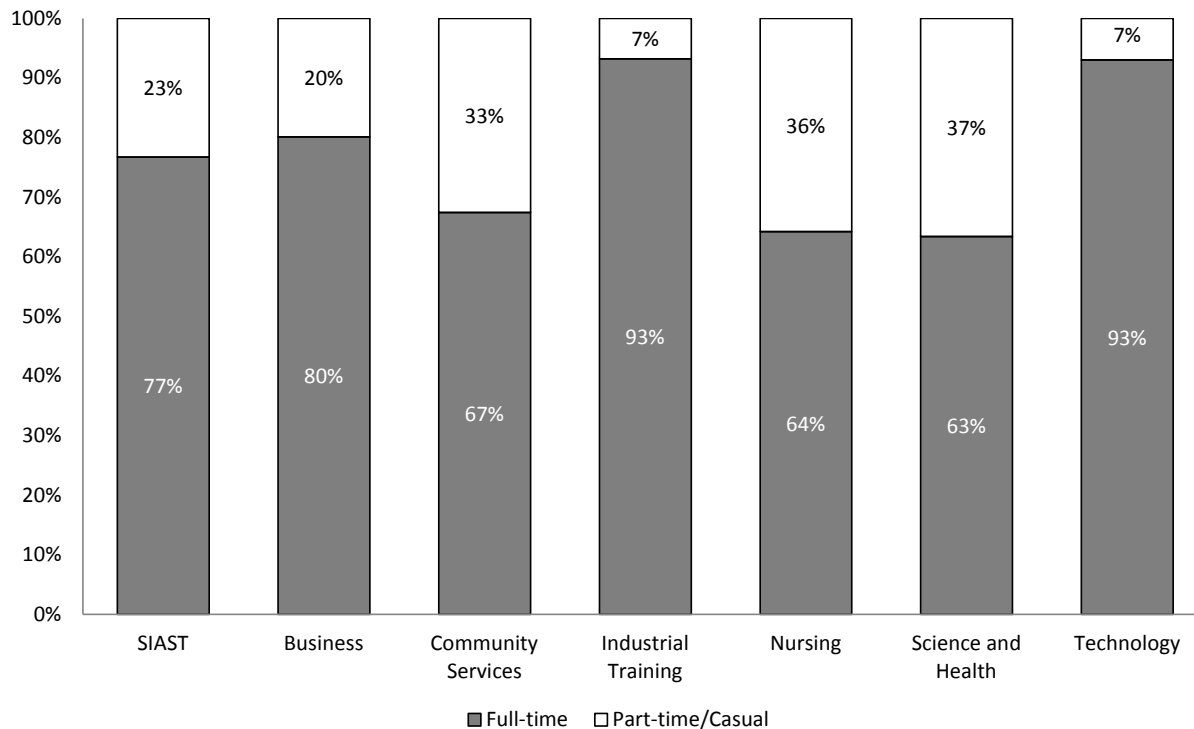

Table 4 provides further breakdown of employment status for base and continuing education programs in each division. On average, 79% of respondents from base programs were employed in full-time positions while only 71% of respondents from continuing education programs were employed in full-time positions. As shown in Table 4, over 70% of graduates in all divisions in the base programs, except community services and nursing were able to secure full-time positions. Only 65% of graduates from Community Services and 61% nursing division in base programs were able to secure full-time employment. Similarly, over 70% of the graduates from continuing education programs were also able to secure full-time employment with the exception of graduates in the Science and Health Division (45%). With the exception of the Industrial Training Division, the increase in the ability of graduates in continuing education programs to secure full-time employment over 2011 is remarkable.

Table 4: Full or Part-Time Employment in Primary Job, by Division, by Base/Continuing Education, 2012

	TOTAL EMPLOYED	% FULL-TIME	% PART-TIME/ CASUAL
SIAST Base Programs by Division			
Business	184	81.5%	18.5%
Community Services	210	65.2%	34.8%
Industrial Training	192	93.8%	6.3%
Nursing	132	61.4%	38.6%

Science and Health	152	45.4%	54.6%
Technology	41	100%	0.0%
Total SIAST CE Programs	563	71.0%	29.0%
OVERALL SIAST TOTAL	1,818	76.7%	23.3%

2.3.2 Part-time/Casual Position – by Choice

If your primary job is a part-time or casual position, is this by choice? (Question 17)

It is assumed that those working in part-time or casual jobs do so because they cannot secure full-time employment. This particular question was added to the GES in 2002 to clarify if graduates wanted to work in part-time or casual positions. In 2012 of those who worked part-time/casual, 65% indicated they chose to work part-time/casual by choice, up 7% from 2011. Table 5 provides a further breakdown of part-time/casual employments by choice for base and continuing education programs by division. For SIAST base divisions the Business and Industrial Training divisions had the highest proportion of respondents (79% and 75% respectively) who were working part-time positions by choice. The percentage of graduates who worked part-time or casual positions by choice in the continuing education programs ranged from 0% to 78%. There were no graduates working in part-time casual positions in Technology division continuing education programs.

Table 5: Part-Time or Casual by Choice, by Division, by Base/Continuing Education, 2012

	TOTAL EMPLOYED PARTIME/CASUAL	PART-TIME/ CASUAL BY CHOICE
SIAST Base Programs by Division		
Business	34	79.4%
Community Services	73	63.0%
Industrial Training	12	75.0%
Nursing	51	64.7%

Technology	22	63.6%
Total SIAST Base Programs	261	64.4%
SIAST Continuing Education Programs by Division		
Business	27	77.8%
Community Services	35	71.4%
Industrial Training	7	28.6%
Nursing	11	36.4%
Science and Health	83	66.3%
Technology	0	0.0%
Total SIAST CE Programs	163	65.6%
OVERALL SIAST TOTAL	424	64.9%

2.3.3 Self-Employed

Are you self-employed? (Question 12)

The percentage of respondents indicating they were self-employed remains fairly low in all divisions. Overall, 3% of all the respondents in the survey indicated their desire for self-employment, which is close to that reported in 2010 and 2011. The graduates from continuing education programs are more likely to pursue self-employment (5%) relative to those who graduated from base programs (3%). The greatest interest for self-employment came from industrial training base programs (5%) and community services continuing education programs (8%). As well 7% from industrial training division in continuing education programs indicated a greater percentage of self-employed graduates than any other divisions.

Table 6: Self-Employment, by Division, by Base/Continuing Education, 2012

	TOTAL EMPLOYED	PERCENT SELF-EMPLOYED
SIAST Base Programs by Division		
Business	184	1.6%

Total SIAST CE Programs	563	4.8%
OVERALL SIAST TOTAL	1,818	3.2%

2.3.4 Number of Jobs

How many jobs do you currently have? (Question 14)

Overall the average number of jobs (training or non-training related) that employed respondents had was 1.18. As shown in Table 7, almost the same average number of jobs was held by respondents in both base and continuing education programs.

Table 7: Number of Current Jobs Held, by Division, by Base/Continuing Education, 2012

	TOTAL RESPONDENTS	AVERAGE	MAXIMUM
SIAST Base Programs by Division			
Business	182	1.15	4
Community Services	208	1.17	4

Technology	41	1.00	1
Total SIAST CE Programs	555	1.20	4
OVERALL SIAST TOTAL	1,799	1.18	5

3.0 Salaries

Respondents were asked to indicate the salary they earned. Since some employees gave an hourly rate and others a monthly salary, all identified hourly rates were converted to a monthly rate as shown below.

3.1 Salaries for SIAST Graduate Respondents

What is the hourly salary of your primary job before deductions? (Question 18)

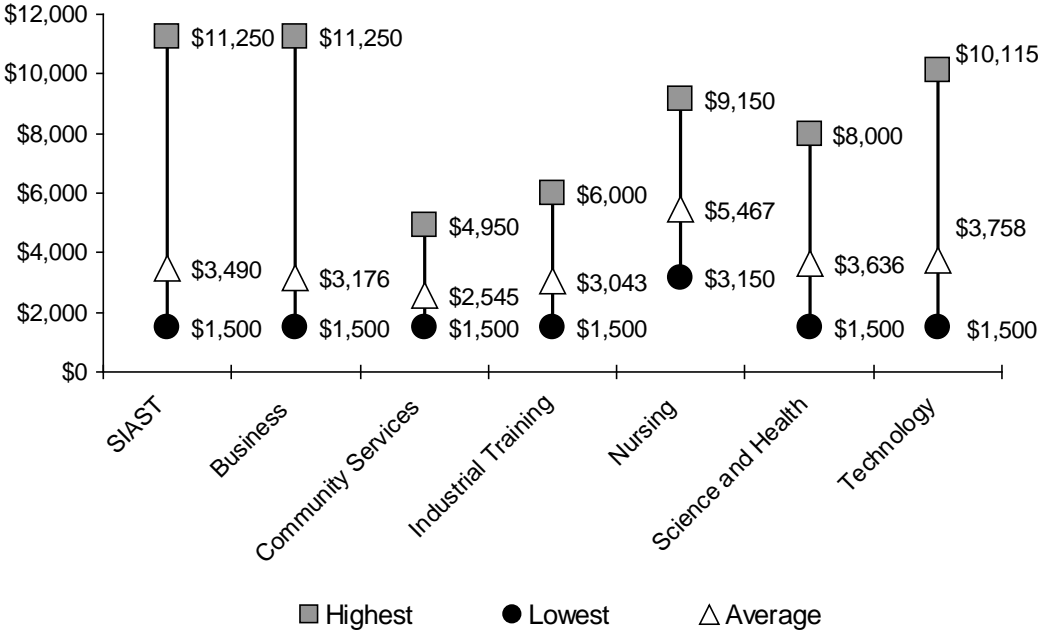

For the 2011-12 academic year the minimum wage set by the government of Saskatchewan was \$10/hr. Based on a 37.5 hour work week; the minimum monthly salary for a full-time employee is \$1,500 [$\$10 \times 37.50 \times 4$]. The majority of SIAST employed respondents were paid at a higher level than this rate (Table 8). The average (mean) monthly full-time training-related salary for all respondents was \$3,490, an increase of 4% over 2011.

Table 8: Monthly Salary of Full-Time Training-Related Job and by Base/Continuing Education, 2012

	EMPLOYED IN FULL TIME TRAINING-RELATED POSITIONS	RESPONDENTS WITH FULL TIME TRAINING RELATED SALARIES	HIGHEST	AVERAGE	MEDIAN	LOWEST
Total SIAST Base Programs	871	824	\$10,115	\$3,536	\$3,150	\$1,500
Total SIAST CE Programs	325	299	\$11,250	\$3,362	\$3,072	\$1,500
OVERALL SIAST TOTAL	1,196	1,123	\$11,250	\$3,490	\$3,150	\$1,500

As illustrated in Figure 9, graduates in the Business Division (\$11,250) had the highest full-time training related monthly salary, followed by graduates from the Technology Division (\$ 10,115). Salaries in the Community Services Division were the lowest, with an average of \$ 2,545 compared to a high of \$5,467 in the Nursing Division.

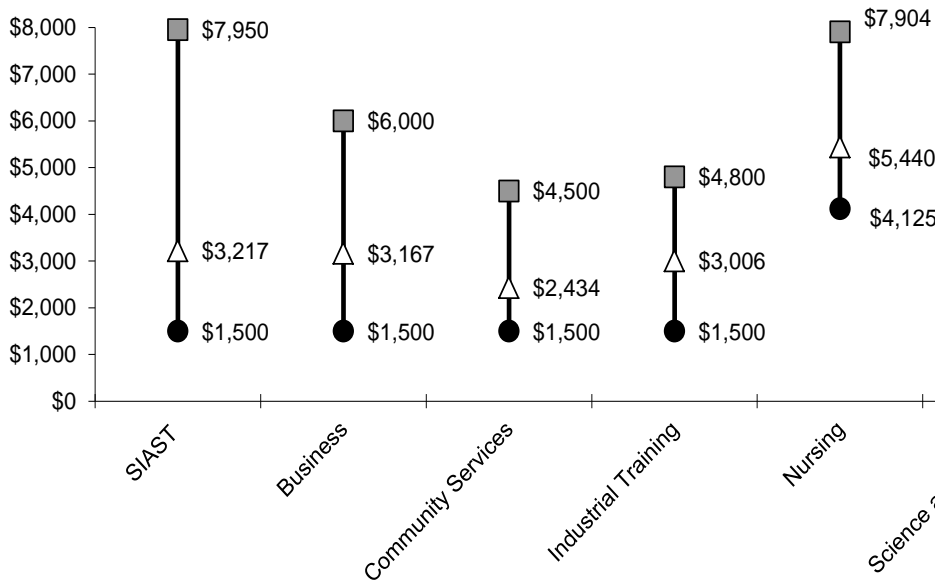

Figure 9: Monthly Salary of Full-Time Training-Related Employment, by Division, 2012

3.2 Monthly Full-Time Training Related Salaries for Aboriginal Respondents, Based on Number of Respondents

In all divisions, except for Nursing, Science and Health and Technology, the average salary level for Aboriginal people employed in full-time training-related positions was lower than that reported for all SIAST respondents. The average monthly salary for Aboriginal people is highest in the Nursing Division (\$5,440) which is approximately 11% higher than that in 2011.

Figure 10: Monthly Salary of Full-Time Training-Related Employment for Aboriginal Graduates by Division, 2012

4.0 INDUSTRY SECTORS OF PRIMARY EMPLOYERS

Saskatchewan Labour has identified the industry sectors listed below as important for the province. Monthly labour force statistics for the province are reported in this manner. The industry sector question was added to the survey in 2004 to determine if SIAST graduates were employed in one or more of these industry sectors. The question included in the survey was:

Please select the option below that best describes which industry sector your primary employer operates in. (Question 22)

The majority of SIAST respondents (31%) reported they work for employers who operate in the health industry while construction (11%) and Natural Resources and Environment (8%) were the second and third highest employers for SIAST graduates. Employment in the health industry was by far a large margin compared to other sectors such as the film, video, multi-media, printing and publishing (1%) and biotechnology industry (1%).

Table 9 provides a breakdown by division of industry sectors under which SIAST graduates are employed. The graduates from programs in the Nursing and Science and Health Divisions are primarily employed in the health sector (86.7% and 83.3%, respectively), while the respondents from other programs may be employed in a variety of industry sectors. For instance, in Community Services, 29.9% of the respondents are employed in the educational services sector and 16.9% in Human/Social Services and Justice Sectors.

The graduates from the Business Division were primarily employed in the business and professional services sector (15.4%), 13.1% in government services and public administration and 11.5% in health while the remaining were distributed in other sectors.

Close to 30% of graduates from industrial training were employed in the construction sector while 24.8% each of graduates were employed in transportation, trucking and heavy equipment (includes aviation and automotive/auto body services) and Natural Resources and Environment sectors. Another 19% of graduates from the Industrial Training Division were employed in the Manufacturing (includes metal fabrication, agri-value and food processing) sector.

In the Technology Division respondents were clustered in the construction (31.4%), natural resources and environment (24.4%), and in the technology, electronics and telecommunications sectors (12.4%).

Table 9: Industry Sector of Primary Employer, by Division, 2012

INDUSTRY SECTORS BY DIVISION N = 1,816	SIASST OVERALL	BUSINESS	COMMUNITY SERVICES	INDUSTRIAL TRAINING	NURSING	SCIENCE AND HEALTH	TECHNOLOGY

5.0 LOCATION OF EMPLOYMENT, BASED ON NUMBER EMPLOYED

There is always considerable interest by government officials and the general public to know if post-secondary graduates remain in the province for employment following graduation.

5.1 Location of Primary Employment for SIAST Respondents

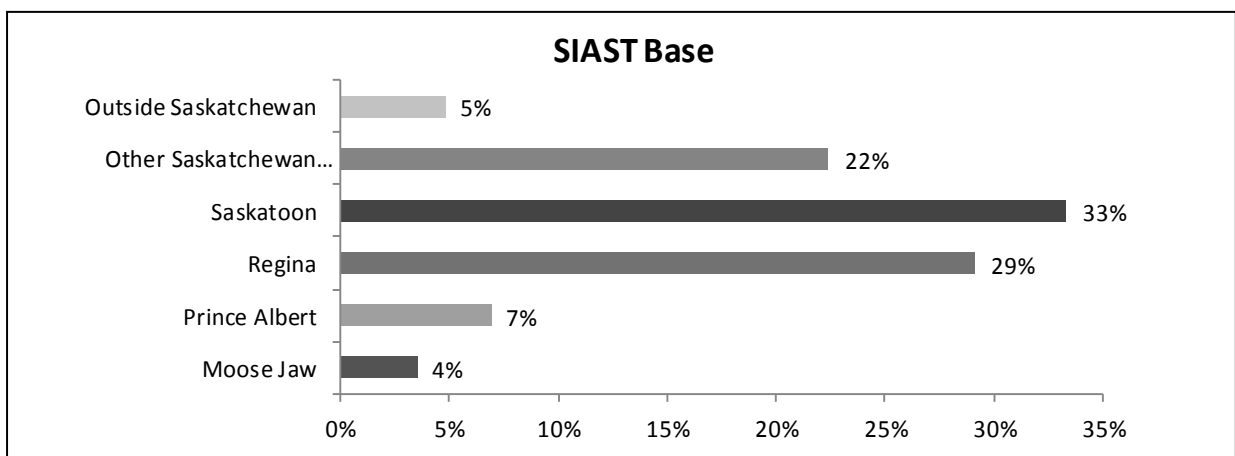

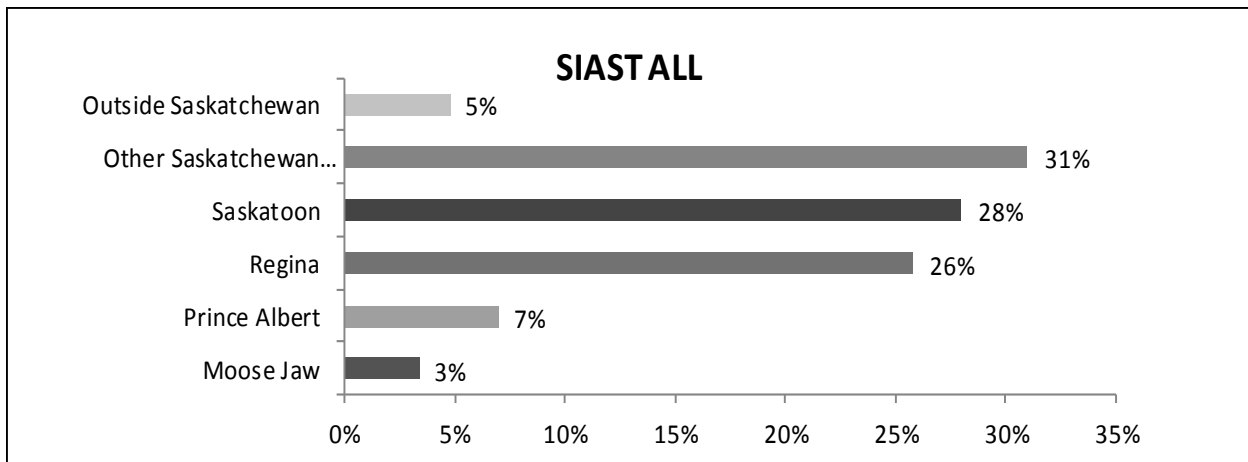

Where is the location of your primary employment? (Question 19)

Note: The results in Section 5.1 provide the location of employment percentages based on the location of the graduates' primary employment not their training-related employment. Location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

As shown in Figure 11, 95% of SIAST graduates were employed in Saskatchewan at the time of the survey, one percent up from 2011.

The out-migration of graduates in the base program decreased to 5% in 2012 from 7% reported in 2011, while the out-migration of graduates from continuing education programs increased to 5% in 2012 from 4% reported in 2011.

Figure 11: Location of Primary Employment, by Base/Continuing Education, 2012

□

SIAST Continuing Education

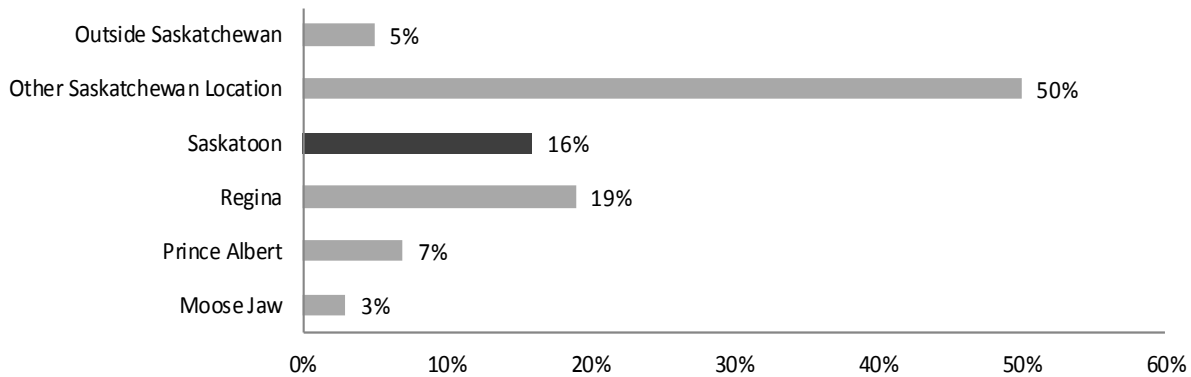

Table 10 provides a breakdown of SIAST graduates' location of primary employment, by division, by base and continuing education. The largest out-migration of graduates from base programs similar to the previous year was from the Science and Health (6.8%). Unlike previous years the Nursing (2.3%), Industrial Training (3.6%) and the community services divisions (2.9%) had the lowest levels of out-migration, with an overall out-migration of 4.8% for all base programs. This is a 2% decrease over 2011.

In the continuing education programs the graduates from the Technology Division (9.8%) followed by Industrial Training (9.3%) had the largest proportion of graduates leaving Saskatchewan. This is different from the previous years where Nursing graduates were the most likely to migrate out of the province. The overall out-migration of graduates from continuing education programs increased to 4.8% from 4.4% in 2011. However, overall out-migration of SIAST graduates in 2012 has decreased by 1.1% from 5.9% in 2011.

Table 10: Location of Primary Employment, by Division, by Base/Continuing Education, 2012

N: Overall = 1,818 Base = 1,255 CE = 563	REGINA	SASKATOON	PRINCE ALBERT	MOOSE JAW	OTHER SK LOCATION	OUTSIDE SK

OVERALL SIAST TOTAL	25.8%	28.0%	7.0%	3.4%	31.0%	4.8%

Slightly consistent with the findings of the past surveys, the majority of respondents remain in Saskatchewan for employment. In 2011 the location percentages were:

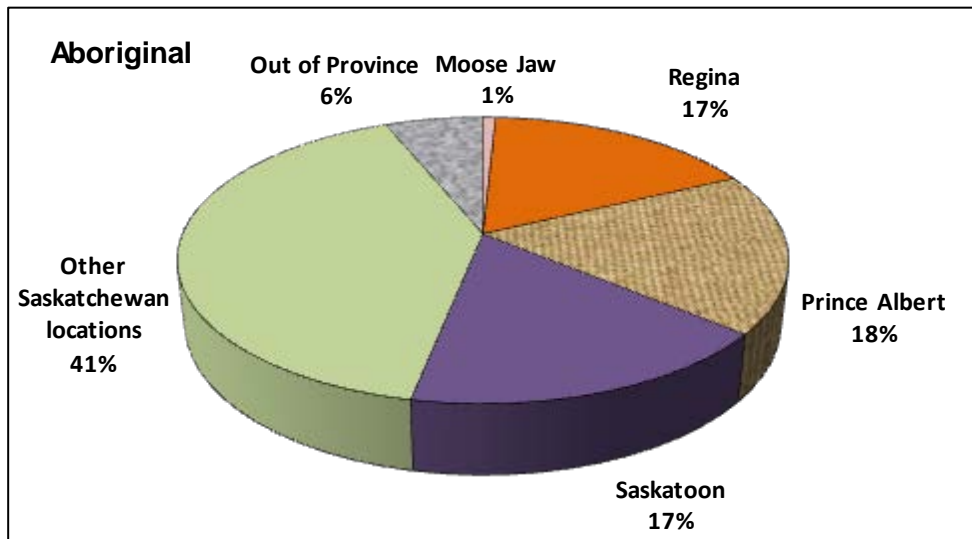

- Regina – 25.4%
- Prince Albert – 7.2%
- Other Saskatchewan location – 33.9%
- Saskatoon – 23.6%
- Moose Jaw – 3.9%
- Outside Saskatchewan - 5.9%

5.2 Location of Primary Employment for Equity Respondents

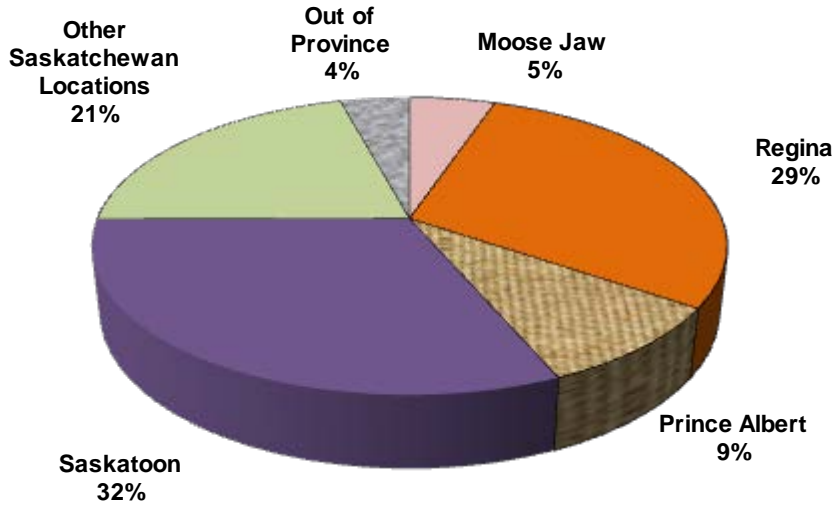

As shown in Figure 12, 95% of Aboriginal graduates remained in Saskatchewan for employment. Only 6% of Aboriginal graduates have moved out of province for employment, a 1% decrease over 2011. Slightly above four-tenths of Aboriginal graduates (41%) worked outside of the major four cities in Saskatchewan, 1% up from 2011. Of the four SIAST campus cities, the largest proportion of Aboriginal graduates were employed in Prince Albert (18%), followed by Regina and Saskatoon (each at 17%) About 1% of Aboriginal graduates found employment in Moose Jaw. Location of Aboriginal primary location of employment is similar to findings in the past two survey years.

Similar to 2011, only 3% and 4% respectively of visible minorities and persons living with disabilities moved out of province for employment. Of the four SIAST campus cities, the highest proportion of persons with disabilities found employment in Saskatoon (32%), closely followed by Regina (29%). Similarly 34% of visible minorities found employment in Regina, followed by Saskatoon (28%).

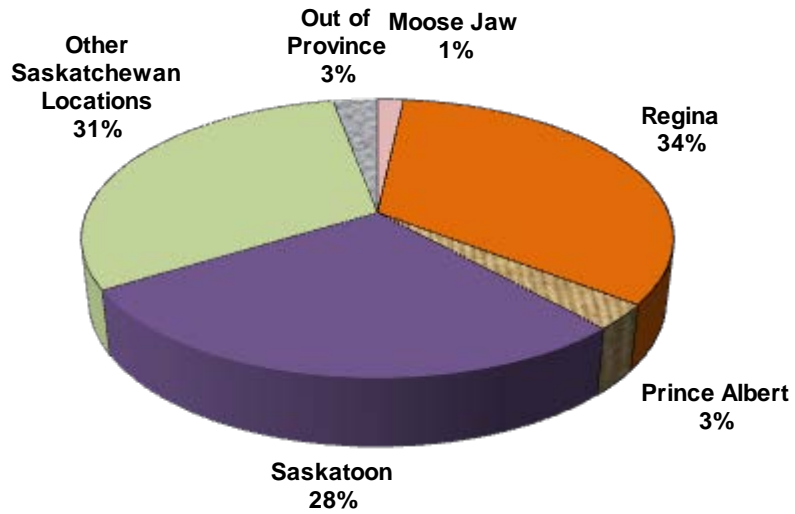

Figure 12: Location of Primary Employment for Aboriginal, Persons with Disabilities and Visible Minority Respondents, 2012

Persons with Disabilities

Visible Minorities

5.3 Out-of-Province Employment for SIAST Graduate Respondents

If primary employment was found outside of Saskatchewan, was this by choice? (Question 20)

As mentioned before, 5% (87 of 1,818) of respondents indicated their location of employment to be outside Saskatchewan. Of them, 77% (67 of 87) of the respondents who found employment opportunities out of Saskatchewan had indicated this was by choice (Table 11). Of those who found employment opportunities outside of Saskatchewan, all of the (100%) graduates from the Community Services Division in the base program indicated that was by their choice while the same is true for graduates from Business and Nursing Divisions in the continuing education programs.

Table 11: Primary Employment Out-of-Province by Choice, by Division, By Base/Continuing Education, 2012

OVERALL SIAST TOTAL	87	77%

“Please indicate the primary reason why you moved out-of-province for employment (Question 21)

Graduates were requested to identify the main reason they sought employment out-of-province. Overall, about two-fifths of respondents indicated personal reasons (37%) for obtaining out-of-province employment (Table 12). Approximately one third of all respondents indicated they moved out-of province for other reasons (26%), whilst one fifth moved out for better wages. Only 17% of graduates indicated moving out of province for more employment opportunities.

In the base programs, just over a third of graduates moved out-of-province for personal reasons (33%) and a third of graduates for other reasons (30%). The rest of the graduates sought employment opportunities out-of-province for better wages (20%) and 17% to seek more employment opportunities. Similar to graduates from base program, graduates from continuing education programs were more likely to have found employment out of the province for personal reasons (44%) followed by other reasons (19%).

Note: The location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

Table 12: Reason Primary Employment Out-of-Province, by Division, By Base/Continuing Education, 2012

6.0 APPLICATIONS AND INTERVIEWS FOR EMPLOYMENT

6.1 Applications

How many employment opportunities have you applied for since completing your training program? (Question 8)

The effort that graduates had invested into obtaining employment, after graduation, was indicated by the number of applications that each had submitted and the number of interviews that each attended. These numbers are expressed as means and medians, because medians, as the middle number, are not influenced by extreme responses.

As shown in Table 13, the average number of applications for employment that respondents in base programs submitted ranged from 4.8 to 14.5, depending on the division, with an overall average of 9.0. For graduates in continuing education programs, average jobs applied to range from 3.0 to 11.8 with an overall average of 7.0.

The overall median number of applications for both base and continuing education programs was 3.

6.2 Interviews

How many employment interviews have you had? (Question 10)

The mean number of interviews for respondents in base programs ranged from 1.5 to 3.2 with an average of 2.2 interviews. The median number of interviews for graduates in the base programs ranged from 1 to 2. Although the continuing education programs had the same overall mean as their base counterparts, they reported slightly lower numbers of interviews attended to by division. Their mean ranged from 1 to 2 with a median of 1.

7.0 NOT EMPLOYED

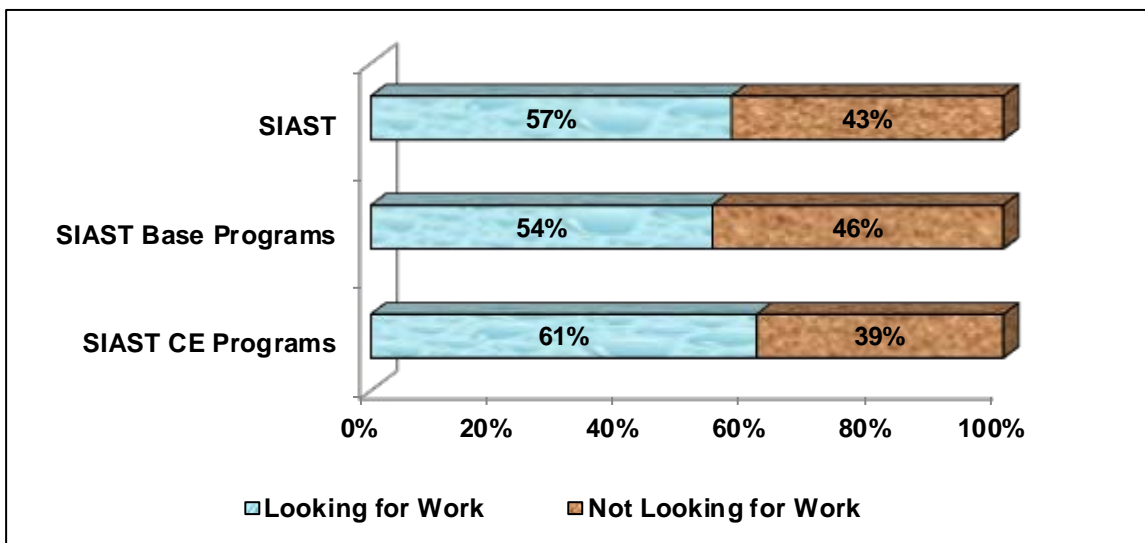

While it is important to determine the percentage of graduates who obtain employment after graduation, it is also equally important to know about those who were not employed at the time the survey was conducted. Respondents who had indicated that they were not presently employed were asked to complete a series of questions regarding their activity since graduation.

7.1 Actively Looking for Work

Are you actively looking for work at present? (Question 27)

Overall 57% of the respondents who were not employed at the time of the survey indicated that they were looking for work, up 4% from 2011 (Figure 13). A slightly higher percentage of respondents (61%) who were not employed from continuing education programs were more likely than their peers in base education programs to be looking for work (54%).

Figure 13: Graduates Not Employed but Looking for Work, by Base/Continuing Education, 2012

7.2 Employed Since Graduating from SIAST

Have you worked at all (full-time, part-time, or casual) since completing your training program? (Question 24)

If yes, was the most recent work directly related to the education and training you received in your program? (Question 25)

Are you scheduled to return to work in the future? (Question 26)

These three questions were directed towards those respondents who indicated they were not employed at the time of the survey.

Of the 258 respondents who were not working at the time they were surveyed, 71% (184 of 258) indicated that they had worked at some point since completing their training program.

Of the respondents not working at the time of the survey, but who had worked at some point since completing their training, 58% (106 of 184) indicated they had worked in training-related jobs. Table 14 provides a breakdown, by division and by base and continuing education programs, of respondents' work experiences since graduation.

Table 14: Graduates not Employed - Work Experience since Graduation, by Division, By Base/Continuing Education, 2012

³ Total number of respondents who were not employed in the CE programs = 111

7.3 Not Actively Looking for Work

Are you actively looking for work? (Question 27)

Of the 2,076 survey respondents, 5% (110 of 2,076) reported they were **not employed and were not looking for work**, primarily because they were either returning for further education or for personal reasons. Table 15 illustrates, by division, the percentages of graduates who were looking/not looking for work, out of those who were not employed.

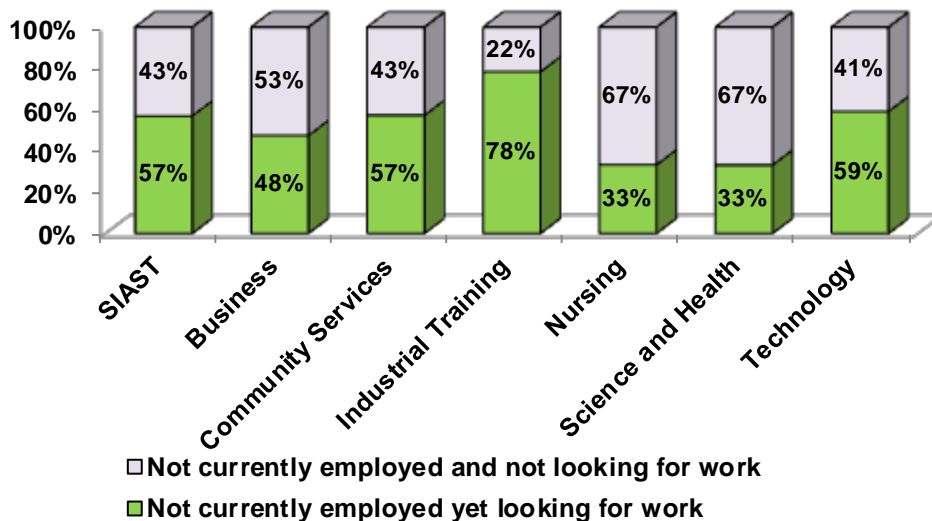

Section 7.4 of the report identified why some of the unemployed respondents were not actively looking for work. The Community Services Division had 75 unemployed graduates at the time of the survey, of them 43% were not looking for work. The graduates from the Nursing Division reported the least number of unemployed graduates (3) and 67% were not looking for work. Percent of unemployed graduates, by division, who were looking/not looking for work, is further illustrated in Figure 14.

The employed (1,818) and the unemployed respondents who stated that they were looking for work (148) represent the SIAST-wide respondent **available workforce (1,966)** (those respondents who are available to work).

Table 15: Number of Unemployed Graduates who were looking for Work by Division, 2012

7.4 Reasons not currently employed

Which of the following best describes the reason why you are currently not employed?
(Question 23)

The two most common reasons given by unemployed respondents for not being employed at survey time were *returned for further education* (42%) and *personal reasons* (23%). Table 16 provides a breakdown of the reasons respondents were not employed at the time of the survey by division and by base and continuing education programs.

8.0 FURTHER EDUCATION OR TRAINING

The survey formally asked all respondents if, at the time of the survey (whether employed or not), they were enrolled in further education or training.

8.1 Respondents in Further Education or Training

Are you currently enrolled in an education or training program? (Question 29)

As shown in table 17, whether employed or not, 20% of all SIAST respondents reported they were continuing their education at the time of the survey, consistent with 2011 response. The largest percentages of respondents enrolled in further education came from the Business Division (33%) base programs and the Technology Division (32%) continuing education programs followed by continuing education programs in the Business Division (27%).

Table 17: Graduates Currently Enrolled in Further Education or Training, by Division, by Base/Continuing Education, 2012

8.2 Type of Further Education or Training

Which type of training is it? (Question 30)

As shown in Figure 15, 48% of respondents (197 of 411) who were taking further education or training at the time of the survey were enrolled in programs at SIAST, either the same SIAST program or a different SIAST program altogether, which is 5% higher than that reported in 2011. Eighteen percent of respondents continuing their education were enrolled in a university program while 13% of respondents were enrolled in an apprenticeship program. Only 8% of respondents were enrolled in a post-secondary program at another institute. Table 18 provides a breakdown of the type of training the respondents were enrolled in after graduation from SIAST by division and by base and continuing education programs.

Figure 15: Type of Further Training - SIAST Overall, 2012

9.0 PROGRAM COMPLETION

Which of the following best describes your reason for completing this program? (Question 4)

Overall, the majority of respondents (58%) indicated the reason for completing training was to obtain *employment in a specific field*, while some respondents indicated *need to change careers* (12%) as to completing this program. Table 19 below indicates the further break down, by division, for reasons for completing SIAST programs.

Table 19: Reason for Completing SIAST Program, by Division, by Base/Continuing Education, 2012

10.0 PROGRAM ASSESSMENT

Respondents were asked to assess the overall quality of the program(s) they studied at SIAST and the ability of the training to prepare them for employment.

10.1 Quality of Program

Please rate the overall quality of the training you received in your program. (Question 5)

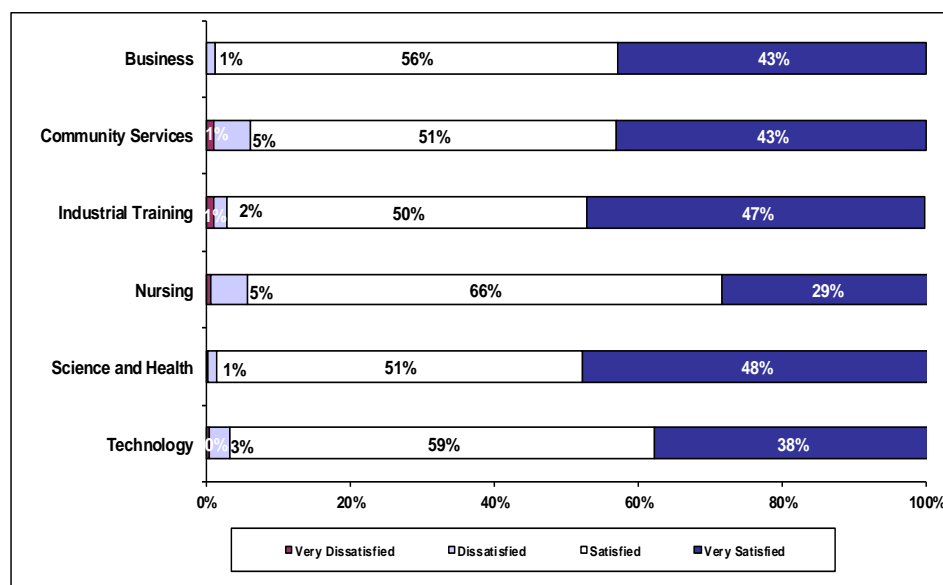

In 2012, the rating scale was refined from a five point (very poor to excellent) to a four point scale (very dissatisfied to very satisfied), therefore no comparison can be made with previous years. In 2012 respondents felt that SIAST provides high-quality training. Ninety-seven percent of all SIAST respondents rated the quality of their training they received as satisfied to very satisfied (Table 20).

Table 20: Overall Quality of Training, by Base/Continuing Education, 2012

	Total Respondents	Very Satisfied	Satisfied	Dissatisfied	Very dissatisfied
Total SIAST Base Programs	1,402	39.6%	57.4%	2.6%	0.4%
Total SIAST CE Programs	674	48.8%	48.4%	2.2%	0.6%
OVERALL SIAST TOTAL	2,076	42.6%	54.5%	2.5%	0.5%

Figure 16 provides a further breakdown of quality of training indicated by respondents by division. Programs from the Science and Health and Industrial Training Divisions received the most favourable ratings from respondents.

Figure 16: Overall Quality of Training, by Division, 2012

10.2 Training Preparedness for Employment

Please rate how well the training program prepared you for employment in your field of study. (Question 6)

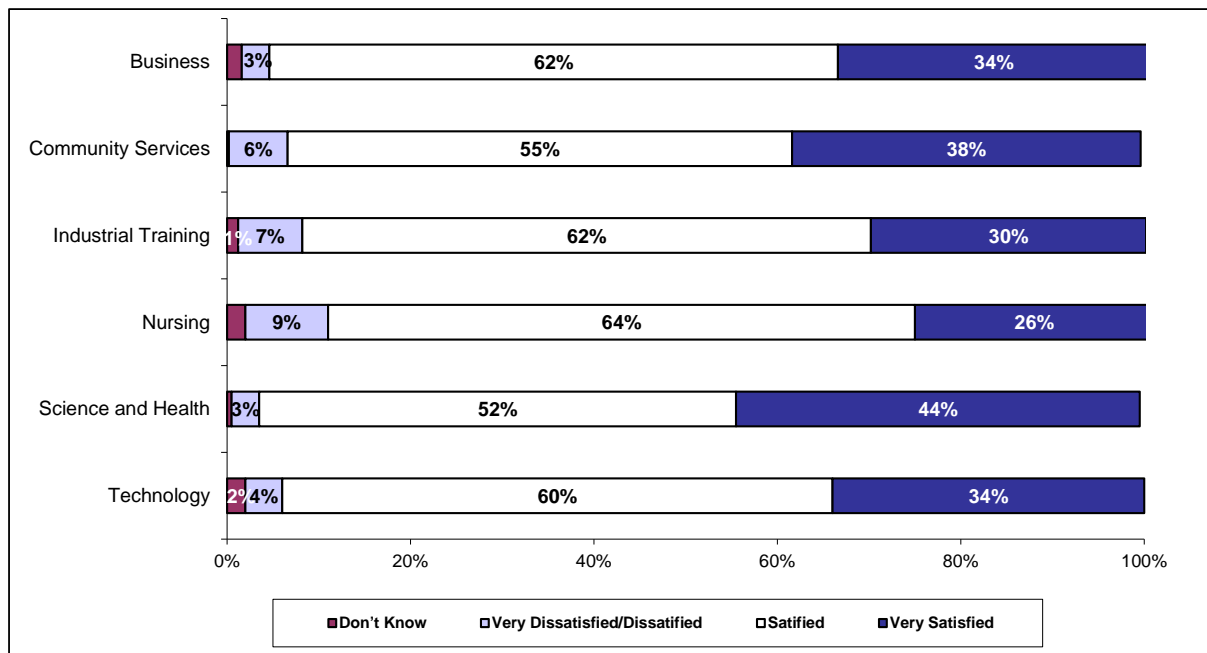

In 2012, the rating scale was refined from a five point (very poor to excellent) to a four point scale (very dissatisfied to very satisfied), therefore no comparison can be made with previous years. Overall, 94% of respondents indicated that the ability of their training to prepare them for employment in their field of study as satisfied to very satisfied (Table 21).

Table 21: Training Prepared for Employment in Field of Study, by Base/Continuing Education, 2012

	Total Respondents	Very Satisfied	Satisfied	Dissatisfied	Very dissatisfied	DK/Refused
Total SIAST Base Programs	1,402	33.4%	61.3%	4.4%	0.4%	0.6%
Total SIAST CE Programs	674	39.6%	52.7%	4.9%	0.9%	1.9%
OVERALL SIAST TOTAL	2,076	35.4%	58.5%	4.5%	0.5%	1.1%

Figure 17 provides a breakdown of employment preparation by division. The majority of respondents in all divisions rated the training they received to prepare them for employment between satisfied to very satisfied.

Figure 17: Training Prepared for Employment in Field of Study, by Division, 2012

11.0 DEMOGRAPHICS

SIAST has a mandate to increase its equity participation both in staffing and students and to participate in the development of a workforce that is representative of the province's demographics.

11.1 Gender of all Respondents

Identify your gender. (Question 30)

SIAST-wide there continues to be more female respondents than male and the composition changes depending on the base and continuing education programs. Among respondents of base programs, the split was 45%/55% male/female, while among respondents of continuing education programs the ratio was 34%/66%, male/female (Table 22 and Figure 18). Overall, 42% of SIAST respondents were male and 58% female (Figure 19). The overall gender breakdown is consistent with 2011 survey findings. Gender, as with other equity factors, is a self-declaration.

Table 22: Gender, by Division, by Base/Continuing Education, 2012

	TOTAL RESPONDENTS	MALE	FEMALE
SIAST Base Programs by Division			
Business	225	23%	77%
Community Services	254	20%	80%
Industrial Training	207	92%	8%
Nursing	133	14%	86%
Science and Health	278	26%	74%
Technology	303	81%	19%
Total SIAST Base Programs	1,400	45%	55%
SIAST Continuing Education Programs by Division			
Business	139	12%	88%
Community Services	152	18%	82%
Industrial Training	122	89%	11%
Nursing	43	5%	95%
Science and Health	157	12%	88%
Technology	60	97%	3%
Total SIAST CE Programs	673	34%	66%
OVERALL SIAST TOTAL	2,073	42%	58%

Figure 18: Gender by Base/Continuing Education, 2012

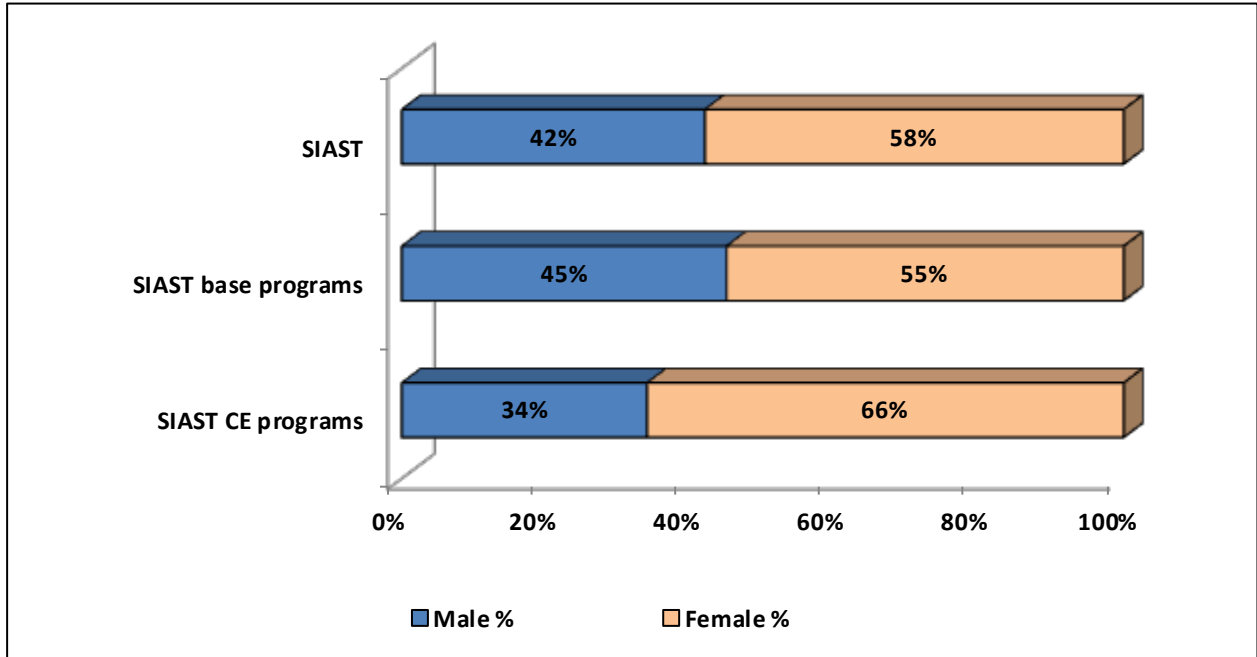

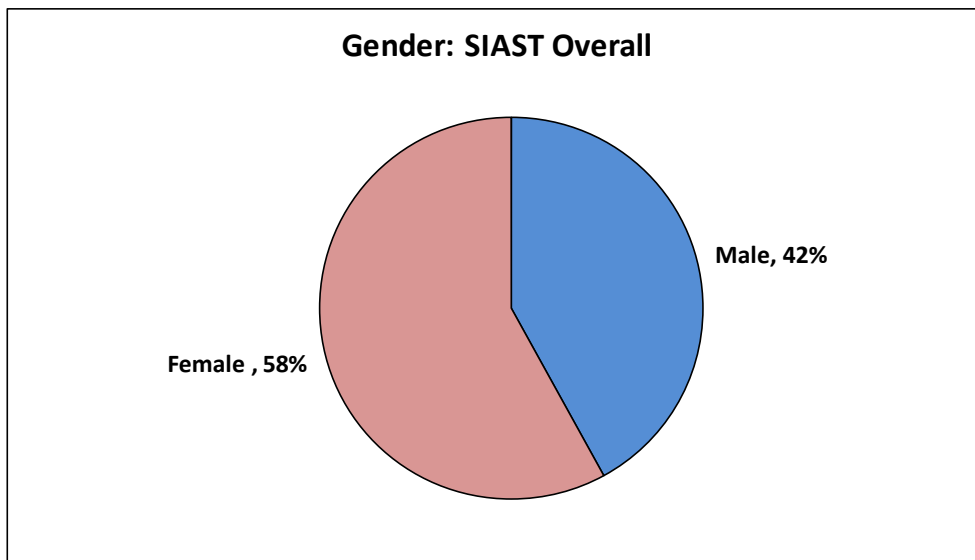

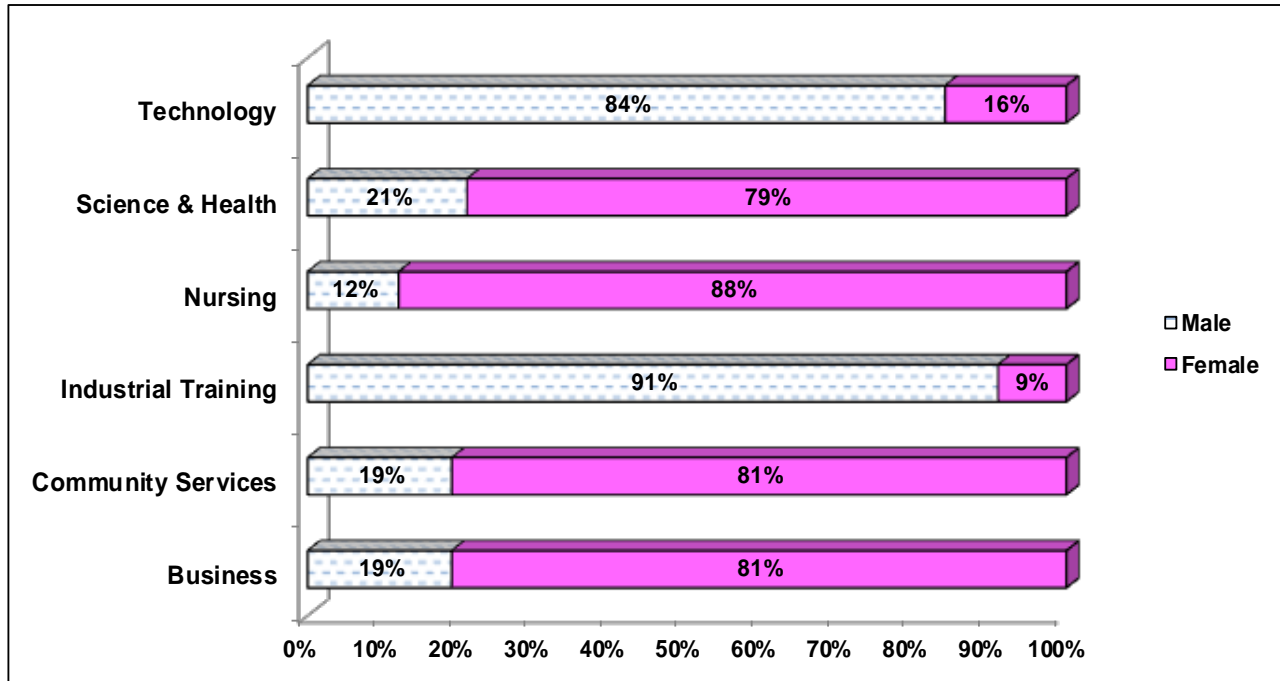

Figure 19: Gender Overall, 2012

Respondents in the Industrial Training and Technology Divisions had the largest percentage of males (91% and 84%, respectively) whereas the Nursing Division had the largest percentage of females (88%). The program mix in these three divisions was most likely a factor in the gender differences. For example, programs in the Industrial Training Division are traditionally male dominated, whereas the Nursing Division is traditionally dominated by females. About four-fifths of respondents in other divisions (Community Services & Business – each 81% and Science and Health -79%) were also dominated by females.

Figure 20: Gender by Division 2012

11.2 Ages of all Respondents

How old were you on June 30, 2008? (Question 32)

As shown in Table 23, the average age of SIAST graduates was 28 years while the median age was 23 years. Respondents of continuing education programs were relatively older (with the mean and the median age at 32 and 28 years of age, respectively) than the base program respondents, whose mean and median ages were 26 and 22, respectively.

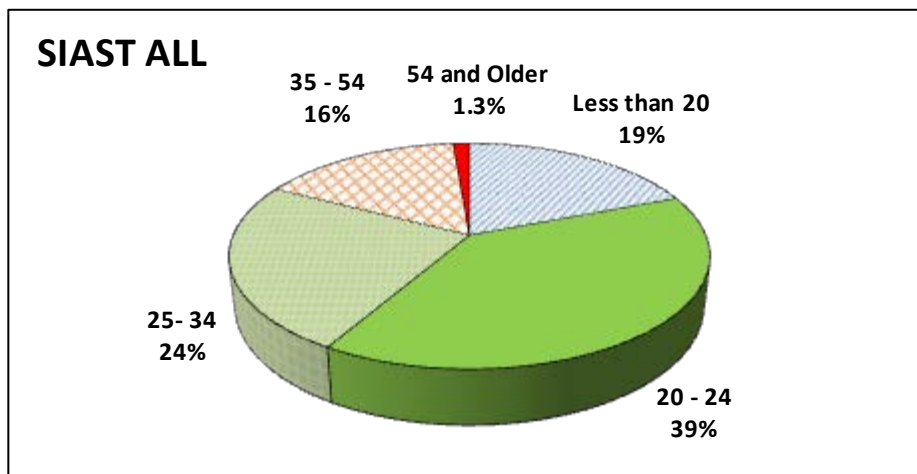

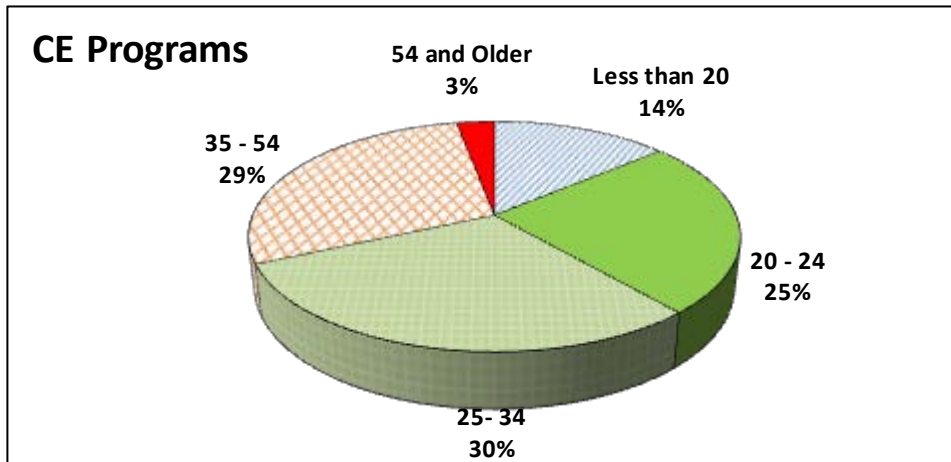

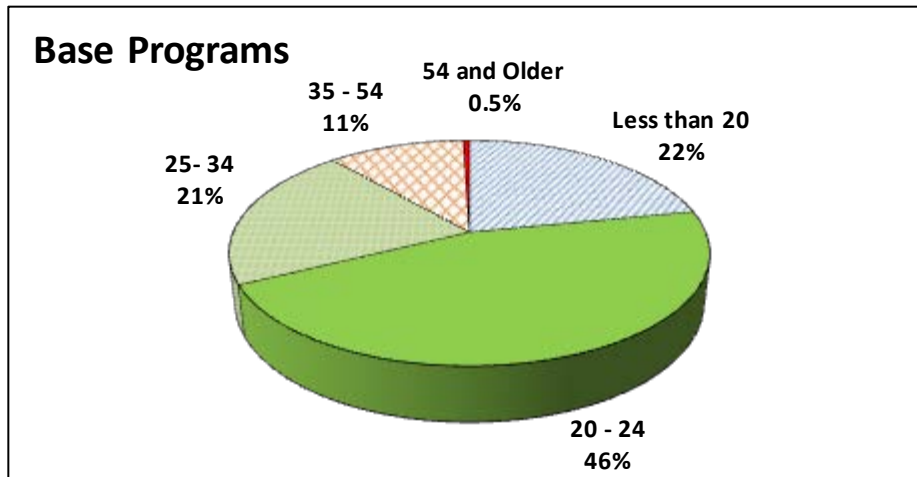

There was little diversity in the mean age of respondents in base programs except for respondents in the Nursing Division’s programs whose average age was substantially higher at 34 years. This is consistent with the results in 2010 and 2011. Many participants of these programs have been out working in the field prior to returning to SIAST for additional training.

In SIAST continuing education programs, respondents in all divisions, with the exception of the Technology Division (27 years), had a mean age over 30 years. Figure 21 further illustrates the distribution, by division, of respondents by age.

Table 23: Age at June 30, 2012, by Division, by Base/Continuing Education, 2012

11.3 Aboriginal Ancestry

Are you of Aboriginal ancestry? (Question 33)

The definition of Aboriginal refers to those persons who are First Nations (Registered, Treaty or Status Indians), Non-status Indians, Métis and Inuit. Equity status is a self-declaration. Of the graduates who responded to the survey, 16% (336 of 2,076) indicated they were of Aboriginal ancestry, a 1% increase from 2011.

Among the divisions the Community Services Division had the highest percentage of respondents (26%) declaring Aboriginal ancestry, followed by the Industrial Training Divisions (24%). Figure 22 illustrate the percentage of Aboriginal and non-Aboriginal respondents in each division.

Figure 22: Aboriginal Ancestry Identification, by Division, 2012

Aboriginal Category

*Do you consider yourself Status/Treaty Indian, Métis, Non-Status Indian or Inuit?
(Question 34)*

Out of the 336 students who self-declared as of Aboriginal ancestry, only 332 indicated their ancestry type. Forty-eight percent of those who responded to this question on ancestry type indicated they were Status/Treaty Indian, 45% as Métis, while the Non-Status group made up 6%. Table 24 provides a breakdown of the Aboriginal status of SIAST graduates by division for both base and continuing education programs.

11.4 Visible Minority Declaration

Do you consider yourself a member of a visible minority? (Question 35)

Respondents were given the opportunity to identify if they were members of a visible minority. The definition of visible minority includes those who are visibly distinguishable from the majority of Canadians on the basis of race or ethnic origin. It does not include those declaring Aboriginal ancestry. As shown in Table 25 visible minority represents 9% of total respondents, a 2% decrease over 2010.

Table 25: Visible Minority Identification, by Division, by Base/Continuing Education, 2012

	TOTAL RESPONDENTS	TOTAL V.M RESPONDENTS	% VISIBLE MINORITY IDENTIFICATION

11.5 Persons with Disabilities Declaration

Do you consider yourself a person with a disability? (Question 35)

Respondents were given the opportunity to indicate if they were a person with a disability. The definition of a person with a disability includes any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

In this survey, 6% of respondents indicated that they had a disability, which is 1% above 2010 and 2011 results. Higher percentage of disabled respondents was found in base programs in the Community Services Division and continuing education programs in the Industrial Training Division.

Table 26: Persons with Disabilities Identification, by Division, By Base/Continuing Education, 2012

APPENDICES

APPENDIX A: PROGRAM CHANGES

Revisions to the following programs were recently approved. Some revisions were effective immediately and other revisions not effective until the 2011-12 academic year.

DIVISION/PROGRAM NAME	CHANGE
Community Services Division	
Victims Services Coordinator Applied Certificate	Program implemented effective July 2011
Indigenous Peacekeeping Applied Certificate	Implementation proposal effective July 2012
Retail Customer Service Applied Certificate	Implementation proposal effective April 2012
Industrial Training Division	
Advanced Heavy Equipment Operator (Mining) Applied Certificate	Program deleted as of March 2012
Outdoor Power Equipment Technician – Motorcycle and Snowmobile	Program name changed to Power Sports Equipment Technician effective July 2011
Fabrication – Welder Certificate	Program Implementation proposal effective July 2012
Advanced Heavy Equipment Operator – Mining	Program deleted effective March 2012
Nursing Division	
Psychiatric Nursing Re-entry Applied Certificate	Program suspended effective July 2012
Science and Health Division	
Biotechnology Diploma	Program Title change to Bioscience Technology effective July 2012
Technology Division	
Mining Engineering technology Diploma	Program implementation proposal effective July 2012
Electronics Engineering technology Diploma	Program Deleted effective July 2012
Forest Ecosystem Technology	Program suspension of the first year intake, effective July 2012.
Geomatic Technology	Program suspended in 2010-11; reinstated in 2011-12 with name change to Geomatics Engineering Technology

APPENDIX B: 2012 GRADUATE EMPLOYMENT SURVEY

SIAS

SASKATCHEWAN INSTITUTE OF
APPLIED SCIENCE AND TECHNOLOGY

2012 Graduate Employment Survey

General Information

- Q1** What is the full name of the program from which you graduated? _____
- Q2** What is the name of the credential that you received? **(SELECT ONLY ONE)**
____ Applied Certificate ____ Certificate ____ Advanced Certificate ____ Diploma
- Q3** At which SIAST campus or other location did you take your program?
____ Kelsey ____ Palliser
____ Wascana ____ Woodland
____ Regional College or Other Provider (including online), **specify** _____
- Q4** Which of the following **best** describes your reason for completing this program? **(SELECT ONLY ONE)**
____ Employment in this field interested me ____ To change careers
____ To upgrade or formalize training in field ____ Employer requirement
____ To gain entry into higher level of post-secondary training ____ Personal reasons
____ Sponsored to take training (i.e., disability/workers compensation, unemployment, etc.)
- Q5** How satisfied were you with the overall quality of training you received in your program.
____ Very Satisfied ____ Satisfied ____ Dissatisfied ____ Very Dissatisfied
- Q5b.** If you feel the overall quality of training you received in your program was not satisfactory, provide a brief comment on what SIAST might do to improve the training.

- Q6** Based on the training you received, how satisfied were you with your preparation for employment in your field of study.
____ Very Satisfied ____ Satisfied ____ Dissatisfied ____ Very Dissatisfied
- Q6b.** If you feel the training you received did not prepare you for employment in your field of study, provide a brief comment on what SIAST might do to improve the training.

- Q7** Were you already employed in your field of study prior to enrolling at SIAST?
____ Yes ____ No
- Q8** How many employment opportunities have you applied for since completing your training program? _____
- Q9** If none, why have you not applied for any employment opportunities?
____ Already employed in field of training while enrolled in program
____ Offered employment during practicum
____ Personal reasons
____ Other, please specify _____
- Q10** How many employment interviews have you had? _____
- Q11** Are you presently employed?
____ Yes **(CONTINUE TO Q12)** ____ No **(GO TO Q23)**

Employment Information – If you are presently employed, complete Q12-22. If not, go to Q23

- Q12** Are you self-employed? Yes No
- Q13** Are you employed in a job directly related to the education and training you received in your program at SIAST?
 Yes No
- Q14** How many jobs do you currently have? (Enter 0 if you are not employed in a particular category)
 # of Training Related Jobs # of Non-training Related Jobs

INSTRUCTIONS FOR QUESTIONS 15 to 22: ALL GRADUATES WHO ARE CURRENTLY EMPLOYED RESPOND TO Q15 TO Q22.

- For those respondents who are employed in more than one training related job, provide your answers based on the one you consider to be your 'primary job'.
- For those respondents who are not employed in a training related job, provide your answer based on the non-training related job you consider to be your 'primary' job.

- Q15** What is the title of your primary training related job? (If you do not have a training related job, provide the title of your primary non-training related job)
 Title of primary training related job
 Title of primary non-training related (Do not have a training related job)
- Q16** What is your employment status in your primary training related job? (If you do not have a training related job, provide the employment status of your primary non-training related job)
 Permanent Full-time (30 hours or more per week) Non-permanent full-time
 Permanent Part-time (less than 30 hours per week) Non-permanent part-time
 Casual
- Q17** If your primary job is a part-time or casual position, is this by choice?
 Yes No Not Applicable
- Q18** What is the hourly salary of your primary training related job, before deductions? (If you do not have a training related job, provide your salary for your primary non-training related job)
\$ /hour If your hourly rate is unknown, provide an average monthly salary \$ /month
- Q19** Where is the location of your primary training related employment? (If you do not have a training related job, provide the location of employment for your primary non-training related job)
 Moose Jaw Prince Albert Regina Saskatoon
 Other Saskatchewan location, please specify nearest community
 Outside Saskatchewan, please specify province, or country
- Q20** If employment was found outside of Saskatchewan, was this by choice?
 Yes No Not applicable (**GO TO Q22**)
- Q21** Indicate the **main** reason why you moved out-of-province for employment (**SELECT ONLY ONE**)
 More employment opportunities Better wages and benefits
 Personal Reasons Other, specify
- Q22** Select the option below that **best** describes which industry sector the employer for your primary training related employment operates in. (If you do not have a training related job, provide the industry sector the employer for your primary non-training related position operates in) (**SELECT ONLY ONE**)
- | | |
|--|--|
| <input type="checkbox"/> Biotechnology, Pharmaceuticals or Nutraceuticals | <input type="checkbox"/> Health |

| <input type="checkbox"/> Transportation, Trucking, and Heavy Equipment (includes aviation and automotive/autobody service) | |
| <input type="checkbox"/> Other, specify <input type="text"/> | (CONTINUE TO Q29) |

Graduates Not Employed – If you are NOT currently employed, complete Q23-28.

- Q23** Which of the following **best** describes the reason why you are currently not employed? **(SELECT ONLY ONE)**
 Returned for further education Lack of experience
 Quit employment or lost desire to work in field Laid off by employer (includes term or seasonal work)
 No employment opportunities Personal reasons
- Q24** Have you worked at all since completing your training program (includes part-time or casual positions)?
 Yes No **(GO TO Q26)**
- Q25** If yes, was the most recent work directly related to the education and training you received in your program?
 Yes No
- Q26** Are you scheduled to return to work in the future?
 Yes No
- Q27** Are you actively looking for work at present?
 Yes **(GO TO Q29)** No
- Q28** If no, which of the following best describes your reason for not looking for work?
 Returned for further education Given up looking - no employment opportunities
 Personal reasons (i.e., not available to work due to family, health etc.) **(CONTINUE TO Q29)**

Further Education – ALL graduates to complete Q29 and Q30, whether presently employed or not

- Q29** Are you currently enrolled in an education or training program?
 Yes No **(GO TO Q31)**
- Q30** Which type of training is it? **(SELECT ONLY ONE)**
 The same SIAST program (different credential) A post-secondary program at another institute (not university)
 A different SIAST program An apprenticeship program
 A university program Other program, specify _____
- Q31** Identify your gender
 Male Female
- Q32** How old were you on June 30th, 2012? _____
- Q33** Are you of Aboriginal ancestry?
 Yes No **(GO TO Q35)**
- Q34** If YES, do you consider yourself?
 Status/Treaty Indian Metis Non-Status Indian Inuit
- Q35** Do you consider yourself a member of a visible minority? Yes No
The definition of a visible minority is: A group of persons, with the exception of Aboriginal people, who are visibly distinguishable from the majority of Canadians on the basis of race, religion, and skin colour, national or ethnic origin.
- Q36** Do you consider yourself a person with a disability? Yes No
The definition of a person with a disability is: any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

Please add any additional comments that you wish to make:

APPENDIX C: 2012 SIAST GRADUATE EMPLOYMENT SURVEY

– TOTAL RESPONSES PER QUESTION

The total number of graduates responding to each question varied because:

- a) Respondents did not always provide answers to all questions and/or
- b) Some questions were not relevant to all respondents.

Due to their nature, some questions do not report the number of respondents (e.g., Q1.).

Number of Graduates Surveyed:	3,339
Number of Respondents:	2,076
Q1. What is the name of the program from which you graduated?	
	# Of Respondents to Question
Q2. What is the name of the credential that you received?	
Applied Certificate	311
Certificate	1,098
Advanced Certificate	78
Diploma	<u>589</u>
	2,076
Q3. At which SIAST campus or regional college did you take your program?	
Kelsey	746
Palliser	436
Wascana	549
Woodland	345
	2,076
Q4. Which of the following best describes your reason for completing this program? (Select only one)	
Employment in this field interested me	1,194
To upgrade or formalize training in field	182
To change careers	241
To gain entry into higher level of post-secondary training	131
Employment requirement	78
Sponsored to take training (i.e., disability/workers compensation, unemployment etc.)	40
Personal reasons	<u>207</u>
	2,076
Q5. Please rate the overall quality of training you received in your program	
Very Satisfied	884
Satisfied	1,131
Dissatisfied	51
Very Dissatisfied	<u>10</u>
	2,076
Q6. Please rate how well the training prepared you for employment in your field	
Very Satisfied	735
Satisfied	1,214
Dissatisfied	94
Very Dissatisfied	11
	2,076
Q7. Were you already employed in your field of study prior to enrolling at SIAST?	
Yes	474
No	<u>1,602</u>
	2,076

Q8.	How many employment opportunities have you applied for since completing your training program?	
	Have not applied for any jobs since completing training	399
	Have applied for jobs since completing training	<u>1,677</u>
		2,076
Q9.	If none, why have you not applied for any employment opportunities?	
	Already employed in field of study	170
	Offered employment during practicum	48
	Personal reasons	66
	Other, specify	<u>115</u>
		399
Q10	How many employment interviews have you had?	4,140
Q11.	Are you presently employed?	
	Yes	1,818
	No	<u>258</u>
		2,076

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE PRESENTLY EMPLOYED

Q12.	Are you self-employed?	
	Yes	59
	No	<u>1,759</u>
		1,818
Q13.	Are you employed in a job directly related to the education and training you received in your program at SIAST?	
	Yes	1,532
	No	<u>286</u>
		1,818
Q.14	How many jobs do you currently have?	
	Maximum	5
	Mean	1.18
	Median	1.00
Q15.	What is the title of <u>primary</u> (main) job?	
Q16.	What is your employment status of your <u>primary</u> job? (Select only one)	
	Permanent Fulltime (30 hours or more per week)	1,225
	Permanent Part-time (less than 30 hours per week)	220
	Non-permanent full-time (i.e. term contract, seasonal)	169
	Non-permanent part-time (i.e. term contract, seasonal)	53
	Casual	<u>151</u>
		1,818

Q17.	If your <u>primary</u> job is a part-time or casual position, is this by choice?	
	Yes	275
	No	<u>141</u>
		424
Q18.	What is your average monthly salary of your <u>primary</u> job, before deductions? (Salary analyzed for Full-Time Training-Related Employment only)	
	Maximum	\$11,250
	Mean	\$3,390
	Median	\$3,000
	Minimum	\$1,500
Q19.	Where is the location of your <u>primary</u> employment? (Select only one)	
	Moose Jaw	62
	Prince Albert	128
	Regina	469
	Saskatoon	509
	Other Saskatchewan location	563
	Outside Saskatchewan	<u>87</u>
		1,818
Q20.	If <u>primary</u> employment was found outside of Saskatchewan, was this by choice?	
	Yes	67
	No	<u>20</u>
		87
Q21.	Please indicate the primary reason why you moved out-of-province for employment. (Select only one)	
	More employment opportunities	15
	Better wages and benefits	17
	Personal reasons	32
	Other reasons	<u>23</u>
		87
Q22.	Please select the option that best describes which industry sector your primary employer operates in. (Select only one)	
	Biotechnology, Pharmaceuticals or Nutraceuticals	16
	Business and Professional Services	87
	Construction	201
	Education Services	125
	Film, Video, Multi-media, Printing and Publishing	13
