
SIAST Graduate Employment Report: 2012-13 Graduates

August 2014

Acknowledgements

The Institutional Research and Analysis unit at SIAST would like to thank those graduates who responded to the SIAST Graduate Employment Survey.

Reproduction of this report or parts thereof is permitted and encouraged, provided appropriate acknowledgments are given.

Availability

The report is available in electronic format and can be found on the Saskatchewan Polytechnic web page at: <http://saskpolytech.ca/about/about-us/reports-and-statistics/institutional-reports.aspx>

The on-line version of the report is in Adobe Acrobat pdf format and will require the Adobe Acrobat Reader software
(Available free for download from the Adobe web page).

EXECUTIVE SUMMARY

SIAST annually surveys graduates from its certificate and diploma programs, six to twelve months following graduation. Graduates are asked questions regarding the quality of training, their employment outcome and further education. The major findings of the SIAST Graduate Employment Survey (GES) of 2012-13 graduates are listed below. Where possible, for comparison, the 2011-12 figures are included in brackets. Program-specific breakdowns of the results are located in the program pages at the end of the report.

Graduate/Respondent Profile:

- 3,498 (3,339) graduates that received credentials from 156 distinct programs in the time period July 2012 - June 2013 were surveyed.
- Of the 3,498 surveyed graduates, 2,144 (2,076) responded for an overall response rate of 61% (62%).
- 60% (63%) of the graduates were from base programs (2,113 of 3,498 in 2012-13) and 40% (37%) from continuing education programs (1,385 of 3,498). The proportion of respondents in both base and continuing education programs is similar to the actual graduate ratio (65% or 1,388 of 2,144 – base and 35% or 756 of 2,144 respondents).
- 61% (58%) of respondents were female and 39% (42%) were male, which approximates the actual gender ratio of graduates.
- 17% (16%) of respondents identified themselves as being of Aboriginal origin which matches the actual proportion of Aboriginal graduates in 2012-13. The Aboriginal respondents identified themselves as 44% (48%) Status/Treaty Indian, 50% (45%) as Métis, 6% (6%) as Non-Status Indian and 0.3% (0%) as Inuit.
- 6% (6%) of respondents indicated that they were persons with disabilities, one percent higher than the proportion of disabled graduates declared in the 2012-13 census.
- 12% (9%) of respondents identified themselves as a visible minority, which is notably higher than the proportion of graduates who self-declared their equity status while attending SIAST (3% of the 2012-13 graduates).
- 18% (20%) of all respondents indicated they were enrolled in further education at the time of the survey. Of this figure, 48% (48%) were enrolled in a SIAST program, 20% (18%) in university, 12% (14%) in apprenticeship, with the remaining enrolled in other types of training.

Quality of Training:

- 95% (97%) of all respondents rated the overall program quality at SIAST as satisfied to very satisfied.
- 92% (94%) of all employed respondents rated the ability of the program to prepare them for employment in their field of study as satisfied to very satisfied.

Key Findings based on the 'Available Workforce' (those employed and those not employed but looking for work):

- Labour market attachment was down 2% from last year, with 93% of respondents either employed or not employed but actively looking for work. 1,992 of 2012-13 graduate respondents were participating in the labour force at the time of the survey (95% or 1,966); 1,880 were employed (1,818) and 112 were not employed but looking for work (148).
- 94% (92%) of respondents who were available to work were employed (employment rate). This is the highest recorded rate in more than a decade, shared only with the graduating class of 2006-07. Historically, the employment rate has alternated between 91% and 92%.
- 71% (71%) of respondents available to work were employed in full-time occupations.
- 80% (78%) of respondents available to work were in training-related occupations.
- 59% (61%) of the respondents available for work were employed in full-time training-related occupations.
- Aboriginal graduates experienced an upward employment spike of 8%, returning the Aboriginal employment rate to 90%, a level only previously reported by the graduating class of 2010-11.
- Training-related employment for Aboriginal graduates also peaked, with 75% of Aboriginal graduates in training related positions (up from 66% the previous year).
- Full-time employment for Aboriginal graduates increased to 64% (62%).

Other Key Findings:

- The average salary for respondents in full-time training-related employment was \$3,504 (\$3,490) per month, a 0.4% increase over 2012.
- Of those respondents who were employed, 25% (23%) were working part-time or casually and of these, 59% (65%) reported that the part-time work was by choice. 4% (3%) of employed respondents indicated they were self-employed.
- 96% (95%) of respondents employed in training-related positions were working in Saskatchewan. Of this figure, 51% (54%) were working either in Regina or Saskatoon. The number of respondents working in 'Other Saskatchewan Locations', outside the four campus cities, increased by 2% to 33% (31%) in training-related positions.
- Of the 78 graduates who were employed outside of the province, 89% left by choice, which is a 12% increase from 2011-12 graduates.
- Of the 264 respondents who reported they were not working at the time of the survey, 67% (71%) indicated they had worked at some time since graduation and 61% (58%) of these respondents had been employed in work directly related to their training.
- 51% (57%) of graduates not employed at the time of the survey reported they were scheduled to return to work in the future.
- For those graduates who were not employed at time of the survey, less than half (42%) were actively looking for work.
- 42% (42%) of respondents, who were not employed, indicated they were not looking for work, primarily because they were enrolled in further education.

INTRODUCTION

1.0 INTRODUCTION

The SIAST Graduate Employment Report is produced from data collected from the SIAST Graduate Employment Survey (GES). The survey collects data from a variety of questions relating to the employment status, evaluation of training and general demographic characteristics of SIAST's graduates.

One of SIAST's strategic goals is to maximize student success. Graduate feedback from the survey provides valuable information about the quality of training and the success of SIAST graduates in the labour market. A wide range of stakeholders, from SIAST management, government, high school students and career counsellors, labour analysts and policy administrators, use the Graduate Employment Report as a reference document for program and labour market review and planning. The Institutional Research and Analysis (IR&A) unit at SIAST undertook the survey on behalf of the institution.

1.1 Scope

The 2013 SIAST GES contacted 3,498 graduates who completed a SIAST program of study and graduated between July 2012 and June 2013.

In the 2012-13 academic year, SIAST had graduates from a total of 156 distinct credentialed programs. Many SIAST programs are also offered off-campus throughout the province and these are considered continuing education programs. SIAST continuing education programs are generally cost-recovery and are offered throughout the province in a variety of delivery formats: with partners, via distance education learning and in industry-based training formats.

All programs at SIAST are clustered and reported within one of the following six program divisions:

- Business
- Industrial Training
- Science and Health
- Community Services
- Nursing
- Technology

One of the following four credentials is awarded for each SIAST program: Applied Certificate, Certificate, Advanced Certificate and Diploma. In some instances a program may have both a certificate and diploma level exit credential.

In order to have programs that are current, SIAST continually reviews the program mix. Some programs may have recently been deleted but graduates were permitted to complete their programs and graduate. Some programs have been re-titled or re-credentialed. Appendix A lists changes to the programs offered.

1.2 Methodology

Data Collection and Analysis

A census of SIAST graduates within an academic year was undertaken to obtain a sufficient number of graduates for the GES. The graduate contact list, including telephone numbers and mailing addresses, was provided by Enrolment Services at SIAST.

A tri-modal data collection process was used to contact SIAST graduates. It consisted of three phases which occurred between December 2013 and April 2014. The first was a

mail out of a self-administered paper survey to all 3,498 graduates. In December 2013, each graduate received the questionnaire to complete, along with a letter explaining the purpose of the study. A link to an online version of the survey was also provided in the invitation letter for those respondents who would prefer to complete the survey using the Internet. The invitation letter was followed up with an e-mail invitation that contained an electronic link to the online survey.

In March/April 2014, Inshtrix Research Inc. of Saskatoon was contracted to conduct one-on-one telephone interviews with those graduates who did not respond to the mail-out questionnaires or email invitation by February, 2014. Every effort was made to contact the graduates in order to provide the highest possible response rate. The participants were entered to win a laptop as well as three early bird draws of either an iPod or digital camera to encourage them to participate in the survey.

The online responses were collected using the Perseus Enterprise web-based survey tool, a method that IR&A introduced in 2007. The purpose of this method was for respondents to directly enter their own responses to the questions in the survey and therefore avoid any misinterpretation of responses when entered manually. The responses from the mail-in portion of the survey (paper version) were manually entered by IR&A staff. IR&A continues to develop new measures to have all future graduate employment surveys completed online. The responses from graduates by the different methods of surveying were merged, checked for accuracy and consistency and then analyzed using the Statistical Package for Social Science (SPSS) software.

1.3 Response Rate and Validity of Results

A total of 2,144 graduates participated in the 2013 GES, with an overall response rate of 61%. Table 1 provides the response rates for SIAST overall, by division and by base/continuing education.

Table 1: Survey Response Rate, by Division, by Base/Continuing Education, 2013

2013	GRADUATES	RESPONDENTS	RESPONSE RATE
SIAST Overall Programs by Division			
Business	616	401	65%
Community Services	720	432	60%
Industrial Training	601	321	53%
Nursing	384	239	62%

Community Services	400	257	64%
Industrial Training	360	214	59%
Nursing	204	145	71%
Science and Health	374	260	70%
Technology	413	258	62%
Total SIAST Base Programs	2,113	1,388	66%
SIAST CE Programs by Division			
Business	254	147	58%
Community Services	320	175	55%
Industrial Training	241	107	44%
Nursing	180	94	52%
Science and Health	260	166	64%
Technology	130	67	52%
Total SIAST CE Programs	1385	756	55%

SIAST's GES is unique because, rather than survey a sample of the 2013 SIAST graduates, a full census of every graduate is undertaken. SIAST is a post-secondary institution offering more than 156 distinct programs at four urban campuses as well as numerous rural locations. Some of these programs have less than 30 graduates which makes it impossible to survey a sample of the graduates and obtain meaningful results at the individual program level.

Response Rates for Small Populations

For populations with less than 30 participants, as is the case with several SIAST programs, it is recommended that all participants be surveyed in order to obtain reliable information. At the program level, the results will provide a good indication of graduate success and training quality, but may not be representative of all graduates from that program if the population is less than 30 graduates and only a small portion of graduates respond. SIAST makes every effort to contact all the graduates and encourage them to participate. Note: When viewing individual program pages, with low/small number of graduates and a low response rate (i.e., less than 30%), generalizations of the results in the survey should be made with caution.

1.4 Reporting of Results

The 2013 SIAST GES report was compiled from an analysis of the results of the survey. The findings of the analysis are presented in the Overview of Results that summarizes the survey results regarding employment status, program assessment and general graduate demographics by SIAST overall, by base (primarily on-campus activity) and continuing education (primarily brokered off-campus activity throughout the province), as well as the six SIAST program divisions.

Two types of ratios have been included in the Graduate Employment Report for questions pertaining to employment status and training-related employment. In Sections 2.1.1 to 2.1.6, employment information is presented as a percentage of those graduates available to work. According to Statistics Canada, the available to work is defined as the labour force and includes those that are currently employed, as well as those not currently employed but who are seeking employment. Respondents enrolled full-time in further education at the time of the survey are excluded from the available workforce unless they declared they are employed.

For example, 1,875 graduates responded to the question regarding employment status (full-time versus part-time). Of these, 1,407 respondents indicated that they are employed full-time. In calculating the full-time employment rate listed in the sections mentioned above, the 1,407 responses are divided by the available workforce total – 1,992 (comprised of 1,880 respondents employed and 112 respondents actively seeking employment), for a full-time employment rate of 71%.

In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of graduates who responded to the respective employment questions in the survey rather than the available workforce. For example, in reporting employment status (Section 2.3.1), the frequency for those respondents with a full-time status (75%), was calculated by dividing the 1,407 respondents who indicated they are employed full-time by the 1,875 graduates who responded they are employed.

For Sections 2.3.1 and 2.3.2, similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators and the program pages at the back of the report.

Where applicable the numbers and percentages in this report has been rounded to the nearest whole percentage and, therefore, in some cases the total percentages may vary

slightly from 100% or in some cases where responses do not equal 100%, the difference is for graduates who indicated "Don't Know/Refused".

In presenting the results, the total number of graduates responding to each question will vary because: a) respondents did not always provide an answer to each question; and/or b) some questions were not relevant to some respondents. For example, some questions were asked only of those who were currently employed at the time of the survey and conversely, other questions were asked only of those who were not currently employed at the time of the survey.

The Appendices section at the back of the report contains a listing of programs that have recently been revised, either re-titled, identified with different credentials or deleted (appendix A); a copy of the survey questionnaire (appendix B); a question-by-question response count (appendix C); general SIAST information (appendix D); a list of tables (appendix E); and a list of figures (appendix F).

OVERVIEW OF RESULTS

2.0 EMPLOYMENT

Respondents were asked to respond to a number of questions regarding their ability to secure employment after graduation, as well as the details of that employment, such as employment status (full or part-time), location, and number of jobs held and the relationship of employment to training.

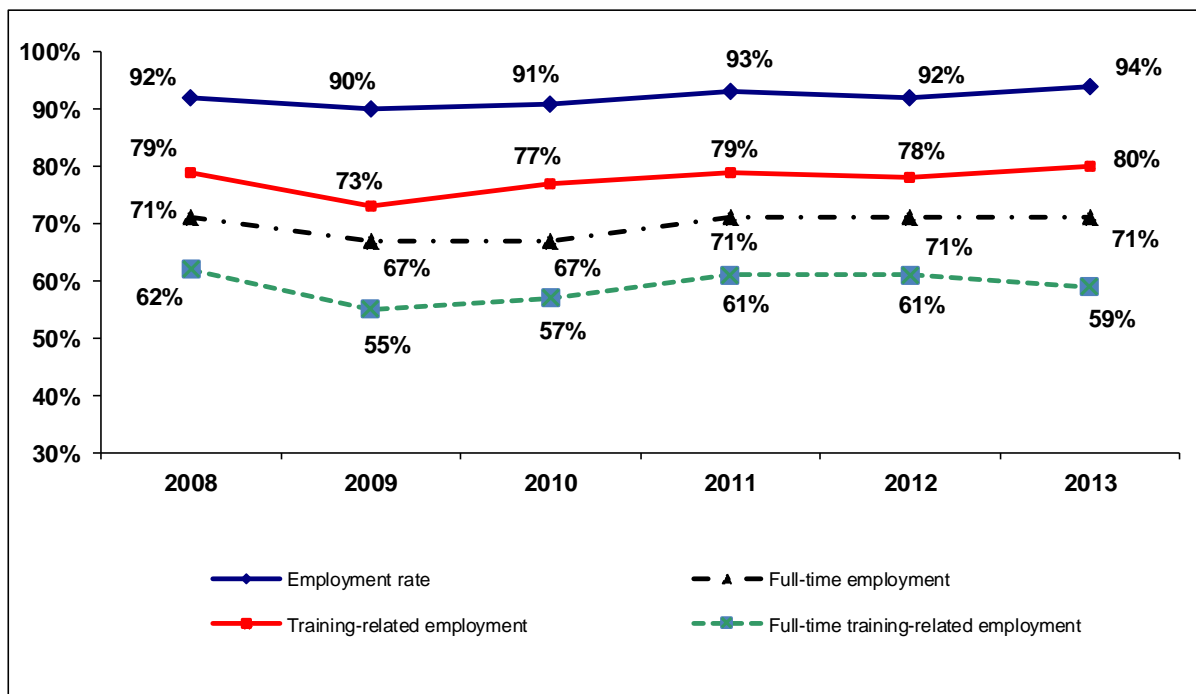

2.1 Employment Rates

2.1.1 Employment Rates for SIAST Overall

The following employment rates are calculated based on those respondents who are *available to work*. The respondents who are included in the available to work category are those who were employed at the time of the survey and those who were not employed but were looking for work (Statistics Canada's definition of the Labour Force).

The employment rate (94%) of 2012-13 graduates slightly increased by 2% from the previous years (Figure 1). The training-related employment rate also increased slightly by 2% from 2012 levels to 80% of graduates in the available workforce at the time of the survey. The full-time employment rate (71%) remained constant with 2011 level but full-time training-related employment decreased by 2% from 2012.

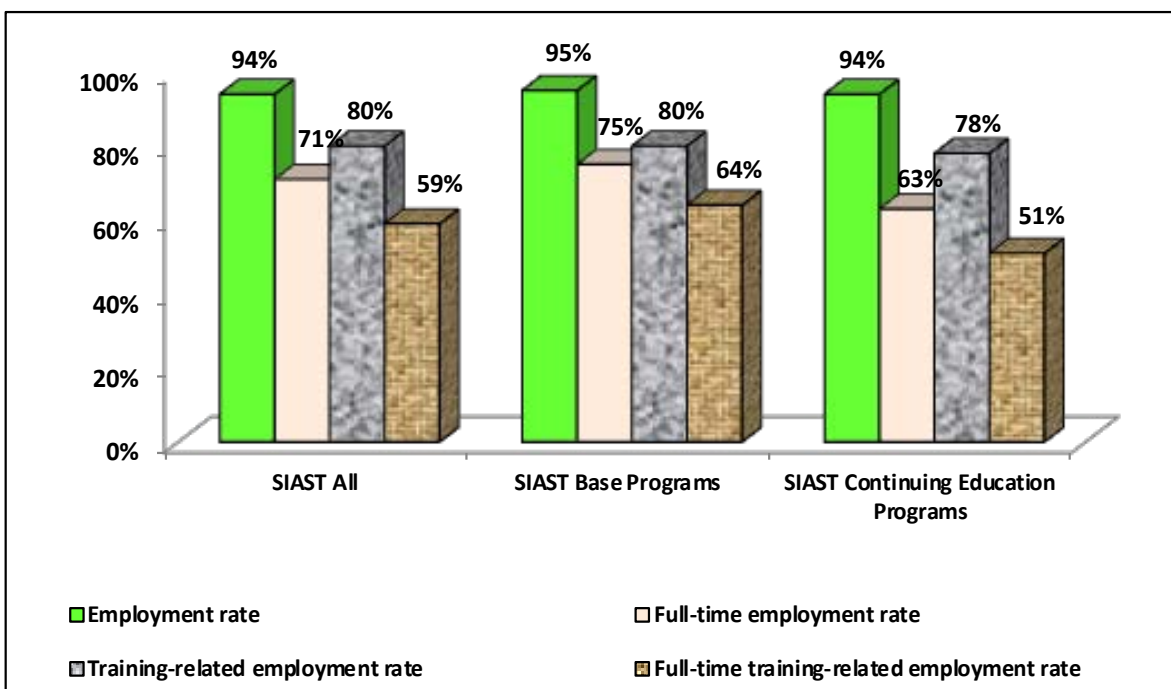

Figure 1: Employment Trends for SIAST Graduates, Based on Available Workforce, 2008 - 2013

2.1.2 Employment Rates for All SIAST, Base and Continuing Education Programs

Figure 2 compares the employment rates for base and continuing education programs in 2013, with that of SIAST overall. The employment rate for base programs (95%) and continuing education programs (94%) are closely comparable to the SIAST overall employment rate of 94%. As shown in Figure 2, the training-related employment rates and full-time training-related employment rates for base programs were higher than continuing education programs.

Figure 2: Employment Rates, by Base/Continuing Education, Based on Available Workforce, 2013

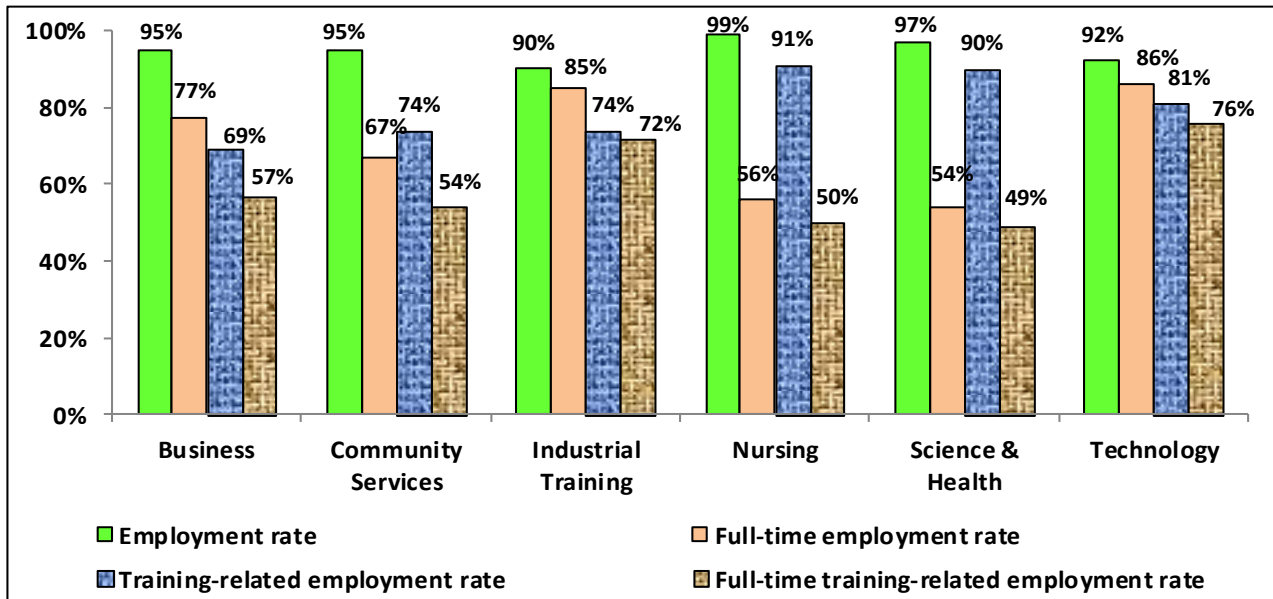

2.1.3 Employment Rates by Division Overall (Base and Continuing Education)

Figure 3 provides a breakdown of employment rates for each of the six program divisions. Higher employment rates of those who graduated from Nursing (99%) and Science and Health (97%) Divisions anchored the overall SIAST graduate employment rate at 94%; this is a two percent increase from the previous year. The employment rates of graduates of other divisions were ranging from 90% to 95%.

The training-related employment rates of those who graduated from Nursing (91%) and Science and Health (90%) Divisions strengthened the overall SIAST training-related employment rate to 80%, a 2% increase from previous year.

Similar to the past three survey results, Technology Division reported the highest full-time training-related employment rate of 76%, a 2% decline from 2011-12 level.

Figure 3: Employment Rates, by Division, Based on Available Workforce, 2013

2.1.4 Employment Rates by Division (Base and Continuing Education Reported Separately)

Table 2 provides a further breakdown of employment rates by division for base and continuing education programs.

For SIAST base programs, the Nursing (99%) Science and Health (96%) and Community Services (96%) Divisions reported the highest employment rates. For continuing education programs, Nursing (99%), Science and Health (98%) and Business (95%) Divisions had the highest employment rates, while the graduates from the continuing education Technology Division reported the lowest employment rate of 83%.

In base education programs, graduates from the Industrial Training Division (87%) and Technology Division (87%) were more likely to find full-time employment. In the continuing education (Technology - 81%, Industrial Training - 79% and Business - 76%) programs were more likely to find full-time employment.

Respondents from the Business Division (71%) in the base programs and the Technology (64%) and Industrial Training Divisions (64%) in the continuing education programs reported the lowest percentage of finding training-related employment.

Following the results of SIAST overall (59%), the full-time training-related employment rate for graduates from base programs (64%) and continuing education programs (51%), were consistent with 2011-12 results.

Table 2: Employment Rates, by Division, by Base/Continuing Education, Based on Available Workforce, 2013

	AVAILABLE FOR WORK	EMPLOYMENT RATE	FULL-TIME EMPLOYMENT RATE	TRAINING-RELATED EMPLOYMENT RATE	FULL-TIME TRAINING-RELATED EMPLOYMENT RATE

2.1.5 Employment Rates for Aboriginal Respondents

Figure 4 indicates the employment rates, training-related employment rates and full-time training-related employment rates by divisions for Aboriginal respondents.

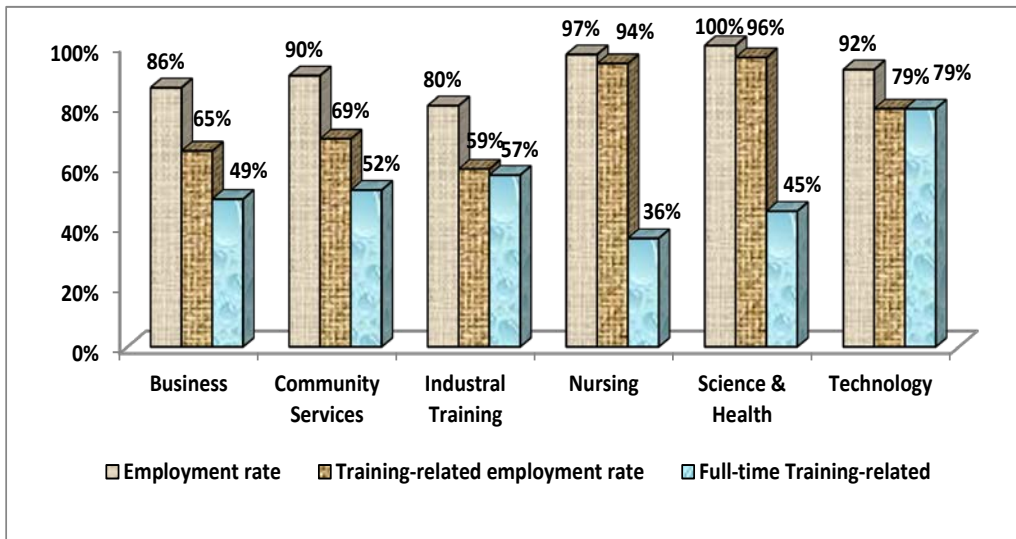

Both the Science and Health Division (at 96% for training-related employment) and the Nursing Division (at 94% for training-related employment) showed encouraging results for Aboriginal graduates in finding employment.

The employment rates for Aboriginal graduates by division based on those available to work were:

- Business – 86%
- Community Services – 90%
- Industrial Training – 80%
- Nursing – 97%
- Science and Health – 100%
- Technology – 92%

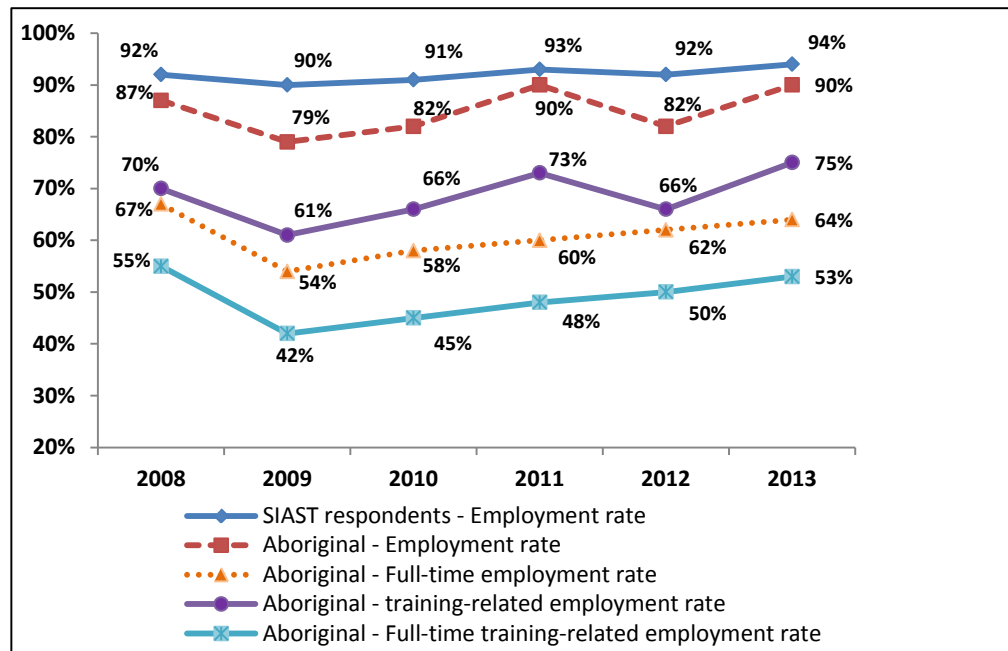

There was a general fluctuation in the employment rates for Aboriginal graduates from all programs across all divisions. The training-related employment rate for graduates from all divisions, except the Business, and Nursing Division which were 14%, and 6% down from 2011-12 respectively, increased in all divisions. The graduates from Technology division show a significance increase (22%) in finding training related employment from 2011-12 level.

Figure 4: Employment Rates for Aboriginal Respondents, by Division, Based on Available Aboriginal Workforce, 2013

As depicted in Figure 5, the employment, full-time employment, training related and full-time training-related employment rates for Aboriginal respondents in the 2013 survey changed slightly over 2012. The Aboriginal full-time employment rate and the Aboriginal full-time training related employment rate show an increase of 2% and 3%, respectively since 2012. The Aboriginal employment rate bounced back to its 2011 level of 90%, an 8% increase over 2012 while the Aboriginal training-related employment rate saw a slight increase of 9% since 2012.

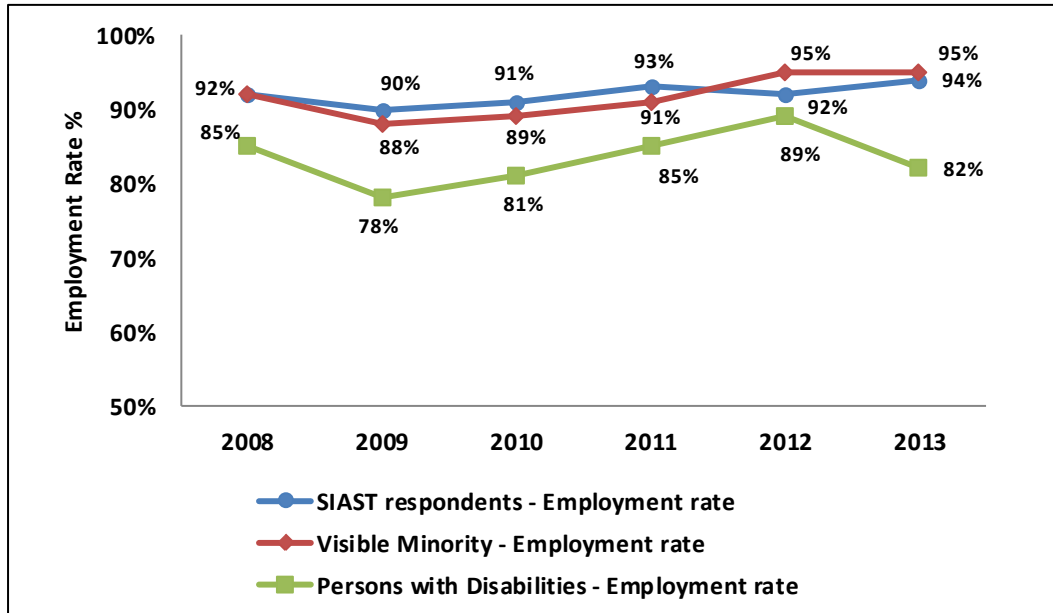

Figure 5: Employment Trends for Aboriginal Respondents, Based on Available Workforce, 2008 – 2013

2.1.6 Employment Trends for Persons with Disabilities and Visible Minority Respondents

As shown in Figure 6, the employment rate for persons with disabilities and respondents decreased by 7% over 2012. The employment rate for persons with visible minorities remained at 2012 level of 95%, a 1% higher than the employment rate of SIAST overall graduates.

Figure 6: Employment Trends for Persons with Disabilities and Visible Minority Respondents, Based on Available Workforce, 2008 - 2013

2.2 Training-Related Employment, Based on Number Employed*

**Note: In the remaining sections of the Overview of Results, the employment-related percentages have been calculated based upon the total number of employed graduates rather than the available workforce. Similar employment-related percentages using the available workforce as a divisor may be viewed in the Graduate Employment Indicators or the program pages at the end of this report.*

Are you employed in a job directly related to the education and training you received in your program at SIAST? (Question 12)

The majority of respondents in all divisions reported that they found employment which was directly related to their training. Overall, consistent with 2012, 84% of all employed respondents worked at training-related jobs at the time of the survey (Figure 7). Respondents from the Science and Health (93%) and Nursing (92%) Divisions had the most success in obtaining training-related employment while respondents from Business (73%) and Community Services (78%) had relatively low rates of training-related employment.

Figure 7: Training-Related Employment, by Division, 2013

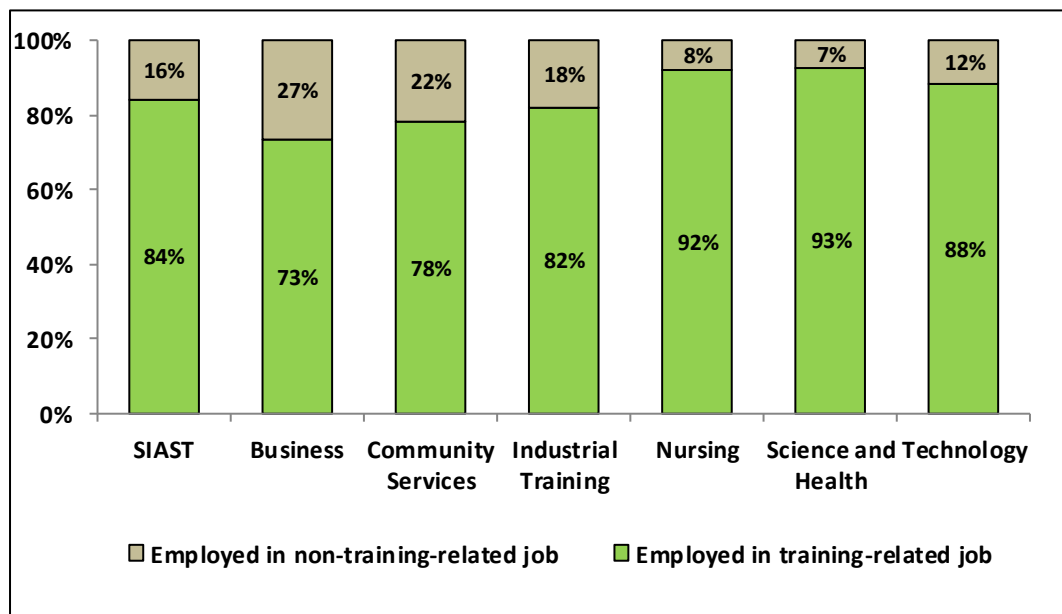

Table 3 provides a breakdown of training-related employment by base and continuing education programs for each division. The graduates from Nursing and Science and Health Divisions had the largest percentage of respondents with training-related employment. The graduate from base programs in Science and Health Division had the highest percent of graduates employed in a training-related job (92%) while in continuing education programs; Nursing division had the highest percentage of graduate (97%) employed in training related jobs. In many of the Nursing and the Science and Health Division's programs, respondents are required to have completed their training and be licensed by a national accrediting agency before practicing their skills in the health field. Overall, more than four-fifths of graduates from base, 85% and continuing education, 83%, programs were able to find training-related employment, consistent with 2012 survey results.

Table 3: Training-Related Employment, by Division, by Base/Continuing Education, 2013

	TOTAL EMPLOYED	NUMBER EMPLOYED IN TRAINING- RELATED JOB	PERCENT EMPLOYED IN TRAINING- RELATED JOB
SIAST Base Programs by Division			
Business	213	159	75%

OVERALL SIAST TOTAL	1,880	1,585	84%

2.3 Employment Status, Based on Number Employed

2.3.1 Full or Part-time/Casual Employment

What is your employment status of your primary job? (Question 15)

- a) Permanent Full-time (30 hours or more per week)
- b) Permanent Part-time (less than 30 hours per week)
- c) Non-Permanent Full-time (i.e., term, contract, seasonal)
- d) Non-Permanent Part-time (i.e., term, contract, seasonal)
- e) Casual (variety of hours per week)

Full-time employment is defined as working 30 hours or more per week and part-time and casual employment are defined as working less than 30 hours per week. Overall, 75% of respondents surveyed were working full-time in their primary job (a 2% decrease over 2012); while the remaining 25% of respondents had a primary job that was part-time or casual (a 2% increase over 2012).

As shown in Figure 8, the Industrial Training Division had the highest percentage of respondents (95%) with full-time employment in their primary job followed by Technology Division (94%). Over four-fifth of respondents from the Business (82%) was working full-time in their primary job – 2% increase from 2012. Respondents from the Nursing Division (57%, a 7% decrease over 2012) and Science and Health Division (56%, a 7% decrease over 2012) were the least likely to obtain full-time employment in their primary job. Overall 75% of respondents were working full-time employment in their primary job.

Figure 8: Full or Part-Time Employment in Primary Job, by Division, 2013

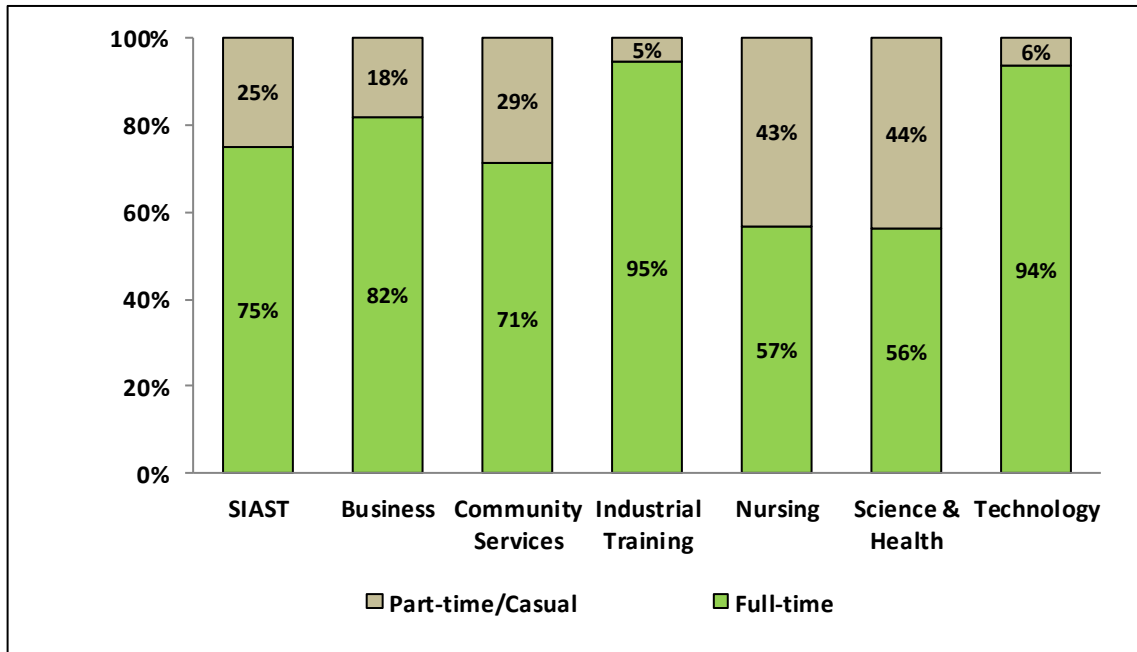

Table 4 provides further breakdown of employment status for base and continuing education programs in each division. On average, 79% of respondents from base programs were employed in full-time positions while approximately 68% of respondents from continuing education programs were employed in full-time positions. As shown in Table 4, over 80% of graduates in Business, Industrial Training, and Technology divisions in the base programs were able to secure full-time positions. Only 63% of graduates from Science and Health, 68% of graduates from Nursing and 69% of graduates from Community Services Divisions were able to secure full-time employment. Similarly, over 70% of all the graduates from continuing education programs except Nursing (40%) and Science and Health (46%), were able to find full-time employment. There was a remarkable decline in ability to find full-time employment of graduates from Nursing Division in the continuing education programs compared to the last year (33%).

Table 4: Full or Part-Time Employment in Primary Job, by Division, by Base/Continuing Education, 2013

	TOTAL EMPLOYED	% FULL-TIME	% PART-TIME/CASUAL
SIAST Base Programs by Division			
Business	212	83%	17%
Community Services	212	69%	31%
Industrial Training	185	97%	3%

Nursing	93	40%	60%
Science and Health	157	46%	54%
Technology	53	98%	2%
Total SIAST CE Programs	658	68%	32%
OVERALL SIAST TOTAL	1,875	75%	25%

2.3.2 Part-time/Casual Position – by Choice

If your primary job is a part-time or casual position, is this by choice? (Question 16)

It is assumed that those working in part-time or casual jobs do so because they cannot secure full-time employment. This particular question was added to the GES in 2002 to clarify if graduates wanted to work in part-time or casual positions. In 2013 of those who worked part-time/casual, approximately 59% indicated they chose to work part-time/casual by choice, down 6% from 2012. Table 5 provides a further breakdown of part-time/casual employments by choice for base and continuing education programs by division. For SIAST base divisions the Community Services and Industrial Training divisions had the highest proportion of respondents (64% and 75% respectively) who were working part-time positions by choice. The percentage of graduates who worked part-time or casual positions by choice in the continuing education programs ranged from 50% to 90% with the exception of graduate in Technology division. Only one graduate in Technology Division worked in part-time casual positions by choice.

Table 5: Part-Time or Casual by Choice, by Division, by Base/Continuing Education, 2013

	TOTAL EMPLOYED PARTIME/CASUAL	PART-TIME/ CASUAL BY CHOICE
SIAST Base Programs by Division		
Business	36	61%

Technology	17	29%
Total SIAST Base Programs	256	53%
SIAST Continuing Education Programs by Division		
Business	24	67%
Community Services	36	72%
Industrial Training	10	90%
Nursing	56	52%
Science and Health	85	69%
Technology	1	100%
Total SIAST CE Programs	212	66%
OVERALL SIAST TOTAL	468	59%

2.3.3 Self-Employed

Are you self-employed? (Question 11)

The percentage of respondents indicating they were self-employed remains fairly low in all divisions. Overall, approximately 4% of all the respondents in the survey indicated their desire for self-employment, which is close to that reported in 2011 and 2012. Consistence with the results in 2012, the graduates from continuing education programs are more likely to pursue self-employment (5%) relative to those who graduated from base programs (3%). The greatest interest for self-employment came from the graduates from Industrial training (8%) and Community services (6%) divisions in the continuing education programs. As well 6% of graduates from Community services division in the base education programs indicated a greater percentage of self-employed graduates than any other divisions.

Table 6: Self-Employment, by Division, by Base/Continuing Education, 2013

	TOTAL EMPLOYED	PERCENT SELF-EMPLOYED
SIAST Base Programs by Division		
Business	213	4%

OVERALL SIAST TOTAL	1,880	4%

2.3.4 Number of Jobs

How many jobs do you currently have? (Question 13)

Overall the average number of jobs (training or non-training related) that employed respondents had was 1. As shown in Table 7, almost the same average number of jobs was held by respondents in both base and continuing education programs.

Table 7: Number of Current Jobs Held, by Division, by Base/Continuing Education, 2013

	TOTAL RESPONDENTS	AVERAGE	MAXIMUM
SIAST Base Programs by Division			
Business	213	1	4

Technology	53	1	2
Total SIAST CE Programs	659	1	7
OVERALL SIAST TOTAL	1,880	2	7

3.0 Salaries

Respondents were asked to indicate the salary they earned. Since some employees gave an hourly rate and others a monthly salary, all identified hourly rates were converted to a monthly rate as shown below.

3.1 Salaries for SIAST Graduate Respondents

What is the hourly salary of your primary job before deductions? (Question 17)

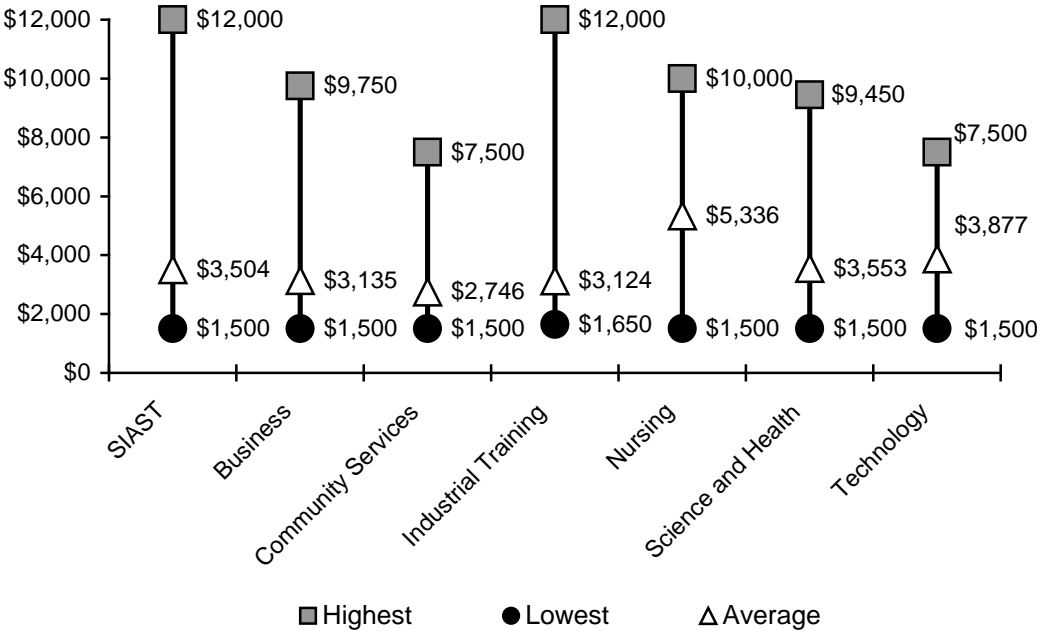

For the 2012-13 academic year the minimum wage set by the government of Saskatchewan was \$10/hr. Based on a 37.5 hour work week; the minimum monthly salary for a full-time employee is \$1,500 [$\$10 \times 37.50 \times 4$]. The majority of SIAST employed respondents were paid at a higher level than this rate (Table 8). The average (mean) monthly full-time training-related salary for all respondents was \$3,504, an increase of 0.4% over 2012.

Table 8: Monthly Salary of Full-Time Training-Related Job and by Base/Continuing Education, 2013

	EMPLOYED IN FULL TIME TRAINING-RELATED POSITIONS	RESPONDENTS WITH FULL TIME TRAINING RELATED SALARIES	HIGHEST	AVERAGE	MEDIAN	LOWEST
Total SIAST Base Programs	821	775	\$12,000	\$3,586	\$3,195	\$1,500
Total SIAST CE Programs	362	338	\$9,450	\$3,314	\$3,032	\$1,500
OVERALL SIAST TOTAL	1,183	1,113	\$12,000	\$3,504	\$3,150	\$1,500

As illustrated in Figure 9, graduates in the Industrial Training Division (\$12,000) had the highest full-time training related monthly salary, followed by graduates from the Nursing Division (\$10,000). Salaries in the Community Services and Technology Divisions were the lowest, with an average of \$ 2,746 and \$3,877, respectively, compared to a high average of \$5,336 in the Nursing Division.

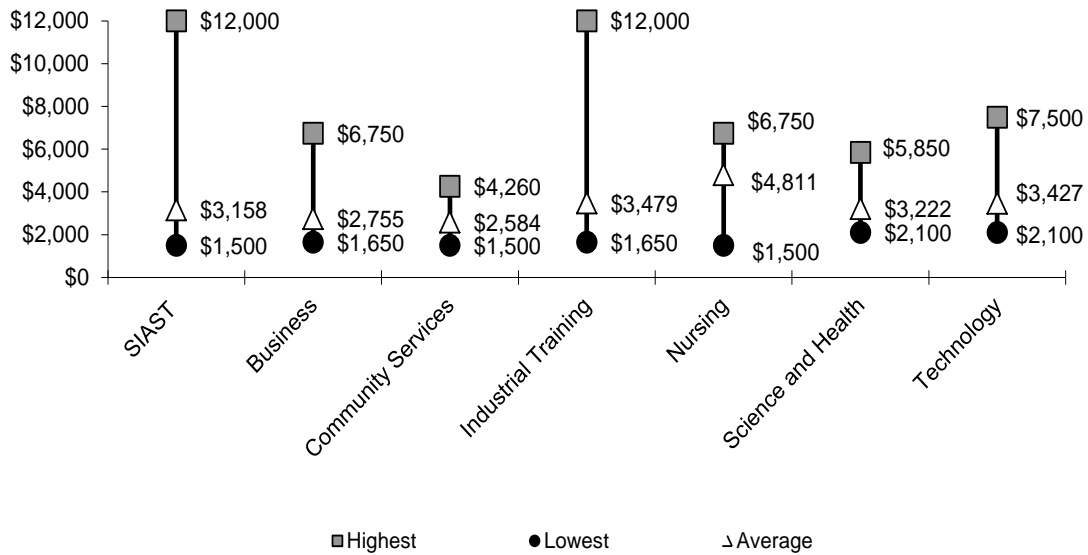

Figure 9: Monthly Salary of Full-Time Training-Related Employment, by Division, 2013

3.2 Monthly Full-Time Training Related Salaries for Aboriginal Respondents, Based on Number of Respondents

In all divisions, except for Business and Community Services, the average salary level for Aboriginal people employed in full-time training-related positions was higher than that reported for all SIAST respondents. The average monthly salary for Aboriginal people is highest in the Nursing Division (\$4,811), however, this is approximately 12% lower than that in 2012.

Figure 10: Monthly Salary of Full-Time Training-Related Employment for Aboriginal Graduates by Division, 2013

4.0 INDUSTRY SECTORS OF PRIMARY EMPLOYERS

Saskatchewan Labour has identified the industry sectors listed below as important for the province. Monthly labour force statistics for the province are reported in this manner. The industry sector question was added to the survey in 2004 to determine if SIAST graduates were employed in one or more of these industry sectors. The question included in the survey was:

Please select the option below that best describes which industry sector your primary employer operates in. (Question 21)

The majority of SIAST respondents (33%) reported they work for employers who operate in the health industry while construction (10%) and Education Services (7%) were the second and third highest employers for SIAST graduates. Employment in the health industry was by far a large margin compared to other sectors such as the film, video, multi-media, printing and publishing (0.9%) and biotechnology industry (0.6%).

Table 9 provides a breakdown by division of industry sectors under which SIAST graduates are employed. The graduates from programs in the Nursing and Science and Health Divisions are primarily employed in the health sector (88% and 84%, respectively), while the respondents from other programs may be employed in a variety of industry sectors. For instance, in Community Services, 31 % of the respondents are employed in the education services sector and 17% in Human/Social Services and Justice Sectors.

The graduates from the Business Division were primarily employed in the business and professional services sector (22%), 14% in health services and 11% in government services and public administration while the remaining were distributed in other sectors.

Just over one quarter of graduates from Industrial Training Division were employed in the construction (28%) and transportation, trucking, and heavy equipment (28%) sectors while 22% of graduates were employed in manufacturing sector. Another 9% of graduates from the Industrial Training Division were employed in the natural resources and environment sector.

In the Technology Division respondents were clustered in the construction (29%), natural resources and environment (19%), and in the technology, electronics and telecommunications sectors (21%).

Table 9: Industry Sector of Primary Employer, by Division, 2013

5.0 LOCATION OF EMPLOYMENT, BASED ON NUMBER EMPLOYED

There is always considerable interest by government officials and the general public to know if post-secondary graduates remain in the province for employment following graduation.

5.1 Location of Primary Employment for SIAST Respondents

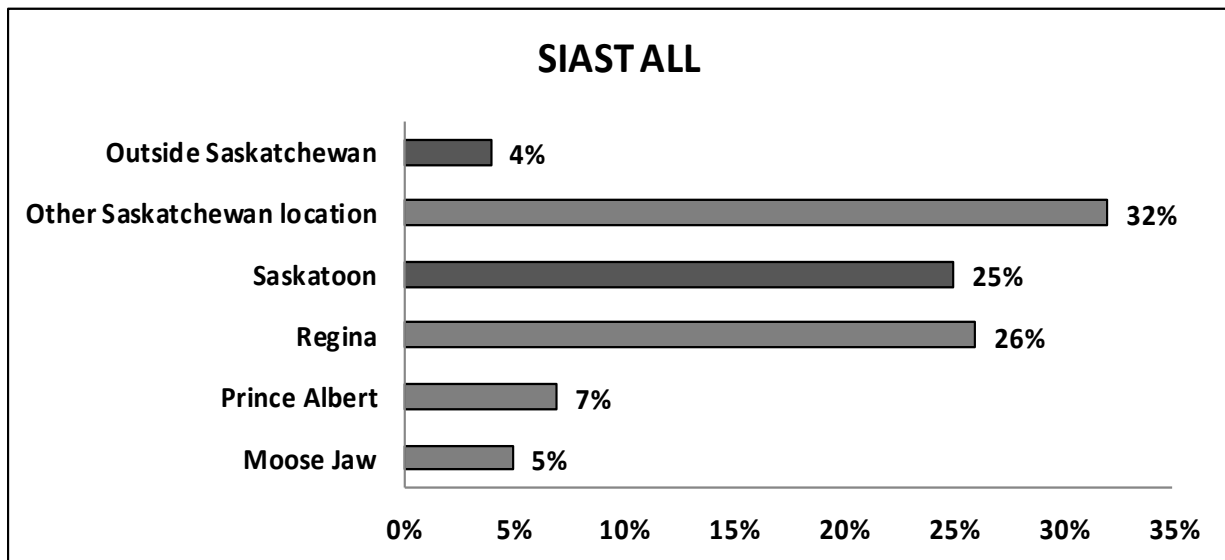

Where is the location of your primary employment? (Question 18)

Note: The results in Section 5.1 provide the location of employment percentages based on the location of the graduates' primary employment not their training-related employment. Location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

As shown in Figure 11, 96% of SIAST graduates were employed in Saskatchewan at the time of the survey, one percent up from 2012.

The out-migration of graduates in the base program is consistent with the figure of 5% in 2012, while the out-migration of graduates from continuing education programs decreased to 3% in 2013 from 5% reported in 2012.

Figure 11: Location of Primary Employment, by Base/Continuing Education, 2013

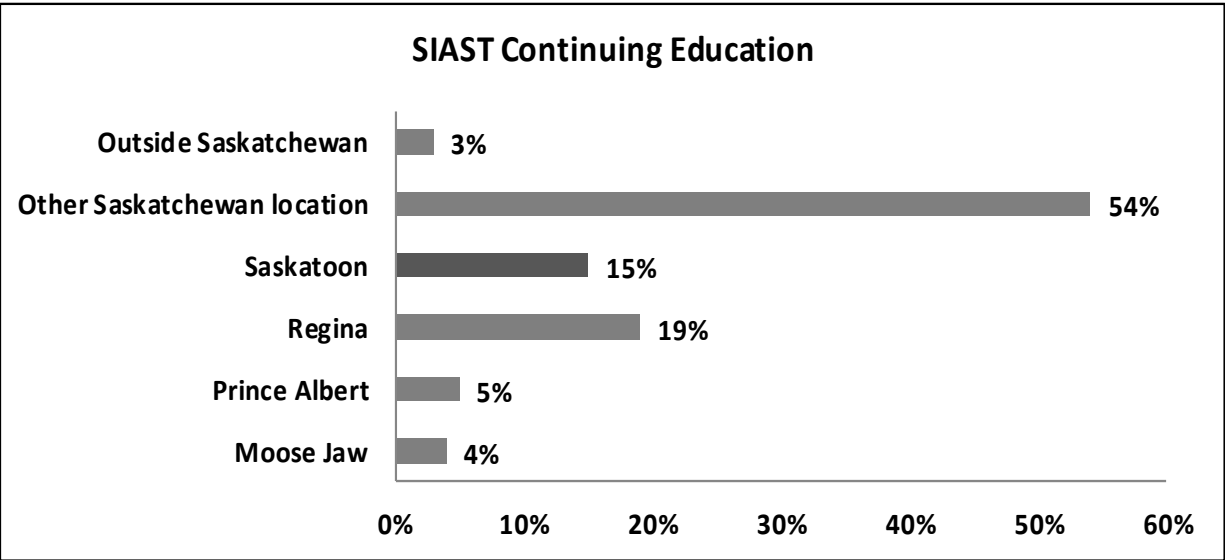

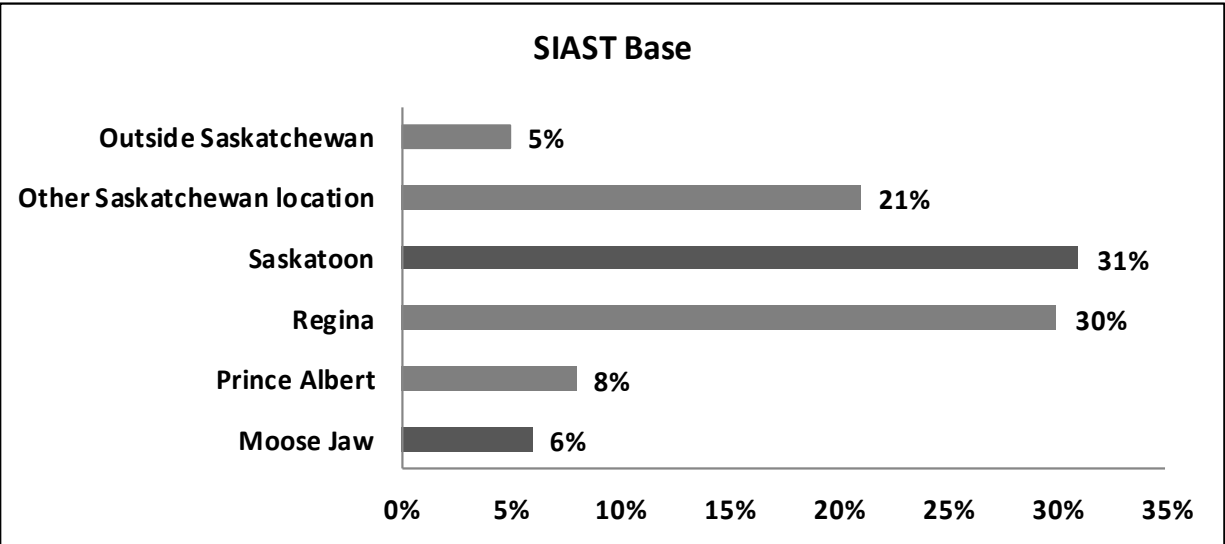

Table 10 provides a breakdown of SIAST graduates' location of primary employment, by division, by base and continuing education. The largest out-migration of graduates from base programs was from the Nursing (8%). Unlike previous years the Industrial Training (2%), Business (2%) and Science and Health divisions (4%) had the lowest levels of out-migration, with an overall out-migration of 5% for all base programs. This is a 0.2% decrease over 2012.

In the continuing education programs, the graduates from the Technology Division (6%) followed by Nursing and Community Services (5%) had the largest proportion of graduates leaving Saskatchewan. This is significant declined from the previous years where out-migration of graduates from Technology Division was 10% and from Nursing Division were 7% in 2012. Similar to base programs, the overall out-migration of graduates from continuing education programs declined to 3% from 5% in 2012. However, overall out-migration of SIAST graduates in 2013 has decreased by 0.6% from 5% in 2012.

Table 10: Location of Primary Employment, by Division, by Base/Continuing Education, 2013

	REGINA	SASKATOON	PRINCE ALBERT	MOOSE JAW	OTHER SK LOCATION	OUTSIDE SK
SIAST Base Programs by Division						
Business	46%	12%	10%	19%	11%	2%
Community Services	25%	37%	16%	0.9%	17%	5%
Industrial Training	21%	39%	3%	7%	29%	2%
Nursing	34%	35%	6%	0.7%	16%	8%
Science and Health	25%	30%	8%	3%	30%	4%
Technology	30%	37%	4%	2%	19%	7%
Total SIAST Base Programs	30%	31%	8%	6%	21%	5%
SIAST CE Programs by Division						
Business	25%	15%	2%	2%	53%	3%
Community Services	24%	18%	10%	4%	39%	5%
Industrial Training	24%	18%	2%	5%	50%	1%
Nursing	16%	23%	9%	1%	46%	5%
Science and Health	11%	6%	3%	6%	73%	1%
Technology	17%	13%	2%	2%	60%	6%
Total SIAST CE Programs	19%	15%	5%	4%	54%	3%
OVERALL SIAST TOTAL	26%	26%	7%	5%	32%	4%

Closely consistent with the findings of the past surveys, the majority of respondents remain in Saskatchewan for employment. In 2012 the location percentages were:

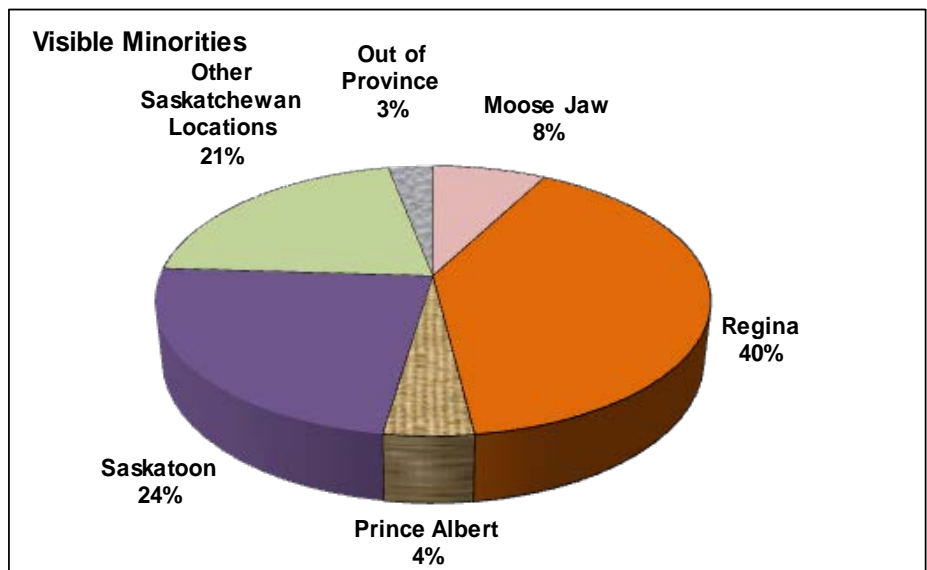

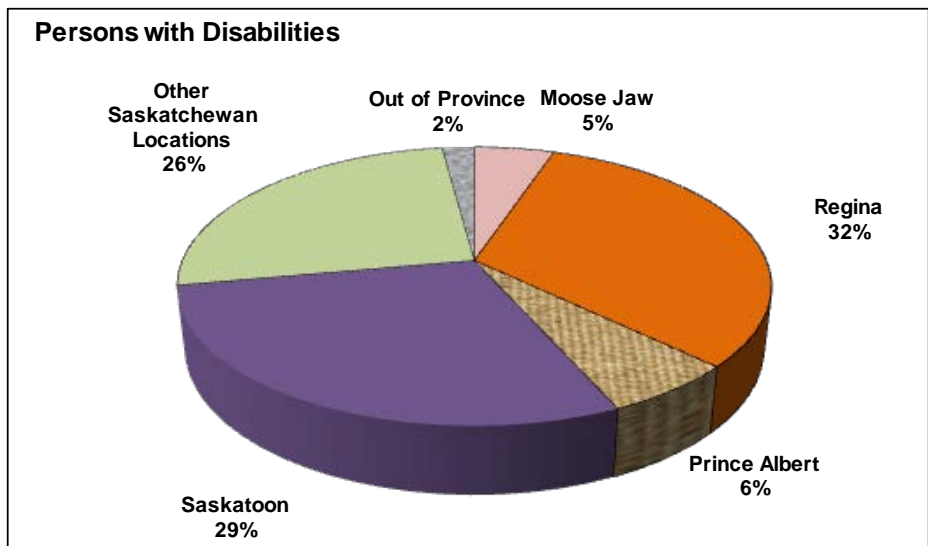

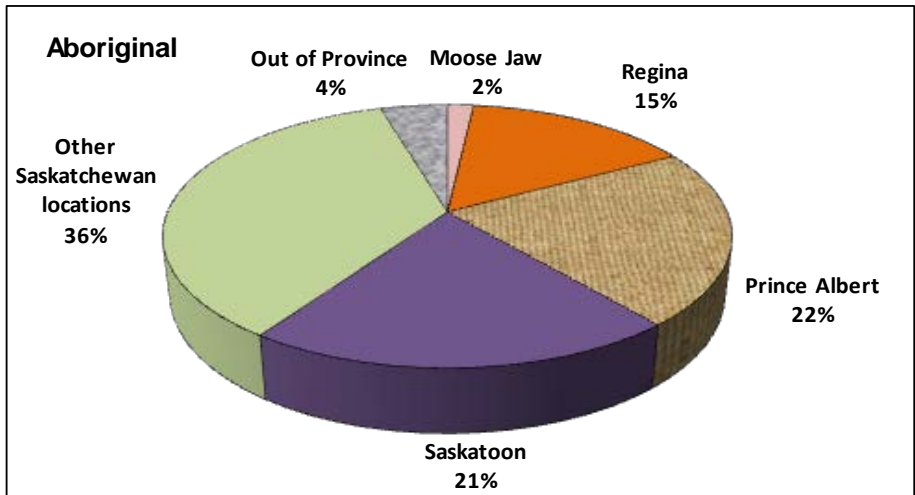

- Regina – 26%
- Prince Albert – 7%
- Other Saskatchewan location – 31%
- Saskatoon – 28%
- Moose Jaw – 3%
- Outside Saskatchewan - 5%

5.2 Location of Primary Employment for Equity Respondents

As shown in Figure 12, 95% of Aboriginal graduates remained in Saskatchewan for employment. Only 5% of Aboriginal graduates have moved out of province for employment, a 1% decrease over 2012. Slightly above one-third of Aboriginal graduates (36%) worked outside of the major four cities in Saskatchewan, 5% down from 2012. Of the four SIAST campus cities, the largest proportion of Aboriginal graduates were employed in Prince Albert (22%), followed by Saskatoon (21%) and Regina (15%). Only a 2% of Aboriginal graduates found employment in Moose Jaw. Location of Aboriginal primary location of employment is similar to findings in the past two survey years.

Similar to 2012, only 3% and 2% respectively of visible minorities and persons living with disabilities moved out of province for employment. Unlike 2012, of the four SIAST campus cities, the highest proportion of persons with disabilities found employment in Regina (32%), closely followed by Saskatoon (29%). Similarly 40% of visible minorities found employment in Regina, followed by Saskatoon (24%).

Figure 12: Location of Primary Employment for Aboriginal, Persons with Disabilities and Visible Minority Respondents, 2013

5.3 Out-of-Province Employment for SIAST Graduate Respondents

*If primary employment was found outside of Saskatchewan, was this by choice?
(Question 19)*

As mentioned before, approximately 4% (78 of 1,870) of respondents indicated their location of employment to be outside Saskatchewan. Of them, 89% (69 of 78) of the respondents who found employment opportunities out of Saskatchewan had indicated this was by choice (Table 11). Of those who found employment opportunities outside of Saskatchewan, all of the (100%) graduates from the Business, Community Services and Nursing Divisions in the base program indicated that was by their choice while the same is true for graduates from Industrial Training, Nursing, and Science and Health Divisions in the continuing education programs.

Table 11: Primary Employment Out-of-Province by Choice, by Division, By Base/Continuing Education, 2013

	TOTAL RESPONDENTS	% OUT OF PROVINCE EMPLOYED BY CHOICE

Science and Health	2	100%
Technology	3	67%
Total SIAST CE Programs	22	86%
OVERALL SIAST TOTAL	78	89%

*“Please indicate the primary reason why you moved out-of-province for employment
(Question 20)*

Graduates were requested to identify the main reason they sought employment out-of-province. Overall, over two-fifths of respondents indicated personal reasons (42%) for obtaining out-of-province employment (Table 12). Approximately one-third of all respondents indicated they moved out-of province for other reasons (30%), while close to one-fifth moved out for better wages. Only 12% of graduates indicated moving out of province for more employment opportunities.

In the base programs, about two-fifths of graduates moved out-of-province for personal reasons (40%) and a third of graduates for other reasons (30%). The rest of the graduates sought employment opportunities out-of-province for better wages (14%) and 16% to seek more employment opportunities. Similar to graduates from base program, graduates from continuing education programs were more likely to have found employment out of the province for personal reasons (47%) followed by other reasons (32%).

Note: The location of training-related employment percentages may be found in the Graduate Employment Indicators or the program pages at the end of this report.

Table 12: Reason Primary Employment Out-of-Province, by Division, By Base/Continuing Education, 2013

6.0 APPLICATIONS AND INTERVIEWS FOR EMPLOYMENT

6.1 Applications

How many employment opportunities have you applied for since completing your training program? (Question 7)

The effort that graduates had invested into obtaining employment, after graduation, was indicated by the number of applications that each had submitted and the number of interviews that each attended. These numbers are expressed as means and medians, because medians, as the middle number, are not influenced by extreme responses.

As shown in Table 13, the average number of applications for employment that respondents in base programs submitted ranged from 4 to 15, depending on the division, with an overall average of 8. For graduates in continuing education programs, average jobs applied to range from 4 to 12 with an overall average of 8.

The overall median number of applications for both base and continuing education programs was 3 and 2, respectively.

6.2 Interviews

How many employment interviews have you had? (Question 9)

The mean number of interviews for respondents in base programs ranged from 2 to 3 with an average of 2 interviews. The median number of interviews for graduates in the base programs ranged from 1 to 2. Although the continuing education programs had the approximately the same overall mean as their base counterparts, they reported slightly lower numbers of interviews attended to by division.

Table 13: Employment Applications and Interviews: Average, Mode and Median, by Division, by Base/Continuing Education, 2013

7.0 NOT EMPLOYED

While it is important to determine the percentage of graduates who obtain employment after graduation, it is also equally important to know about those who were not employed at the time the survey was conducted. Respondents who had indicated that they were not presently employed were asked to complete a series of questions regarding their activity since graduation.

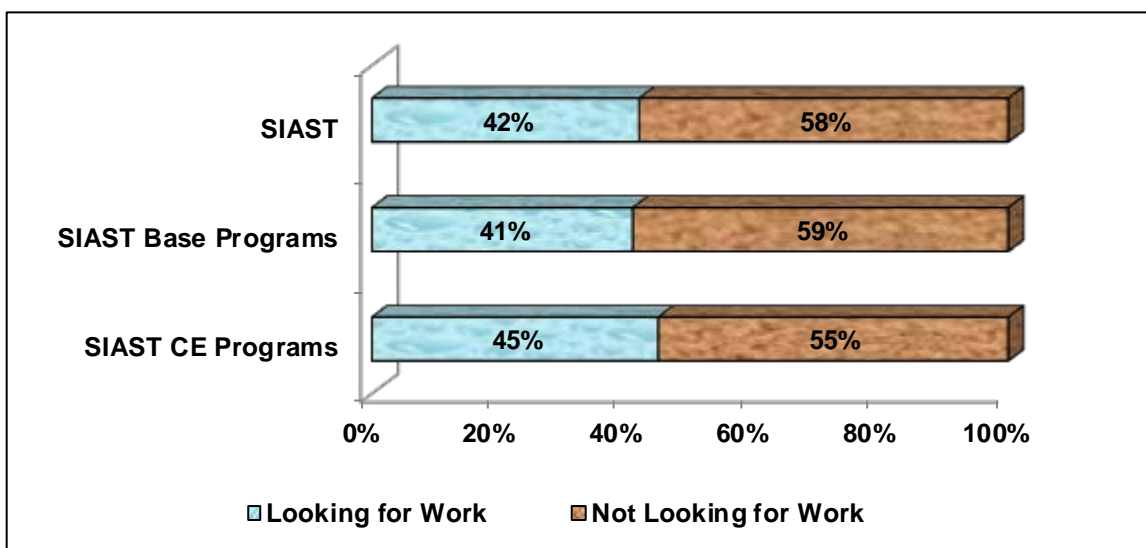

7.1 Actively Looking for Work

Are you actively looking for work at present? (Question 26)

Overall 42% of the respondents who were not employed at the time of the survey indicated that they were looking for work (Figure 13). A slightly higher percentage of respondents (45%) who were not employed from continuing education programs were more likely than their peers in base education programs to be looking for work (41%).

Note: The respondents that were not employed but pursuing full time studies at the time of the survey were not considered as actively looking for work.

Figure 13: Graduates Not Employed but Looking for Work, by Base/Continuing Education, 2013

7.2 Employed Since Graduating from SIAST

Have you worked at all (full-time, part-time, or casual) since completing your training program? (Question 23)

If yes, was the most recent work directly related to the education and training you received in your program? (Question 24)

Are you scheduled to return to work in the future? (Question 25)

These three questions were directed towards those respondents who indicated they were not employed at the time of the survey.

Of the 264 respondents who were not working at the time they were surveyed, 67% (177 of 264) indicated that they had worked at some point since completing their training program.

Of the respondents not working at the time of the survey, but who had worked at some point since completing their training, 61% (108 of 177) indicated they had worked in training-related jobs. Table 14 provides a breakdown, by division and by base and continuing education programs, of respondents' work experiences since graduation.

Table 14: Graduates not Employed - Work Experience since Graduation, by Division, By Base/Continuing Education, 2013

² Total number of respondents who were not employed in the CE programs = 97

7.3 Not Actively Looking for Work

Are you actively looking for work? (Question 27)

Of the 2,144 survey respondents, approximately 7% (152 of 2,144) reported they were **not employed and were not looking for work**, primarily because they were either returning for further education or for personal reasons. Table 15 illustrates, by division, the percentages of graduates who were looking/not looking for work, out of those who were not employed.

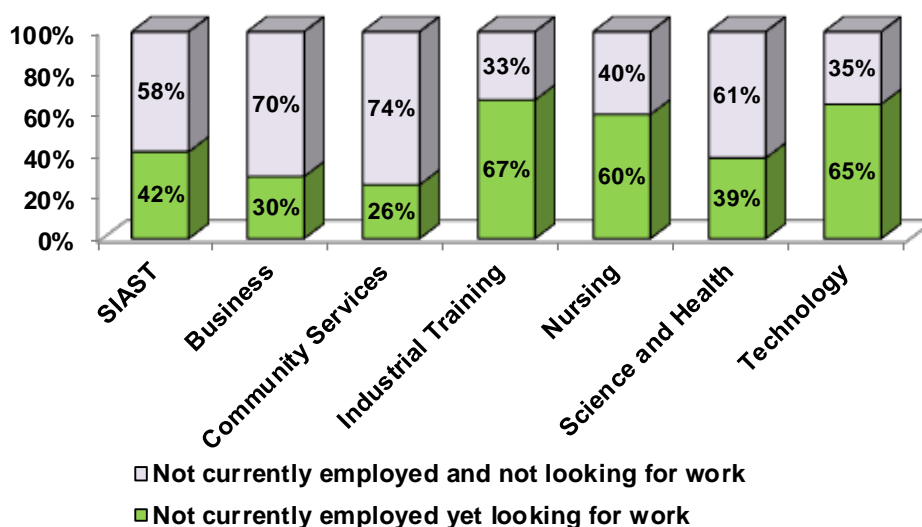

The Community Services Division had 76 unemployed graduates at the time of the survey, of them 74% were not looking for work. The graduates from the Nursing Division reported the least number of unemployed graduates (5) and 40% were not looking for work. Percent of unemployed graduates, by division, who were looking/not looking for work, is further illustrated in Figure 14. Section 7.4 of the report identified why some of the unemployed respondents were not actively looking for work.

The employed (1,880) and the unemployed respondents who stated that they were looking for work (112) represent the SIAST-wide respondent **available workforce (1,992)** (those respondents who are available to work).

Table 15: Number of Unemployed Graduates who were looking for Work by Division, 2013

Figure 14: Graduates Not Actively Looking for Work, by Division, 2013

7.4 Reasons not currently employed

Which of the following best describes the reason why you are currently not employed? (Question 22)

The two most common reasons given by unemployed respondents for not being employed at survey time were *returned for further education* (42%) and *personal reasons* (20%). Table 16 provides a breakdown of the reasons respondents were not employed at the time of the survey by division and by base and continuing education programs.

Table 16: Graduates Not Employed - Reason Not Employed, by Division, Base/Continuing Education, 2013

8.0 FURTHER EDUCATION OR TRAINING

The survey formally asked all respondents if, at the time of the survey (whether employed or not), they were enrolled in further education or training.

8.1 Respondents in Further Education or Training

Are you currently enrolled in an education or training program? (Question 28)

As shown in table 17, whether employed or not, approximately one-fifth (18%) of all SIAST respondents reported they were continuing their education at the time of the survey, consistent with 2012 response. The largest percentages of respondents enrolled in further education came from the Business (30%) and Community Services (28%) Divisions base programs and the Community Services Division (27%) continuing education programs followed by continuing education programs in the Business Division (25%).

Table 17: Graduates Currently Enrolled in Further Education or Training, by Division, by Base/Continuing Education, 2013

8.2 Full-time or Part-time Students

Are you attending this training primarily as a full-time or part-time student? (Question 29)

As shown in table 18, whether employed or not, 56% of all SIAST respondents reported they were enrolled as a full-time programs at the time of the survey. The largest percentages of respondents enrolled in full-time education came from the Community Services Division in both base (78%) and continuing education (64%) divisions followed by graduates from base education programs in the Business (61%) and graduate from continuing education programs in the Industrial Training Division (60%).

8.3 Type of Further Education or Training

Which type of training is it? (Question 30)

As shown in Figure 15, 48% of respondents (184 of 385) who were taking further education or training at the time of the survey were enrolled in programs at SIAST, either the same SIAST program or a different SIAST program altogether, which is consistent that reported in 2012. One-fifth of respondents continuing their education were enrolled in a university program while 12% of respondents were enrolled in an apprenticeship program. Only 7% of respondents were enrolled in a post-secondary program at another institute. Table 18 provides a breakdown of the type of training the respondents were enrolled in after graduation from SIAST by division and by base and continuing education programs.

Figure 15: Type of Further Training - SIAST Overall, 2013

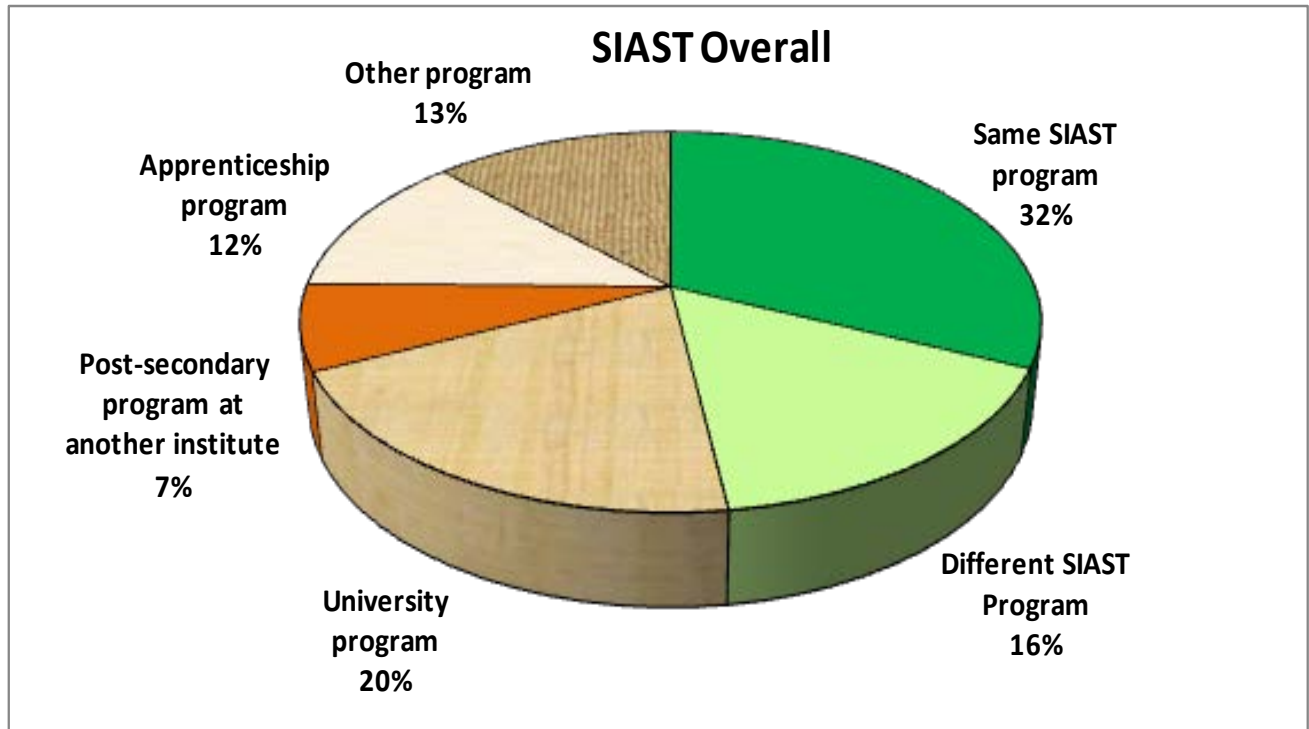

Table 19: Type of Further Training, by Division, by Base/Continuing Education, 2013

9.0 PROGRAM ASSESSMENT

Respondents were asked to assess the overall quality of the program(s) they studied at SIAST and the ability of the training to prepare them for employment.

9.1 Quality of Program

Please rate the overall quality of the training you received in your program. (Question 4)

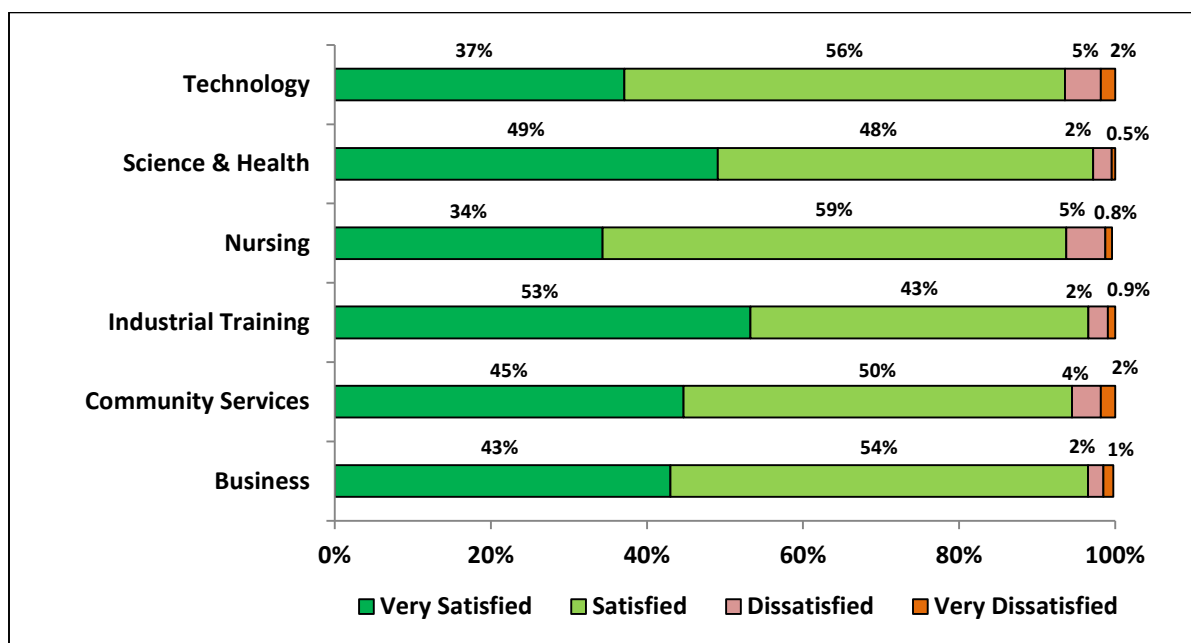

Consistent with the responses in 2012 graduate employment survey, respondents continue to feel that SIAST provides high-quality training. Approximately 96% of all SIAST respondents rated the quality of their training they received as satisfied to very satisfied (Table 20).

Table 20: Overall Quality of Training, by Base/Continuing Education, 2013

	Total Respondents	Very Satisfied	Satisfied	Dissatisfied	Very dissatisfied
Total SIAST Base Programs	1,388	42%	54%	4%	1%
Total SIAST CE Programs	756	49%	47%	2%	2%
OVERALL SIAST TOTAL	2,144	44%	51%	3%	1%

Figure 16 provides a further breakdown of quality of training indicated by respondents by division. Programs from the Science and Health and Industrial Training Divisions received the most favourable ratings of 49% and 53%, respectively, from respondents.

Figure 16: Overall Quality of Training, by Division, 2013

9.2 Training Preparedness for Employment

Please rate how well the training program prepared you for employment in your field of study. (Question 5)

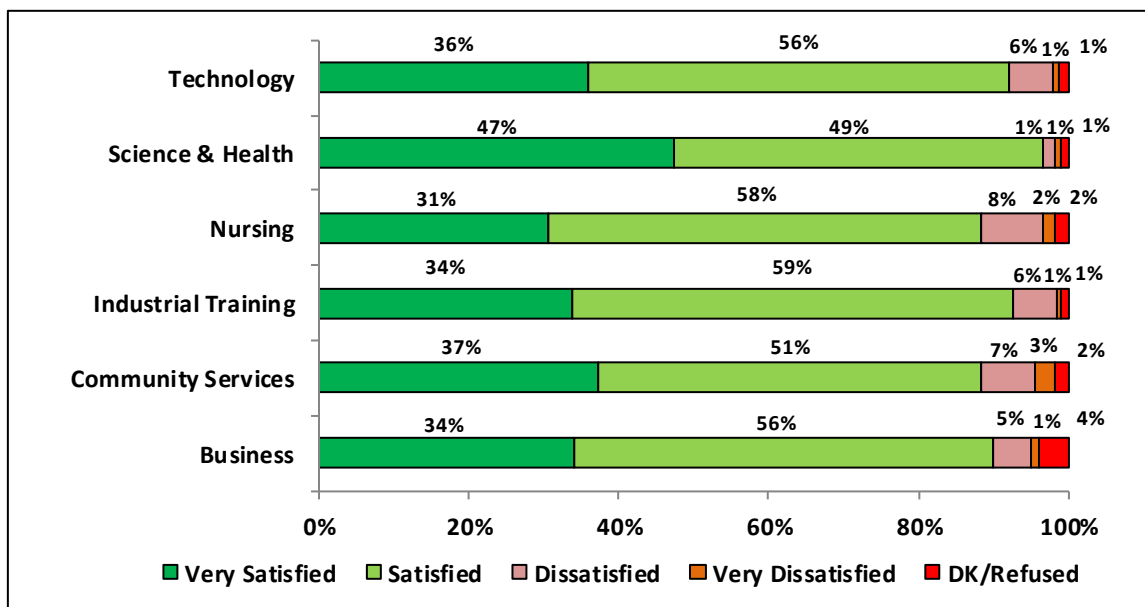

Overall, approximately 92% of respondents indicated that the ability of their training to prepare them for employment in their field of study as satisfied to very satisfied (Table 21).

Table 21: Training Prepared for Employment in Field of Study, by Base/Continuing Education, 2013

	Total Respondents	Very Satisfied	Satisfied	Dissatisfied	Very dissatisfied	DK/Refused

Figure 17 provides a breakdown of employment preparation by division. The majority of respondents in all divisions rated the training they received to prepare them for employment between satisfied to very satisfied.

Figure 17: Training Prepared for Employment in Field of Study, by Division, 2013

10.0 DEMOGRAPHICS

SIAST has a mandate to increase its equity participation both in staffing and students and to participate in the development of a workforce that is representative of the province's demographics.

10.1 Gender of all Respondents

Identify your gender. (Question 31)

SIAST-wide there continues to be more female respondents than male and the composition changes depending on the base and continuing education programs. Among respondents of base programs, the split was 43%/57% male/female, while among respondents of continuing education programs the ratio was 30%/70%, male/female (Table 22 and Figure 18). Overall, 39% of SIAST respondents were male and 61% female (Figure 19). The overall gender breakdown is closely consistent with 2012 survey findings. Gender, as with other equity factors, is a self-declaration.

Table 22: Gender, by Division, by Base/Continuing Education, 2013

	TOTAL RESPONDENTS	MALE	FEMALE
SIAST Base Programs by Division			
Business	253	27%	73%
Community Services	255	21%	79%
Industrial Training	211	88%	12%
Nursing	143	12%	88%
Science and Health	257	27%	73%
Technology	258	78%	22%
Total SIAST Base Programs	1,377	43%	57%
SIAST CE Programs by Division			
Business	146	13%	87%
Community Services	174	18%	82%
Industrial Training	106	83%	17%
Nursing	94	2%	98%
Science and Health	166	16%	84%
Technology	67	93%	7%
Total SIAST CE Programs	753	30%	70%
OVERALL SIAST TOTAL	2,130	39%	61%

Figure 18: Gender by Base/Continuing Education, 2013

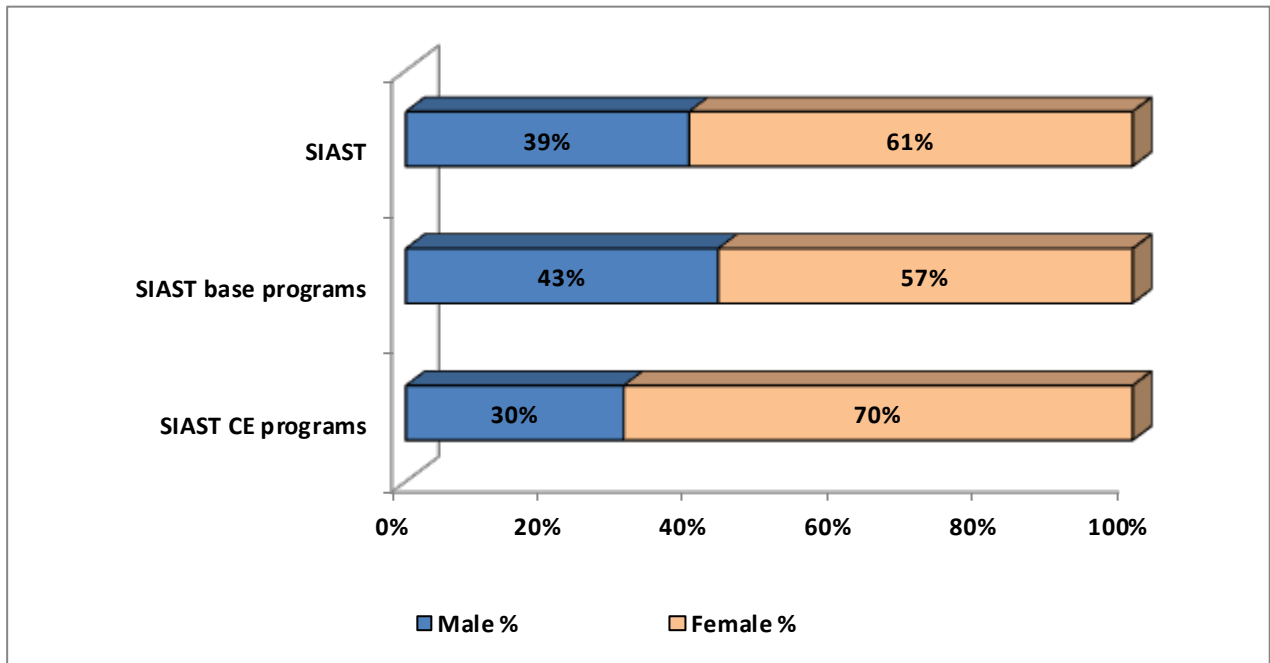

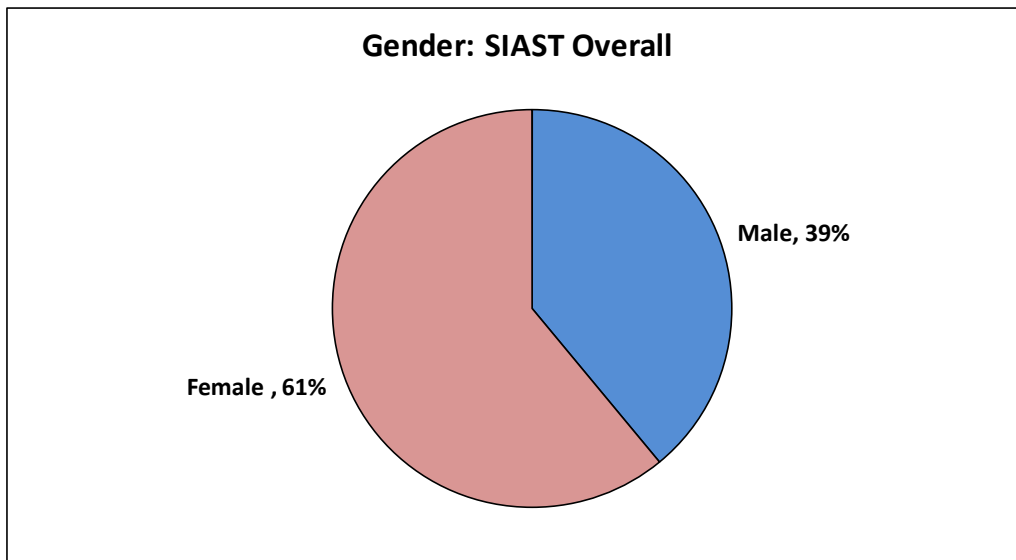

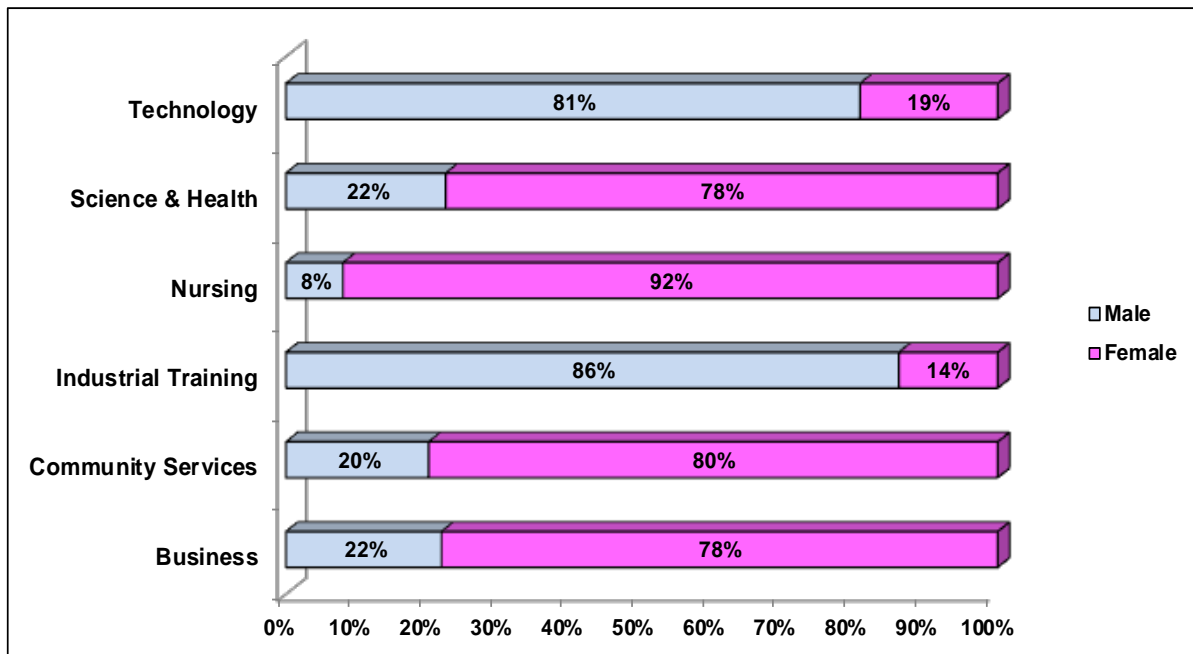

Figure 19: Gender Overall, 2013

Respondents in the Industrial Training and Technology Divisions had the largest percentage of males (86% and 81%, respectively) whereas the Nursing Division had the largest percentage of females (92%). The program mix in these three divisions was most likely a factor in the gender differences. For example, programs in the Industrial Training Division are traditionally male dominated, whereas the Nursing Division is traditionally dominated by females. About four-fifths of respondents in other divisions (Community Services (80%), Business, (78%), and Science and Health (78%) were also dominated by females.

Figure 20: Gender by Division 2013

10.2 Ages of all Respondents

How old were you on June 30, 2013? (Question 32)

As shown in Table 23, the average age of SIAST graduates was 27 years while the median age was 24 years. Respondents of continuing education programs were relatively older (with the mean and the median age at 31 and 28 years of age, respectively) than the base program respondents, whose mean and median ages were 25 and 23, respectively.

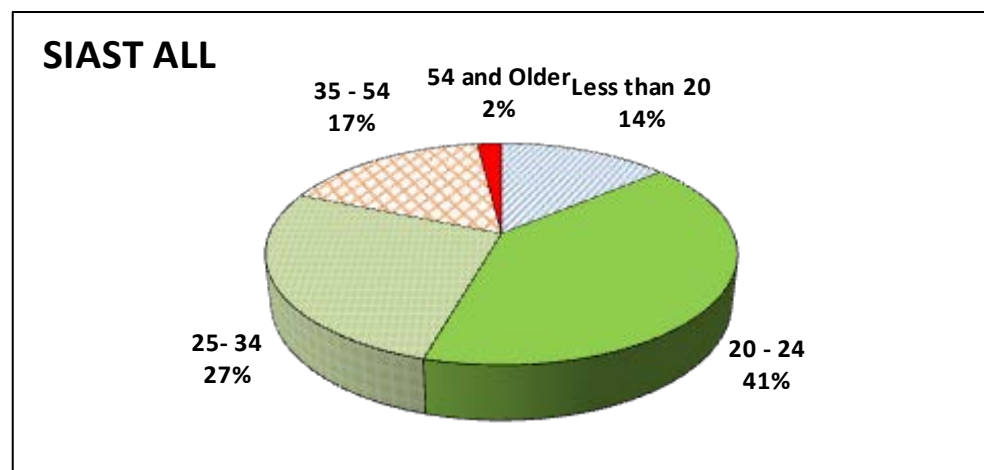

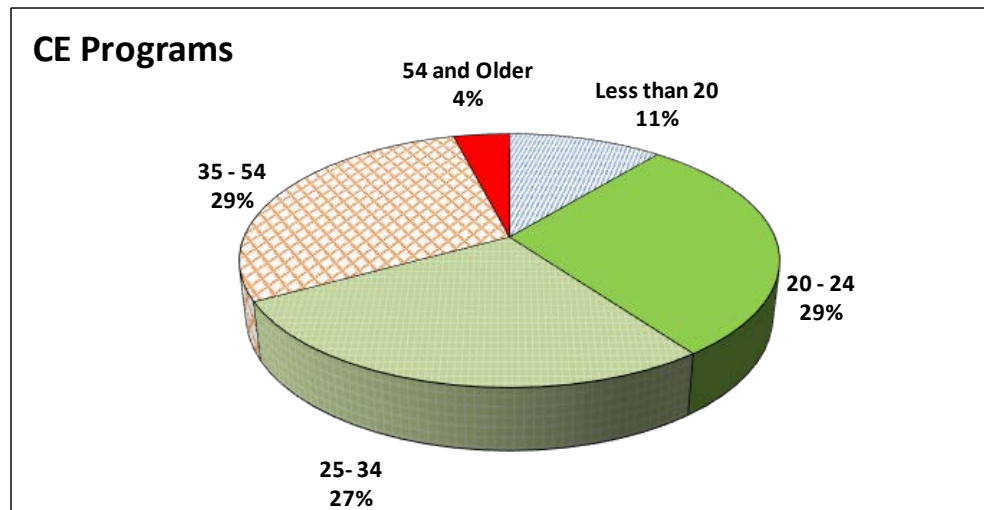

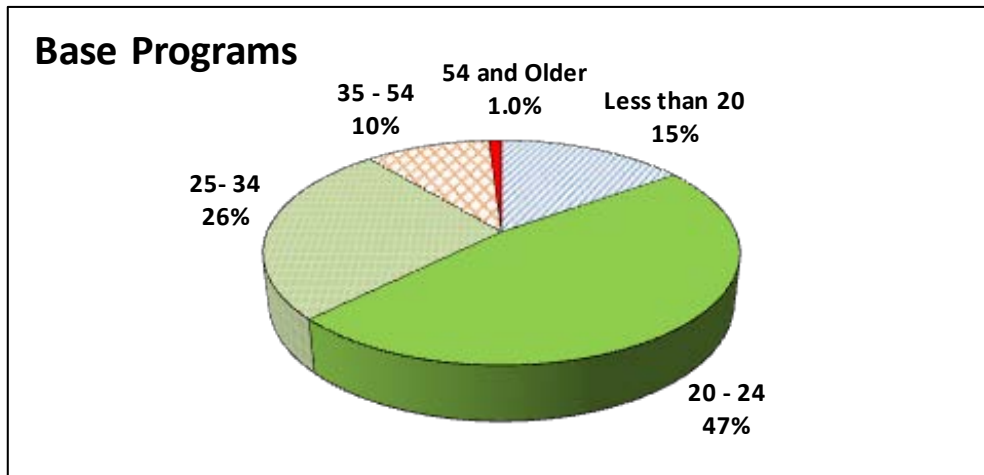

There was little diversity in the mean age of respondents in base programs except for respondents in the Nursing Division's programs whose average age was substantially higher at 32 years. This is consistent with the results in 2011 and 2012. Many participants of these programs have been out working in the field prior to returning to SIAST for additional training.

In SIAST continuing education programs, respondents in all divisions, with the exception of the Industrial Training (28 years) and Technology Division (23 years), had a mean age over 30 years. Figure 21 further illustrates the distribution, by division, of respondents by age.

Table 23: Age at June 30, 2012, by Division, by Base/Continuing Education, 2013

Figure 21: Age at June 30, 2013, by Base/Continuing Education

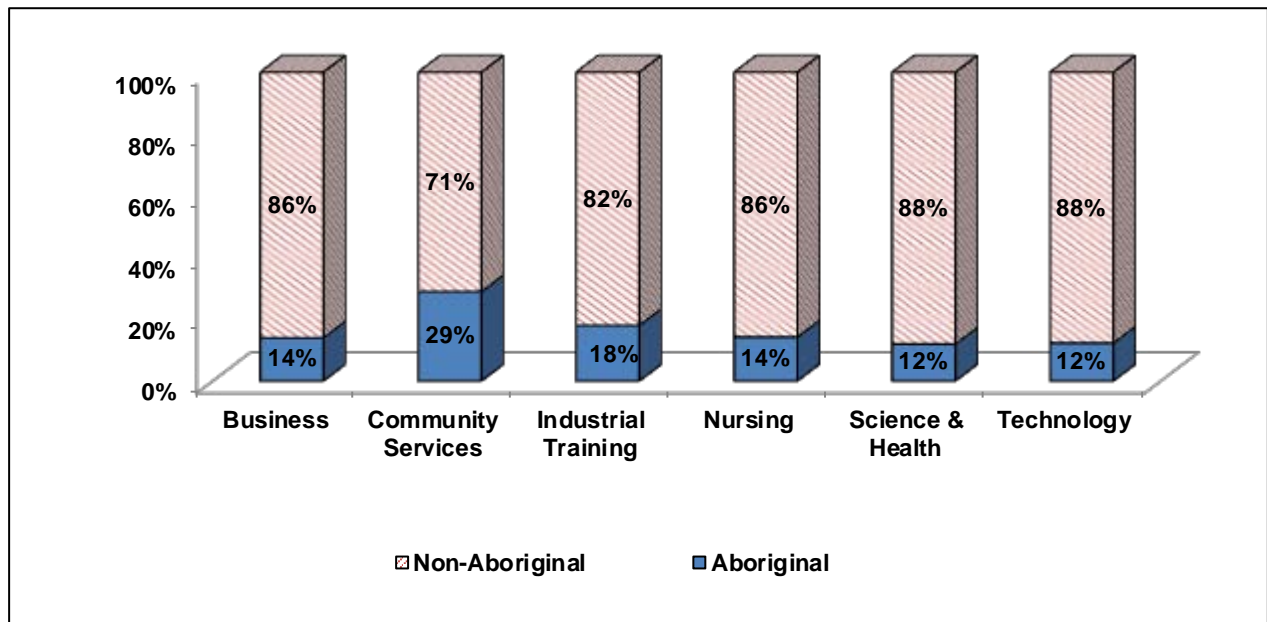

10.3 Aboriginal Ancestry

Are you of Aboriginal ancestry? (Question 33)

The definition of Aboriginal refers to those persons who are First Nations (Registered, Treaty or Status Indians), Non-status Indians, Métis and Inuit. Equity status is a self-declaration. Of the graduates who responded to the survey, 17% (361 of 2,144) indicated they were of Aboriginal ancestry, a 1% increase from 2012.

Among the divisions the Community Services Division had the highest percentage of respondents (29%) declaring Aboriginal ancestry, followed by the Industrial Training Divisions (18%). Figure 22 illustrate the percentage of Aboriginal and non-Aboriginal respondents in each division.

Figure 22: Aboriginal Ancestry Identification, by Division, 2013

Aboriginal Category

*Do you consider yourself Status/Treaty Indian, Métis, Non-Status Indian or Inuit?
(Questions 34)*

Out of the 362 students who self-declared as of Aboriginal ancestry, only 361 indicated their ancestry type. Forty-four percent of those who responded to this question on ancestry type indicated they were Status/Treaty Indian, 50% as Métis, while the Non-Status group made up 6%. Table 24 provides a breakdown of the Aboriginal status of SIAST graduates by division for both base and continuing education programs.

10.4 Visible Minority Declaration

Do you consider yourself a member of a visible minority? (Question 35)

Respondents were given the opportunity to identify if they were members of a visible minority. The definition of visible minority includes those who are visibly distinguishable from the majority of Canadians on the basis of race or ethnic origin. It does not include those declaring Aboriginal ancestry. As shown in Table 25 visible minority represents 12% of total respondents, a 3% decrease over 2012.

10.5 Persons with Disabilities Declaration

Do you consider yourself a person with a disability? (Question 35)

Respondents were given the opportunity to indicate if they were a person with a disability. The definition of a person with a disability includes any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

Consistent with the 2012 survey, 6% of respondents indicated that they had a disability. Higher percentage of disabled respondents was found in continuing education programs in the Industrial Training Division both base and continuing education programs in the Industrial Training Division.

APPENDICES

APPENDIX A: PROGRAM CHANGES

Revisions to the following programs were recently approved. Some revisions were effective immediately and other revisions not effective until the 2012-13 academic year.

DIVISION/PROGRAM NAME	CHANGE
Community Services Division	
Indigenous Peacekeeping Applied Certificate	Implementation proposal effective July 2012
Retail Customer Service Applied Certificate	Implementation proposal effective April 2012
Industrial Training Division	
Advanced Heavy Equipment Operator (Mining) Applied Certificate	Program deleted as of March 2012
Fabrication – Welder Certificate	Program Implementation proposal effective July 2012
Advanced Heavy Equipment Operator – Mining	Program deleted effective March 2012
Nursing Division	
Psychiatric Nursing Re-entry Applied Certificate	Program suspended effective July 2012
Science and Health Division	
Biotechnology Diploma	Program title change to BioScience Technology effective July 2012
Technology Division	
Mining Engineering Technology Diploma	Program implementation proposal effective July 2012
Electronics Engineering Technology Diploma	Program deleted effective July 2012
Forest Ecosystem Technology	Program suspension of the first year intake, effective July 2012.

Employment Information – If you are presently employed, complete Q11-21. If not, go to Q22

Q11 Are you self-employed? Yes No

Q12 Are you employed in a job directly related to the education and training you received in your program at SIAST? Yes No

Q13 How many jobs do you currently have? (Enter 0 if you are not employed in a particular category)
 # of Training Related Jobs # of Non-training Related Jobs

INSTRUCTIONS FOR QUESTIONS 14 to 21: ALL GRADUATES WHO ARE CURRENTLY EMPLOYED RESPOND TO Q14 TO Q21.

- For those respondents who are employed in more than one training related job, provide your answers based on the one you consider to be your 'primary job'.
- For those respondents who are not employed in a training related job, provide your answer based on the non-training related job you consider to be your 'primary' job.

Q14 What is the title of your primary training related job? (If you do not have a training related job, provide the title of your primary non-training related job)

Title of primary training related job

Title of primary non-training related (Do not have a training related job)

Q15 What is your employment status in your primary training related job? (If you do not have a training related job, provide the employment status of your primary non-training related job)

Permanent Full-time (30 hours or more per week)

Non-permanent full-time

Permanent Part-time (less than 30 hours per week)

Non-permanent part-time

Casual

Q16 If your primary job is a part-time or casual position, is this by choice?

Yes No Not Applicable

Q17 What is the hourly salary of your primary training related job, before deductions? (If you do not have training related job, provide your salary for your primary non-training related job)

\$ /hour

If your hourly rate is unknown, provide an average monthly salary \$ /month

Q18 Where is the location of your primary training related employment? (If you do not have a training related job, provide the location of employment for your primary non-training related job)

Moose Jaw Prince Albert Regina Saskatoon

Other Saskatchewan location, please specify nearest community

Outside Saskatchewan, please specify province, or country

Q19 If employment was found outside of Saskatchewan, was this by choice?

Yes No Not applicable (**GO TO Q21**)

Q20 Indicate the **main** reason why you moved out-of-province for employment (**SELECT ONLY ONE**)

More employment opportunities Better wages and benefits

Personal Reasons Other, specify

Q21 Select the option below that **best** describes which industry sector the employer for your primary training related employment operates in. (If you do not have a training related job, provide the industry sector the employer for your primary non-training related position operates in) **(SELECT ONLY ONE)**

- Biotechnology, Pharmaceuticals or Nutraceuticals
- Health
- Business and Professional services
- Hospitality and Tourism
- Construction
- Human/Social Services and Justice
- Education Services
- Manufacturing (includes agri-value)
- Film, Video, Multi-media, Printing and Publishing
- Natural Resources and Environment
- Finance, Insurance, Real estate
- Retail and Wholesale
- Government Services/Public Administration
- Technology Electronics Communications
- Transportation, Trucking, and Heavy Equipment (includes aviation and automotive/autobody service)
- Other, specify

(CONTINUE TO Q28)

Graduates Not Employed – If you are NOT currently employed, complete Q22-27.

Q22 Which of the following **best** describes the reason why you are currently not employed? **(SELECT ONLY ONE)**

- Returned for further education
- Lack of experience
- Quit employment or lost desire to work in field
- Laid off by employer (includes term or seasonal work)
- No employment opportunities
- Personal reasons

Q23 Have you worked at all since completing your training program (includes part-time or casual positions)?

- Yes No **(GO TO Q25)**

Q24 If yes, was the most recent work directly related to the education and training you received in your program?

- Yes No

Q25 Are you scheduled to return to work in the future?

- Yes No

Q26 Are you actively looking for work at present?

- Yes **(GO TO Q29)** No

Q27 If no, which of the following best describes your reason for not looking for work?

- Returned for further education
- Given up looking - no employment opportunities
- Personal reasons (i.e., not available to work due to family, health etc.)

(CONTINUE TO Q28)

Further Education – ALL graduates to complete Q28 to Q30, whether presently employed or not

Q28 Are you currently enrolled in an education or training program?

Yes No (**GO TO Q31**)

Q29 Are you attending this training primarily as a full-time or part-time student?

Full-time Part-time

Q30 Which type of training is it? (**SELECT ONLY ONE**)

- The same SIAST program (different credential)
- A post-secondary program at another institute (not university)
- A different SIAST program
- An apprenticeship program
- A university program
- Other program, specify _____

Q31 Identify your gender

Male Female

Q32 How old were you on June 30th, 2013? _____

Q33 Are you of Aboriginal ancestry?

Yes No (**GO TO Q35**)

Q34 If YES, do you consider yourself?

- Status/Treaty Indian
- Metis
- Non-Status Indian
- Inuit

Q35 Do you consider yourself a member of a visible minority? Yes No

The definition of a visible minority is: A group of persons, with the exception of Aboriginal people, who are visibly distinguishable from the majority of Canadians on the basis of race, religion, and skin colour, national or ethnic origin.

Q36 Do you consider yourself a person with a disability? Yes No

The definition of a person with a disability is: any person with an ongoing physical, mental, psychiatric, learning or sensory disability that is caused by bodily injury, birth defect or illness.

Please add any additional comments that you wish to make:

APPENDIX C: 2013 SIAST GRADUATE EMPLOYMENT SURVEY – TOTAL RESPONSES PER QUESTION

The total number of graduates responding to each question varied because:

- a) Respondents did not always provide answers to all questions and/or
- b) Some questions were not relevant to all respondents.

Due to their nature, some questions do not report the number of respondents (e.g., Q1.).

	Number of Graduates Surveyed:	3,498
	Number of Respondents:	2,144
Q1.	What is the name of the program from which you graduated?	
		# Of Respondents to Question
Q2.	What is the name of the credential that you received?	
	Applied Certificate	281
	Certificate	1,182
	Advanced Certificate	82
	Diploma	<u>599</u>
		2,144
Q3.	At which SIAST campus or regional college did you take your program?	
	Kelsey	718
	Palliser	436
	Wascana	620
	Woodland	<u>370</u>
		2,144
Q4.	How satisfied were you with the overall quality of training you received in your program	
	Very Satisfied	948
	Satisfied	1,099
	Dissatisfied	69
	Very Dissatisfied	26
	Don't Know/Refused	<u>2</u>
		2,144
Q5.	Based on the training you received, how satisfied were you with your preparation for employment in your field	
	Very Satisfied	796
	Satisfied	1,166
	Dissatisfied	115
	Very Dissatisfied	28
	Don't Know	<u>39</u>
		2,144
Q6.	Were you already employed in your field of study prior to enrolling at SIAST?	
	Yes	416
	No	<u>1,649</u>
		2,144
Q7.	How many employment opportunities have you applied for since completing your training program?	
	Have not applied for any jobs since completing training	416
	Have applied for jobs since completing training	<u>1,728</u>
		2,144

Q8.	Why have you not applied for any employment opportunities?	
	Already employed in field of study	183
	Offered employment during practicum	62
	Personal reasons	51
	Other, specify	<u>121</u>
		417
Q9	How many employment interviews have you had?	2,137
Q10.	Are you presently employed?	
	Yes	1,880
	No	<u>2648</u>
		2,144

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE PRESENTLY EMPLOYED

Q11.	Are you self-employed?	
	Yes	67
	No	<u>1,813</u>
		1,880
Q12.	Are you employed in a job directly related to the education and training you received in your program at SIAST?	
	Yes	1,585
	No	<u>295</u>
		1,880
Q.13	How many jobs do you currently have?	
	Maximum	7
	Mean	1.11
	Median	1.00
Q14.	What is the title of <u>primary</u> (main) job?	
Q15.	What is your employment status of your <u>primary</u> job? (Select only one)	
	Permanent Fulltime (30 hours or more per week)	1,251
	Permanent Part-time (less than 30 hours per week)	215
	Non-permanent full-time (i.e. term contract, seasonal)	156
	Non-permanent part-time (i.e. term contract, seasonal)	53
	Casual	<u>200</u>
		1,875

Q16.	If your <u>primary</u> job is a part-time or casual position, is this by choice?	
	Yes	275
	No	<u>193</u>
		468
Q17.	What is your average monthly salary of your <u>primary</u> job, before deductions? (Salary analyzed for Full-Time Training-Related Employment only)	
	Maximum	\$12,000
	Mean	\$3,505
	Median	\$3,150
	Minimum	\$1,500
Q18.	Where is the location of your <u>primary</u> employment? (Select only one)	
	Moose Jaw	91
	Prince Albert	127
	Regina	492
	Saskatoon	476
	Other Saskatchewan location	605
	Outside Saskatchewan	<u>78</u>
		1,869
Q19.	If <u>primary</u> employment was found outside of Saskatchewan, was this by choice?	
	Yes	69
	No	<u>9</u>
		78
Q20.	Please indicate the primary reason why you moved out-of-province for employment. (Select only one)	
	More employment opportunities	8
	Better wages and benefits	11
	Personal reasons	29
	Other reasons	<u>21</u>
		69
Q21.	Please select the option that best describes which industry sector your primary employer operates in. (Select only one)	
	Biotechnology, Pharmaceuticals or Nutraceuticals	12
	Business and Professional Services	111
	Construction	183
	Education Services	131
	Film, Video, Multi-media, Printing and Publishing	17
	Finance, Insurance, Real Estate	38
	Government Services/Public Administration	62
	Health	615
	Hospitality and Tourism (includes casinos)	56
	Human/Services and Justice	68
	Manufacturing (includes metal fabrication, agri-value and food processing)	88
	Natural Resources and Environment (includes agriculture, forestry, mining, oil and gas)	113
	Retail and Wholesale	48
	Technology, Electronics and Telecommunications	74
	Transportation, Trucking and Heavy Equipment (includes aviation and automotive/ body services)	100
	Other, Specify	<u>150</u>
		1,866

RESPONSES TO QUESTIONS FOR THOSE THAT INDICATED THEY WERE NOT PRESENTLY EMPLOYED

Q22.	Which of the following best describes your reason for not looking for work? (Select only one)	
	Returned for further education	110
	Quit employment or lost desire to work in field	7
	No employment opportunities	45
	Lack of experiences	21
	Laid off by employer	28
	Personal reasons	<u>53</u>
		264
Q23.	Have you worked at all since completing your training program (includes part-time or casual positions)?	
	Yes	177
	No	<u>87</u>
		264
Q25.	If yes, was the most recent work directly related to the education and training you received in your program?	
	Yes	108
	No	<u>69</u>
		177
Q26.	Are you scheduled to return to work in the future?	
	Yes	135
	No	<u>129</u>
		264
Q27.	Are you actively looking for work?	
	Yes	149
	No	<u>115</u>
		264
Q28.	If no, which of the following best describe your reason for not looking for work?	
	Returned for further education	74
	Given up looking – no employment opportunities	6
	Personal reasons	<u>35</u>
		115

RESPONSES TO QUESTIONS ON FURTHER EDUCATION FROM ALL RESPONDENTS

Q29.	Are you currently enrolled in an education or training program?	
	Yes	385
	No	<u>1,745</u>
		2,130
Q30.	Which type of training is it? (Select only one)	
	The same SIAST program (different credential)	122
	A different SIAST program	62
	A post-secondary program at another institute (other than university)	28
