Notes:

1. Given a student can be enrolled in more than one level of training in an academic year, the number of distinct students enrolled in programs overall may be less than the sum of the program headcount enrolment totals.
2. Full load equivalent (FLE) reports a student's 'full-load' activity based on the total number of credits/hours they attend, relative to the number of credits/hours that would normally be assigned a full-time learner over the academic year. The overall FLE represents all activity at Saskatchewan Polytechnic and is inclusive of both students who are enrolled in programs and/or registered in individual courses. FLE is calculated based on a standard divisor of 45 credit units for post-secondary training and 700 hours for secondary training (Basic Education).
3. Original addendum release reported 16 brokered enrolments, under base delivery. These enrolments are attributed to the Saskatchewan Collaborative Bachelor of Science in Nursing (SCBScN) program that has a program delivery option in Swift Current. While the training physically takes place at Great Plains College, it is not brokered activity and is jointly delivered by the University of Regina and Saskatchewan Polytechnic. These enrolments have been rolled into Saskatchewan Polytechnic's base delivery. Revision Date: May 18, 2016.
4. Official student records for the SCBScN program are managed by the University of Regina. Based on data shared by the U of R, there were 1,280 SCBScN enrolments entered in Saskatchewan Polytechnic's student information system. These students have been reported as full-time program enrolment; however, the actual attendance status of these students is not known, given the University of Regina manages the detailed enrolment records. Similarly, full load equivalent data for the SCBScN program is not reportable from Sask Polytech student information systems and is not included in above FLE totals. In the event of a headcount discrepancy, U of R enrolment numbers are to be used as the official record.
