## Introduction

The Saskatchewan Polytechnic *Graduate Employment Survey: School and Program Summaries* report is based on data collected from the institution's Graduate Employment Survey (GES). This annual survey includes questions about topics such as program assessment and satisfaction with training, characteristics of employment, reasons for not working, and further education and training.

Saskatchewan Polytechnic is driven by its pursuit of excellence in program quality and innovation as well as its commitment to making successful careers possible. Feedback from the GES provides valuable information about the quality of training and success of Saskatchewan Polytechnic graduates in the labour market. A wide range of stakeholders – Saskatchewan Polytechnic management, government, high school students and career counsellors, labour analysts, and policy administrators – use the Graduate Employment Report as a reference document for program and labour market review and planning. The Institutional Research and Analysis (IR&A) unit at Saskatchewan Polytechnic undertook the survey on behalf of the institution.

## Scope

In this round of the GES, invitations to participate were sent to 3,698 graduates who completed a Saskatchewan Polytechnic program between July 1, 2014 and June 30, 2015.<sup>1</sup> Saskatchewan Polytechnic had graduates from over 120 distinct programs in 2014-15. Many programs are offered off-campus throughout the province and are considered continuing education programs. Saskatchewan Polytechnic continuing education programs are generally cost-recovery and are offered in a variety of delivery formats: with partners, via distance education learning, and in industry-based training formats.

Academic programs were organized into 11 schools for 2014-15.<sup>2</sup> Most Saskatchewan Polytechnic programs are certificate or diploma programs, which award one of the following four credentials: applied certificate, certificate, advanced certificate, and diploma.<sup>3</sup> In some instances a program may have both a certificate and diploma level exit credential. Saskatchewan Polytechnic continually reviews its programs to ensure they are current. Over time, programs may be deleted, re-titled or re-credentialed.<sup>4</sup> If a program is deleted, students are permitted to complete their program and graduate.

## Methodology

The Graduate Employment Survey is voluntary and survey responses are kept confidential and reported in aggregate only. The voluntary nature of the survey and Saskatchewan Polytechnic's commitment to confidentiality was explained in communication with graduates. Data collection took place between December 2015 and April 2016. A tri-modal data collection process – online, telephone, and hardcopy – was employed. In December, a letter explaining the purpose of the survey along with the survey questionnaire was mailed to graduates. A link to the online version was included in the invitation letter

---

<sup>1</sup> The Faculty Certificate program and overseas contract programs are excluded. Furthermore, Saskatchewan Polytechnic does not survey graduates of the Collaborative Nurse Practitioner Program or the Saskatchewan Collaborative Bachelor of Science in Nursing (SCBScN) program.

<sup>2</sup> For more information on Saskatchewan Polytechnic's schools model, visit <http://saskpolytech.ca/about/about-us/schools-model.aspx>

<sup>3</sup> In the 2014-15 academic year, there were 15 graduates from the Business Management post-graduate certificate program and one graduate from the Bachelor of Psychiatric Nursing degree program.

<sup>4</sup> For details visit the Program Update page at <http://saskpolytech.ca/programs-and-courses/browse-programs/program-updates.aspx>

and graduates were encouraged to complete the survey online. Invitation letters were followed by e-mail invitations containing the link to the online survey.

Insightrix Research Inc. of Saskatoon was contracted to conduct one-on-one telephone interviews with graduates who did not respond to the mail-out questionnaires or e-mail invitations. Every effort was made to contact each graduate in order to provide the highest possible response rate. Participants were entered into a draw to win one of four \$250, pre-paid MasterCard as well as three early bird draws of either an iPod Nano or digital camera to encourage them to participate in the study.

Online responses were collected using a secure web-based survey tool. Responses received in the mail (paper version) were entered by IR&A staff. IR&A continues to work toward getting a greater number of graduates to complete the survey online. Responses from the different methods of surveying were merged, checked for consistency and accuracy, and analyzed using IBM SPSS Statistics software.

## **Response Rate and Validity of Results**

In total, 2,287 graduates participated in the GES, for an overall response rate of 62%. The response rates for the two past rounds of the survey (2013-14 graduates and 2012-13 graduates) were 60% and 61% respectively. Table 1 provides response rates for Saskatchewan Polytechnic overall and by school.

Rather than surveying a sample of 2014-15 graduates, a full census of graduates is undertaken. Saskatchewan Polytechnic offers 177 credit programs at four urban campuses and several rural locations. Some programs have fewer than 30 graduates, making it impossible to survey a sample of the graduates and obtain meaningful results at the individual program level.

For populations with fewer than 30 participants, which is the case with many programs, it is recommended that all participants are surveyed in order to obtain reliable information. At the program level, the results provide a good indication of graduate success and training quality, but may not be representative of all graduates of that program if the total number of graduates is less than 30 and only a small portion respond. Every effort was made to contact all graduates and encourage participation. When viewing program summaries with fewer than 30 graduates and a low response rate (less than 30%), generalizations of results should be made with caution.

## **Reporting of Results**

The next section of the report contains a copy of the survey questionnaire and a glossary of terms. The bulk of the report is a series of one page summaries of survey results. Results for Saskatchewan Polytechnic as a whole are followed by a section for each school. Each school section contains results at the school level, followed by a one page summary for programs. Individual program pages were not prepared for programs with less than four respondents. However, these responses are included in aggregated results.

## Graduate Employment Survey Questionnaire

Saskatchewan Polytechnic values your feedback. Please complete the questionnaire based on your experience as a recent graduate of the <Program\_Name Credential> program.

**Q1** How satisfied are you with the overall quality of training you received in your program?

Very Satisfied    Satisfied    Dissatisfied    Very Dissatisfied    Don't Know

**Q2** Provide any comments on the quality of training or what Sask Polytech could do to improve the training.

---

---

**Q3** Based on the training you received, how satisfied are you with your preparation for employment in your field of study?

Very Satisfied    Satisfied    Dissatisfied    Very Dissatisfied    Don't Know

**Q4** Provide any comments you have on the ability of the program to prepare you for employment in your field of study or what Sask Polytech might do to improve preparation.

---

---

**Q5** Were you already employed in your field of study prior to enrolling at Saskatchewan Polytechnic?

Yes    No

**Q6** How many employment opportunities have you applied for since completing your training program?

\_\_\_\_\_ (if none, enter 0)

**Q7** If none, why have you not applied for any employment opportunities?

Already employed in field of training while enrolled in program

Offered employment during practicum

Returned for further education

Personal reasons

Other, please specify \_\_\_\_\_

**Q8** How many employment interviews have you had? \_\_\_\_\_

**Q9** Are you presently employed?    Yes (**continue to Q10**)    No (**go to Q20**)

---

**Employment Information – If you are presently employed, complete Q10 to 19. If not, go to Q20**

---

**Q10** Are you self-employed?       Yes       No

**Q11** Are you employed in a job directly related to the education and training you received in your program at Sask Polytech?       Yes       No

**Q12** How many jobs do you currently have? (enter 0 if you are not employed in a particular category)  
# of Training related jobs \_\_\_\_\_ # of Non-training related jobs \_\_\_\_\_

**For Q13 to Q19:**

**If you have more than one job, provide answers based on the one you consider to be your 'primary job'**

**Q13** Is your primary job training related?       Yes       No

**Q14** What is the title of your primary job? \_\_\_\_\_

**Q15** What is the employment status of your primary job?

Permanent Full-time (30 hours or more per week)       Non-permanent full-time  
 Permanent Part-time (less than 30 hours per week)       Non-permanent part-time  
 Casual

**Q16** If your primary job is a part-time or casual position, is this by choice?

Yes       No       Not applicable

**Q17** What is the gross hourly wage (i.e., wage before deductions) of your primary job?

\$ \_\_\_\_\_ /hour    If your hourly wage is unknown, provide an average gross monthly salary \$ \_\_\_\_\_ /month

**Q18** What is the location of your primary employment?

Moose Jaw       Prince Albert       Regina       Saskatoon  
 Other Saskatchewan location, please specify \_\_\_\_\_  
 Outside Saskatchewan, please specify province or country \_\_\_\_\_

**Q19** If you are employed outside of Saskatchewan, indicate the **main** reason why you moved out of province for employment (**select one**)

More employment opportunities       Better wages and benefits  
 Personal Reasons       Other, please specify \_\_\_\_\_

---

**Graduates Not Employed – If you are not currently employed, complete Q20 to Q25**

---

**Q20** Which of the following **best** describes the reason why you are currently not employed? (**select one**)

- Returned for further education                       Lack of experience  
 Quit employment or lost desire to work in field     Laid off by employer (includes term or seasonal work)  
 No employment opportunities                       Personal reasons

**Q21** Have you worked at all since completing your training program (includes part-time or casual positions)?

- Yes     No (**go to Q23**)

**Q22** If yes, was the most recent work directly related to the education and training you received in your program?

- Yes     No

**Q23** Are you scheduled to return to work in the future?     Yes     No

**Q24** Are you actively looking for work at present?     Yes (**go to Q26**)     No

**Q25** If no, which of the following best describes your reason for not looking for work?

- Returned for further education                       Given up looking - no employment opportunities  
 Personal reasons                       Other, please specify \_\_\_\_\_

---

**Further Education – ALL graduates to complete Q26 to Q28**

---

**Q26** Are you currently enrolled in an education or training program?     Yes     No (**go to Q29**)

**Q27** Are you attending this training as a full-time or part-time student?     Full-time     Part-time

**Q28** Which type of training is it? (**select one**)

- Same Sask Polytech program (different credential)                       Apprenticeship program  
 Post-secondary program at another institute (not university)                       University program  
 Different Sask Polytech program                       Other program, please specify \_\_\_\_\_  
\_\_\_\_\_

---

**Student Debt – ALL graduates to complete Q29 to Q31**

---

**Q29** Did you incur debt to help finance your education at Sask Polytech?     Yes     No (**go to Q32**)

**Q30** Approximately how much repayable debt from the following sources did you incur to help finance your education at Saskatchewan Polytechnic? (specify amount in dollars)

Government student loans	\$ _____	Loans from parents or family	\$ _____
Loans from financial institutions	\$ _____	Debt from other sources	\$ _____
Credit card debt	\$ _____		

**Q31** How many years after graduation do you think it will take to repay this student debt?

<input type="checkbox"/> Less than 1 year	<input type="checkbox"/> 4 to 7 years	<input type="checkbox"/> More than 11 years
<input type="checkbox"/> 1 to 3 years	<input type="checkbox"/> 8 to 11 years	<input type="checkbox"/> Don't know

---

**Demographics**

---

**Q32** At which Sask Polytech campus or location did you take your program?

<input type="checkbox"/> Moose Jaw Campus	<input type="checkbox"/> Regina Campus	<input type="checkbox"/> Other location, please specify:
<input type="checkbox"/> Prince Albert Campus	<input type="checkbox"/> Saskatoon Campus	_____

**Q33** Gender:

Female     Male    I prefer to identify as: \_\_\_\_\_

**Q34** Age:

<input type="checkbox"/> Under 19	<input type="checkbox"/> 25 to 29	<input type="checkbox"/> 40 and over
<input type="checkbox"/> 19 to 24	<input type="checkbox"/> 30 to 39	<input type="checkbox"/> Prefer not to say

**Q35** Do you consider yourself to be (select all that apply):

Aboriginal     Visible Minority     Person with a disability     Prefer not to say

**Q36** If you identify as Aboriginal, do you consider yourself:

Status/Treaty Indian     Metis     Non-Status Indian     Inuit

**Q37** Citizenship status (select one):

<input type="checkbox"/> Canadian Citizen	<input type="checkbox"/> Student Visa	<input type="checkbox"/> Prefer not to say
<input type="checkbox"/> Permanent Resident	<input type="checkbox"/> Refugee	

**Do you have additional comments regarding your training or employment experience as a recent graduate?**

**Thank-you for taking the time to complete the survey!**

## Glossary of Terms

This glossary includes terms related to the Graduate Employment Survey and this report. For a more comprehensive glossary of Saskatchewan Polytechnic terminology, visit <http://saskpolytech.ca/about/about-us/glossary.aspx>.

**Available Workforce:** The number of employed graduates plus the number of graduates who are not employed but looking for work (excludes graduates who are pursuing further education as full-time students).

**Base Programs:** Base programs are administered by program heads and delivered on a regular basis, usually at a Saskatchewan Polytechnic campus. They may be contracted, core funded, or revenue generating.

**Continuing Education Programs:** Continuing education programs are credit programs administered by continuing education consultants, and are often delivered off-campus. They are generally revenue generating (including contracted, sponsored, etc.).

**Distance Education:** Distance education denotes training that is delivered remotely, through home study, televised or online delivery.

**Employment Rate:** The number of employed graduates expressed as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

**Full-Time Employment Rate:** The number of graduates employed full-time as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

**Full-Time Training-Related Employment Rate:** The number of graduates employed full-time in a position directly related to training, expressed as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

**Program:** A program is represented by a defined set of credit courses and other requirements leading to a graduation credential in a specific field of study.

**School:** An administrative unit comprised of similar academic programs.

**Schools Model:** The schools model is a way to organize full-credit academic programs. For more information about Saskatchewan Polytechnic's school model, visit <http://saskpolytech.ca/about/about-us/schools-model.aspx>.

**Training-Related Employment Rate:** The number of graduates employed in a position directly related to training, expressed as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

#### Source: Graduate Employment Survey

(2014-15 graduates were surveyed between Dec 2015 and Apr 2016.)

#### Notes:

- 'n' is the number of respondents to the survey question.
- 1. Percentages are employment rates. The employment rate is the number of employed graduates expressed as a percentage of all graduates who are available for work. Available for work refers to the number of employed graduates plus those who are not employed but looking for work (excludes those pursuing further education full-time).
- 2. Not employed but looking for work.
- 3. Not employed and not looking for work.
- 4. Full-time training-related employment.
- 5. Training-related employment.
- 6. Training-related and non-training-related employment.

**Source: Graduate Employment Survey**

(2014-15 graduates were surveyed between Dec 2015 and Apr 2016.)

**Notes:**

- 'n' is the number of respondents to the survey question.
- 1. Percentages are employment rates. The employment rate is the number of employed graduates expressed as a percentage of all graduates who are available for work. Available for work refers to the number of employed graduates plus those who are not employed but looking for work (excludes those pursuing further education full-time).
- 2. Not employed but looking for work.
- 3. Not employed and not looking for work.
- 4. Full-time training-related employment.
- 5. Training-related employment.
- 6. Training-related and non-training-related employment.

### Example(s) of Training-Related Employment

Apprentice plumber

### Source: Graduate Employment Survey

(2014-15 graduates were surveyed between Dec 2015 and Apr 2016.)

### Notes:

- 'n' is the number of respondents to the survey question.
1. Percentages are employment rates. The employment rate is the number of employed graduates expressed as a percentage of all graduates who are available for work. Available for work refers to the number of employed graduates plus those who are not employed but looking for work (excludes those pursuing further education full-time).
2. Not employed but looking for work.
3. Not employed and not looking for work.
4. Full-time training-related employment.
5. Training-related employment.
6. Training-related and non-training-related employment.

(2014-15 graduates were surveyed between Dec 2015 and Apr 2016.)

**Notes:**

- 'n' is the number of respondents to the survey question.
- 1. Percentages are employment rates. The employment rate is the number of employed graduates expressed as a percentage of all graduates who are available for work. Available for work refers to the number of employed graduates plus those who are not employed but looking for work (excludes those pursuing further education full-time).
- 2. Not employed but looking for work.
- 3. Not employed and not looking for work.
- 4. Full-time training-related employment.
- 5. Training-related employment.
- 6. Training-related and non-training-related employment.

Registered Nurse

**Source: Graduate Employment Survey**

(2014-15 graduates were surveyed between Dec 2015 and Apr 2016.)

**Notes:**

- 'n' is the number of respondents to the survey question.
- 1. Percentages are employment rates. The employment rate is the number of employed graduates expressed as a percentage of all graduates who are available for work. Available for work refers to the number of employed graduates plus those who are not employed but looking for work (excludes those pursuing further education full-time).
- 2. Not employed but looking for work.
- 3. Not employed and not looking for work.
- 4. Full-time training-related employment.
- 5. Training-related employment.
- 6. Training-related and non-training-related employment.

Auto Body Technician

#### Source: Graduate Employment Survey

(2014-15 graduates were surveyed between Dec 2015 and Apr 2016.)

#### Notes:

- 'n' is the number of respondents to the survey question.
1. Percentages are employment rates. The employment rate is the number of employed graduates expressed as a percentage of all graduates who are available for work. Available for work refers to the number of employed graduates plus those who are not employed but looking for work (excludes those pursuing further education full-time).
2. Not employed but looking for work.
3. Not employed and not looking for work.
4. Full-time training-related employment.
5. Training-related employment.
6. Training-related and non-training-related employment.
