Notes:

1. Given a student can be enrolled in more than one program or level of training in an academic year, the number of distinct students may be less than the sum of the program enrolment totals. Further, as students may have attended more than one campus in an academic year the campus distinct counts may not add to the overall total.
2. Full load equivalent (FLE) reports a student's 'full-load' activity based on the total number of credits/hours they attend, relative to the number of credits/hours that would normally be assigned a full-time learner over the academic year. The overall FLE represents all activity at Saskatchewan Polytechnic and is inclusive of both students who are enrolled in programs and/or registered in individual courses. FLE is calculated based on a standard divisor of 45 credit units for post-secondary training and 700 hours for secondary training (Basic Education).
3. Saskatchewan Polytechnic, in partnership with the University of Regina, delivers two joint degree programs - the Saskatchewan Collaborative Bachelor of Science in Nursing (SCBScN) bachelor program and the Collaborative Nurse Practitioner (CNPP) masters program. Official student records for the joint programs are managed by the University of Regina. Based on data shared by the U of R, there were 1,313 SCBScN enrolments and 45 CNPP enrolments entered in Saskatchewan Polytechnic's student information system. The BSCN students have been reported as full-time program enrolment; however, the actual attendance status of these students is not known, given the University of Regina manages the detailed enrolment records. In the event of a headcount discrepancy, U of R enrolment numbers are to be used as the official record. Full load equivalent numbers have been provided by the U of R, and are proportionate to the teaching load provided by Saskatchewan Polytechnic faculty.
