

# **TOMORROW** IN THE MAKING

---

**2017 CONVOCATION** REGINA CAMPUS

*Congratulations*

**YOUR TOMORROW  
HAS ARRIVED.**

---

## **PRESIDENT'S MESSAGE**

### **Welcome to the 2017 Saskatchewan Polytechnic Convocation Ceremony.**

It is a pleasure and an honour to recognize this special occasion with all of our graduates, families, friends, faculty and staff.

Since our earliest days as an institution, we have been student-focused. We are committed to providing our graduates with superior training, and the skills necessary to contribute positively to our province and to our country.

The educational programs, applied research and employer relationships which we develop, set us apart from other post-secondary institutions, allowing you, our graduates, to contribute both on the job and in your communities from today forward.

I wish you every success as you embark on the next stage of your journey, and I hope you will maintain your connections with our Alumni Office. I encourage you to join and make your relationship with Sask Polytech lifelong.

Thank you for choosing Sask Polytech. Your education will serve you in ways you cannot imagine.

---

My sincere congratulations!

**Dr. Larry Rosia**  
President and CEO

**MORE UNDERGRADS GRADUATE FROM SASKATCHEWAN POLYTECHNIC** EACH YEAR THAN FROM ANY OTHER POST-SECONDARY INSTITUTE IN THE PROVINCE.

---

## PROVOST'S MESSAGE

Welcome to today's convocation, and congratulations to each and every one of you!

This is a day of celebration, not only for you but also for the faculty and staff of Saskatchewan Polytechnic. We celebrate because we are genuinely proud of what you have accomplished. The hard work, patience and perseverance you demonstrated to reach this important milestone will bring untold benefits, both in your future careers as well as in the community you will live in.

You have overcome many hurdles to get here today. Along the way, you have gained vital skills and abilities that will prepare you to move forward through life. Your time spent studying at Saskatchewan Polytechnic will prove to be invaluable as you embark on the next stage of your career journey.

In closing, I would like to share a short quote by Lao Tzu that I hope you will remember:

*"A journey of a thousand miles begins with a single step."*

You have taken an important step today.

---

I wish you the best,

**Dr. Anne Neufeld**

Provost and Vice-President, Academic

---

## ALUMNI MESSAGE

The road from student to graduate is a unique journey filled with opportunity and accomplishment. Congratulations on achieving this educational milestone and welcome to our dynamic and diverse community of alumni across the province. You are now part of a network that reaches into every corner of Saskatchewan, across our country and around the globe.

We urge you to stay in touch with us, and take advantage of the many alumni benefits and programs we offer. Please visit the Sask Polytech website to find out more about what we can do for you and how you can become involved in the alumni community.

Congratulations on your achievement. Saskatchewan Polytechnic is proud of your success. We hope that lifelong learning is part of your future, and that Saskatchewan Polytechnic is part of that future.

---

Sincerely,

**Pam McLellan**

Director, Donor and Alumni Relations  
Saskatchewan Polytechnic

---

## BOARD OF DIRECTOR'S MESSAGE

On behalf of the Saskatchewan Polytechnic Board of Directors, I want to congratulate you on this important milestone in your life.

After months and, in many cases, years of classes and studies, it may seem that you have finally reached the end of your journey today — and you have. Graduating is an important achievement, and one of great pride. Yet as you complete this important journey, know that you are also beginning another. It is a journey of lifelong learning. It is a journey that will serve you well in all your future endeavours.

Your classes may be over, but this is not the end of your relationship with Saskatchewan Polytechnic. In the future, we look forward to welcoming you again — as Alumni, instructors, employers, mentors, parents, supporters and friends.

---

Congratulations!

**Ralph Boychuk**

Chair, Saskatchewan Polytechnic  
Board of Directors

---

## HONORARY DIPLOMA RECIPIENT

**The Hill Companies were created by entrepreneurs who started out focused on real estate and insurance in 1903.** Today, it is the only real estate business in Canada that has survived a full 100 years. In 1978, **Mr. Paul Hill** was appointed President of The Hill Companies, a position he's held ever since.

One of the first things Mr. Hill oversaw was the acquisition of the local CTV television station, followed by the growth of the Harvard Broadcasting Inc., radio stations 620 CKRM, Lite 92 FM, and 104.9 The WOLF. The company has extended its media holdings to Yorkton, Saskatoon, Calgary, Red Deer, Edmonton and Fort McMurray.

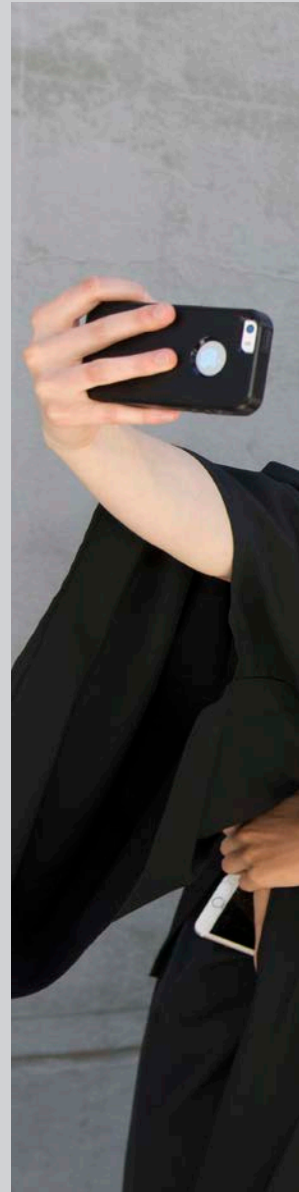

In 1990, The Hill Companies made national news by acquiring the controlling interest in Crown Life and moving it to Regina from Toronto. It brought 1200 jobs to Regina and expanded the GDP of the province by 2 percent, and the city by 10 percent. It's now owned by Canada Life and remains a significant presence in Regina.

Harvard Developments was the first organization in Saskatchewan to operate under private-public partnership to obtain LEED (Leadership in Energy and Environmental Design) Silver Accreditation, on the redeveloped Century Plaza building located in downtown Regina.

Making Regina and Saskatchewan a better place to live is very important to Paul and his wife, Carol. Paul and Carol had the opportunity to visit Mother Theresa in India with other CEOs and their spouses in the 1980's. Many wanted to help her initiatives around the world but, her message to the group was to go back to their own communities, identify the needs and give both of yourself and your resources to help those people. With Mother Theresa's message in mind, new initiatives were formed. In 2006, The One Life Makes a Difference Foundation was created by The Hills. It identifies exceptional students and offers them an educational passport. One student is selected to be given an opportunity to get out of the environment they are in and to attend a school, such as Notre Dame, to obtain a complete educational experience that can take them on to University. These students may be at-risk children in cities or rural Saskatchewan that lack educational opportunities. In 2011, The Mother Theresa Middle School in Regina opened its doors to the public. It was designed to provide families struggling in impoverished neighborhoods with a high-quality school choice for their children. It focuses on providing a holistic approach to education, offers students an extended school day/year and a positive environment to learn and grow. Other education initiatives have included the evolution of the University of Regina's Faculty of Business Administration into the Paul J. Hill School of Business. It is partnered with the Richard Ivey School of Business. The school is implementing the full case-method program used at Ivey and Harvard, and it also includes a student exchange program and a Ph.D. development.

Paul has led the way in education and the lives of youth and adults alike, through service and gifts to many community organizations.

---

## VISION

By 2020, our expertise in responsive applied education and research that meet student and market needs will make us globally recognized as the first-choice polytechnic in Canada.

## VALUES

### RESPECT

We care about one another and about our workplace. We foster an open and inclusive environment that embraces diverse cultures, heritages and opinions; we learn, work and support each other as one team.

### INTEGRITY

We are committed to being accountable and transparent. We are honest with one another. We hold ourselves to high standards of ethical behavior and take responsibility for our actions.

### SUSTAINABILITY

We work, live and learn in a socially and environmentally responsible manner. We support the health, safety and overall well-being of our students, employees and partners. We are conscientious stewards of our resources and continuously look for entrepreneurial and creative ways to strengthen and improve our organization. These considerations underlie all our actions, behaviours and decisions.

### EXCELLENCE

We go above and beyond what is normally expected to achieve excellence in our teaching, in our programming, in our learning and in our services. We accomplish this by maintaining high standards, strong competencies, committed partnerships and by being responsive and accessible.

## ORGANIZATIONAL PROFILE

Saskatchewan Polytechnic serves 28,000 distinct students through applied learning opportunities at campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and through extensive distance education opportunities. Programs serve every economic and public service sector. As a polytechnic, the organization provides the depth of learning appropriate to employer and student need, including certificate, diploma and degree programs, and apprenticeship training. Saskatchewan Polytechnic engages in applied research, drawing on faculty expertise to support innovation by employers, and providing students the opportunity to develop critical thinking skills.

## **ACADEMIC DRESS**

Along with the academic tradition of black gowns, Saskatchewan Polytechnic grads wear v-stoles in the colour selected for each school. Other members of the platform procession wear the gown and v-stole, hood, or in some instances, a hat or mortarboard representing a credential they have received or the Saskatchewan Polytechnic v-stole that represents the school in which they teach.

# 2016-17 HIGHLIGHTS & ACHIEVEMENTS

---

## **SCHOOL OF BUSINESS**

Students in the Office Administration program are given a number of pathways for program completion. Students may be granted exemptions based on prior learning through employment or other post-secondary institutions. Students may complete courses through a combination of full- or part-time studies, in classrooms or online. To increase student success, our full-time program in Prince Albert carried out a pilot project in 2016-2017 that involved weekend tutoring. Students were grateful for the extra help and many reported better academic performance as a result. The program plans to move forward with this initiative in 2017-2018.

## **SCHOOL OF INFORMATION AND COMMUNICATIONS TECHNOLOGY**

Kyla Henry is a second year student in the Graphic Communications program at Regina Campus. Kyla won gold at the Skills Canada Saskatchewan provincial competition in April 2016 and gold and best of region in the Skills Canada national competition in June 2016. Kyla will be competing with Team Canada at the 44th WorldSkills in Abu Dhabi this October. Congrats Kyla!

## **SCHOOL OF NURSING**

2017 has been an exceptionally exciting year for the School of Nursing as we celebrated 50 years of delivering quality nursing education. A number of events were held in the spring to honour the pioneering efforts of our alumni in advancing nursing education, research and scholarly work, as well as to celebrate the achievements of our current students, graduates, faculty and staff.

A Legacy Trust was established to commemorate the School of Nursing's 50th Anniversary. The Trust will fund scholarships

and bursaries for future generations of students enrolled in the School of Nursing programs. Funds raised will ensure nursing students have the financial supports needed to succeed in fulfilling their academic dreams.

## **SCHOOL OF HEALTH SCIENCES**

Congratulations to Susan Thiessen, program head, Veterinary Technology program, on her innovative work in collaborating with Veterinary Simulator Industries to create an Equine Palpation Radiology Limb prototype. The prototype can be attached to the custom VSI Equine Palpation Colic Model. The equine simulator has an x-rayable limb, inflatable GI tract and colon, reproductive organs, injectable veins and muscles and functioning eyes and eyelids to practice administration of eye drops. Sask Polytech is currently the only institution in North America to have this simulator to promote student learning.

## **SCHOOL OF CONSTRUCTION**

This past December several of our Architectural Technologies students and instructors traveled to Thailand to volunteer with Global Neighbors. The Sask Polytech volunteers built various buildings for Burmese refugees. The students fundraised to cover their travel costs as well as Global Neighbors' construction costs. Global Neighbors' model is to build facilities in communities where there is a committed group of residents who can successfully operate needed services such as schools and medical buildings.

Crystal Bueckert, a 2008 graduate of Sask Polytech who started Bldg Studio Inc. in 2010 and now does about 85 projects a year, was featured in Maclean's magazine. Crystal is focused on designing sustainable residential infill homes and small commercial buildings. Congrats Crystal!

---

# FROM OUR SCHOOLS

---

## **SCHOOL OF TRANSPORTATION**

Sask Polytech's Auto Body and Automotive Service Technician programs in Regina and Saskatoon have been partnering with SGI for over 15 years to repair total-loss cars that are not economical to fix in a commercial body shop. Once repaired the vehicles join the SGI fleet. This is the first partnership of its kind and is a win-win situation for all involved. Students are provided with a hands-on learning opportunity to work on damaged vehicles, SGI saves money on fleet vehicles and taxpayers save money as both organizations are collaborating to repair vehicles that would end up in salvage.

## **SCHOOL OF MINING, ENERGY AND MANUFACTURING**

This year several CAD/CAM, Electrical Engineering and Machinist students competed in and won a variety of medals at Skills Canada provincial and national competitions. Our Mechanical Engineering program in collaboration with our CAD/CAM program entered a student-designed and created ultra-fuel-efficient vehicle in the Shell Eco-Marathon Americas competition. Instrumentation program students participated in the International Society of Automation competition in Calgary, which hosts teams from around the world including the United States, Brazil and India.

## **SCHOOL OF NATURAL RESOURCES AND BUILT ENVIRONMENT**

Sask Polytech's Natural Resources faculty and staff received a team award at the first annual Science, Technology, Innovation and Collaboration (STIC) Awards ceremony hosted by Saskatoon Regional Economic Development Authority (SREDA). The Sask Polytech and Saskatchewan Wildlife Federation partnership behind Hannin Creek

won a silver medal in the international IPN-Global Best competition. The facility provides users with exceptional opportunities to learn more about themselves and the world around them. Numerous students from the BioScience Technology program were awarded Applied Research Student Project scholarships and the Sask Polytech Innovation Award was given to a Chemical Technology student.

## **SCHOOL OF HOSPITALITY AND TOURISM**

At this year's winter camp, Recreation and Community Development students volunteered with the Canadian Challenge Sled Dog Race, a 12 dog continuous mid-distance race. The race follows a route similar to that of the old sled dog trail used for years by trappers, the North-West Mounted Police and First Nations communities to travel between Prince Albert and La Ronge. The total distance of the race is approximately 600 kilometers.

## **SCHOOL OF HUMAN SERVICES AND COMMUNITY SAFETY**

Several students in the Regina campus Adult 12 program who are working toward high school completion have earned three dual credits with Early Childhood Education (ECE). Dual credits allow students the opportunity to earn post-secondary credits while they also earn high school credits. This is the first dual credit collaboration between ECE and Adult 12 at Sask Polytech.
