Notes:

- Given a student can be enrolled in more than one level of training in an academic year, the number of distinct students enrolled in programs overall may be less than the sum of the program headcount enrolment totals.
- Full load equivalent (FLE) reports a student's 'full-load' activity based on the total number of credits/hours they attend, relative to the number of credits/hours that would normally be assigned a full-time learner over the academic year. The overall FLE represents all activity at SIAST and is inclusive of both students who are enrolled in programs and/or registered in individual courses. FLE is calculated based on a standard divisor of 45 credit units for post-secondary training and 700 hours for secondary training (Basic Education).
- Detailed student records for the Saskatchewan Collaborative Bachelor of Science in Nursing (SCBScN) program are managed by the University of Regina. FLE for the U of R funding model is not calculated until January of each year. There were 988 headcount enrolments in 2013-14. The SCBScN students have been included in the full-time attendance category for program headcount enrolment; however, the actual attendance status of these students is not known, given the University of Regina manages the enrolment records.
