

Graduate Employment Survey 2014-15 Graduates

Key Indicators

Data collection took place between December 2015 and April 2016

2,287 graduates responded to the survey out of a valid sample of 3,698

Response rate = 62%

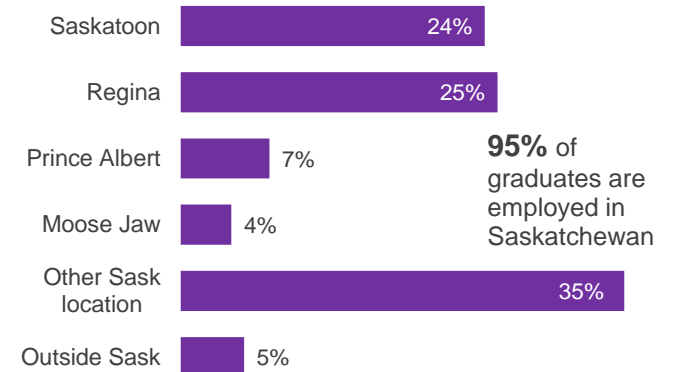

Highlights

96% of graduates are satisfied with the overall quality of training they received

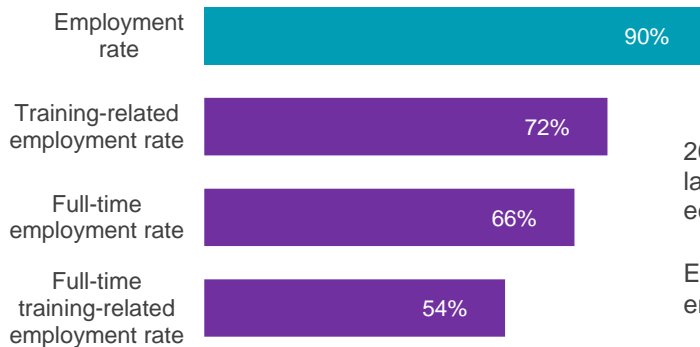

91% of graduates believe that their training prepared them for employment in their field

Location of Training-Related Employment

Employment Rates

2014-15 graduates entered the labour market during a time of slow economic growth

Even so, **90%** of graduates found employment

**Average Annual Salary
Full-Time Training-Related
Employment**

\$46,404

See pages 2 to 18 for detailed data and additional information about the survey

Graduate Employment Survey: 2014-15 Graduates - Key Indicators

Glossary

This glossary includes terms related to the Graduate Employment Survey and this report. For a more comprehensive glossary of Saskatchewan Polytechnic terminology, visit <http://saskpolytech.ca/about/about-us/glossary.aspx>.

Available Workforce: The number of employed graduates plus the number of graduates who are not employed but looking for work (excludes those who are pursuing further education as full-time students).

Base Programs: Base programs are administered by program heads and delivered on a regular basis, usually at a Saskatchewan Polytechnic campus. They may be contracted, core funded, or revenue generating.

Continuing Education Programs: Continuing education programs are credit programs administered by continuing education consultants, and are often delivered off-campus. They are generally revenue generating (including contracted, sponsored, etc.).

Employment Rate: The number of employed graduates expressed as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

Equity Status: As defined in the Employment Equity Act of Canada and the Federal Contractor's Program on the basis of census data, Saskatchewan Polytechnic designates women, persons with disabilities, members of visible minorities and Indigenous persons as having equity status. Individuals with equity status must self-declare in order for Saskatchewan Polytechnic to collect, act on and report this information.

Full-Time Employment Rate: The number of graduates employed full-time as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

Full-Time Training-Related Employment Rate: The number of graduates employed full-time in a position directly related to training, expressed as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

School: An administrative unit comprised of similar academic programs.

Schools Model: The schools model is a way to organize full-credit academic programs. For more information about Saskatchewan Polytechnic's school model, visit <http://saskpolytech.ca/about/about-us/schools-model.aspx>.

Training-Related Employment Rate: The number of graduates employed in a position directly related to training, expressed as a percentage of the available workforce. The rate for a particular group (e.g., graduates of a school, Indigenous graduates) is the number employed in that group expressed as a percentage of the available workforce for that group.

Graduate Employment Survey: 2014-15 Graduates - Key Indicators

General Survey Information

Invitations to participate in the Graduate Employment Survey were sent to 3,698 graduates who completed a Saskatchewan Polytechnic program between July 1, 2014 and June 30, 2015. Data collection took place between December 2015 and April 2016. In total, 2,287 graduates responded to the survey for a response rate of 62%. Further details are available in the report entitled *Graduate Employment Report of 2014-15 Graduates*, which is available at <http://saskpolytech.ca/about/about-us/reports-and-statistics/institutional-reports.aspx>.

Endnotes

1. Average monthly salary of graduates with full-time training-related employment. The method used to convert hourly wages to monthly salaries has been revised. Therefore, salaries reported here for 2013-14 differ from those previously published for the 2013-14 academic year.
