## **It's a 'green' thumbs up for SIAS!**

*Students, staff raise funds to spruce up environment at SIAS Kelsey*

**May 12, 2008** – SIAS Chemical Technology and Biotechnology students are taking the next step in greening up the environment. What started as a discussion in their Environment, Ethics and Society course will turn into a reality tomorrow as they gather to plant trees in the front area of SIAS Kelsey Campus.

With support of SIAS Kelsey's newly formed Green Group, along with faculty, staff and students, they have raised more than \$1,000 to purchase the trees. This year, seven trees ranging in height from seven to 12 feet will be planted in the lawn of SIAS Kelsey Campus.

**Event: SIAS Kelsey Campus Tree Planting**

**Place: SIAS Kelsey Campus front lawn**

**Date: Tuesday, May 13, 2008**

**Time: 9:30 am tree planting**
