## **Girls GETT hands-on training at SIAST**

*Prince Albert students race to learn about trades and technology careers*

**July 12, 2007** – Earlier this week, 10 Grade 7 and 8 students from local schools started a week-long camp at SIAST Woodland Campus. The Girls Exploring Trades and Technology (GETT) camp introduces girls to industrial and technical career choices. It also reinforces the importance of course choices such as science, math and industrial arts at the high school level. The camp is one of several being held across SIAST campuses this summer.

At the end of the GETT camp, students will have a picnic and a fun competition in which they'll race go-karts that they designed and built during the camp. Immediately following the race, participants are recognized for their achievements at a short awards ceremony.

Media are encouraged to attend the go-cart race.

**Date: Friday, July 13**

**Time: 12:00 p.m.**

**Location: SIAST Woodland Campus  
Carpentry compound on the north side  
of the Technical Centre**
