APPLIED SCIENCE AND TECHNOLOGY

## ***MEDIA ADVISORY***

**FOR IMMEDIATE RELEASE**

# **SIAS hosts info fairs at all campuses**

*Events profile programs with seats available this fall*

**Wednesday, May 5, 2010** – Prospective students will learn why SIAS programs offer a solid return on investment at upcoming information fairs.

During May, SIAS is hosting info fairs at all four campuses, covering topics that include student life, student services, range of programs and the careers available for graduates. Program heads, instructors, current students and past graduates will be available to answer questions and give tours.

SIAS currently has seats available in a variety of programs with start dates as early as this fall. Programs touching every sector of the industry are available with openings in Business, Community/Human Services, Engineering Technology, Health Services, Hospitality/Food Services, Industrial/Trades, Natural Resources, Science and Technology.

“Many SIAS programs still have some seats available for the fall,” says Bill Blok, SIAS’s coordinator of student recruitment. “With a high grad employment rate, hands-on learning, small class sizes and short programs, SIAS is a great choice.”

SIAST is Saskatchewan's primary public institution for post-secondary technical education and skills training, recognized nationally and internationally for its expertise and innovation. More than 14,000 students were enrolled in SIAST programs in the most recent academic year; additionally, the organization drew almost 30,000 individual course registrations. Through program and course registrations, SIAST served almost 26,000 distinct students with programs that touch every sector of the economy. SIAST operates campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and provides a number of courses and programs through distance education.
