Girls GETT hands-on training at Woodland camp

Prince Albert students race to learn about trades and technology careers

July 13, 2006 – Earlier this week, ten Grade 7 and 8 students from local schools started a week-long camp at SIAST Woodland Campus. The Girls Exploring Trades and Technology (GETT) camp introduces girls to industrial and technical career choices. It also reinforces the importance of course choices such as science, math and industrial arts at the high school level.

GETT campers learn about carpentry, plumbing, and computer design software, as they create their own go-carts. As a wrap-up the girls will have some fun testing their projects in a race. Awards will be presented following the race.

Media are encouraged to attend the go-cart race.

Event: GETT camp race and picnic
Date: Friday, July 14
Place: SIAST Woodland Campus, Technical Centre – carpentry shop
Time: 12:00 p.m.
