Sask Polytech connects students with employers

50 employers attend Regina campus career fair

February 5, 2015 - Saskatchewan Polytechnic is hosting its annual career fair in Regina today. Students from the Schools of Academic and Career Education; Business; Construction; Health Sciences; Human Services and Community Safety; Information and Communications Technology; Mining, Energy and Manufacturing; Nursing; and Transportation will have the opportunity to explore employment options with recruiting companies.

Career Fair 2015, presented by PotashCorp, was organized by the Regina campus Student Employment Services (SES) office. An SES office at each of Saskatchewan Polytechnic's four campuses provides career information and job search and recruitment services to students and employers.

"Our career fair is a chance for employers from across Western Canada to showcase what they have to offer students," says Sandra Szeponski, employment services coordinator, Saskatchewan Polytechnic Regina Campus. "The networking opportunity for both parties is invaluable."

While more than 2,500 students at the Regina campus are expected to explore their employment options at the career fair, many students won't complete their training until April of this year.

Saskatchewan Polytechnic serves 26,000 distinct students through applied learning opportunities at campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and through extensive distance education opportunities. Programs serve every economic and public service sector. As a polytechnic, the organization provides the depth of learning appropriate to employer and student need, including certificate, diploma and degree programs, and apprenticeship training. Saskatchewan Polytechnic engages in applied research, drawing on faculty expertise to support innovation by employers, and providing students the opportunity to develop critical thinking skills.
