Polytechnic

- Value (lower debt)
- Job opportunities
University is thought of as having a “higher prestige” type of education leading to better jobs…
Many Saskatchewan Polytechnic graduates go onto excellent positions in their field, often earning equal or even surpassing University trained counterparts ...
If I don’t make it through University I can still go to Sask Polytech…
Many students come to us with post secondary experience or even a degree, and have stated that Sask Poly programs are much harder than the courses they took at university…

The average age of our graduates is 28
Sask Polytech only offers Trades training and Nursing...
WHY SASK POLYTECH?

Our grads get jobs
Our focus on hands-on learning earns us top marks with employers and develops marketable skills that prepare you to contribute from day one on the job.

Work-integrated learning + Applied research opportunities + Close ties with business and industry = 92% employment rate within six months of graduation
Today’s students are:

• Portable
• Flexible learning options
• Engaged
• Future skills
• Job opportunities…
Sask Polytech leverages:

- Connection to industry and the economy
- Diversity of programming and learning options.
- Transfer Credit options for future enhancement
- Engaged programming
Learn by doing

75% of our programs offer a work-integrated learning

- Field investigations
- Machinery time
- Practicums
- Clinical placements
- Outdoor camps
- Equipment time
- Labs
- Co-op work terms
95% of Graduates are satisfied by the overall quality of their educational experience, greater than both universities…

97% of employers said they’d hire a Sask Polytech grad again.
Application Fee Changes
Effective July 01, 2019

• Online Domestic Applications increase to $75.00 from $50.00
• Paper Domestic Applications increase to $100.00 from $75.00
• International Document Assessment fee for Domestic Applications decreases to $75.00 from $100.00
• Seat deposits increase to $600.00 from $500.00
• International Applications remain the same at $150.00
• SCBScN one time application fee remains the same at $100
Preliminary statement of high school standing form eliminated, current HS students still must submit this information through one of the following options:

• student profile of registrations (enrolment verification, course schedule)
  **this must originate from the school**

• Ministry of Education transcripts (paper or electronic)

• An email from secondary/post-secondary staff supplying required information for conditional admission, that must clearly originate with the school and contains a full signature block (i.e., name, position, school)
Applicants will submit only one application each year and indicate one location of site preference.

Applicants are accepted on the basis of their competitive admission average and the number of seats available at each location.

If applicants become waitlisted at their location of choice, and a seat becomes available to the applicant at a different location than the one that was chosen, the applicant will be contacted and offered that as an alternative site. The applicant will have the option to accept the seat at the alternate site, or decline it and remain on the waitlist at their location of choice.

The site options for this year are Regina, Saskatoon, and North Battleford; not admitting to Swift Current this year.
Power Engineering Technology

• the program will no longer be **High Demand** and will return to **FQFA** status for the 2020-2021 intake.

**High Demand Programs for 2020/2021 intake:**

- Dental Hygiene
- Medical Radiologic Technology
