WHO DO YOU WANT TO BE?

Polytechnics offer high-quality, job-focused education.

Real Education + **Real Careers** = **Real Success**

Saskatchewan Polytechnic is a member of Polytechnics Canada, an alliance of 13 research-intensive, industry-responsive post-secondary institutions.

Learn by doing with hands-on learning opportunities through labs, clinicals, field investigations, outdoor camps, machinery time, workplace practicums and/or co-op work terms. We partner with business, industry and the community on **applied research** projects.

There's a reason why Sask Polytech has a consistently **high graduate employment rate**, and why we score top marks with employers. **Our focus on applied learning develops marketable skills that prepare you to contribute from day one on the job.**

**Our campuses are located on Treaty 4 and Treaty 6 Territories and the homeland of the Métis.**

No matter where you join us, you'll have a great experience.

All four campuses offer a wide selection of programs and courses along with a few specialized focus areas.

Moose Jaw

State-of-the-art lab facilities for six engineering technology programs and home to many of our business programs. **saskpolytech.ca/whyMooseJaw**
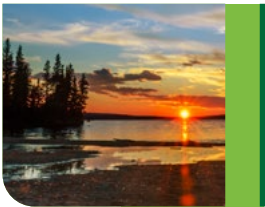

Prince Albert

Well-situated natural resource programs and a high-fidelity simulation centre for nursing and continuing care assistant training. **saskpolytech.ca/whyPrinceAlbert**

Regina

Industry-driven programs in technology, human services and health care; the applied research Innovative Manufacturing Centre (IMC); as well as 10 shops for industrial trades training. **saskpolytech.ca/whyRegina**

Saskatoon

High-tech lab facilities including a nursing and health sciences simulation centre, along with applied research centres: Innovative Manufacturing Centre (IMC), Digital Integration Centre of Excellence (DICE), BioScience Applied Research Centre (BARC) and Sustainability-Led Integrated Centres of Excellence (SLICE). **saskpolytech.ca/whySaskatoon**

WHERE ARE YOU IN YOUR LEARNING JOURNEY?

1

Prepare for success

Sask Polytech can help you take those first steps if you need help getting back to the classroom or into the workforce.

Adult literacy/learning centres
Individualized assistance with reading, writing, math, computer and job search skills. **saskpolytech.ca/LAE**

Secondary school completion/upgrading
High school equivalency; upgrading or additional courses required for admission; CAEC (Canadian Adult Education Credential) preparation. **saskpolytech.ca/upgrading**

Employment readiness
Job readiness training through in-class and on-the-job programming, including specific training for adults with disabilities and individuals of Indigenous ancestry. **saskpolytech.ca/employmentreadiness**

English language training
Language training for newcomers. **saskpolytech.ca/englishlanguagetraining**

2

Ready to go!

With 150+ programs to choose from, you can earn a degree, diploma, certificate or apprenticeship training that will lead to a rewarding career in a wide variety of sectors. Many of our programs let you put your credential toward a professional designation, advanced professional standing or university degree.

For a full listing of programs, visit **saskpolytech.ca/programs**.

Need help choosing your direction? See page 6.

3

Keep on learning

Reskill, upskill or reshape how education works for you with flexible, customized learning through Sask Polytech's Centre for Continuing Education. **saskpolytech.ca/CE**

Continuing Education offers 750+ courses, part-time programs, fast-track training and Surge micro-credentials to accelerate your skills in specific areas.

"**My biggest concern was the fact that high school was 20 years ago but the staff has been super supportive and my fellow classmates have been great ... I should have done this years ago.**"

Matthew Pinter, Engineering Design and Drafting Technology diploma program

Pick your career direction
Who you are will take you far

Getting to know yourself is one key aspect of selecting a career that could be a good fit for you.

STEP 1: Select the three themes that describe you the most:

Theme #1: Realistic (Doer)

- I would describe myself as reliable, hands-on and practical.
- At work I may enjoy fixing things, seeing the visible results of my efforts and moving around.
- Common sense, tradition and dependability are important to me.

Theme #2: Investigative (Thinker)

- I would describe myself as logical, curious and systematic.
- At work I may enjoy researching, using my mind to solve complex problems and being independent.
- Knowledge, intelligence and independence are important to me.

Theme #3: Artistic (Creator)

- I would describe myself as imaginative, creative and sensitive.
- At work I may enjoy coming up with new ideas, working independently and designing things.
- Expressing myself creatively, understanding emotions and seeing beauty in the world are important to me.

Theme #4: Social (Helper)

- I would describe myself as helpful, kind and understanding.
- At work I may enjoy counselling, teaching and meeting the needs of others.
- Relationships, cooperation and communication are important to me.

Theme #5: Enterprising (Persuader)

- I would describe myself as competitive, assertive and determined.
- At work I may enjoy discussing business, managing people/projects and taking a leadership role.
- Having authority, making a profit and risk taking are important to me.

Theme #6: Conventional (Organizer)

- I would describe myself as organized, careful and accurate.
- At work I may enjoy collecting and organizing data, managing an office and writing business reports.
- Dependability, order and predictability are important to me.

STEP 2: Use the icons from step 1 to identify programs on the following pages which lead to careers that draw upon your chosen themes (icons are arranged left to right, most dominant to least dominant). Visit our website for detailed program information.

STEP 3: **Need more help?** Sask Polytech Career Counselling offers:

- Free, career planning webinars and workshops
- Online career planning tools
- Zoom, phone or in-person appointments with a career counsellor

Study abroad

Do you love to travel and learn about people and cultures? Studying abroad is one of the richest learning environments available to you. Choose one of 35 programs with opportunities for student exchanges with partner institutions. Funding to cover part of the travel is available.

saskpolytech.ca/studyabroad

Attend with a study visa

Students from more than 50 countries study at Sask Polytech. Choose one of 65+ programs available to international students.

saskpolytech.ca/international/programs

LET'S MAKE IT HAPPEN.

Apply

The majority of programs at Sask Polytech use the First Qualified First Admitted (FQFA) application process. The sooner you apply with all the necessary documentation, the sooner you can qualify for admission to a program.

A small number of Sask Polytech's highest-demand programs use the competitive application process.

Learn more about admission processes:

Visit our online application guide for full details:
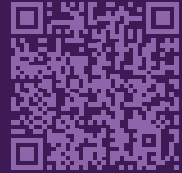

Use this checklist to complete your application:

Check the Sask Polytech website for full program details, start dates and updated info.

Determine whether you meet admission requirements.

Complete any necessary academic upgrading.

Apply at **saskpolytech.ca/ applynow**

Double-check your application and ensure that you submit all required documentation.

International students

Complete the international application form by clicking "apply now" at saskpolytech.ca/international/apply.

For help completing this form, visit saskpolytech.ca/international/application-guide.

Questions? international@saskpolytech.ca

saskpolytech.ca/international

Get credit for what you know

If you have life experience, previous post-secondary education or took dual credit courses in high school, you may be eligible for credit towards your Sask Polytech program.

saskpolytech.ca/getcredit

Apprenticeship and co-op
Earn while you learn

Apprenticeship and Co-operative Education give you beyond-the-classroom learning opportunities that also allow you to earn while you learn.

> **"I appreciate the work term opportunities between semesters to allow me to save up for the next semester."**
>
> **Franky Amyotte Boorman,**
> **Environmental Engineering Technology diploma program**

Apprenticeship

Apprenticeship training is a multi-year earning while learning arrangement. Apprentices already have jobs in their field of work and have signed a contract of apprenticeship with their employer and the Saskatchewan Apprenticeship and Trade Certification Commission (SATCC). Under the supervision of a certified journeyperson, an apprentice receives knowledge and develops skills through on-the-job training.

Apprentices undertake a required number of weeks of in-school technical training each year. Upon successfully completing an apprenticeship program, apprentices are eligible to write an examination to become a certified journeyperson in their trade. Sask Polytech is contracted by the SATCC to provide the in-school portion of apprenticeship training for over 20 trades.

To learn more, including information about training start dates, contact the SATCC at 1-877-363-0536 or visit their website.

saskapprenticeship.ca

Co-operative education

Sask Polytech currently offers a co-op education component in 15 diploma programs. Depending on your program, you may be placed on work terms varying in total length from 4 to 12 months. Co-op work terms are an excellent opportunity to gain professional experience, network and advance your career.

saskpolytech.ca/co-op

Finance your education

Money matters

Our short, career-focused programs mean you'll be earning, rather than spending, sooner.

Tuition, fees and expenses

Application fees are due with your application. Tuition and other assessed fees are due at the time of your registration. Learn more at **saskpolytech.ca/tuition**.

> **Need help financing your education? You've got options.**

Financial assistance

Student loans, bursaries, grants, budgeting tools and more will help you bridge the gap if you need help financing your education.

Student awards

Sask Polytech offers student awards for almost every program at every campus—and not all of them are based on marks. Once you've been accepted as a student, you can apply online for awards and scholarship opportunities available throughout the year.

> **"I am so thankful for the support I received through the Saskatchewan Innovation and Opportunity Scholarship program. As a woman aiming to build a career in the trades, this award motivates me to work harder towards my goals in the automotive industry. This financial award has been a beacon of hope and encouragement and I am immensely grateful for the opportunity it has provided me."**
>
> **Zoe Neiser, Automotive Service Technician certificate program**

Student services
Come for the experience

There's more to your education than what takes place in the classroom. Sask Polytech's services, supports and events make student life a big part of what shapes your time here.

Community
Whether you're new to post-secondary education, your campus city or the province, you'll find people, places and supports at Sask Polytech to make you feel welcome and safe.

Day-to-day
Housing, childcare, parking and transit, food services, student lounges, campus stores—we've got what you need on the daily.

Learning
Getting help with learning is key to your success in the classroom. Academic and accessibility supports and services can help you transition and grow as you progress through your program.

Wellness
Mental and physical well-being are critical to your learning success. Counselling, health services, and fitness and recreation opportunities ensure you are in top form for learning.

Career
Employment and career success is your end goal, and ours. We offer services, supports and opportunities to connect with employers from day one.

saskpolytech.ca/student-services

"**Learning Services has done an amazing job of helping me get through difficult assignments. Sask Polytech has very supportive staff.**"

Jennifer Starblanket, Continuing Care Assistant certificate program

Sask Polytech values diversity and inclusion in all its forms.

Indigenous services

We work hard to ensure everyone has an equal opportunity to succeed.

From program exploration and the application process through graduation, Indigenous student advisors will help you navigate the journey and orient you to Sask Polytech and the community.
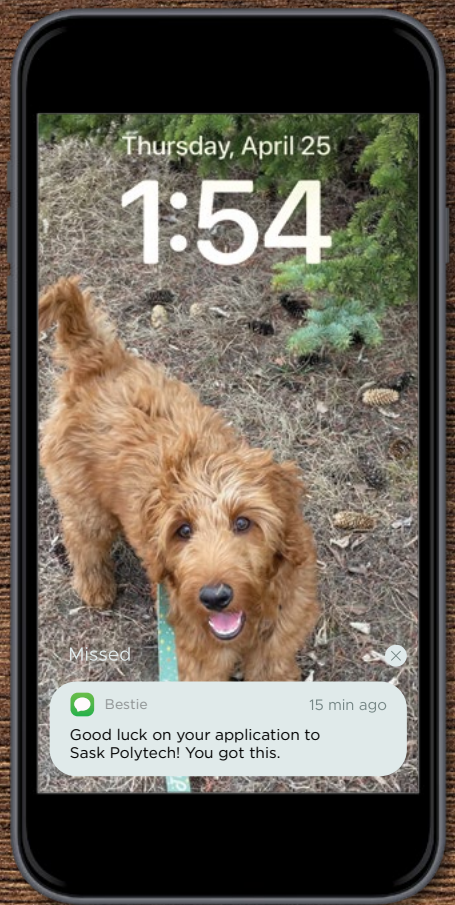

Indigenous Students' Centres on each campus offer a safe space to connect with Elders, Knowledge Keepers and cultural advisors who can provide academic, emotional and spiritual support. Each centre hosts a variety of cultural activities and events, and provides services and a quiet space to study.

Indigenous students are an important part of Sask Polytech's community. Our student population includes Indigenous students from across Canada.

Things to do:

- ✓ Browse through 150+ programs
- ✓ Try the Program Explorer tool
- ✓ Sign up for a one-on-one advising session
- ✓ Connect with a student recruitment advisor
- ✓ Attend an Open House event
- ✓ Join a campus tour
- ✓ Sign up for our e-newsletter at saskpolytech.ca/stayconnected
- ✓ Check out career counselling services at saskpolytech.ca/careercounselling
