Though your classes may now be successfully concluded, we hope Sask Polytech will continue to be a relevant part of your life story for many years to come. We see our relationship not at a close, but just beginning. Your future successes will be meaningful to us, and we will look forward to all of our next encounters with you—as alumni, instructors, employers, mentors, parents, supporters and friends.

HONORARY DIPLOMA RECIPIENT

Lorne Wright began a career in the family business in 1981, working in the field on construction projects. Although a new graduate from the University of Saskatchewan's College of Commerce, he soon recognized the need for a more practical side to his education and enrolled in the local carpentry apprentice program. He continued to work at various aspects in his role on site, eventually working up to a supervisory role, while completing his Apprenticeship with Saskatchewan Polytechnic (at that time known as SIAST).

Shortly after earning Journeyman Carpenter status in 1985, Lorne took the hands-on field knowledge he had acquired into the office. Guided by his late father, Cliff Wright, Lorne quickly developed the skills essential to leading a successful construction company. Through estimating, project management, and all aspects of general contracting; the combination of business and carpentry education proved to be a complimentary formula for Lorne's career goals.

Lorne has enjoyed engaging with his peers in many industry associations, including the local and provincial General Contractors Associations and the Saskatoon Construction Association. Wright Construction currently employees more than 200 individuals and proudly completes construction projects for its clients across all of the prairie provinces.
